#	ARTICLE	IF	CITATIONS
1	Cognitive Triad and Depressive Symptoms in Adolescence: Specificity and Overlap. <i>Child Psychiatry and Human Development</i> , 2023, 54, 1209-1217.	1.9	4
2	Depressive Symptoms Among Adolescents: Testing Vulnerability-Stress and Protective Models in the Context of COVID-19. <i>Child Psychiatry and Human Development</i> , 2022, 53, 1372-1382.	1.9	12
3	Are negative views of the self, world and future, mediators of the relationship between subjective social status and depressive symptoms?. <i>Behavioural and Cognitive Psychotherapy</i> , 2022, 50, 122-126.	1.2	3
4	A Primer on Meta-Analytic Structural Equation Modeling: the Case of Depression. <i>Prevention Science</i> , 2022, 23, 346-365.	2.6	5
5	Does closeness to God mediate the relationship between prayer and mental health in Christian, Jewish, and Muslim samples?. <i>Mental Health, Religion and Culture</i> , 2022, 25, 99-112.	0.9	4
6	Association of cancer caregiver stress and negative attribution style with depressive symptoms and cortisol: a cross-sectional study. <i>Supportive Care in Cancer</i> , 2022, 30, 4945-4952.	2.2	4
7	The Associations Between Everyday Discrimination, Brooding, Reflection, and Symptoms of Depression in Adolescents. <i>Journal of Child and Family Studies</i> , 2022, 31, 1630-1644.	1.3	3
8	The Conceptualization of the Positive Cognitive Triad and Associations with Depressive Symptoms in Adolescents. <i>Child Psychiatry and Human Development</i> , 2021, 52, 903-915.	1.9	2
9	The Architecture of Cognitive Vulnerability to Depressive Symptoms in Adolescence: A Longitudinal Network Analysis Study. <i>Research on Child and Adolescent Psychopathology</i> , 2021, 49, 267-281.	2.3	7
10	Relations of cognitive styles, depressive symptoms, and blood pressure in community college students. <i>Journal of American College Health</i> , 2021, , 1-9.	1.5	1
11	Exploring the Relation between Adolescents' Number of Perceived Reasons for Discrimination and Depressive Symptoms. <i>Research on Child and Adolescent Psychopathology</i> , 2021, , 1.	2.3	0
12	Does frontal brain activity mediate the effect of depression prevention in adolescents? A pilot study. <i>International Journal of Psychology</i> , 2020, 55, 40-47.	2.8	1
13	Integrating Beck's Cognitive Theory of Depression and the Hopelessness Model in an Adolescent Sample. <i>Journal of Abnormal Child Psychology</i> , 2020, 48, 435-451.	3.5	10
14	Perceived Discrimination and Depressive Symptoms: Is the Cognitive Triad a Moderator or Mediator?. <i>Child and Youth Care Forum</i> , 2020, 49, 647-660.	1.6	3
15	Self-Referent Cognitions. , 2020, , 4789-4791.		0
16	Depressive Cognitive Triad. , 2020, , 1061-1062.		0
17	Depressive Schemata. , 2020, , 1062-1064.		0
18	Integrating the Hopelessness Model and the Response Style Theory in an Adolescent Sample. <i>Journal of Abnormal Child Psychology</i> , 2019, 47, 695-706.	3.5	5

#	ARTICLE	IF	CITATIONS
19	Measuring Reading Self-Perceptions and Enjoyment: Development and Psychometric Properties of the Reading and Me Survey. <i>Journal of Advanced Academics</i> , 2019, 30, 355-380.	1.1	2
20	Perceived Everyday Discrimination and Depressive Symptoms: Does Cognitive Style Mediate?. <i>Journal of Counseling and Development</i> , 2019, 97, 427-436.	2.4	6
21	Relations of Subjective Social Status and Brooding with Blood Pressure. <i>International Journal of Behavioral Medicine</i> , 2019, 26, 278-285.	1.7	6
22	Repetitive Negative Thinking, Depressive Symptoms, and Cortisol in Cancer Caregivers and Noncaregivers. <i>Oncology Nursing Forum</i> , 2019, 46, E202-E210.	1.2	2
23	Teaching Behavior and Emerging Adults's Depressive Symptoms: Effect of Perceived Observer-Model Similarity. <i>Journal of Child and Family Studies</i> , 2019, 28, 64-72.	1.3	2
24	The impact of cognitive styles and depressive symptoms on the relation between perceived everyday discrimination and blood pressure in adolescents.. <i>Translational Issues in Psychological Science</i> , 2019, 5, 335-345.	1.0	4
25	Associations between Social Support from Family, Friends, and Teachers and depressive Symptoms in Adolescents. <i>Journal of Youth and Adolescence</i> , 2018, 47, 398-412.	3.5	75
26	LARS&LISA: a universal school-based cognitive-behavioral program to prevent adolescent depression. <i>Psicologia: Reflexao E Critica</i> , 2018, 31, 23.	0.9	11
27	The Mediating Effects of Parentification on the Relation Between Parenting Behavior and Well-Being and Depressive Symptoms in Early Adolescents. <i>Journal of Child and Family Studies</i> , 2018, 27, 4044-4059.	1.3	20
28	Does Rumination Mediate the Association of Private Prayer, Stress, and Their Interaction with Depression among Christians? A Cross-Sectional Study. <i>Psychological Studies</i> , 2018, 63, 346-358.	1.0	2
29	Associations of depression status and hopelessness with breast cancer: A 24-year follow-up study. <i>Journal of Health Psychology</i> , 2017, 22, 1322-1331.	2.3	15
30	Associations between perceived teaching behaviours and affect in upper elementary school students. <i>Early Child Development and Care</i> , 2017, 187, 1795-1808.	1.3	4
31	Associations of depression status and hopelessness with blood pressure: a 24-year follow-up study. <i>Psychology, Health and Medicine</i> , 2017, 22, 761-771.	2.4	3
32	Can the Hopelessness Model of Depression and Response Style Theory Be Integrated?. <i>Journal of Counseling and Development</i> , 2017, 95, 180-191.	2.4	7
33	An investigation of African American and European American students' perception of teaching behavior. <i>Journal of School Psychology</i> , 2017, 65, 28-39.	2.9	4
34	Teaching Behavior and Positive and Negative Affect in High School Students: Does Students' Race Matter?. <i>School Mental Health</i> , 2017, 9, 334-346.	2.1	3
35	Prayer Type, Disclosure, and Mental Health Across Religious Groups. <i>Counseling and Values</i> , 2017, 62, 216-234.	0.6	5
36	Comparing Different Sequential Mediational Interpretations of Beck's Cognitive Model of Depression in Adolescents. <i>Journal of Youth and Adolescence</i> , 2017, 46, 725-743.	3.5	9

#	ARTICLE	IF	CITATIONS
37	Factor Structure and Psychometric Properties of the Cognitive Error Questionnaire in a Sample of Iranian College Students. <i>International Journal of Cognitive Therapy</i> , 2017, 10, 206-218.	2.2	0
38	Meta-analyses of cardiovascular reactivity to rumination: A possible mechanism linking depression and hostility to cardiovascular disease.. <i>Psychological Bulletin</i> , 2017, 143, 1378-1394.	6.1	35
39	Depression and (Hypo)mania. <i>Autism and Child Psychopathology Series</i> , 2017, , 363-381.	0.2	0
40	Repetitive Negative Thinking: The Link Between Caregiver Burden and Depressive Symptoms. <i>Oncology Nursing Forum</i> , 2017, 44, 210-216.	1.2	6
41	Understanding Student Drinking Patterns. <i>Journal of Drug Education</i> , 2016, 46, 82-95.	0.8	1
42	Associations Between Teacher-Reported School Climate and Depressive Symptoms in Australian Adolescents: A 5-Year Longitudinal Study. <i>School Mental Health</i> , 2016, 8, 425-440.	2.1	14
43	Self-Referent Cognitions. , 2016, , 1-3.		0
44	Poloma and Pendleton's (1989) Prayer Types Scale in Christian, Jewish, and Muslim praying adults: One scale or a family of scales?. <i>Psychology of Religion and Spirituality</i> , 2015, 7, 205-216.	1.3	7
45	Closeness and Control: Exploring the Relationship Between Prayer and Mental Health. <i>Counseling and Values</i> , 2015, 60, 164-185.	0.6	17
46	TEACHING BEHAVIOR QUESTIONNAIRE: VERIFYING FACTOR STRUCTURE AND INVESTIGATING DEPRESSIVE SYMPTOMS IN CATHOLIC MIDDLE AND HIGH SCHOOLS. <i>Psychology in the Schools</i> , 2015, 52, 892-905.	1.8	8
47	Do Depressive Symptoms Mediate the Relationship Between Hopelessness and Diurnal Cortisol Rhythm?. <i>International Journal of Behavioral Medicine</i> , 2015, 22, 251-257.	1.7	7
48	Do depressive symptoms predict the incidence of myocardial infarction independent of hopelessness?. <i>Journal of Health Psychology</i> , 2015, 20, 60-68.	2.3	11
49	Disclosure During Private Prayer as a Mediator Between Prayer Type and Mental Health in an Adult Christian Sample. <i>Journal of Religion and Health</i> , 2015, 54, 540-553.	1.7	18
50	Integrating Beck's Cognitive Model and the Response Style Theory in an Adolescent Sample. <i>Journal of Youth and Adolescence</i> , 2015, 44, 195-210.	3.5	17
51	Teachers or Psychologists: Who Should Facilitate Depression Prevention Programs in Schools?. <i>International Journal of Environmental Research and Public Health</i> , 2014, 11, 5294-5316.	2.6	23
52	Testing Three Different Sequential Mediation Interpretations of Beck's Cognitive Model of the Development of Depression. <i>Journal of Clinical Psychology</i> , 2014, 70, 72-94.	1.9	21
53	Do Trust-Based Beliefs Mediate the Associations of Frequency of Private Prayer with Mental Health? A Cross-Sectional Study. <i>Journal of Religion and Health</i> , 2014, 53, 904-916.	1.7	15
54	Teacher support mediates concurrent and longitudinal associations between temperament and mild depressive symptoms in sixth grade. <i>Early Child Development and Care</i> , 2014, 184, 803-818.	1.3	13

#	ARTICLE	IF	CITATIONS
55	The Combined Effects of Self-Referent Information Processing and Ruminative Responses on Adolescent Depression. <i>Journal of Youth and Adolescence</i> , 2013, 42, 1145-1154.	3.5	22
56	Hopelessness the "Active Ingredient"? Associations of Hopelessness and Depressive Symptoms with Interleukin-6. <i>International Journal of Psychiatry in Medicine</i> , 2013, 46, 109-117.	1.8	11
57	A randomized controlled trial of a cognitive-behavioral program for the prevention of depression in adolescents compared with nonspecific and no-intervention control conditions.. <i>Journal of Counseling Psychology</i> , 2013, 60, 432-438.	2.0	38
58	Assessments of Student-Teacher Relationships in Residential Treatment Center Schools. <i>Journal of Education for Students Placed at Risk</i> , 2013, 18, 193-211.	2.5	10
59	Associations between teacher emotional support and depressive symptoms in Australian adolescents: A 5-year longitudinal study.. <i>Developmental Psychology</i> , 2013, 49, 2135-2146.	1.6	53
60	Assessing depression in cancer patients - a longitudinal comparison of three questionnaires. <i>Annals of Palliative Medicine</i> , 2013, 2, 45-7.	1.2	0
61	Frontal brain activity pattern predicts depression in adolescent boys. <i>Biological Psychology</i> , 2012, 89, 525-527.	2.2	23
62	Costing program implementation using systematic reviews: interventions for the prevention of adolescent depression. <i>Research Synthesis Methods</i> , 2012, 3, 191-201.	8.7	4
63	Depression as a risk factor for breast cancer: investigating methodological limitations in the literature. <i>Cancer Causes and Control</i> , 2012, 23, 1223-1229.	1.8	25
64	Depression und Suizidalität im Kindes- und Jugendalter. , 2012, , 703-712.		0
65	A randomized trial to evaluate the course of effects of a program to prevent adolescent depressive symptoms over 12 months. <i>Behaviour Research and Therapy</i> , 2011, 49, 838-851.	3.1	35
66	Bidirectional relations of religious orientation and depressive symptoms in adolescents: A short-term longitudinal study.. <i>Psychology of Religion and Spirituality</i> , 2011, 3, 24-38.	1.3	20
