#	ARTICLE	IF	CITATIONS
1	Laboratory-based diagnosis of scabies: a review of the current status. Transactions of the Royal Society of Tropical Medicine and Hygiene, 2022, 116, 4-9.	0.7	4
2	Sporotrichosis: hyperendemic by zoonotic transmission, with atypical presentations, hypersensitivity reactions and greater severity. Anais Brasileiros De Dermatologia, 2022, 97, 1-13.	0.5	19
3	Tinea capitis with multiple isolates: The interaction of nature, animal and child. Pediatric Dermatology, 2022, , .	0.5	1
4	Estimating the global burden of scabies: what else do we need?*. British Journal of Dermatology, 2021, 184, 237-242.	1.4	23
5	A systematic review of worldwide data on tinea capitis: analysis of the last 20 years. Journal of the European Academy of Dermatology and Venereology, 2021, 35, 844-883.	1.3	36
6	Mycetoma " a history of the first contributions to the description of the disease and its pathogenesis. Transactions of the Royal Society of Tropical Medicine and Hygiene, 2021, 115, 283-286.	0.7	0
7	Mycetoma and the Community Dermatology Program, Mexico. Transactions of the Royal Society of Tropical Medicine and Hygiene, 2021, 115, 383-386.	0.7	4
8	Mycetoma in Moshi, Tanzania. Transactions of the Royal Society of Tropical Medicine and Hygiene, 2021, 115, 340-342.	0.7	0
9	Putting the burden of skin diseases on the global map. British Journal of Dermatology, 2021, 184, 189-190.	1.4	50
10	Emerging antifungal treatment failure of dermatophytosis in Europe: take care or it may become endemic. Journal of the European Academy of Dermatology and Venereology, 2021, 35, 1582-1586.	1.3	54
11	British Association of Dermatologists guidelines for the management of people with rosacea 2021*. British Journal of Dermatology, 2021, 185, 725-735.	1.4	20
12	Identifying gaps in global health dermatology: a survey of GLODERM members. British Journal of Dermatology, 2021, 185, 212-214.	1.4	3
13	Evaluating the World Health Organization Model List of Essential Medicines for skin disease. British Journal of Dermatology, 2021, 185, 451-453.	1.4	5
14	Tinea capitis asymptomatic carriers: what is the evidence behind treatment?. Journal of the European Academy of Dermatology and Venereology, 2021, 35, 2199-2207.	1.3	9
15	Mycetoma " a long journey out of the shadows. Transactions of the Royal Society of Tropical Medicine and Hygiene, 2021, 115, 281-282.	0.7	9
16	A viral rash: the impact of COVID-19 infection on the skin. British Journal of Dermatology, 2020, 183, 1-2.	1.4	6
17	The 2020 International Alliance for the Control of Scabies Consensus Criteria for the Diagnosis of Scabies. British Journal of Dermatology, 2020, 183, 808-820.	1.4	137
18	Skin Disease in the Tropics and the Lessons that can be Learned from Leprosy and Other Neglected Diseases. Acta Dermato-Venereologica, 2020, 100, adv00113-241.	0.6	5

#	ARTICLE	IF	CITATIONS
19	A survey among dermatologists: diagnostics of superficial fungal infections – what is used and what is needed to initiate therapy and assess efficacy?. <i>Journal of the European Academy of Dermatology and Venereology</i> , 2019, 33, 421-427.	1.3	26
20	Cutaneous candidiasis – an evidence-based review of topical and systemic treatments to inform clinical practice. <i>Journal of the European Academy of Dermatology and Venereology</i> , 2019, 33, 1863-1873.	1.3	50
21	The Diagnosis of Fungal Neglected Tropical Diseases (Fungal NTDs) and the Role of Investigation and Laboratory Tests: An Expert Consensus Report. <i>Tropical Medicine and Infectious Disease</i> , 2019, 4, 122.	0.9	38
22	Skin-Related Neglected Tropical Diseases (Skin NTDs) – A New Challenge. <i>Tropical Medicine and Infectious Disease</i> , 2019, 4, 4.	0.9	14
23	Global health dermatology: building community, gaining momentum. <i>British Journal of Dermatology</i> , 2019, 180, 1279-1280.	1.4	7
24	Reply to the comment from Narang et al . on recalcitrant dermatophytosis. <i>Journal of the European Academy of Dermatology and Venereology</i> , 2019, 33, e393-e394.	1.3	2
25	Severe dermatophytosis in solid organ transplant recipients: A French retrospective series and literature review. <i>Transplant Infectious Disease</i> , 2018, 20, e12799.	0.7	44
26	Mycetoma: The Spectrum of Clinical Presentation. <i>Tropical Medicine and Infectious Disease</i> , 2018, 3, 97.	0.9	55
27	Skin disease prevalence study in schoolchildren in rural Côte d'Ivoire: Implications for integration of neglected skin diseases (skin NTDs). <i>PLoS Neglected Tropical Diseases</i> , 2018, 12, e0006489.	1.3	57
28	Therapy of Skin, Hair and Nail Fungal Infections. <i>Journal of Fungi (Basel, Switzerland)</i> , 2018, 4, 99.	1.5	64
29	The global burden of scabies: a cross-sectional analysis from the Global Burden of Disease Study 2015. <i>Lancet Infectious Diseases</i> , The, 2017, 17, 1247-1254.	4.6	173
30	Staphylococcus aureus and psoriasis: time for a re-appraisal?. <i>British Journal of Dermatology</i> , 2017, 177, 894-895.	1.4	1
31	Candida infections and interleukin-17 inhibitors used in dermatology. <i>British Journal of Dermatology</i> , 2017, 177, 10-11.	1.4	3
32	Tinea Capitis: Current Status. <i>Mycopathologia</i> , 2017, 182, 87-93.	1.3	149
33	Integrated Control and Management of Neglected Tropical Skin Diseases. <i>PLoS Neglected Tropical Diseases</i> , 2017, 11, e0005136.	1.3	116
34	Severe Dermatophytosis and Acquired or Innate Immunodeficiency: A Review. <i>Journal of Fungi (Basel)</i> , 2017, 3, 15.	1.5	84
35	The prevalence of <i>Candida</i> onychomycosis in Southeastern Serbia from 2011 to 2015. <i>Mycoses</i> , 2016, 59, 167-172.	1.8	31
36	<i>Helicobacter cinaedi</i> – an emerging form of cellulitis. <i>British Journal of Dermatology</i> , 2016, 175, 13-14.	1.4	12

#	ARTICLE	IF	CITATIONS
37	The 2016 International League of Dermatological Societies' revised glossary for the description of cutaneous lesions. <i>British Journal of Dermatology</i> , 2016, 174, 1351-1358.	1.4	46
38	Skin NTDs: an opportunity for integrated care. <i>Transactions of the Royal Society of Tropical Medicine and Hygiene</i> , 2016, 110, 679-680.	0.7	11
39	Diagnosing dermatophytic infections in the molecular age. <i>British Journal of Dermatology</i> , 2016, 174, 483-484.	1.4	2
40	The global challenge for skin health. <i>British Journal of Dermatology</i> , 2015, 172, 1469-1472.	1.4	50
41	The International Foundation for Dermatology. <i>British Journal of Dermatology</i> , 2015, 172, 1466-1468.	1.4	2
42	Diagnosing dermatophyte infections in the molecular age. <i>British Journal of Dermatology</i> , 2015, 173, 1368-1369.	1.4	0
43	Dermatomycoses and inflammation: The adaptive balance between growth, damage, and survival. <i>Journal De Mycologie Medicale</i> , 2015, 25, e44-e58.	0.7	81
44	Why should we care if onychomycosis is truly onychomycosis?. <i>British Journal of Dermatology</i> , 2015, 172, 316-317.	1.4	4
45	The global burden of psoriatic skin disease. <i>British Journal of Dermatology</i> , 2015, 172, 1665-1668.	1.4	64
46	Mycetoma, Mycoses and Pregnancy. <i>Acta Dermato-Venereologica</i> , 2015, 95, 259-260.	0.6	1
47	Mycetoma: an old and still neglected tropical disease. <i>Transactions of the Royal Society of Tropical Medicine and Hygiene</i> , 2015, 109, 169-170.	0.7	30
48	The global burden of disease associated with alopecia areata. <i>British Journal of Dermatology</i> , 2015, 172, 1424-1426.	1.4	10
49	Global burden of skin disease in the elderly: a grand challenge to skin health. <i>Giornale Italiano Di Dermatologia E Venereologia</i> , 2015, 150, 693-8.	0.8	7
50	Preventing cellulitis: where next?. <i>British Journal of Dermatology</i> , 2014, 171, 1304-1306.	1.4	0
51	<i>Demodex</i> and skin disease - false creation or palpable form?. <i>British Journal of Dermatology</i> , 2014, 170, 1214-1215.	1.4	2
52	Global dermatology: more than the sum of its parts. <i>British Journal of Dermatology</i> , 2014, 171, 923-925.	1.4	2
53	A new approach to the diagnosis and study of <i>M</i> alassezia infections. <i>British Journal of Dermatology</i> , 2014, 170, 234-234.	1.4	2
54	Superficial fungal infections. <i>Medicine</i> , 2013, 41, 716-718.	0.2	18

#	ARTICLE	IF	CITATIONS
55	Toward the Global Control of Human Scabies: Introducing the International Alliance for the Control of Scabies. <i>PLoS Neglected Tropical Diseases</i> , 2013, 7, e2167.	1.3	135
56	<i>Staphylococcus aureus</i> and recurrent furunculosis: a growing hidden menace?. <i>British Journal of Dermatology</i> , 2012, 167, 707-708.	1.4	0
57	The diagnosis and management of tinea. <i>BMJ</i> , The, 2012, 345, e4380-e4380.	3.0	92
58	Scabies in the developing world—its prevalence, complications, and management. <i>Clinical Microbiology and Infection</i> , 2012, 18, 313-323.	2.8	227
59	Managing skin disease in resource-poor environments—the role of community-oriented training and control programs. <i>International Journal of Dermatology</i> , 2011, 50, 558-563.	0.5	27
60	<i>Malassezia</i> , dandruff and seborrhoeic dermatitis: an overview. <i>British Journal of Dermatology</i> , 2011, 165, 2-8.	1.4	103
61	Eumycotic mycetoma caused by <i>Madurella mycetomatis</i> successfully treated with antifungals, surgery, and topical negative pressure therapy. <i>International Journal of Dermatology</i> , 2009, 48, 401-403.	0.5	18
62	Scabies and pyodermas - diagnosis and treatment. <i>Dermatologic Therapy</i> , 2009, 22, 466-474.	0.8	20
63	The future of onychomycosis therapy may involve a combination of approaches. <i>British Journal of Dermatology</i> , 2008, 145, 3-8.	1.4	23
64	New evidence for the efficacy of combination therapy in onychomycosis. <i>British Journal of Dermatology</i> , 2008, 145, 1-1.	1.4	0
65	Chronic lymphocytic leukaemia skin infiltrates affecting prominent parts of the face and the scalp. <i>British Journal of Dermatology</i> , 2006, 154, 981-982.	1.4	24
66	Diffuse plane xanthomatosis and acquired palmoplantar keratoderma in association with myeloma. <i>British Journal of Dermatology</i> , 2006, 132, 286-289.	1.4	19
67	A comparison of 2 weeks of terbinafine 250 mg/day with 4 weeks of itraconazole 100 mg/day in planter-type tinea pedis. <i>British Journal of Dermatology</i> , 2006, 132, 604-608.	1.4	28
68	Definition of an algorithm for the management of common skin diseases at primary health care level in sub-Saharan Africa. <i>Transactions of the Royal Society of Tropical Medicine and Hygiene</i> , 2005, 99, 39-47.	0.7	105
69	Literature review. <i>Journal of the European Academy of Dermatology and Venereology</i> , 2005, 19, 1-7.	1.3	64
70	Could proximal white subungual onychomycosis be a complication of systemic spread? The lessons to be learned from <i>Maladie Dermatophytique</i> and other deep infections. <i>British Journal of Dermatology</i> , 2005, 153, 1023-1025.	1.4	27
71	Quality of life and disease severity are correlated in children with atopic dermatitis. <i>British Journal of Dermatology</i> , 2004, 150, 284-290.	1.4	174
72	Onychomycosis: the development of a clinical diagnostic aid for toenail disease. Part I. Establishing discriminating historical and clinical features. <i>British Journal of Dermatology</i> , 2004, 150, 701-705.	1.4	49

#	ARTICLE	IF	CITATIONS
73	The International Foundation for Dermatology: an exemplar of the increasingly diverse activities of the International League of Dermatological Societies. <i>British Journal of Dermatology</i> , 2004, 150, 747-749.	1.4	13
74	Observer agreement in recording the clinical signs of nail disease and the accuracy of a clinical diagnosis of fungal and non-fungal nail disease. <i>British Journal of Dermatology</i> , 2003, 148, 558-562.	1.4	30
75	Paracoccidioides brasiliensis 87-kilodalton Antigen, a Heat Shock Protein Useful in Diagnosis: Characterization, Purification, and Detection in Biopsy Material via Immunohistochemistry. <i>Journal of Clinical Microbiology</i> , 2002, 40, 359-365.	1.8	35
76	PRODUCTION OF MONOCLONAL ANTIBODIES FOR THE RAPID DIAGNOSIS OF TINEA CAPITIS INFECTIONS. <i>Mycoses</i> , 2002, 45, 5-5.	1.8	0
77	PARACOCCIDIOIDES BRASILIENSIS 87KDA ANTIGEN, A HEAT SHOCK PROTEIN USEFUL IN DIAGNOSIS OF PARACOCCIDIOIDO-MYCOSIS. <i>Mycoses</i> , 2002, 45, 12-13.	1.8	0
78	COMBINATION THERAPY IN DERMATOMYCOSES. <i>Mycoses</i> , 2002, 45, 23-23.	1.8	0
79	PRODUCTION OF PHASE SPECIFIC MONOCLONAL ANTIBODIES TO PENICILLIUM MARNEFFEI AND THEIR USE IN DIAGNOSIS. <i>Mycoses</i> , 2002, 45, 49-49.	1.8	2
80	A randomized comparison of 4 weeks of terbinafine vs. 8 weeks of griseofulvin for the treatment of tinea capitis. <i>British Journal of Dermatology</i> , 2001, 144, 321-327.	1.4	88
81	Eumycetoma due to <i>Madurella mycetomatis</i> acquired in Jamaica. <i>British Journal of Dermatology</i> , 2001, 145, 1018-1021.	1.4	15
82	Tinea capitis in Europe: new perspective on an old problem. <i>Journal of the European Academy of Dermatology and Venereology</i> , 2001, 15, 229-233.	1.3	110
83	The future of onychomycosis therapy may involve a combination of approaches. <i>British Journal of Dermatology</i> , 2001, 145 Suppl 60, 3-8.	1.4	14
84	Therapeutic potential of terbinafine in subcutaneous and systemic mycoses. <i>British Journal of Dermatology</i> , 1999, 141, 36-40.	1.4	76
85	The management of superficial candidiasis. <i>Journal of the American Academy of Dermatology</i> , 1999, 40, S35-S42.	0.6	54
86	Medical Education and Dermatology. <i>Journal of Dermatology</i> , 1999, 26, 706-710.	0.6	0
87	New developments in antifungals. <i>International Journal of Dermatology</i> , 1999, 38 Suppl 2, 65-9.	0.5	2
88	Dermatology in southwestern Ethiopia: rationale for a community approach. <i>International Journal of Dermatology</i> , 1998, 37, 752-758.	0.5	85
89	Do today's therapies provide perfect solutions to fungal skin infections?. <i>Journal of Dermatological Treatment</i> , 1998, 9, S17-S21.	1.1	3
90	The impact of onychomycosis on quality of life. <i>Clinical and Experimental Dermatology</i> , 1997, 22, 87-89.	0.6	44

#	ARTICLE	IF	CITATIONS
91	Eczematous reactions to human immune globulin. <i>British Journal of Dermatology</i> , 1997, 137, 481-482.	1.4	31
92	Can school teachers improve the management and prevention of skin disease? A pilot study based on head louse infestations in Guerrero, Mexico. <i>International Journal of Dermatology</i> , 1997, 36, 826-830.	0.5	21
93	Chronic mucocutaneous candidosis associated with hypothyroidism: a distinct syndrome?. <i>British Journal of Dermatology</i> , 1997, 136, 24-29.	1.4	17
94	Dermatology quality of life scales -a measure of the impact of skin diseases. <i>British Journal of Dermatology</i> , 1997, 136, 202-206.	1.4	69
95	Dandruff and seborrhoeic dermatitis: causes and management. <i>Clinical and Experimental Dermatology</i> , 1997, 22, 2-6.	0.6	102
96	YEAST INFECTIONS. <i>Dermatologic Clinics</i> , 1996, 14, 113-124.	1.0	16
97	Tinea capitis in south-east London-a new pattern of infection with public health implications. <i>British Journal of Dermatology</i> , 1996, 135, 955-958.	1.4	131
98	Validation of the U.K. diagnostic criteria for atopic dermatitis in a population setting. <i>British Journal of Dermatology</i> , 1996, 135, 12-17.	1.4	124
99	A case of giant bathing trunk naevus with neurofibroma-like change. <i>Clinical and Experimental Dermatology</i> , 1996, 21, 167-169.	0.6	7
100	Purification and partial characterization of the Cu, Zn superoxide dismutase from the dermatophyte <i>Trichophyton mentagrophytes</i> var. <i>interdigitale</i> . <i>Clinical and Experimental Dermatology</i> , 1996, 21, 190-196.	0.6	7
101	Imported mucocutaneous leishmaniasis. <i>Clinical and Experimental Dermatology</i> , 1996, 21, 288-290.	0.6	21
102	Adherence of <i>Malassezia</i> isolates to human keratinocytes in vitro – a study of HIV-positive patients with seborrhoeic dermatitis. <i>British Journal of Dermatology</i> , 1995, 133, 537-541.	1.4	13
103	A protocol for recording the sign of flexural dermatitis in children. <i>British Journal of Dermatology</i> , 1995, 133, 941-949.	1.4	65
104	HIV disease and <i>Malassezia</i> yeasts: a quantitative study of patients presenting with seborrhoeic dermatitis. <i>British Journal of Dermatology</i> , 1995, 133, 694-698.	1.4	42
105	Confluent and reticulate papillomatosis of Gougerot and Carteaud clearing with minocycline. <i>Clinical and Experimental Dermatology</i> , 1994, 19, 343-345.	0.6	35
106	Epidemiology of fungal skin and nail disease: Roundtable Discussion held at Dermatology 2000, Vienna, 17 May 1993. <i>British Journal of Dermatology</i> , 1994, 130, 9-11.	1.4	22
107	The U.K. Working Party's Diagnostic Criteria for Atopic Dermatitis... <i>British Journal of Dermatology</i> , 1994, 131, 383-396.	1.4	990
108	The U.K. Working Party's Diagnostic Criteria for Atopic Dermatitis II. Observer variation of clinical diagnosis and signs of atopic dermatitis. <i>British Journal of Dermatology</i> , 1994, 131, 397-405.	1.4	241
