

Rebecca Lawton

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/5187511/rebecca-lawton-publications-by-year.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
153	Development of a real-world logic model through testing the feasibility of a complex healthcare intervention: the challenge of reconciling scalability and context-sensitivity. <i>Evaluation</i> , 2022 , 28, 113-131	3.5	0
152	Explaining variable effects of an adaptable implementation package to promote evidence-based practice in primary care: a longitudinal process evaluation.. <i>Implementation Science</i> , 2022 , 17, 9	8.4	2
151	Systematic review of process evaluations of interventions in trials investigating sedentary behaviour in adults.. <i>BMJ Open</i> , 2022 , 12, e053945	3	
150	Doing involvement: A qualitative study exploring the 'work' of involvement enacted by older people and their carers during transition from hospital to home. <i>Health Expectations</i> , 2021 , 24, 1936-1947	3.7	1
149	Can Routinely Collected, Patient-Reported Wellness Predict National Early Warning Scores? A Multilevel Modeling Approach. <i>Journal of Patient Safety</i> , 2021 , 17, 548-552	1.9	1
148	Behaviour change techniques in personalised care planning for older people: a systematic review. <i>British Journal of General Practice</i> , 2021 , 71, e121-e127	1.6	3
147	Multiple meanings of resilience: Health professionals' experiences of a dual element training intervention designed to help them prepare for coping with error. <i>Journal of Evaluation in Clinical Practice</i> , 2021 ,	2.5	3
146	Is Physician Mentorship Associated With the Occurrence of Adverse Patient Safety Events?. <i>Journal of Patient Safety</i> , 2021 , 17, e1633-e1637	1.9	1
145	Conscientiousness and engagement with national health behaviour guidelines. <i>Psychology, Health and Medicine</i> , 2021 , 26, 421-432	2.1	1
144	The Association Between Health Care Staff Engagement and Patient Safety Outcomes: A Systematic Review and Meta-Analysis. <i>Journal of Patient Safety</i> , 2021 , 17, 207-216	1.9	7
143	Meta-ethnography in healthcare research: a guide to using a meta-ethnographic approach for literature synthesis. <i>BMC Health Services Research</i> , 2021 , 21, 50	2.9	15
142	The types and effects of feedback received by emergency ambulance staff: protocol for a systematic mixed studies review with narrative synthesis. <i>International Journal of Emergency Services</i> , 2021 , 10, 247-265	0.9	0
141	Quality assessment with diverse studies (QuADS): an appraisal tool for methodological and reporting quality in systematic reviews of mixed- or multi-method studies. <i>BMC Health Services Research</i> , 2021 , 21, 144	2.9	12
140	A qualitative study of sedentary behaviours in stroke survivors: non-participant observations and interviews with stroke service staff in stroke units and community services. <i>Disability and Rehabilitation</i> , 2021 , 1-10	2.4	1
139	Strategies to enhance routine physical activity in care home residents: the REACH research programme including a cluster feasibility RCT. <i>Programme Grants for Applied Research</i> , 2021 , 9, 1-314	1.5	
138	Factors influencing sedentary behaviours after stroke: findings from qualitative observations and interviews with stroke survivors and their caregivers. <i>BMC Public Health</i> , 2020 , 20, 967	4.1	9
137	Validation of the Partners at Care Transitions Measure (PACT-M): assessing the quality and safety of care transitions for older people in the UK. <i>BMC Health Services Research</i> , 2020 , 20, 608	2.9	3

136	Factors affecting the implementation of a whole school mindfulness program: a qualitative study using the consolidated framework for implementation research. <i>BMC Health Services Research</i> , 2020 , 20, 133	2.9	17
135	The views and experiences of patients and health-care professionals on the disclosure of adverse events: A systematic review and qualitative meta-ethnographic synthesis. <i>Health Expectations</i> , 2020 , 23, 571-583	3.7	8
134	Does team reflexivity impact teamwork and communication in interprofessional hospital-based healthcare teams? A systematic review and narrative synthesis. <i>BMJ Quality and Safety</i> , 2020 , 29, 672-683	5.4	10
133	Study protocol for a cluster randomised controlled feasibility trial evaluating personalised care planning for older people with frailty: PROSPER V2 27/11/18. <i>Pilot and Feasibility Studies</i> , 2020 , 6, 56	1.9	3
132	Developing and evaluating packages to support implementation of quality indicators in general practice: the ASPIRE research programme, including two cluster RCTs. <i>Programme Grants for Applied Research</i> , 2020 , 8, 1-96	1.5	3
131	Validation of the patient measure of safety (PMOS) questionnaire in Australian public hospitals. <i>International Journal for Quality in Health Care</i> , 2020 , 32, 67-74	1.9	3
130	The early diagnosis of cancer in primary care: A qualitative exploration of the patient's role and acceptable safety-netting strategies. <i>European Journal of Cancer Care</i> , 2020 , 29, e13195	2.4	1
129	A co-production approach guided by the behaviour change wheel to develop an intervention for reducing sedentary behaviour after stroke. <i>Pilot and Feasibility Studies</i> , 2020 , 6, 115	1.9	7
128	Delivering exceptionally safe transitions of care to older people: a qualitative study of multidisciplinary staff perspectives. <i>BMC Health Services Research</i> , 2020 , 20, 780	2.9	6
127	Improving patient experience and safety at transitions of care through the Your Care Needs You (YCNy) intervention: a study protocol for a cluster randomised controlled feasibility trial. <i>Pilot and Feasibility Studies</i> , 2020 , 6, 123	1.9	3
126	Evidence that an intervention weakens the relationship between adolescent electronic cigarette use and tobacco smoking: a 24-month prospective study. <i>Tobacco Control</i> , 2020 , 29, 425-431	5.3	6
125	Involving patients in recognising clinical deterioration in hospital using the Patient Wellness Questionnaire: A mixed-methods study. <i>Journal of Research in Nursing</i> , 2020 , 25, 68-86	0.9	5
124	Improving Patient Experience in Hospital Settings: Assessing the Role of Toolkits and Action Research Through a Process Evaluation of a Complex Intervention. <i>Qualitative Health Research</i> , 2019 , 29, 2108-2118	3.9	2
123	Supporting doctors who make mistakes. <i>BMJ, The</i> , 2019 , 365, l2161	5.9	1
122	A qualitative positive deviance study to explore exceptionally safe care on medical wards for older people. <i>BMJ Quality and Safety</i> , 2019 , 28, 618-626	5.4	8
121	Patient experience feedback in UK hospitals: What types are available and what are their potential roles in quality improvement (QI)? <i>Health Expectations</i> , 2019 , 22, 317-326	3.7	10
120	Advancing complexity science in healthcare research: the logic of logic models. <i>BMC Medical Research Methodology</i> , 2019 , 19, 55	4.7	47
119	Are more experienced clinicians better able to tolerate uncertainty and manage risks? A vignette study of doctors in three NHS emergency departments in England. <i>BMJ Quality and Safety</i> , 2019 , 28, 382-388	5.4	23

118	Preoperative Interventions for Alcohol and Other Recreational Substance Use: A Systematic Review and Meta-Analysis. <i>Frontiers in Psychology</i> , 2019 , 10, 34	3.4	7
117	Using the question-behavior effect to change multiple health behaviors: An exploratory randomized controlled trial. <i>Journal of Experimental Social Psychology</i> , 2019 , 81, 53-60	2.6	10
116	How older people enact care involvement during transition from hospital to home: A systematic review and model. <i>Health Expectations</i> , 2019 , 22, 883-893	3.7	14
115	Developing a measure to assess the quality of care transitions for older people. <i>BMC Health Services Research</i> , 2019 , 19, 505	2.9	12
114	Patterns and predictors of e-cigarette, cigarette and dual use uptake in UK adolescents: evidence from a 24-month prospective study. <i>Addiction</i> , 2019 , 114, 2048-2055	4.6	14
113	Using patient experience data to develop a patient experience toolkit to improve hospital care: a mixed-methods study. <i>Health Services and Delivery Research</i> , 2019 , 7, 1-104	1.5	10
112	Effectiveness and cost-effectiveness of repeated implementation intention formation on adolescent smoking initiation: A cluster randomized controlled trial. <i>Journal of Consulting and Clinical Psychology</i> , 2019 , 87, 422-432	6.5	60
111	Validation of revised patient measures of safety: PMOS-30 and PMOS-10. <i>BMJ Open</i> , 2019 , 9, e031355	3	1
110	A protocol for a systematic review of process evaluations of interventions investigating sedentary behaviour in adults. <i>BMJ Open</i> , 2019 , 9, e031291	3	2
109	Spoken communication and patient safety: a new direction for healthcare communication policy, research, education and practice?. <i>BMJ Open Quality</i> , 2019 , 8, e000742	1.9	2
108	What's the problem with patient experience feedback? A macro and micro understanding, based on findings from a three-site UK qualitative study. <i>Health Expectations</i> , 2019 , 22, 46-53	3.7	31
107	Patient involvement in diagnosing cancer in primary care: a systematic review of current interventions. <i>British Journal of General Practice</i> , 2018 , 68, e211-e224	1.6	7
106	Identifying positively deviant elderly medical wards using routinely collected NHS Safety Thermometer data: an observational study. <i>BMJ Open</i> , 2018 , 8, e020219	3	6
105	Patient-reported safety incidents as a new source of patient safety data: an exploratory comparative study in an acute hospital in England. <i>Journal of Health Services Research and Policy</i> , 2018 , 23, 36-43	2.4	26
104	To what extent can behaviour change techniques be identified within an adaptable implementation package for primary care? A prospective directed content analysis. <i>Implementation Science</i> , 2018 , 13, 32	8.4	11
103	A cross-sectional survey of mental health service users', carers' and professionals' priorities for patient safety in the United Kingdom. <i>Health Expectations</i> , 2018 , 21, 1085-1094	3.7	9
102	Identifying positive deviants in healthcare quality and safety: a mixed methods study. <i>Journal of the Royal Society of Medicine</i> , 2018 , 111, 276-291	2.3	9
101	It Ain't What You Do (But the Way That You Do It): Will Safety II Transform the Way We Do Patient Safety? Comment on "False Dawns and New Horizons in Patient Safety Research and Practice". <i>International Journal of Health Policy and Management</i> , 2018 , 7, 659-661	2.5	9

100	What can patients tell us about the quality and safety of hospital care? Findings from a UK multicentre survey study. <i>BMJ Quality and Safety</i> , 2018 , 27, 673-682	5.4	38
99	Partners at Care Transitions: exploring healthcare professionals' perspectives of excellence at care transitions for older people. <i>BMJ Open</i> , 2018 , 8, e022468	3	8
98	The Patient Feedback Response Framework - Understanding why UK hospital staff find it difficult to make improvements based on patient feedback: A qualitative study. <i>Social Science and Medicine</i> , 2017 , 178, 19-27	5.1	57
97	Can patient involvement improve patient safety? A cluster randomised control trial of the Patient Reporting and Action for a Safe Environment (PRASE) intervention. <i>BMJ Quality and Safety</i> , 2017 , 26, 622-631	5.4	66
96	Interactive Effects of Trait Self-Control and Stress Appraisals on Blood Pressure Responses to a Laboratory Stressor. <i>International Journal of Behavioral Medicine</i> , 2017 , 24, 602-612	2.6	2
95	Applying the reasoned action approach to understanding health protection and health risk behaviors. <i>Social Science and Medicine</i> , 2017 , 195, 140-148	5.1	27
94	How is success achieved by individuals innovating for patient safety and quality in the NHS?. <i>BMC Health Services Research</i> , 2017 , 17, 640	2.9	6
93	Do electronic cigarettes increase cigarette smoking in UK adolescents? Evidence from a 12-month prospective study. <i>Tobacco Control</i> , 2017 ,	5.3	99
92	A guide to using the Theoretical Domains Framework of behaviour change to investigate implementation problems. <i>Implementation Science</i> , 2017 , 12, 77	8.4	781
91	Research Exploring Physical Activity in Care Homes (REACH): study protocol for a randomised controlled trial. <i>Trials</i> , 2017 , 18, 182	2.8	13
90	Partners at Care Transitions (PACT) xploring older peoples' experiences of transitioning from hospital to home in the UK: protocol for an observation and interview study of older people and their families to understand patient experience and involvement in care at transitions. <i>BMJ Open</i> , 2017 , 7, e018054	3	13
89	Exploring how ward staff engage with the implementation of a patient safety intervention: a UK-based qualitative process evaluation. <i>BMJ Open</i> , 2017 , 7, e014558	3	17
88	How Can Smoking Cessation Be Induced Before Surgery? A Systematic Review and Meta-Analysis of Behavior Change Techniques and Other Intervention Characteristics. <i>Frontiers in Psychology</i> , 2017 , 8, 915	3.4	15
87	Older, vulnerable patient view: a pilot and feasibility study of the patient measure of safety (PMOS) with patients in Australia. <i>BMJ Open</i> , 2016 , 6, e011069	3	7
86	The role of emotion in patient safety: Are we brave enough to scratch beneath the surface?. <i>Journal of the Royal Society of Medicine</i> , 2016 , 109, 52-8	2.3	36
85	Changing self-reported physical activity using different types of affectively and cognitively framed health messages, in a student population. <i>Psychology, Health and Medicine</i> , 2016 , 21, 198-207	2.1	66
84	Conscientiousness and fruit and vegetable consumption: exploring behavioural intention as a mediator. <i>Psychology, Health and Medicine</i> , 2016 , 21, 469-475	2.1	9
83	Using the Theoretical Domains Framework (TDF) to understand adherence to multiple evidence-based indicators in primary care: a qualitative study. <i>Implementation Science</i> , 2016 , 11, 113	8.4	45

82	Action to Support Practices Implement Research Evidence (ASPIRE): protocol for a cluster-randomised evaluation of adaptable implementation packages targeting 'high impact' clinical practice recommendations in general practice. <i>Implementation Science</i> , 2016 , 11, 25	8.4	12
81	Improving patient safety through the involvement of patients: development and evaluation of novel interventions to engage patients in preventing patient safety incidents and protecting them against unintended harm. <i>Programme Grants for Applied Research</i> , 2016 , 4, 1-296	1.5	12
80	Does changing social influence engender changes in alcohol intake? A meta-analysis. <i>Journal of Consulting and Clinical Psychology</i> , 2016 , 84, 845-60	6.5	22
79	Basis of intentions as a moderator of the intention-health behavior relationship. <i>Health Psychology</i> , 2016 , 35, 219-27	5	30
78	The question-behaviour effect: A theoretical and methodological review and meta-analysis. <i>European Review of Social Psychology</i> , 2016 , 27, 196-230	5.5	49
77	What methods are used to apply positive deviance within healthcare organisations? A systematic review. <i>BMJ Quality and Safety</i> , 2016 , 25, 190-201	5.4	70
76	Meta-Analysis of the Reasoned Action Approach (RAA) to Understanding Health Behaviors. <i>Annals of Behavioral Medicine</i> , 2016 , 50, 592-612	4.5	316
75	Supporting "second victims" is a system-wide responsibility. <i>BMJ, The</i> , 2015 , 350, h2341	5.9	13
74	Self-management for people with poorly controlled epilepsy: Participants' views of the UK Self-Management in epILEpsy (SMILE) program. <i>Epilepsy and Behavior</i> , 2015 , 52, 159-64	3.2	20
73	Intervention fidelity and effectiveness of a UK worksite physical activity intervention funded by the BUPA Foundation, UK. <i>Health Promotion International</i> , 2015 , 30, 38-49	3	8
72	Tackling student binge drinking: Pairing incongruent messages and measures reduces alcohol consumption. <i>British Journal of Health Psychology</i> , 2015 , 20, 498-513	8.3	9
71	Role of affective attitudes and anticipated affective reactions in predicting health behaviors. <i>Health Psychology</i> , 2015 , 34, 642-52	5	139
70	Learning from positively deviant wards to improve patient safety: an observational study protocol. <i>BMJ Open</i> , 2015 , 5, e009650	3	10
69	Contributory factors to patient safety incidents in primary care: protocol for a systematic review. <i>Systematic Reviews</i> , 2015 , 4, 63	3	7
68	Understanding diagnostic error: looking beyond diagnostic accuracy. <i>Diagnosis</i> , 2015 , 2, 205-209	4.2	2
67	Emotion and coping in the aftermath of medical error: a cross-country exploration. <i>Journal of Patient Safety</i> , 2015 , 11, 28-35	1.9	56
66	Can staff and patient perspectives on hospital safety predict harm-free care? An analysis of staff and patient survey data and routinely collected outcomes. <i>BMJ Quality and Safety</i> , 2015 , 24, 369-76	5.4	42
65	Patients as teachers: a randomised controlled trial on the use of personal stories of harm to raise awareness of patient safety for doctors in training. <i>BMJ Quality and Safety</i> , 2015 , 24, 21-30	5.4	21

64	How is the positive deviance approach applied within healthcare organizations? A systematic review of methods used. <i>BMC Health Services Research</i> , 2014 , 14,	2.9	8
63	Are incremental changes in physical activity and sedentary behaviours associated with improved employee health?. <i>International Journal of Workplace Health Management</i> , 2014 , 7, 16-39	1.3	5
62	Using a patient-generated mental-health measure 'PSYCHLOPS' to explore problems in patients with coronary heart disease. <i>British Journal of General Practice</i> , 2014 , 64, e354-63	1.6	5
61	Evaluating the PRASE patient safety intervention - a multi-centre, cluster trial with a qualitative process evaluation: study protocol for a randomised controlled trial. <i>Trials</i> , 2014 , 15, 420	2.8	19
60	Collaborating with front-line healthcare professionals: the clinical and cost effectiveness of a theory based approach to the implementation of a national guideline. <i>BMC Health Services Research</i> , 2014 , 14, 648	2.9	17
59	Mentorship for newly appointed consultants: what makes it work?. <i>Postgraduate Medical Journal</i> , 2014 , 90, 439-45	2	17
58	Positive deviance: a different approach to achieving patient safety. <i>BMJ Quality and Safety</i> , 2014 , 23, 880-3	5.4	93
57	Exploring day-to-day dynamics of daily stressor appraisals, physical symptoms and the cortisol awakening response. <i>Psychoneuroendocrinology</i> , 2014 , 50, 130-8	5	43
56	Investigating the effects of conscientiousness on daily stress, affect and physical symptom processes: a daily diary study. <i>British Journal of Health Psychology</i> , 2014 , 19, 311-28	8.3	19
55	Mentorship for newly appointed physicians: a strategy for enhancing patient safety?. <i>Journal of Patient Safety</i> , 2014 , 10, 159-67	1.9	7
54	Doctors' experiences of adverse events in secondary care: the professional and personal impact. <i>Clinical Medicine</i> , 2014 , 14, 585-90	1.9	47
53	Exploring the question-behaviour effect: randomized controlled trial of motivational and question-behaviour interventions. <i>British Journal of Health Psychology</i> , 2013 , 18, 31-44	8.3	20
52	Development and initial validation of the determinants of physical activity questionnaire. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2013 , 10, 74	8.4	41
51	Moderating effect of socioeconomic status on the relationship between health cognitions and behaviors. <i>Annals of Behavioral Medicine</i> , 2013 , 46, 19-30	4.5	40
50	Study protocol: A cluster randomised controlled trial of implementation intentions to reduce smoking initiation in adolescents. <i>BMC Public Health</i> , 2013 , 13, 54	4.1	7
49	The demonstration of a theory-based approach to the design of localized patient safety interventions. <i>Implementation Science</i> , 2013 , 8, 123	8.4	38
48	Development of a theory-based instrument to identify barriers and levers to best hand hygiene practice among healthcare practitioners. <i>Implementation Science</i> , 2013 , 8, 111	8.4	42
47	Development and initial validation of the Influences on Patient Safety Behaviours Questionnaire. <i>Implementation Science</i> , 2013 , 8, 81	8.4	34

46	Most doctors have negative experiences of reporting incidents. <i>BMJ, The</i> , 2013 , 347, f6714	5.9	
45	Reviewing studies with diverse designs: the development and evaluation of a new tool. <i>Journal of Evaluation in Clinical Practice</i> , 2012 , 18, 746-52	2.5	321
44	Employing an extended Theory of Planned Behaviour to predict breastfeeding intention, initiation, and maintenance in White British and South-Asian mothers living in Bradford. <i>British Journal of Health Psychology</i> , 2012 , 17, 854-71	8.3	46
43	Identifying the latent failures underpinning medication administration errors: an exploratory study. <i>Health Services Research</i> , 2012 , 47, 1437-59	3.4	31
42	A pilot randomised controlled trial of personalised care for depressed patients with symptomatic coronary heart disease in South London general practices: the UPBEAT-UK RCT protocol and recruitment. <i>BMC Psychiatry</i> , 2012 , 12, 58	4.2	11
41	The effects of conscientiousness on the appraisals of daily stressors. <i>Stress and Health</i> , 2012 , 28, 80-6	3.7	18
40	Randomized controlled trial of collaborative implementation intentions targeting working adults' physical activity. <i>Health Psychology</i> , 2012 , 31, 486-95	5	108
39	Training and action for patient safety: embedding interprofessional education for patient safety within an improvement methodology. <i>Journal of Continuing Education in the Health Professions</i> , 2012 , 32, 80-9	2.1	19
38	Safety subcultures in health-care organizations and managing medical error. <i>Health Services Management Research</i> , 2012 , 25, 16-23	1	7
37	The impact of theory on the effectiveness of worksite physical activity interventions: a meta-analysis and meta-regression. <i>Health Psychology Review</i> , 2012 , 6, 33-73	7.1	131
36	Development of an evidence-based framework of factors contributing to patient safety incidents in hospital settings: a systematic review. <i>BMJ Quality and Safety</i> , 2012 , 21, 369-80	5.4	166
35	Using vignettes to explore judgements of patients about safety and quality of care: the role of outcome and relationship with the care provider. <i>Health Expectations</i> , 2011 , 14, 296-306	3.7	7
34	Up-beat UK: a programme of research into the relationship between coronary heart disease and depression in primary care patients. <i>BMC Family Practice</i> , 2011 , 12, 38	2.6	23
33	Patient involvement in patient safety: Protocol for developing an intervention using patient reports of organisational safety and patient incident reporting. <i>BMC Health Services Research</i> , 2011 , 11, 130	2.9	25
32	Changing exercise through targeting affective or cognitive attitudes. <i>Psychology and Health</i> , 2011 , 26, 133-49	2.9	159
31	Does the use of a theoretical approach tell us more about hand hygiene behaviour? The barriers and levers to hand hygiene. <i>Journal of Infection Prevention</i> , 2011 , 12, 17-24	1.1	84
30	Testing new devices to help prevent 'misconnection' errors in health care. <i>Journal of Health Services Research and Policy</i> , 2010 , 15 Suppl 1, 79-82	2.4	1
29	Coping with medical error: a systematic review of papers to assess the effects of involvement in medical errors on healthcare professionals' psychological well-being. <i>BMJ Quality and Safety</i> , 2010 , 19, e43	5.4	56

28	Medical error in the hospice setting: exploring the perspectives of management staff. <i>International Journal of Palliative Nursing</i> , 2010 , 16, 377-86	0.9	4
27	Physical activity and adolescents: an exploratory randomized controlled trial investigating the influence of affective and instrumental text messages. <i>British Journal of Health Psychology</i> , 2010 , 15, 825-40	8.3	137
26	An engineered solution to the maladministration of spinal injections. <i>Quality and Safety in Health Care</i> , 2009 , 18, 492-5		9
25	Distress in patients with interstitial cystitis: Do illness representations have a role to play?. <i>Psychology, Health and Medicine</i> , 2009 , 14, 726-39	2.1	2
24	Attitudes to patient safety amongst medical students and tutors: Developing a reliable and valid measure. <i>Medical Teacher</i> , 2009 , 31, e370-6	3	63
23	Raising awareness of hypertension risk through a web-based framing intervention: does consideration of future consequences make a difference?. <i>Psychology, Health and Medicine</i> , 2009 , 14, 213-9	2.1	28
22	Desire or reason: predicting health behaviors from affective and cognitive attitudes. <i>Health Psychology</i> , 2009 , 28, 56-65	5	287
21	Crossing two types of implementation intentions with a protection motivation intervention for the reduction of saturated fat intake: a randomized trial. <i>Social Science and Medicine</i> , 2008 , 67, 1550-8	5.1	43
20	The role of message framing in promoting MMR vaccination: evidence of a loss-frame advantage. <i>Psychology, Health and Medicine</i> , 2008 , 13, 1-16	2.1	122
19	The impact of thin models in music videos on adolescent girls' body dissatisfaction. <i>Body Image</i> , 2007 , 4, 137-45	7.4	64
18	Application of the theory of planned behaviour to the prediction of objectively assessed breaking of posted speed limits. <i>British Journal of Psychology</i> , 2007 , 98, 429-53	4	112
17	Beyond cognition: predicting health risk behaviors from instrumental and affective beliefs. <i>Health Psychology</i> , 2007 , 26, 259-67	5	106
16	Individual and collaborative implementation intentions and the promotion of breast self-examination. <i>Psychology and Health</i> , 2005 , 20, 743-760	2.9	98
15	A systems analysis of the Ladbroke Grove rail crash. <i>Accident Analysis and Prevention</i> , 2005 , 37, 235-44	6.1	38
