#	Paper	IF	Citations
53	Closing the gap in a generation: health equity through action on the social determinants of health. <i>Lancet, The</i> , 2008 , 372, 1661-9	4.0	2347
52	Women's groups practising participatory learning and action to improve maternal and newborn health in low-resource settings: a systematic review and meta-analysis. <i>Lancet, The</i> , 2013 , 381, 1736-46	4.0	382
51	Huge poor-rich inequalities in maternity care: an international comparative study of maternity and child care in developing countries. <i>Bulletin of the World Health Organization</i> , 2007 , 85, 745-54	8.2	269
50	Measuring health inequality among children in developing countries: does the choice of the indicator of economic status matter?. <i>International Journal for Equity in Health</i> , 2003 , 2, 8	4.6	192
49	Socio-economic inequalities in childhood mortality in low- and middle-income countries: a review of the international evidence. <i>British Medical Bulletin</i> , 2010 , 93, 7-26	5.4	130
48	Using relative and absolute measures for monitoring health inequalities: experiences from cross-national analyses on maternal and child health. <i>International Journal for Equity in Health</i> , 2007 , 6, 15	4.6	115
47	Determinants of under-5 mortality among the poor and the rich: a cross-national analysis of 43 developing countries. <i>International Journal of Epidemiology</i> , 2005 , 34, 1257-65	7.8	97
46	Changes not for the fainthearted: reorienting health care systems toward health equity through action on the social determinants of health. <i>American Journal of Public Health</i> , 2009 , 99, 1967-74	5.1	95
45	Prevalence and determinants of caesarean section in private and public health facilities in underserved South Asian communities: cross-sectional analysis of data from Bangladesh, India and Nepal. <i>BMJ Open</i> , 2014 , 4, e005982	3	86
44	The effect of increased coverage of participatory women's groups on neonatal mortality in Bangladesh: A cluster randomized trial. <i>JAMA Pediatrics</i> , 2013 , 167, 816-25	8.3	79
43	Socioeconomic Inequalities in Neglected Tropical Diseases: A Systematic Review. <i>PLoS Neglected Tropical Diseases</i> , 2016 , 10, e0004546	4.8	60
42	Effect of participatory women's groups facilitated by Accredited Social Health Activists on birth outcomes in rural eastern India: a cluster-randomised controlled trial. <i>The Lancet Global Health</i> , 2016 , 4, e119-28	13.6	58
41	Association between clean delivery kit use, clean delivery practices, and neonatal survival: pooled analysis of data from three sites in South Asia. <i>PLoS Medicine</i> , 2012 , 9, e1001180	11.6	53
40	The equity impact of participatory women's groups to reduce neonatal mortality in India: secondary analysis of a cluster-randomised trial. <i>International Journal of Epidemiology</i> , 2013 , 42, 520-32	7.8	52
39	Determinants and consequences of short birth interval in rural Bangladesh: a cross-sectional study. <i>BMC Pregnancy and Childbirth</i> , 2014 , 14, 427	3.2	44
38	Catastrophic total costs in tuberculosis-affected households and their determinants since Indonesia's implementation of universal health coverage. <i>Infectious Diseases of Poverty</i> , 2018 , 7, 3	10.4	43
37	Between-Country Inequalities in the Neglected Tropical Disease Burden in 1990 and 2010, with Projections for 2020. <i>PLoS Neglected Tropical Diseases</i> , 2016 , 10, e0004560	4.8	38

36	World Health Report 2000: inequality index and socioeconomic inequalities in mortality. <i>Lancet, The</i> , 2001 , 357, 1671-2	4.0	35
35	Concerted Efforts to Control or Eliminate Neglected Tropical Diseases: How Much Health Will Be Gained?. <i>PLoS Neglected Tropical Diseases</i> , 2016 , 10, e0004386	4.8	31
34	The effect of participatory women's groups on infant feeding and child health knowledge, behaviour and outcomes in rural Bangladesh: a controlled before-and-after study. <i>Journal of Epidemiology and Community Health</i> , 2015 , 69, 374-81	5.1	25
33	The effect of participatory women's groups on birth outcomes in Bangladesh: does coverage matter? Study protocol for a randomized controlled trial. <i>Trials</i> , 2011 , 12, 208	2.8	23
32	Community mobilisation with women's groups facilitated by Accredited Social Health Activists (ASHAs) to improve maternal and newborn health in underserved areas of Jharkhand and Orissa: study protocol for a cluster-randomised controlled trial. <i>Trials</i> , 2011 , 12, 182	2.8	22
31	Institutional delivery in public and private sectors in South Asia: a comparative analysis of prospective data from four demographic surveillance sites. <i>BMC Pregnancy and Childbirth</i> , 2016 , 16, 273 ^{3.2}	3.2	22
30	Mortality inequalities in times of economic growth: time trends in socioeconomic and regional inequalities in under 5 mortality in Indonesia, 1982-1997. <i>Journal of Epidemiology and Community Health</i> , 2006 , 60, 62-8	5.1	21
29	A prediction model for neonatal mortality in low- and middle-income countries: an analysis of data from population surveillance sites in India, Nepal and Bangladesh. <i>International Journal of Epidemiology</i> , 2019 , 48, 186-198	7.8	21
28	Effects of community health worker interventions on socioeconomic inequities in maternal and newborn health in low-income and middle-income countries: a mixed-methods systematic review. <i>BMJ Global Health</i> , 2019 , 4, e001308	6.6	20
27	The equity impact of community women's groups to reduce neonatal mortality: a meta-analysis of four cluster randomized trials. <i>International Journal of Epidemiology</i> , 2019 , 48, 168-182	7.8	18
26	Reaching the poor with health interventions: programme-incidence analysis of seven randomised trials of women's groups to reduce newborn mortality in Asia and Africa. <i>Journal of Epidemiology and Community Health</i> , 2016 , 70, 31-41	5.1	18
25	How equitable is the uptake of conditional cash transfers for maternity care in India? Evidence from the Janani Suraksha Yojana scheme in Odisha and Jharkhand. <i>International Journal for Equity in Health</i> , 2017 , 16, 48	4.6	18
24	Scaling up community mobilisation through women's groups for maternal and neonatal health: experiences from rural Bangladesh. <i>BMC Pregnancy and Childbirth</i> , 2012 , 12, 5	3.2	17
23	Effect of financial support on reducing the incidence of catastrophic costs among tuberculosis-affected households in Indonesia: eight simulated scenarios. <i>Infectious Diseases of Poverty</i> , 2019 , 8, 10	10.4	17
22	Rising under-5 mortality in Africa: who bears the brunt?. <i>Tropical Medicine and International Health</i> , 2006 , 11, 1218-27	2.3	14
21	Examining inequalities in uptake of maternal health care and choice of provider in underserved urban areas of Mumbai, India: a mixed methods study. <i>BMC Pregnancy and Childbirth</i> , 2015 , 15, 231	3.2	13
20	Comparison of physical, public and human assets as determinants of socioeconomic inequalities in contraceptive use in Colombia - moving beyond the household wealth index. <i>International Journal for Equity in Health</i> , 2010 , 9, 10	4.6	13
19	Targeting the poorest in a performance-based financing programme in northern Cameroon. <i>Health Policy and Planning</i> , 2016 , 31, 767-76	3.4	12

18	Health insurance coverage, neonatal mortality and caesarean section deliveries: an analysis of vital registration data in Colombia. <i>Journal of Epidemiology and Community Health</i> , 2017 , 71, 505-512	5.1	10
17	Exploring the equity impact of a maternal and newborn health intervention: a qualitative study of participatory women's groups in rural South Asia and Africa. <i>International Journal for Equity in Health</i> , 2019 , 18, 55	4.6	10
16	The social determinants of childhood mortality in Sri Lanka: timetrends & comparisons across South Asia. <i>Indian Journal of Medical Research</i> , 2007 , 126, 239-48	2.9	10
15	How to reach every newborn: three key messages. <i>The Lancet Global Health</i> , 2014 , 2, e436-7	13.6	8
14	Impact of a participatory intervention with women's groups on psychological distress among mothers in rural Bangladesh: secondary analysis of a cluster-randomised controlled trial. <i>PLoS ONE</i> , 2014 , 9, e110697	3.7	6
13	COVID-19 and Tuberculosis-Related Catastrophic Costs. <i>American Journal of Tropical Medicine and Hygiene</i> , 2020 ,	3.2	6
12	Cost of seeking care for tuberculosis since the implementation of universal health coverage in Indonesia. <i>BMC Health Services Research</i> , 2020 , 20, 502	2.9	5
11	Catastrophic costs due to tuberculosis worsen treatment outcomes: a prospective cohort study in Indonesia. <i>Transactions of the Royal Society of Tropical Medicine and Hygiene</i> , 2020 , 114, 666-673	2	4
10	Understanding the roles of community health workers in improving perinatal health equity in rural Uttar Pradesh, India: a qualitative study. <i>International Journal for Equity in Health</i> , 2021 , 20, 63	4.6	4
9	Socioeconomic inequalities in newborn care during facility and home deliveries: a cross sectional analysis of data from demographic surveillance sites in rural Bangladesh, India and Nepal. <i>International Journal for Equity in Health</i> , 2018 , 17, 119	4.6	4
8	Do Conditional Cash Transfers Improve Mental Health? Evidence From Tanzania's Governmental Social Protection Program. <i>Journal of Adolescent Health</i> , 2021 , 69, 797-805	5.8	2
7	Socioeconomic differences in caesarean section - are they explained by medical need? An analysis of patient record data of a large Kenyan hospital. <i>International Journal for Equity in Health</i> , 2020 , 19, 117	4.6	1
6	Effectiveness of participatory women's groups scaled up by the public health system to improve birth outcomes in Jharkhand, eastern India: a pragmatic cluster non-randomised controlled trial. <i>BMJ Global Health</i> , 2021 , 6,	6.6	1
5	Exploring multilevel social determinants of depressive symptoms for Tanzanian adolescents: evidence from a cross-sectional study. <i>Journal of Epidemiology and Community Health</i> , 2021 , 75, 944-954 ^{5.1}	5.1	0
4	Socioeconomic inequalities in stillbirth and neonatal mortality rates: evidence on Particularly Vulnerable Tribal Groups in eastern India.. <i>International Journal for Equity in Health</i> , 2022 , 21, 61	4.6	0
3	Authors' Response: the equity impact of participatory women's groups to reduce neonatal mortality in India: secondary analysis of a cluster-randomized trial. <i>International Journal of Epidemiology</i> , 2013 , 42, 1892-3	7.8	
2	Cause-of-death data to support MDG 4 progress. <i>Lancet, The</i> , 2010 , 376, 770-1	4.0	
1	Associations between community health workers' home visits and education-based inequalities in institutional delivery and perinatal mortality in rural Uttar Pradesh, India: a cross-sectional study. <i>BMJ Open</i> , 2021 , 11, e044835	3
