#	ARTICLE	IF	CITATIONS
1	Predicting ADL disability in community-dwelling elderly people using physical frailty indicators: a systematic review. <i>BMC Geriatrics</i> , 2011, 11, 33.	2.7	479
2	The Development of a Mobile Monitoring and Feedback Tool to Stimulate Physical Activity of People With a Chronic Disease in Primary Care: A User-Centered Design. <i>JMIR MHealth and UHealth</i> , 2013, 1, e8.	3.7	114
3	It's LiFe! Mobile and Web-Based Monitoring and Feedback Tool Embedded in Primary Care Increases Physical Activity: A Cluster Randomized Controlled Trial. <i>Journal of Medical Internet Research</i> , 2015, 17, e184.	4.3	97
4	User-centered development and testing of a monitoring system that provides feedback regarding physical functioning to elderly people. <i>Patient Preference and Adherence</i> , 2013, 7, 843.	1.8	54
5	A pilot study of a tool to stimulate physical activity in patients with COPD or type 2 diabetes in primary care. <i>Journal of Telemedicine and Telecare</i> , 2014, 20, 29-34.	2.7	54
6	Implementation of CareTV in care for the elderly: The effects on feelings of loneliness and safety and future challenges. <i>Technology and Disability</i> , 2012, 24, 283-291.	0.6	45
7	Which characteristics of nursing home residents influence differences in malnutrition prevalence? An international comparison of The Netherlands, Germany and Austria. <i>British Journal of Nutrition</i> , 2014, 111, 1129-1136.	2.3	34
8	Usability testing of a monitoring and feedback tool to stimulate physical activity. <i>Patient Preference and Adherence</i> , 2014, 8, 311.	1.8	32
9	Development and testing of an online community care platform for frail older adults in the Netherlands: a user-centred design. <i>BMC Geriatrics</i> , 2018, 18, 87.	2.7	32
10	A monitoring and feedback tool embedded in a counselling protocol to increase physical activity of patients with COPD or type 2 diabetes in primary care: study protocol of a three-arm cluster randomised controlled trial. <i>BMC Family Practice</i> , 2014, 15, 93.	2.9	25
11	Which Triple Aim related measures are being used to evaluate population management initiatives? An international comparative analysis. <i>Health Policy</i> , 2016, 120, 471-485.	3.0	25
12	Substitution of outpatient hospital care with specialist care in the primary care setting: A systematic review on quality of care, health and costs. <i>PLoS ONE</i> , 2019, 14, e0219957.	2.5	24
13	Challenges of combining work and unpaid care, and solutions: A scoping review. <i>Health and Social Care in the Community</i> , 2020, 28, 699-715.	1.6	23
14	Substitution of outpatient care with primary care: a feasibility study on the experiences among general practitioners, medical specialists and patients. <i>BMC Family Practice</i> , 2016, 17, 108.	2.9	20
15	Do structural quality indicators of nutritional care influence malnutrition prevalence in Dutch, German, and Austrian nursing homes?. <i>Nutrition</i> , 2014, 30, 1384-1390.	2.4	16
16	Upgrading physical activity counselling in primary care in the Netherlands. <i>Health Promotion International</i> , 2016, 31, 344-354.	1.8	12
17	Construct Validity of a Modified Bathroom Scale That Can Measure Balance in Elderly People. <i>Journal of the American Medical Directors Association</i> , 2012, 13, 665.e1-665.e5.	2.5	11
18	To what extent do structural quality indicators of (nutritional) care influence malnutrition prevalence in nursing homes?. <i>Clinical Nutrition</i> , 2015, 34, 1172-1176.	5.0	9

#	ARTICLE	IF	CITATIONS
19	Substituting hospital-based outpatient cardiology care: The impact on quality, health and costs. PLoS ONE, 2019, 14, e0217923.	2.5	9
20	Get moving: the practice nurse is watching you!. Journal of Innovation in Health Informatics, 2013, 20, 289-298.	0.9	9
21	The Relationship Between Balance Measured With a Modified Bathroom Scale and Falls and Disability in Older Adults: A 6-Month Follow-Up Study. Journal of Medical Internet Research, 2015, 17, e131.	4.3	9
22	Referral decisions and its predictors related to orthopaedic care. A retrospective study in a novel primary care setting. PLoS ONE, 2020, 15, e0227863.	2.5	8
23	Economic Evaluation of New Models of Care: Does the Decision Change Between Cost-Utility Analysis and Multi-Criteria Decision Analysis?. Value in Health, 2021, 24, 795-803.	0.3	8
24	Reorganising dermatology care: predictors of the substitution of secondary care with primary care. BMC Health Services Research, 2020, 20, 510.	2.2	7
25	Positive Health and the happy professional: a qualitative case study. BMC Family Practice, 2021, 22, 159.	2.9	7
26	How to Measure Population Health: An Exploration Toward an Integration of Valid and Reliable Instruments This study was presented as a poster presentation at the International Conference on Integrated Care 2017, held May 8-10, 2017 in Dublin, Ireland.. Population Health Management, 2018, 21, 323-330.	1.7	6
27	Shifting hospital care to primary care: An evaluation of cardiology care in a primary care setting in the Netherlands. BMC Family Practice, 2018, 19, 55.	2.9	6
28	Benefits and barriers of technologies supporting working carers A scoping review. Health and Social Care in the Community, 2022, 30, e1-e15.	1.6	6
29	Harvesting the wisdom of the crowd: using online ratings to explore care experiences in regions. BMC Health Services Research, 2018, 18, 801.	2.2	5
30	Does the implementation of a care pathway for patients with hip or knee osteoarthritis lead to fewer diagnostic imaging and referrals by general practitioners? A pre-post-implementation study of claims data. BMC Family Practice, 2019, 20, 154.	2.9	5
31	Substitution of hospital care with Primary Care Plus: differences in referral patterns according to specialty, specialist and diagnosis group. BMC Family Practice, 2019, 20, 81.	2.9	5
32	Perceived Impact of an Online Community Care Platform for Dutch Older Adults on Local Participation, Informal Caregiving, and Feelings of Connectedness: Pretest-Posttest Observational Study. Journal of Medical Internet Research, 2020, 22, e20304.	4.3	4
33	Measuring Population Health from a Broader Perspective: Assessing the My Quality of Life Questionnaire. International Journal of Integrated Care, 2019, 19, 7.	0.2	4
34	Platform for frail elderly people supporting information and communication. Studies in Health Technology and Informatics, 2015, 217, 311-8.	0.3	4
35	Evaluating a Dutch cardiology primary care plus intervention on the Triple Aim outcomes: study design of a practice-based quantitative and qualitative research. BMC Health Services Research, 2017, 17, 628.	2.2	2
36	Patients' perspectives on a new delivery model in primary care: A propensity score matched analysis of patient-reported outcomes in a Dutch cohort study. Journal of Evaluation in Clinical Practice, 2021, 27, 344-355.	1.8	2

#	ARTICLE	IF	CITATIONS
37	Does an in-house internist at a GP practice result in reduced referrals to hospital-based specialist care?. <i>Scandinavian Journal of Primary Health Care</i> , 2018, 36, 99-106.	1.5	1
38	Mobile health and cardiac arrhythmias: patient self-management in digital care pathways. <i>European Journal of Cardiovascular Nursing</i> , 2021, 20, 631-632.	0.9	1
39	Digital Health Solutions to Reduce the Burden of Atherosclerotic Cardiovascular Disease Proposed by the CARRIER Consortium. <i>JMIR Cardio</i> , 2022, 6, e37437.	1.7	1
40	Comparing the Health of Populations: Methods to Evaluate and Tailor Population Management Initiatives in the Netherlands. <i>Population Health Management</i> , 2018, 21, 422-427.	1.7	0
41	Measuring Regional Quality of Health Care Using Unsolicited Online Data: Text Analysis Study. <i>JMIR Medical Informatics</i> , 2019, 7, e13053.	2.6	0
