Κλαιν ΚΔαλνησα

#	Article	IF	CITATIONS
1	Exploring the Equity Impact of Current Digital Health Design Practices: Protocol for a Scoping Review. JMIR Research Protocols, 2022, 11, e34013.	0.5	5
2	Usability and acceptability of a multimodal respiratory rate and pulse oximeter device in case management of children with symptoms of pneumonia: A crossâ€sectional study in Ethiopia. Acta Paediatrica, International Journal of Paediatrics, 2021, 110, 1620-1632.	0.7	10
3	A qualitative study of the perspectives of health workers and policy makers on external support provided to low-level private health facilities in a Ugandan rural district, in management of childhood infections. Global Health Action, 2021, 14, 1961398.	0.7	1
4	Appropriateness of Care for Common Childhood Infections at Low-Level Private Health Facilities in a Rural District in Western Uganda. International Journal of Environmental Research and Public Health, 2021, 18, 7742.	1.2	2
5	Performance of five pulse oximeters to detect hypoxaemia as an indicator of severe illness in children under five by frontline health workers in low resource settings – A prospective, multicentre, single-blinded, trial in Cambodia, Ethiopia, South Sudan, and Uganda. EClinicalMedicine, 2021, 38, 101040.	3.2	16
6	Capacity to provide care for common childhood infections at low-level private health facilities in Western, Uganda. PLoS ONE, 2021, 16, e0257851.	1.1	1
7	A Qualitative Exploration of the Referral Process of Children with Common Infections from Private Low-Level Health Facilities in Western Uganda. Children, 2021, 8, 996.	0.6	Ο
8	Usability and acceptability of an automated respiratory rate counter to assess children for symptoms of pneumonia: A crossâ€sectional studyÂin Ethiopia. Acta Paediatrica, International Journal of Paediatrics, 2020, 109, 1196-1206.	0.7	8
9	Usability and acceptability of an automated respiratory rate counter to assess childhood pneumonia in Nepal. Acta Paediatrica, International Journal of Paediatrics, 2020, 109, 1207-1220.	0.7	8
10	â€ĩ also take part in caring for the sick child': a qualitative study on fathers' roles and responsibilities in seeking care for children in Southwest Ethiopia. BMJ Open, 2020, 10, e038932.	0.8	7
11	One-arm safety intervention study on community case management of chest indrawing pneumonia in children in Nigeria – a study protocol. Global Health Action, 2020, 13, 1775368.	0.7	1
12	District Health Teams' Readiness to Institutionalize Integrated Community Case Management in the Uganda Local Health Systems: A Repeated Qualitative Study. Global Health, Science and Practice, 2020, 8, 190-204.	0.6	8
13	Automated Respiratory Rate Counter to Assess Children for Symptoms of Pneumonia: Protocol for Cross-Sectional Usability and Acceptability Studies in Ethiopia and Nepal. JMIR Research Protocols, 2020, 9, e14405.	0.5	8
14	Determining the Agreement Between an Automated Respiratory Rate Counter and a Reference Standard for Detecting Symptoms of Pneumonia in Children: Protocol for a Cross-Sectional Study in Ethiopia. JMIR Research Protocols, 2020, 9, e16531.	0.5	9
15	Does Chest Attachment of an Automated Respiratory Rate Monitor Influence the Actual Respiratory Rate in Children Under Five?. American Journal of Tropical Medicine and Hygiene, 2020, 102, 20-27.	0.6	4
16	Setting global research priorities for private sector child health service delivery: Results from a CHNRI exercise. Journal of Global Health, 2020, 10, 021201.	1.2	2
17	Performance of Four Respiratory Rate Counters to Support Community Health Workers to Detect the Symptoms of Pneumonia in Children in Low Resource Settings: A Prospective, Multicentre, Hospital-Based, Single-Blinded, Comparative Trial. EClinicalMedicine, 2019, 12, 20-30.	3.2	21
18	Barriers on the pathway to survival for children dying from treatable illnesses in Inhambane province, Mozambique. Journal of Global Health, 2019, 9, 010809.	1.2	11

Karin KÃ**¤**lander

#	Article	IF	CITATIONS
19	CA-MRSA and HA-MRSA coexist in community and hospital settings in Uganda. Antimicrobial Resistance and Infection Control, 2019, 8, 94.	1.5	51
20	More work needs to be done to ensure that better pneumonia diagnostics aids are developed and launched to better support frontline health workers–A response to "Are respiratory rate counters really so bad―by Ansermino etÂal EClinicalMedicine, 2019, 16, 15.	3.2	0
21	Nasopharyngeal carriage, spa types and antibiotic susceptibility profiles of Staphylococcus aureus from healthy children less than 5 years in Eastern Uganda. BMC Infectious Diseases, 2019, 19, 1023.	1.3	15
22	Variation in the quality and out-of-pocket cost of treatment for childhood malaria, diarrhoea, and pneumonia: Community and facility based care in rural Uganda. PLoS ONE, 2018, 13, e0200543.	1.1	17
23	Digital Technologies for Health Workforce Development in Low- and Middle-Income Countries: A Scoping Review. Global Health, Science and Practice, 2018, 6, S41-S48.	0.6	74
24	Universal versus conditional day 3 follow-up for children with non-severe unclassified fever at the community level in Ethiopia: A cluster-randomised non-inferiority trial. PLoS Medicine, 2018, 15, e1002553.	3.9	7
25	Performance, Acceptability, and Usability of Respiratory Rate Timers and Pulse Oximeters When Used by Frontline Health Workers to Detect Symptoms of Pneumonia in Sub-Saharan Africa and Southeast Asia: Protocol for a Two-Phase, Multisite, Mixed-Methods Trial. JMIR Research Protocols, 2018, 7, e10191.	0.5	10
26	Universal Versus Conditional Third Day Follow-Up Visit for Children With Nonsevere Unclassified Fever at the Community Level in Ethiopia: Protocol for a Cluster Randomized Noninferiority Trial. JMIR Research Protocols, 2018, 7, e99.	0.5	4
27	Management and Follow-up Practices of Children with Unclassified Fever in Rural Ethiopia: Experiences of Health Extension Workers and Caregivers. American Journal of Tropical Medicine and Hygiene, 2018, 99, 1255-1261.	0.6	2
28	The case for verbal autopsy in health systems strengthening. The Lancet Global Health, 2017, 5, e20-e21.	2.9	28
29	Childhood pneumonia diagnostics: community health workers' and national stakeholders' differing perspectives of new and existing aids. Global Health Action, 2017, 10, 1290340.	0.7	23
30	Integrated community case management in a peri-urban setting: a qualitative evaluation in Wakiso District, Uganda. BMC Health Services Research, 2017, 17, 785.	0.9	9
31	Assessing the Quality of Care for Pneumonia in Integrated Community Case Management: A Cross-Sectional Mixed Methods Study. PLoS ONE, 2016, 11, e0152204.	1.1	18
32	Pneumococcal Carriage in Children under Five Years in Uganda-Will Present Pneumococcal Conjugate Vaccines Be Appropriate?. PLoS ONE, 2016, 11, e0166018.	1.1	23
33	Rational use of antibiotics by community health workers and caregivers for children with suspected pneumonia in Zambia: a cross-sectional mixed methods study. BMC Public Health, 2016, 16, 897.	1.2	31
34	Valuing the work of unpaid community health workers and exploring the incentives to volunteering in rural Africa. Health Policy and Planning, 2016, 31, 205-216.	1.0	59
35	Early identification and treatment of pneumonia: a call to action. The Lancet Clobal Health, 2016, 4, e12-e13.	2.9	35
36	High prevalence of antibiotic resistance in nasopharyngeal bacterial isolates from healthy children in rural Uganda: A cross-sectional study. Upsala Journal of Medical Sciences, 2015, 120, 249-256.	0.4	27

Karin KÃ**¤**lander

#	Article	IF	CITATIONS
37	Effect of the Uganda Newborn Study on care-seeking and care practices: a cluster-randomised controlled trial. Global Health Action, 2015, 8, 24584.	0.7	74
38	Impact of an integrated community case management programme on uptake of appropriate diarrhoea and pneumonia treatments in Uganda: A propensity score matching and equity analysis study. International Journal for Equity in Health, 2015, 14, 74.	1.5	10
39	Evaluating the effect of innovative motivation and supervision approaches on community health worker performance and retention in Uganda and Mozambique: study protocol for a randomised controlled trial. Trials, 2015, 16, 157.	0.7	30
40	The use of counting beads to improve the classification of fast breathing in low-resource settings: a multi-country review. Health Policy and Planning, 2015, 30, 696-704.	1.0	17
41	Using theory and formative research to design interventions to improve community health worker motivation, retention and performance in Mozambique and Uganda. Human Resources for Health, 2015, 13, 25.	1.1	56
42	Estimating the cost of referral and willingness to pay for referral to higher-level health facilities: a case series study from an integrated community case management programme in Uganda. BMC Health Services Research, 2015, 15, 347.	0.9	29
43	Potential Roles of Mhealth for Community Health Workers: Formative Research With End Users in Uganda and Mozambique. JMIR MHealth and UHealth, 2015, 3, e76.	1.8	40
44	Universal access to pneumonia prevention and care: a call for action. Lancet Respiratory Medicine,the, 2014, 2, 950-952.	5.2	14
45	Supervising community health workers in low-income countries – a review of impact and implementation issues. Global Health Action, 2014, 7, 24085.	0.7	157
46	Setting global research priorities for integrated community case management (iCCM): Results from a CHNRI (Child Health and Nutrition Research Initiative) exercise. Journal of Global Health, 2014, 4, 020413.	1.2	35
47	High effective coverage of vector control interventions in children after achieving low malaria transmission in Zanzibar, Tanzania. Malaria Journal, 2013, 12, 38.	0.8	9
48	Perceived Quality of Care for Common Childhood Illnesses: Facility versus Community Based Providers in Uganda. PLoS ONE, 2013, 8, e79943.	1.1	10
49	Mobile Health (mHealth) Approaches and Lessons for Increased Performance and Retention of Community Health Workers in Low- and Middle-Income Countries: A Review. Journal of Medical Internet Research, 2013, 15, e17.	2.1	493
50	Community Acceptability and Adoption of Integrated Community Case Management in Uganda. American Journal of Tropical Medicine and Hygiene, 2012, 87, 97-104.	0.6	33
51	Interventions to Improve Motivation and Retention of Community Health Workers Delivering Integrated Community Case Management (iCCM): Stakeholder Perceptions and Priorities. American Journal of Tropical Medicine and Hygiene, 2012, 87, 111-119.	0.6	113
52	Introduction of Newborn Care within Integrated Community Case Management in Uganda. American Journal of Tropical Medicine and Hygiene, 2012, 87, 46-53.	0.6	23
53	Integrated Community Case Management of Fever in Children under Five Using Rapid Diagnostic Tests and Respiratory Rate Counting: A Multi-Country Cluster Randomized Trial. American Journal of Tropical Medicine and Hygiene, 2012, 87, 21-29.	0.6	69
54	A qualitative study on caretakers' perceived need of bed-nets after reduced malaria transmission in Zanzibar, Tanzania. BMC Public Health, 2012, 12, 606.	1.2	24
