#	ARTICLE	IF	CITATIONS
1	Health care utilization following "e-digi-physical" assessment compared to physical assessment for infectious symptoms in primary care. , 2022, 23, 4.		4
2	Disparities in prevalence of heart failure according to age, multimorbidity level and socioeconomic status in southern Sweden: a cross-sectional study. <i>BMJ Open</i> , 2022, 12, e051997.	1.9	5
3	Low adherence to statin treatment during the 1st year after an acute myocardial infarction is associated with increased 2nd-year mortality risk"an inverse probability of treatment weighted study on 54%872 patients. <i>European Heart Journal - Cardiovascular Pharmacotherapy</i> , 2021, 7, 141-147.	3.0	26
4	Antibiotic Prescription Rates After eVisits Versus Office Visits in Primary Care: Observational Study. <i>JMIR Medical Informatics</i> , 2021, 9, e25473.	2.6	10
5	Medication-related hospital readmissions within 30 days of discharge"A retrospective study of risk factors in older adults. <i>PLoS ONE</i> , 2021, 16, e0253024.	2.5	14
6	Patients and Professionals as Partners in Hypertension Care: Qualitative Substudy of a Randomized Controlled Trial Using an Interactive Web-Based System Via Mobile Phone. <i>Journal of Medical Internet Research</i> , 2021, 23, e26143.	4.3	6
7	Lifetime Risk of Visual Impairment Resulting from Glaucoma in Patients Initially Followed up for Elevated Intraocular Pressure. <i>Ophthalmology Glaucoma</i> , 2020, 3, 60-65.	1.9	2
8	Medication Discrepancies in Discharge Summaries and Associated Risk Factors for Elderly Patients with Many Drugs. <i>Drugs - Real World Outcomes</i> , 2020, 7, 53-62.	1.6	24
9	PERson-centredness in hypertension management using information technology (PERHIT): a protocol for a randomised controlled trial in primary health care. <i>Blood Pressure</i> , 2020, 29, 149-156.	1.5	9
10	Risk factors for hospital readmission in older adults within 30%days of discharge " a comparative retrospective study. <i>BMC Geriatrics</i> , 2020, 20, 467.	2.7	50
11	Text message-based lifestyle intervention in primary care patients with hypertension: a randomized controlled pilot trial. <i>Scandinavian Journal of Primary Health Care</i> , 2020, 38, 300-307.	1.5	11
12	Experiences of digital communication with automated patient interviews and asynchronous chat in Swedish primary care: a qualitative study. <i>BMJ Open</i> , 2020, 10, e036585.	1.9	20
13	Use of potentially inappropriate medication and polypharmacy in older adults: a repeated cross-sectional study. <i>BMC Geriatrics</i> , 2020, 20, 73.	2.7	29
14	Human- Versus Machine Learning"Based Triage Using Digitalized Patient Histories in Primary Care: Comparative Study. <i>JMIR Medical Informatics</i> , 2020, 8, e18930.	2.6	9
15	Health Care Staff"Ms Experiences of Engagement When Introducing a Digital Decision Support System for Wound Management: Qualitative Study. <i>JMIR Human Factors</i> , 2020, 7, e23188.	2.0	4
16	Primary care doctor fostering and clinical research training in Sweden: Implications for Japan. <i>Journal of General and Family Medicine</i> , 2019, 20, 4-8.	0.8	6
17	Importance of potentially inappropriate medications, number of chronic conditions and medications for the risk of hospitalisation in elderly in Sweden: a case"control study. <i>BMJ Open</i> , 2019, 9, e029477.	1.9	19
18	Use of non-benzodiazepine hypnotics is associated with falls in nursing home residents: a longitudinal cohort study. <i>Aging Clinical and Experimental Research</i> , 2019, 31, 1087-1095.	2.9	10

#	ARTICLE	IF	CITATIONS
19	The use of case management for community-dwelling older people: the effects on loneliness, symptoms of depression and life satisfaction in a randomised controlled trial. <i>Scandinavian Journal of Caring Sciences</i> , 2018, 32, 889-901.	2.1	66
20	Japan can learn from the Swedish primary care doctor fostering system. <i>Journal of General and Family Medicine</i> , 2018, 19, 183-184.	0.8	3
21	Active listing and more consultations in primary care are associated with shorter mean hospitalisation and interacting with psychiatric disorders when adjusting for multimorbidity, age and sex. <i>Scandinavian Journal of Primary Health Care</i> , 2018, 36, 308-316.	1.5	2
22	Elderly at risk in care transitions When discharge summaries are poorly transferred and used – a descriptive study. <i>BMC Health Services Research</i> , 2018, 18, 770.	2.2	19
23	Drugs, distrust and dialogue – a focus group study with Swedish GPs on discharge summary use in primary care. <i>BMC Family Practice</i> , 2018, 19, 127.	2.9	9
24	Sociodemographic Characteristics and Health Profile of the Elderly Seeking Health Care in Kampala, Uganda. <i>Current Gerontology and Geriatrics Research</i> , 2018, 2018, 1-9.	1.6	11
25	Women's Health in the Lund Area (WHILA) study. Health problems and acute myocardial infarction in women – A 17-year follow-up study. <i>Maturitas</i> , 2018, 115, 45-50.	2.4	10
26	Active listing and more consultations in primary care are associated with reduced hospitalisation in a Swedish population. <i>BMC Health Services Research</i> , 2018, 18, 101.	2.2	5
27	Effects of medication reviews on use of potentially inappropriate medications in elderly patients; a cross-sectional study in Swedish primary care. <i>BMC Health Services Research</i> , 2018, 18, 616.	2.2	41
28	Fall-risk-increasing drugs and falls requiring health care among older people with intellectual disability in comparison with the general population: A register study. <i>PLoS ONE</i> , 2018, 13, e0199218.	2.5	11
29	Risk factors and consequences of decreased kidney function in nursing home residents: A longitudinal study. <i>Geriatrics and Gerontology International</i> , 2017, 17, 791-797.	1.5	8
30	Use of antipsychotics, benzodiazepine derivatives, and dementia medication among older people with intellectual disability and/or autism spectrum disorder and dementia. <i>Research in Developmental Disabilities</i> , 2017, 62, 50-57.	2.2	22
31	Socioeconomic status and geographical factors associated with active listing in primary care: a cross-sectional population study accounting for multimorbidity, age, sex and primary care. <i>BMJ Open</i> , 2017, 7, e014984.	1.9	5
32	Effects of an intervention (SÄKLÄK) on prescription of potentially inappropriate medication in elderly patients. <i>Family Practice</i> , 2017, 34, 213-218.	1.9	10
33	Prevention in the elderly: A necessary priority for general practitioners. <i>European Journal of General Practice</i> , 2017, 23, 203-208.	2.0	16
34	Yoga – a laborious way to well-being: patients' experiences of yoga as a treatment for hypertension in primary care. <i>Scandinavian Journal of Primary Health Care</i> , 2017, 35, 360-368.	1.5	5
35	Use of Antipsychotic Drugs by Elderly Primary Care Patients and the Effects of Medication Reviews: A Cross-Sectional Study in Sweden. <i>Drugs - Real World Outcomes</i> , 2017, 4, 159-165.	1.6	5
36	Longitudinal trends in self-reported anxiety. Effects of age and birth cohort during 25 years. <i>BMC Psychiatry</i> , 2017, 17, 119.	2.6	41

#	ARTICLE	IF	CITATIONS
37	Prescription of potentially inappropriate medications among older people with intellectual disability: a register study. <i>BMC Pharmacology &amp; Toxicology</i> , 2017, 18, 68.	2.4	25
38	Trends in treatment with antipsychotic medication in relation to national directives, in people with dementia – a review of the Swedish context. <i>BMC Psychiatry</i> , 2017, 17, 251.	2.6	5
39	Factors related to falls, weight loss and pressure ulcers – more insight in risk assessment among nursing home residents. <i>Journal of Clinical Nursing</i> , 2016, 25, 940-950.	3.0	25
40	Being in a Bubble: the experience of loneliness among frail older people. <i>Journal of Advanced Nursing</i> , 2016, 72, 631-640.	3.3	50
41	Prevalence and predictive importance of anemia in Swedish nursing home residents – a longitudinal study. <i>BMC Geriatrics</i> , 2016, 16, 206.	2.7	10
42	Blood pressure and all-cause mortality: a prospective study of nursing home residents. <i>Age and Ageing</i> , 2016, 45, 826-832.	1.6	15
43	Safer drug use in primary care - a pilot intervention study to identify improvement needs and make agreements for change in five Swedish primary care units. <i>BMC Family Practice</i> , 2016, 17, 140.	2.9	10
44	Factors associated with increased hospitalisation risk among nursing home residents in Sweden: a prospective study with a three-year follow-up. <i>International Journal of Older People Nursing</i> , 2016, 11, 130-139.	1.3	25
45	Indication for pharmacological treatment is often lacking: a cross-sectional study on the quality of drug therapy among the elderly. <i>BMC Geriatrics</i> , 2015, 15, 117.	2.7	7
46	Healthcare system intervention for safer use of medicines in elderly patients in primary care – a qualitative study of the participants' perceptions of self-assessment, peer review, feedback and agreement for change. <i>BMC Family Practice</i> , 2015, 16, 117.	2.9	8
47	Women's health in the Lund area (WHILA) - Alcohol consumption and all-cause mortality among women – a 17-year follow-up study. <i>BMC Public Health</i> , 2015, 16, 22.	2.9	9
48	The longitudinal age and birth cohort trends of regular exercise among adults aged 16–63 years in Sweden: a 24-year follow-up study. <i>Population Health Metrics</i> , 2015, 13, 18.	2.7	4
49	Cost-utility analysis of case management for frail older people: effects of a randomised controlled trial. <i>Health Economics Review</i> , 2015, 5, 51.	2.0	22
50	Loneliness and health care consumption among older people. <i>Scandinavian Journal of Caring Sciences</i> , 2015, 29, 435-443.	2.1	71
51	It is meaningful; I feel that I can make a difference – A qualitative study about GPs' experiences of work at nursing homes in Sweden. <i>BMC Family Practice</i> , 2015, 16, 111.	2.9	13
52	Surgery for urinary incontinence in women 65 years and older: a systematic review. <i>International Urogynecology Journal</i> , 2015, 26, 1095-1102.	1.4	15
53	Longitudinal trends in good self-rated health: effects of age and birth cohort in a 25-year follow-up study in Sweden. <i>International Journal of Public Health</i> , 2015, 60, 363-373.	2.3	33
54	The effect of conservative treatment of urinary incontinence among older and frail older people: a systematic review. <i>Age and Ageing</i> , 2015, 44, 736-744.	1.6	40

#	ARTICLE	IF	CITATIONS
55	Yoga™s effect on inflammatory biomarkers and metabolic risk factors in a high risk population – a controlled trial in primary care. <i>BMC Cardiovascular Disorders</i> , 2015, 15, 91.	1.7	18
56	Effect of pharmacological treatment for urinary incontinence in the elderly and frail elderly: A systematic review. <i>Geriatrics and Gerontology International</i> , 2015, 15, 521-534.	1.5	45
57	The nutritional situation in Swedish nursing homes – A longitudinal study. <i>Archives of Gerontology and Geriatrics</i> , 2015, 60, 128-133.	3.0	36
58	Effects on healthcare utilization of case management for frail older people: A randomized controlled trial (RCT). <i>Archives of Gerontology and Geriatrics</i> , 2015, 60, 71-81.	3.0	26
59	Depressive symptoms among frail elderly in ordinary living: who is affected and who is treated?. <i>Aging and Mental Health</i> , 2014, 18, 1022-1028.	2.8	4
60	Is use of fall risk-increasing drugs in an elderly population associated with an increased risk of hip fracture, after adjustment for multimorbidity level: a cohort study. <i>BMC Geriatrics</i> , 2014, 14, 131.	2.7	72
61	Drugs prescribed by general practitioners according to age, gender and socioeconomic status after adjustment for multimorbidity level. <i>BMC Family Practice</i> , 2014, 15, 183.	2.9	12
62	Effects of a pharmacist-led structured medication review in primary care on drug-related problems and hospital admission rates: a randomized controlled trial. <i>Scandinavian Journal of Primary Health Care</i> , 2014, 32, 180-186.	1.5	81
63	Importance of healthcare utilization and multimorbidity level in choosing a primary care provider in Sweden. <i>Scandinavian Journal of Primary Health Care</i> , 2014, 32, 99-105.	1.5	12
64	Vitamin D deficiency in elderly people in Swedish nursing homes is associated with increased mortality. <i>European Journal of Endocrinology</i> , 2014, 170, 667-675.	3.7	42
65	Fighting for control in an unpredictable life – a qualitative study of older persons™ experiences of living with chronic dizziness. <i>BMC Geriatrics</i> , 2014, 14, 97.	2.7	16
66	The longitudinal exercise trend among older Swedes aged 53–84 years – a 16-year follow-up study. <i>BMC Public Health</i> , 2014, 14, 1327.	2.9	10
67	Swedish general practitioners™ attitudes towards treatment guidelines – a qualitative study. <i>BMC Family Practice</i> , 2014, 15, 199.	2.9	13
68	Depression and use of antidepressants in Swedish nursing homes: a 12-month follow-up study. <i>International Psychogeriatrics</i> , 2014, 26, 669-675.	1.0	13
69	Case management for frail older people – a qualitative study of receivers™ and providers™ experiences of a complex intervention. <i>BMC Health Services Research</i> , 2014, 14, 14.	2.2	55
70	The rate and nature of medication errors among elderly upon admission to hospital after implementation of clinical pharmacist-led medication reconciliation. <i>European Journal of Hospital Pharmacy</i> , 2014, 21, 156-160.	1.1	6
71	Fall risk-increasing drugs and falls: a cross-sectional study among elderly patients in primary care. <i>BMC Geriatrics</i> , 2014, 14, 40.	2.7	113
72	Can gender difference in prescription drug use be explained by gender-related morbidity?: a study on a Swedish population during 2006. <i>BMC Public Health</i> , 2014, 14, 329.	2.9	16

#	ARTICLE	IF	CITATIONS
73	Effects of a One-Year Home-Based Case Management Intervention on Falls in Older People: A Randomized Controlled Trial. <i>Journal of Aging and Physical Activity</i> , 2014, 22, 457-464.	1.0	18
74	Swedish hunters' safety behaviour and experience of firearm incidents. <i>Accident Analysis and Prevention</i> , 2013, 60, 64-70.	5.7	6
75	Longitudinal age-and cohort trends in body mass index in Sweden – a 24-year follow-up study. <i>BMC Public Health</i> , 2013, 13, 893.	2.9	34
76	Impact of yoga on blood pressure and quality of life in patients with hypertension – a controlled trial in primary care, matched for systolic blood pressure. <i>BMC Cardiovascular Disorders</i> , 2013, 13, 111.	1.7	51
77	Prevalence and treatment of heart failure in Swedish nursing homes. <i>BMC Geriatrics</i> , 2013, 13, 118.	2.7	9
78	Prevalence and predictors of falls and dizziness in people younger and older than 80 years of age – A longitudinal cohort study. <i>Archives of Gerontology and Geriatrics</i> , 2013, 56, 160-168.	3.0	49
79	In-hospital medication reviews reduce unidentified drug-related problems. <i>European Journal of Clinical Pharmacology</i> , 2013, 69, 647-655.	1.9	38
80	Improving the Quality of Pharmacotherapy in Elderly Primary Care Patients Through Medication Reviews: A Randomised Controlled Study. <i>Drugs and Aging</i> , 2013, 30, 235-246.	2.7	120
81	Low level of antimicrobial resistance in <i>Escherichia coli</i> among Swedish nursing home residents. <i>Scandinavian Journal of Infectious Diseases</i> , 2013, 45, 117-123.	1.5	8
82	Theory-based interventions to reduce prescription of antibiotics—a randomized controlled trial in Sweden. <i>Family Practice</i> , 2013, 30, 634-640.	1.9	9
83	The hospital LMM-based clinical pharmacy service improves the quality of the patient medication process and saves time. <i>European Journal of Hospital Pharmacy</i> , 2012, 19, 375-377.	1.1	11
84	Colonization with <i>Staphylococcus aureus</i> in Swedish nursing homes: A cross-sectional study. <i>Scandinavian Journal of Infectious Diseases</i> , 2012, 44, 3-8.	1.5	7
85	Lack of adherence to hypertension treatment guidelines among GPs in southern Sweden—A case report-based survey. <i>BMC Family Practice</i> , 2012, 13, 34.	2.9	10
86	Frail elderly patients' experiences of information on medication. A qualitative study. <i>BMC Geriatrics</i> , 2012, 12, 46.	2.7	35
87	GP's Adherence to Guidelines for Cardiovascular Disease among Elderly: A Quality Development Study. <i>Scientific World Journal</i> , The, 2012, 2012, 1-7.	2.1	11
88	Acceptance and importance of clinical pharmacists' LMM-based recommendations. <i>International Journal of Clinical Pharmacy</i> , 2012, 34, 272-276.	2.1	33
89	Prevalence and predictors of healthcare utilization among older people (60+): Focusing on ADL dependency and risk of depression. <i>Archives of Gerontology and Geriatrics</i> , 2012, 54, e349-e363.	3.0	20
90	The effect of medication reconciliation in elderly patients at hospital discharge. <i>International Journal of Clinical Pharmacy</i> , 2012, 34, 113-119.	2.1	39

#	ARTICLE	IF	CITATIONS
91	How can we Improve Drug Safety When Treating Frail Elderly Patients?. <i>Advances in Pharmacoepidemiology &amp; Drug Safety</i> , 2012, 01, .	0.1	0
92	The process of identifying, solving and preventing drug related problems in the L IMM-study. <i>International Journal of Clinical Pharmacy</i> , 2011, 33, 1010-1018.	2.1	36
93	Impact of the Lund Integrated Medicines Management (L IMM) model on medication appropriateness and drug-related hospital revisits. <i>European Journal of Clinical Pharmacology</i> , 2011, 67, 741-752.	1.9	130
94	The assessment of renal function in relation to the use of drugs in elderly in nursing homes; a cohort study. <i>BMC Geriatrics</i> , 2011, 11, 1.	2.7	108
95	Psychosocial perspectives on health care utilization among frail elderly people: An explorative study. <i>Archives of Gerontology and Geriatrics</i> , 2011, 52, 290-294.	3.0	15
96	How to assess frailty and the need for care? Report from the Study of Health and Drugs in the Elderly (SHADES) in community dwellings in Sweden. <i>Archives of Gerontology and Geriatrics</i> , 2011, 53, 40-45.	3.0	56
97	Healthcare utilisation and knowledge concerning prescribed drugs among older people. <i>European Journal of Clinical Pharmacology</i> , 2010, 66, 1047-1054.	1.9	6
98	Case managers for frail older people: a randomised controlled pilot study. <i>Scandinavian Journal of Caring Sciences</i> , 2010, 24, 755-763.	2.1	17
99	Frail elderly patients in primary care—their medication knowledge and beliefs about prescribed medicines. <i>European Journal of Clinical Pharmacology</i> , 2009, 65, 151-155.	1.9	54
100	Improved quality in the hospital discharge summary reduces medication errors—L IMM: Landskrona Integrated Medicines Management. <i>European Journal of Clinical Pharmacology</i> , 2009, 65, 1037-1046.	1.9	90
101	A multi-intervention approach on drug therapy can lead to a more appropriate drug use in the elderly. L IMM—Landskrona Integrated Medicines Management. <i>Journal of Evaluation in Clinical Practice</i> , 2009, 15, 660-667.	1.8	61
102	<i>Aging and Drugs</i> , 2009, , 1-7.		2
103	<i>Strategies and Interventions for Improvement</i> , 2009, , 119-127.		0
104	<i>Quality of Care in the Elderly</i> , 2009, , 21-35.		0
105	Clinical outcomes from the use of Medication Report when elderly patients are discharged from hospital. <i>International Journal of Clinical Pharmacy</i> , 2008, 30, 840-845.	1.4	32
106	Barriers to adherence to hypertension guidelines among GPs in southern Sweden: A survey. <i>Scandinavian Journal of Primary Health Care</i> , 2008, 26, 154-159.	1.5	42
107	Medication report reduces number of medication errors when elderly patients are discharged from hospital. <i>International Journal of Clinical Pharmacy</i> , 2007, 30, 92-98.	1.4	54
108	High blood pressure despite treatment: Results from a cross-sectional primary healthcare-based study in southern Sweden. <i>Scandinavian Journal of Primary Health Care</i> , 2006, 24, 224-230.	1.5	24

#	ARTICLE	IF	CITATIONS
109	Effects of educational outreach visits on prescribing of benzodiazepines and antipsychotic drugs to elderly patients in primary health care in southern Sweden. <i>Family Practice</i> , 2006, 23, 60-64.	1.9	35
110	Medication errors when transferring elderly patients between primary health care and hospital care. <i>International Journal of Clinical Pharmacy</i> , 2005, 27, 116-120.	1.4	78
