#	Paper	IF	Citations
153	A guide to using the Theoretical Domains Framework of behaviour change to investigate implementation problems. <i>Implementation Science</i> , 2017 , 12, 77	8.4	781
152	Reviewing studies with diverse designs: the development and evaluation of a new tool. <i>Journal of Evaluation in Clinical Practice</i> , 2012 , 18, 746-52	2.5	321
151	The Role of Affect in Predicting Social Behaviors: The Case of Road Traffic Violations. <i>Journal of Applied Social Psychology</i> , 1997 , 27, 1258-1276	2.1	321
150	Meta-Analysis of the Reasoned Action Approach (RAA) to Understanding Health Behaviors. <i>Annals of Behavioral Medicine</i> , 2016 , 50, 592-612	4.5	316
149	Desire or reason: predicting health behaviors from affective and cognitive attitudes. <i>Health Psychology</i> , 2009 , 28, 56-65	5	287
148	Development of an evidence-based framework of factors contributing to patient safety incidents in hospital settings: a systematic review. <i>BMJ Quality and Safety</i> , 2012 , 21, 369-80	5.4	166
147	The use of implementation intentions and the decision balance sheet in promoting exercise behaviour. <i>Psychology and Health</i> , 2003 , 18, 707-721	2.9	163
146	Organizational controls and safety: The varieties of rule-related behaviour. <i>Journal of Occupational and Organizational Psychology</i> , 1998 , 71, 289-304	3.7	160
145	Changing exercise through targeting affective or cognitive attitudes. <i>Psychology and Health</i> , 2011 , 26, 133-49	2.9	159
144	Not working to rule: Understanding procedural violations at work. <i>Safety Science</i> , 1998 , 28, 77-95	5.8	147
143	Role of affective attitudes and anticipated affective reactions in predicting health behaviors. <i>Health Psychology</i> , 2015 , 34, 642-52	5	139
142	Physical activity and adolescents: an exploratory randomized controlled trial investigating the influence of affective and instrumental text messages. <i>British Journal of Health Psychology</i> , 2010 , 15, 825-40	8.3	137
141	The impact of theory on the effectiveness of worksite physical activity interventions: a meta-analysis and meta-regression. <i>Health Psychology Review</i> , 2012 , 6, 33-73	7.1	131
140	The role of message framing in promoting MMR vaccination: evidence of a loss-frame advantage. <i>Psychology, Health and Medicine</i> , 2008 , 13, 1-16	2.1	122
139	Application of the theory of planned behaviour to the prediction of objectively assessed breaking of posted speed limits. <i>British Journal of Psychology</i> , 2007 , 98, 429-53	4	112
138	Randomized controlled trial of collaborative implementation intentions targeting working adults' physical activity. <i>Health Psychology</i> , 2012 , 31, 486-95	5	108
137	Beyond intention: do specific plans increase health behaviours in patients in primary care? A study of fruit and vegetable consumption. <i>Social Science and Medicine</i> , 2005 , 60, 2383-91	5.1	108

136	Beyond cognition: predicting health risk behaviors from instrumental and affective beliefs. <i>Health Psychology</i> , 2007 , 26, 259-67	5	106
135	Do electronic cigarettes increase cigarette smoking in UK adolescents? Evidence from a 12-month prospective study. <i>Tobacco Control</i> , 2017 ,	5.3	99
134	Individual and collaborative implementation intentions and the promotion of breast self-examination. <i>Psychology and Health</i> , 2005 , 20, 743-760	2.9	98
133	Predicting road traffic accidents: The role of social deviance and violations. <i>British Journal of Psychology</i> , 1997 , 88, 249-262	4	94
132	Positive deviance: a different approach to achieving patient safety. <i>BMJ Quality and Safety</i> , 2014 , 23, 880-3	5.4	93
131	Does the use of a theoretical approach tell us more about hand hygiene behaviour? The barriers and levers to hand hygiene. <i>Journal of Infection Prevention</i> , 2011 , 12, 17-24	1.1	84
130	Individual Differences in Accident Liability: A Review and Integrative Approach. <i>Human Factors</i> , 1998 , 40, 655-671	3.8	70
129	What methods are used to apply positive deviance within healthcare organisations? A systematic review. <i>BMJ Quality and Safety</i> , 2016 , 25, 190-201	5.4	70
128	Can patient involvement improve patient safety? A cluster randomised control trial of the Patient Reporting and Action for a Safe Environment (PRASE) intervention. <i>BMJ Quality and Safety</i> , 2017 , 26, 622-631	5.4	66
127	Changing self-reported physical activity using different types of affectively and cognitively framed health messages, in a student population. <i>Psychology, Health and Medicine</i> , 2016 , 21, 198-207	2.1	66
126	The impact of thin models in music videos on adolescent girls' body dissatisfaction. <i>Body Image</i> , 2007 , 4, 137-45	7.4	64
125	Attitudes to patient safety amongst medical students and tutors: Developing a reliable and valid measure. <i>Medical Teacher</i> , 2009 , 31, e370-6	3	63
124	Effectiveness and cost-effectiveness of repeated implementation intention formation on adolescent smoking initiation: A cluster randomized controlled trial. <i>Journal of Consulting and Clinical Psychology</i> , 2019 , 87, 422-432	6.5	60
123	Procedures and the professional: the case of the British NHS. <i>Social Science and Medicine</i> , 1999 , 48, 353-61	5.1	58
122	The Patient Feedback Response Framework - Understanding why UK hospital staff find it difficult to make improvements based on patient feedback: A qualitative study. <i>Social Science and Medicine</i> , 2017 , 178, 19-27	5.1	57
121	Emotion and coping in the aftermath of medical error: a cross-country exploration. <i>Journal of Patient Safety</i> , 2015 , 11, 28-35	1.9	56
120	Coping with medical error: a systematic review of papers to assess the effects of involvement in medical errors on healthcare professionals' psychological well-being. <i>BMJ Quality and Safety</i> , 2010 , 19, e43	5.4	56
119	The question-behaviour effect: A theoretical and methodological review and meta-analysis. <i>European Review of Social Psychology</i> , 2016 , 27, 196-230	5.5	49

118	Advancing complexity science in healthcare research: the logic of logic models. <i>BMC Medical Research Methodology</i> , 2019 , 19, 55	4.7	47
117	Doctors' experiences of adverse events in secondary care: the professional and personal impact. <i>Clinical Medicine</i> , 2014 , 14, 585-90	1.9	47
116	Employing an extended Theory of Planned Behaviour to predict breastfeeding intention, initiation, and maintenance in White British and South-Asian mothers living in Bradford. <i>British Journal of Health Psychology</i> , 2012 , 17, 854-71	8.3	46
115	Using the Theoretical Domains Framework (TDF) to understand adherence to multiple evidence-based indicators in primary care: a qualitative study. <i>Implementation Science</i> , 2016 , 11, 113	8.4	45
114	Exploring day-to-day dynamics of daily stressor appraisals, physical symptoms and the cortisol awakening response. <i>Psychoneuroendocrinology</i> , 2014 , 50, 130-8	5	43
113	Crossing two types of implementation intentions with a protection motivation intervention for the reduction of saturated fat intake: a randomized trial. <i>Social Science and Medicine</i> , 2008 , 67, 1550-8	5.1	43
112	Development of a theory-based instrument to identify barriers and levers to best hand hygiene practice among healthcare practitioners. <i>Implementation Science</i> , 2013 , 8, 111	8.4	42
111	Can staff and patient perspectives on hospital safety predict harm-free care? An analysis of staff and patient survey data and routinely collected outcomes. <i>BMJ Quality and Safety</i> , 2015 , 24, 369-76	5.4	42
110	Development and initial validation of the determinants of physical activity questionnaire. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2013 , 10, 74	8.4	41
109	Moderating effect of socioeconomic status on the relationship between health cognitions and behaviors. <i>Annals of Behavioral Medicine</i> , 2013 , 46, 19-30	4.5	40
108	Judging the use of clinical protocols by fellow professionals. <i>Social Science and Medicine</i> , 2000 , 51, 669-77.1	3.1	40
107	The demonstration of a theory-based approach to the design of localized patient safety interventions. <i>Implementation Science</i> , 2013 , 8, 123	8.4	38
106	A systems analysis of the Ladbroke Grove rail crash. <i>Accident Analysis and Prevention</i> , 2005 , 37, 235-44	6.1	38
105	What can patients tell us about the quality and safety of hospital care? Findings from a UK multicentre survey study. <i>BMJ Quality and Safety</i> , 2018 , 27, 673-682	5.4	38
104	A comparison of reported levels and expression of anger in everyday and driving situations. <i>British Journal of Psychology</i> , 2002 , 93, 407-23	4	37
103	The role of emotion in patient safety: Are we brave enough to scratch beneath the surface?. <i>Journal of the Royal Society of Medicine</i> , 2016 , 109, 52-8	2.3	36
102	Development and initial validation of the Influences on Patient Safety Behaviours Questionnaire. <i>Implementation Science</i> , 2013 , 8, 81	8.4	34
101	Identifying the latent failures underpinning medication administration errors: an exploratory study. <i>Health Services Research</i> , 2012 , 47, 1437-59	3.4	31

100	What's the problem with patient experience feedback? A macro and micro understanding, based on findings from a three-site UK qualitative study. <i>Health Expectations</i> , 2019 , 22, 46-53	3.7	31
99	Basis of intentions as a moderator of the intention-health behavior relationship. <i>Health Psychology</i> , 2016 , 35, 219-27	5	30
98	Raising awareness of hypertension risk through a web-based framing intervention: does consideration of future consequences make a difference?. <i>Psychology, Health and Medicine</i> , 2009 , 14, 213-9	2.1	28
97	Self-reported Attitude Towards Speeding and Its Possible Consequences in Five Different Road Contexts. <i>Journal of Community and Applied Social Psychology</i> , 1997 , 7, 153-165	2.8	28
96	Applying the reasoned action approach to understanding health protection and health risk behaviors. <i>Social Science and Medicine</i> , 2017 , 195, 140-148	5.1	27
95	Patient-reported safety incidents as a new source of patient safety data: an exploratory comparative study in an acute hospital in England. <i>Journal of Health Services Research and Policy</i> , 2018 , 23, 36-43	2.4	26
94	Patient involvement in patient safety: Protocol for developing an intervention using patient reports of organisational safety and patient incident reporting. <i>BMC Health Services Research</i> , 2011 , 11, 130	2.9	25
93	Are more experienced clinicians better able to tolerate uncertainty and manage risks? A vignette study of doctors in three NHS emergency departments in England. <i>BMJ Quality and Safety</i> , 2019 , 28, 382-388	5.4	23
92	Up-beat UK: a programme of research into the relationship between coronary heart disease and depression in primary care patients. <i>BMC Family Practice</i> , 2011 , 12, 38	2.6	23
91	Does changing social influence engender changes in alcohol intake? A meta-analysis. <i>Journal of Consulting and Clinical Psychology</i> , 2016 , 84, 845-60	6.5	22
90	Patients as teachers: a randomised controlled trial on the use of personal stories of harm to raise awareness of patient safety for doctors in training. <i>BMJ Quality and Safety</i> , 2015 , 24, 21-30	5.4	21
89	Self-management for people with poorly controlled epilepsy: Participants' views of the UK Self-Management in epILepsy (SMILE) program. <i>Epilepsy and Behavior</i> , 2015 , 52, 159-64	3.2	20
88	Exploring the question-behaviour effect: randomized controlled trial of motivational and question-behaviour interventions. <i>British Journal of Health Psychology</i> , 2013 , 18, 31-44	8.3	20
87	Evaluating the PRASE patient safety intervention - a multi-centre, cluster trial with a qualitative process evaluation: study protocol for a randomised controlled trial. <i>Trials</i> , 2014 , 15, 420	2.8	19
86	Investigating the effects of conscientiousness on daily stress, affect and physical symptom processes: a daily diary study. <i>British Journal of Health Psychology</i> , 2014 , 19, 311-28	8.3	19
85	Training and action for patient safety: embedding interprofessional education for patient safety within an improvement methodology. <i>Journal of Continuing Education in the Health Professions</i> , 2012 , 32, 80-9	2.1	19
84	The effects of conscientiousness on the appraisals of daily stressors. <i>Stress and Health</i> , 2012 , 28, 80-6	3.7	18
83	Factors affecting the implementation of a whole school mindfulness program: a qualitative study using the consolidated framework for implementation research. <i>BMC Health Services Research</i> , 2020 , 20, 133	2.9	17

82	Exploring how ward staff engage with the implementation of a patient safety intervention: a UK-based qualitative process evaluation. <i>BMJ Open</i> , 2017 , 7, e014558	3	17
81	Collaborating with front-line healthcare professionals: the clinical and cost effectiveness of a theory based approach to the implementation of a national guideline. <i>BMC Health Services Research</i> , 2014 , 14, 648	2.9	17
80	Mentorship for newly appointed consultants: what makes it work?. <i>Postgraduate Medical Journal</i> , 2014 , 90, 439-45	2	17
79	How Can Smoking Cessation Be Induced Before Surgery? A Systematic Review and Meta-Analysis of Behavior Change Techniques and Other Intervention Characteristics. <i>Frontiers in Psychology</i> , 2017 , 8, 915	3.4	15
78	Meta-ethnography in healthcare research: a guide to using a meta-ethnographic approach for literature synthesis. <i>BMC Health Services Research</i> , 2021 , 21, 50	2.9	15
77	How older people enact care involvement during transition from hospital to home: A systematic review and model. <i>Health Expectations</i> , 2019 , 22, 883-893	3.7	14
76	Patterns and predictors of e-cigarette, cigarette and dual use uptake in UK adolescents: evidence from a 24-month prospective study. <i>Addiction</i> , 2019 , 114, 2048-2055	4.6	14
75	Supporting "second victims" is a system-wide responsibility. <i>BMJ, The</i> , 2015 , 350, h2341	5.9	13
74	Research Exploring Physical Activity in Care Homes (REACH): study protocol for a randomised controlled trial. <i>Trials</i> , 2017 , 18, 182	2.8	13
73	Partners at Care Transitions (PACT) exploring older peoples' experiences of transitioning from hospital to home in the UK: protocol for an observation and interview study of older people and their families to understand patient experience and involvement in care at transitions. <i>BMJ Open</i> , 2017 , 7, e018054	3	13
72	Developing a measure to assess the quality of care transitions for older people. <i>BMC Health Services Research</i> , 2019 , 19, 505	2.9	12
71	Action to Support Practices Implement Research Evidence (ASPIRE): protocol for a cluster-randomised evaluation of adaptable implementation packages targeting 'high impact' clinical practice recommendations in general practice. <i>Implementation Science</i> , 2016 , 11, 25	8.4	12
70	Improving patient safety through the involvement of patients: development and evaluation of novel interventions to engage patients in preventing patient safety incidents and protecting them against unintended harm. <i>Programme Grants for Applied Research</i> , 2016 , 4, 1-296	1.5	12
69	Quality assessment with diverse studies (QuADS): an appraisal tool for methodological and reporting quality in systematic reviews of mixed- or multi-method studies. <i>BMC Health Services Research</i> , 2021 , 21, 144	2.9	12
68	To what extent can behaviour change techniques be identified within an adaptable implementation package for primary care? A prospective directed content analysis. <i>Implementation Science</i> , 2018 , 13, 32	8.4	11
67	A pilot randomised controlled trial of personalised care for depressed patients with symptomatic coronary heart disease in South London general practices: the UPBEAT-UK RCT protocol and recruitment. <i>BMC Psychiatry</i> , 2012 , 12, 58	4.2	11
66	Patient experience feedback in UK hospitals: What types are available and what are their potential roles in quality improvement (QI)?. <i>Health Expectations</i> , 2019 , 22, 317-326	3.7	10
65	Does team reflexivity impact teamwork and communication in interprofessional hospital-based healthcare teams? A systematic review and narrative synthesis. <i>BMJ Quality and Safety</i> , 2020 , 29, 672-683 ^{5.4}	5.4	10

64	Using the question-behavior effect to change multiple health behaviors: An exploratory randomized controlled trial. <i>Journal of Experimental Social Psychology</i> , 2019 , 81, 53-60	2.6	10
63	Learning from positively deviant wards to improve patient safety: an observational study protocol. <i>BMJ Open</i> , 2015 , 5, e009650	3	10
62	Using patient experience data to develop a patient experience toolkit to improve hospital care: a mixed-methods study. <i>Health Services and Delivery Research</i> , 2019 , 7, 1-104	1.5	10
61	Tackling student binge drinking: Pairing incongruent messages and measures reduces alcohol consumption. <i>British Journal of Health Psychology</i> , 2015 , 20, 498-513	8.3	9
60	Factors influencing sedentary behaviours after stroke: findings from qualitative observations and interviews with stroke survivors and their caregivers. <i>BMC Public Health</i> , 2020 , 20, 967	4.1	9
59	Conscientiousness and fruit and vegetable consumption: exploring behavioural intention as a mediator. <i>Psychology, Health and Medicine</i> , 2016 , 21, 469-475	2.1	9
58	A cross-sectional survey of mental health service users', carers' and professionals' priorities for patient safety in the United Kingdom. <i>Health Expectations</i> , 2018 , 21, 1085-1094	3.7	9
57	Identifying positive deviants in healthcare quality and safety: a mixed methods study. <i>Journal of the Royal Society of Medicine</i> , 2018 , 111, 276-291	2.3	9
56	An engineered solution to the maladministration of spinal injections. <i>Quality and Safety in Health Care</i> , 2009 , 18, 492-5		9
55	It Ain't What You Do (But the Way That You Do It): Will Safety II Transform the Way We Do Patient Safety? Comment on "False Dawns and New Horizons in Patient Safety Research and Practice". <i>International Journal of Health Policy and Management</i> , 2018 , 7, 659-661	2.5	9
54	A qualitative positive deviance study to explore exceptionally safe care on medical wards for older people. <i>BMJ Quality and Safety</i> , 2019 , 28, 618-626	5.4	8
53	Intervention fidelity and effectiveness of a UK worksite physical activity intervention funded by the BUPA Foundation, UK. <i>Health Promotion International</i> , 2015 , 30, 38-49	3	8
52	The views and experiences of patients and health-care professionals on the disclosure of adverse events: A systematic review and qualitative meta-ethnographic synthesis. <i>Health Expectations</i> , 2020 , 23, 571-583	3.7	8
51	How is the positive deviance approach applied within healthcare organizations? A systematic review of methods used. <i>BMC Health Services Research</i> , 2014 , 14,	2.9	8
50	Judgments of the rule-related behaviour of health care professionals: An experimental study. <i>British Journal of Health Psychology</i> , 2002 , 7, 253-265	8.3	8
49	Partners at Care Transitions: exploring healthcare professionals' perspectives of excellence at care transitions for older people. <i>BMJ Open</i> , 2018 , 8, e022468	3	8
48	Preoperative Interventions for Alcohol and Other Recreational Substance Use: A Systematic Review and Meta-Analysis. <i>Frontiers in Psychology</i> , 2019 , 10, 34	3.4	7
47	Patient involvement in diagnosing cancer in primary care: a systematic review of current interventions. <i>British Journal of General Practice</i> , 2018 , 68, e211-e224	1.6	7

46	Older, vulnerable patient view: a pilot and feasibility study of the patient measure of safety (PMOS) with patients in Australia. <i>BMJ Open</i> , 2016 , 6, e011069	3	7
45	Study protocol: A cluster randomised controlled trial of implementation intentions to reduce smoking initiation in adolescents. <i>BMC Public Health</i> , 2013 , 13, 54	4.1	7
44	Contributory factors to patient safety incidents in primary care: protocol for a systematic review. <i>Systematic Reviews</i> , 2015 , 4, 63	3	7
43	Mentorship for newly appointed physicians: a strategy for enhancing patient safety?. <i>Journal of Patient Safety</i> , 2014 , 10, 159-67	1.9	7
42	Using vignettes to explore judgements of patients about safety and quality of care: the role of outcome and relationship with the care provider. <i>Health Expectations</i> , 2011 , 14, 296-306	3.7	7
41	Safety subcultures in health-care organizations and managing medical error. <i>Health Services Management Research</i> , 2012 , 25, 16-23	1	7
40	A co-production approach guided by the behaviour change wheel to develop an intervention for reducing sedentary behaviour after stroke. <i>Pilot and Feasibility Studies</i> , 2020 , 6, 115	1.9	7
39	The Association Between Health Care Staff Engagement and Patient Safety Outcomes: A Systematic Review and Meta-Analysis. <i>Journal of Patient Safety</i> , 2021 , 17, 207-216	1.9	7
38	How is success achieved by individuals innovating for patient safety and quality in the NHS?. <i>BMC Health Services Research</i> , 2017 , 17, 640	2.9	6
37	Identifying positively deviant elderly medical wards using routinely collected NHS Safety Thermometer data: an observational study. <i>BMJ Open</i> , 2018 , 8, e020219	3	6
36	Delivering exceptionally safe transitions of care to older people: a qualitative study of multidisciplinary staff perspectives. <i>BMC Health Services Research</i> , 2020 , 20, 780	2.9	6
35	Evidence that an intervention weakens the relationship between adolescent electronic cigarette use and tobacco smoking: a 24-month prospective study. <i>Tobacco Control</i> , 2020 , 29, 425-431	5.3	6
34	Are incremental changes in physical activity and sedentary behaviours associated with improved employee health?. <i>International Journal of Workplace Health Management</i> , 2014 , 7, 16-39	1.3	5
33	Using a patient-generated mental-health measure 'PSYCHLOPS' to explore problems in patients with coronary heart disease. <i>British Journal of General Practice</i> , 2014 , 64, e354-63	1.6	5
32	Involving patients in recognising clinical deterioration in hospital using the Patient Wellness Questionnaire: A mixed-methods study. <i>Journal of Research in Nursing</i> , 2020 , 25, 68-86	0.9	5
31	Medical error in the hospice setting: exploring the perspectives of management staff. <i>International Journal of Palliative Nursing</i> , 2010 , 16, 377-86	0.9	4
30	Validation of the Partners at Care Transitions Measure (PACT-M): assessing the quality and safety of care transitions for older people in the UK. <i>BMC Health Services Research</i> , 2020 , 20, 608	2.9	3
29	Study protocol for a cluster randomised controlled feasibility trial evaluating personalised care planning for older people with frailty: PROSPER V2 27/11/18. <i>Pilot and Feasibility Studies</i> , 2020 , 6, 56	1.9	3

28	Developing and evaluating packages to support implementation of quality indicators in general practice: the ASPIRE research programme, including two cluster RCTs. <i>Programme Grants for Applied Research</i> , 2020 , 8, 1-96	1.5	3
27	Behaviour change techniques in personalised care planning for older people: a systematic review. <i>British Journal of General Practice</i> , 2021 , 71, e121-e127	1.6	3
26	Validation of the patient measure of safety (PMOS) questionnaire in Australian public hospitals. <i>International Journal for Quality in Health Care</i> , 2020 , 32, 67-74	1.9	3
25	Improving patient experience and safety at transitions of care through the Your Care Needs You (YCNV) intervention: a study protocol for a cluster randomised controlled feasibility trial. <i>Pilot and Feasibility Studies</i> , 2020 , 6, 123	1.9	3
24	Multiple meanings of resilience: Health professionals' experiences of a dual element training intervention designed to help them prepare for coping with error. <i>Journal of Evaluation in Clinical Practice</i> , 2021 ,	2.5	3
23	Interactive Effects of Trait Self-Control and Stress Appraisals on Blood Pressure Responses to a Laboratory Stressor. <i>International Journal of Behavioral Medicine</i> , 2017 , 24, 602-612	2.6	2
22	Improving Patient Experience in Hospital Settings: Assessing the Role of Toolkits and Action Research Through a Process Evaluation of a Complex Intervention. <i>Qualitative Health Research</i> , 2019 , 29, 2108-2118	3.9	2
21	Understanding diagnostic error: looking beyond diagnostic accuracy. <i>Diagnosis</i> , 2015 , 2, 205-209	4.2	2
20	Distress in patients with interstitial cystitis: Do illness representations have a role to play?. <i>Psychology, Health and Medicine</i> , 2009 , 14, 726-39	2.1	2
19	Explaining variable effects of an adaptable implementation package to promote evidence-based practice in primary care: a longitudinal process evaluation.. <i>Implementation Science</i> , 2022 , 17, 9	8.4	2
18	A protocol for a systematic review of process evaluations of interventions investigating sedentary behaviour in adults. <i>BMJ Open</i> , 2019 , 9, e031291	3	2
17	Spoken communication and patient safety: a new direction for healthcare communication policy, research, education and practice?. <i>BMJ Open Quality</i> , 2019 , 8, e000742	1.9	2
16	Supporting doctors who make mistakes. <i>BMJ, The</i> , 2019 , 365, l2161	5.9	1
15	Testing new devices to help prevent 'misconnection' errors in health care. <i>Journal of Health Services Research and Policy</i> , 2010 , 15 Suppl 1, 79-82	2.4	1
14	Doing involvement: A qualitative study exploring the 'work' of involvement enacted by older people and their carers during transition from hospital to home. <i>Health Expectations</i> , 2021 , 24, 1936-1947	3.7	1
