citing authors

| # | ARTICLE   | IF  | CITATIONS |
|---|---|-----|-----------|
| 1 | Validity of content-based techniques to distinguish true and fabricated statements: A meta-analysis.. Law and Human Behavior, 2016, 40, 440-457.        | 0.7 | 86        |
| 2 | Why free choices take longer than forced choices: evidence from response threshold manipulations. Psychological Research, 2018, 82, 1039-1052.          | 1.7 | 23        |
| 3 | Free choice tasks as random generation tasks: an investigation through working memory manipulations. Experimental Brain Research, 2018, 236, 2263-2275. | 1.5 | 16        |
| 4 | Stimulus-response links and the backward crosstalk effect " A comparison of forced- and free-choice tasks. Acta Psychologica, 2017, 177, 23-29.         | 1.5 | 12        |
| 5 | Are freely chosen actions generated by stimulus codes or effect codes?. Attention, Perception, and Psychophysics, 2020, 82, 3767-3773.                  | 1.3 | 6         |
| 6 | Learning of across- and within-task contingencies modulates partial-repetition costs in dual-tasking. Psychological Research, 2022, 86, 952-967.        | 1.7 | 4         |
| 7 | Given the option, people avoid incongruent responses in a dual-tasking situation. Acta Psychologica, 2022, 228, 103626.                                 | 1.5 | 3         |
| 8 | Smaller backward crosstalk effects for free choice tasks are not the result of immediate conflict adaptation. Cognitive Processing, 2019, 20, 73-85.    | 1.4 | 2         |
| 9 | Task-separation in dual-tasking: How action effects support the separation of the task streams. Acta Psychologica, 2022, 222, 103464.                   | 1.5 | 2         |
