#	ARTICLE	IF	CITATIONS
1	Closing the gap in a generation: health equity through action on the social determinants of health. <i>Lancet, The</i> , 2008, 372, 1661-1669.	6.3	3,651
2	Women's groups practising participatory learning and action to improve maternal and newborn health in low-resource settings: a systematic review and meta-analysis. <i>Lancet, The</i> , 2013, 381, 1736-1746.	6.3	477
3	Huge poorâ€“rich inequalities in maternity care: an international comparative study of maternity and child care in developing countries. <i>Bulletin of the World Health Organization</i> , 2007, 85, 745-754.	1.5	307
4	Measuring health inequality among children in developing countries: does the choice of the indicator of economic status matter?. <i>International Journal for Equity in Health</i> , 2003, 2, 8.	1.5	240
5	Socio-economic inequalities in childhood mortality in low- and middle-income countries: a review of the international evidence. <i>British Medical Bulletin</i> , 2010, 93, 7-26.	2.7	162
6	Using relative and absolute measures for monitoring health inequalities: experiences from cross-national analyses on maternal and child health. <i>International Journal for Equity in Health</i> , 2007, 6, 15.	1.5	140
7	Changes Not for the Fainthearted: Reorienting Health Care Systems Toward Health Equity Through Action on the Social Determinants of Health. <i>American Journal of Public Health</i> , 2009, 99, 1967-1974.	1.5	135
8	Determinants of under-5 mortality among the poor and the rich: a cross-national analysis of 43 developing countries. <i>International Journal of Epidemiology</i> , 2005, 34, 1257-1265.	0.9	130
9	Prevalence and determinants of caesarean section in private and public health facilities in underserved South Asian communities: cross-sectional analysis of data from Bangladesh, India and Nepal. <i>BMJ Open</i> , 2014, 4, e005982.	0.8	117
10	The Effect of Increased Coverage of Participatory Womenâ€™s Groups on Neonatal Mortality in Bangladesh. <i>JAMA Pediatrics</i> , 2013, 167, 816.	3.3	103
11	Socioeconomic Inequalities in Neglected Tropical Diseases: A Systematic Review. <i>PLoS Neglected Tropical Diseases</i> , 2016, 10, e0004546.	1.3	89
12	Effect of participatory women's groups facilitated by Accredited Social Health Activists on birth outcomes in rural eastern India: a cluster-randomised controlled trial. <i>The Lancet Global Health</i> , 2016, 4, e119-e128.	2.9	85
13	Catastrophic total costs in tuberculosis-affected households and their determinants since Indonesiaâ€™s implementation of universal health coverage. <i>Infectious Diseases of Poverty</i> , 2018, 7, 3.	1.5	80
14	Determinants and consequences of short birth interval in rural Bangladesh: a cross-sectional study. <i>BMC Pregnancy and Childbirth</i> , 2014, 14, 427.	0.9	68
15	Association between Clean Delivery Kit Use, Clean Delivery Practices, and Neonatal Survival: Pooled Analysis of Data from Three Sites in South Asia. <i>PLoS Medicine</i> , 2012, 9, e1001180.	3.9	66
16	The equity impact of participatory womenâ€™s groups to reduce neonatal mortality in India: secondary analysis of a cluster-randomised trial. <i>International Journal of Epidemiology</i> , 2013, 42, 520-532.	0.9	62
17	Between-Country Inequalities in the Neglected Tropical Disease Burden in 1990 and 2010, with Projections for 2020. <i>PLoS Neglected Tropical Diseases</i> , 2016, 10, e0004560.	1.3	50
18	World Health Report 2000: inequality index and socioeconomic inequalities in mortality. <i>Lancet, The</i> , 2001, 357, 1671-1672.	6.3	46

#	ARTICLE	IF	CITATIONS
19	Concerted Efforts to Control or Eliminate Neglected Tropical Diseases: How Much Health Will Be Gained?. PLoS Neglected Tropical Diseases, 2016, 10, e0004386.	1.3	45
20	A prediction model for neonatal mortality in low- and middle-income countries: an analysis of data from population surveillance sites in India, Nepal and Bangladesh. International Journal of Epidemiology, 2019, 48, 186-198.	0.9	35
21	Effects of community health worker interventions on socioeconomic inequities in maternal and newborn health in low-income and middle-income countries: a mixed-methods systematic review. BMJ Global Health, 2019, 4, e001308.	2.0	34
22	The effect of participatory women's groups on infant feeding and child health knowledge, behaviour and outcomes in rural Bangladesh: a controlled before-and-after study. Journal of Epidemiology and Community Health, 2015, 69, 374-381.	2.0	29
23	Institutional delivery in public and private sectors in South Asia: a comparative analysis of prospective data from four demographic surveillance sites. BMC Pregnancy and Childbirth, 2016, 16, 273.	0.9	29
24	Mortality inequalities in times of economic growth: time trends in socioeconomic and regional inequalities in under 5 mortality in Indonesia, 1982-1997. Journal of Epidemiology and Community Health, 2006, 60, 62-68.	2.0	28
25	Community mobilisation with women's groups facilitated by Accredited Social Health Activists (ASHAs) to improve maternal and newborn health in underserved areas of Jharkhand and Orissa: study protocol for a cluster-randomised controlled trial. Trials, 2011, 12, 182.	0.7	27
26	The effect of participatory women's groups on birth outcomes in Bangladesh: does coverage matter? Study protocol for a randomized controlled trial. Trials, 2011, 12, 208.	0.7	27
27	Effect of financial support on reducing the incidence of catastrophic costs among tuberculosis-affected households in Indonesia: eight simulated scenarios. Infectious Diseases of Poverty, 2019, 8, 10.	1.5	27
28	The equity impact of community women's groups to reduce neonatal mortality: a meta-analysis of four cluster randomized trials. International Journal of Epidemiology, 2019, 48, 168-182.	0.9	25
29	How equitable is the uptake of conditional cash transfers for maternity care in India? Evidence from the Janani Suraksha Yojana scheme in Odisha and Jharkhand. International Journal for Equity in Health, 2017, 16, 48.	1.5	23
30	Scaling up community mobilisation through women's groups for maternal and neonatal health: experiences from rural Bangladesh. BMC Pregnancy and Childbirth, 2012, 12, 5.	0.9	21
31	Reaching the poor with health interventions: programme-incidence analysis of seven randomised trials of women's groups to reduce newborn mortality in Asia and Africa. Journal of Epidemiology and Community Health, 2016, 70, 31-41.	2.0	21
32	Rising under-5 mortality in Africa: who bears the brunt?. Tropical Medicine and International Health, 2006, 11, 1218-1227.	1.0	18
33	Comparison of physical, public and human assets as determinants of socioeconomic inequalities in contraceptive use in Colombia - moving beyond the household wealth index. International Journal for Equity in Health, 2010, 9, 10.	1.5	18
34	Exploring the equity impact of a maternal and newborn health intervention: a qualitative study of participatory women's groups in rural South Asia and Africa. International Journal for Equity in Health, 2019, 18, 55.	1.5	18
35	Examining inequalities in uptake of maternal health care and choice of provider in underserved urban areas of Mumbai, India: a mixed methods study. BMC Pregnancy and Childbirth, 2015, 15, 231.	0.9	17
36	COVID-19 and Tuberculosis-Related Catastrophic Costs. American Journal of Tropical Medicine and Hygiene, 2021, 104, 436-440.	0.6	17

#	ARTICLE	IF	CITATIONS
37	Targeting the poorest in a performance-based financing programme in northern Cameroon. <i>Health Policy and Planning</i> , 2016, 31, 767-776.	1.0	15
38	Cost of seeking care for tuberculosis since the implementation of universal health coverage in Indonesia. <i>BMC Health Services Research</i> , 2020, 20, 502.	0.9	15
39	Health insurance coverage, neonatal mortality and caesarean section deliveries: an analysis of vital registration data in Colombia. <i>Journal of Epidemiology and Community Health</i> , 2017, 71, 505-512.	2.0	14
40	Catastrophic costs due to tuberculosis worsen treatment outcomes: a prospective cohort study in Indonesia. <i>Transactions of the Royal Society of Tropical Medicine and Hygiene</i> , 2020, 114, 666-673.	0.7	12
41	Impact of a Participatory Intervention with Women's Groups on Psychological Distress among Mothers in Rural Bangladesh: Secondary Analysis of a Cluster-Randomised Controlled Trial. <i>PLoS ONE</i> , 2014, 9, e110697.	1.1	11
42	Do Conditional Cash Transfers Improve Mental Health? Evidence From Tanzania's Governmental Social Protection Program. <i>Journal of Adolescent Health</i> , 2021, 69, 797-805.	1.2	10
43	The social determinants of childhood mortality in Sri Lanka: timetrends & comparisons across South Asia. <i>Indian Journal of Medical Research</i> , 2007, 126, 239-48.	0.4	10
44	Effectiveness of participatory women's groups scaled up by the public health system to improve birth outcomes in Jharkhand, eastern India: a pragmatic cluster non-randomised controlled trial. <i>BMJ Global Health</i> , 2021, 6, e005066.	2.0	9
45	How to reach every newborn: three key messages. <i>The Lancet Global Health</i> , 2014, 2, e436-e437.	2.9	8
46	Socioeconomic inequalities in stillbirth and neonatal mortality rates: evidence on Particularly Vulnerable Tribal Groups in eastern India. <i>International Journal for Equity in Health</i> , 2022, 21, 61.	1.5	7
47	Socioeconomic inequalities in newborn care during facility and home deliveries: a cross sectional analysis of data from demographic surveillance sites in rural Bangladesh, India and Nepal. <i>International Journal for Equity in Health</i> , 2018, 17, 119.	1.5	6
48	Understanding the roles of community health workers in improving perinatal health equity in rural Uttar Pradesh, India: a qualitative study. <i>International Journal for Equity in Health</i> , 2021, 20, 63.	1.5	6
49	Exploring multilevel social determinants of depressive symptoms for Tanzanian adolescents: evidence from a cross-sectional study. <i>Journal of Epidemiology and Community Health</i> , 2021, 75, 944-954.	2.0	6
50	Socioeconomic differences in caesarean section " are they explained by medical need? An analysis of patient record data of a large Kenyan hospital. <i>International Journal for Equity in Health</i> , 2020, 19, 117.	1.5	5
51	Authors' Response: The equity impact of participatory women's groups to reduce neonatal mortality in India: secondary analysis of a cluster-randomized trial. <i>International Journal of Epidemiology</i> , 2013, 42, 1892-1893.	0.9	2
52	Associations between community health workers' home visits and education-based inequalities in institutional delivery and perinatal mortality in rural Uttar Pradesh, India: a cross-sectional study. <i>BMJ Open</i> , 2021, 11, e044835.	0.8	1
53	Cause-of-death data to support MDG 4 progress. <i>Lancet, The</i> , 2010, 376, 770-771.	6.3	0
