#	Article	IF	CITATIONS
1	Impacts of major health conditions affecting the Australian sheepmeat value chain: a review. Australian Veterinary Journal, 2021, 99, 32-39.	1.1	1
2	Associations between School Readiness and Student Wellbeing: A Six-Year Follow Up Study. Child Indicators Research, 2021, 14, 369-390.	2.3	11
3	Increasing gaps in health inequalities related to non-communicable diseases in South Australia; implications towards behavioural risk factor surveillance systems to provide evidence for action. BMC Public Health, 2019, 19, 37.	2.9	10
4	Assessing Heavy Episodic Drinking: A Random Survey of 18 to 34-Year-Olds in Four Cities in Four Different Continents. International Journal of Environmental Research and Public Health, 2019, 16, 706.	2.6	2
5	Health and welfare profile of Australian baby boomers who live in rented accommodation – implications for the future. Ageing and Society, 2019, 39, 685-702.	1.7	5
6	Burden and trend of diet-related non-communicable diseases in Australia and comparison with 34 OECD countries, 1990–2015: findings from the Global Burden of Disease Study 2015. European Journal of Nutrition, 2019, 58, 1299-1313.	3.9	49
7	Gout prevalence and predictors of urate-lowering therapy use: results from a population-based study. Arthritis Research and Therapy, 2018, 20, 143.	3.5	37
8	Clusters of alcohol abstainers and drinkers incorporating motives against drinking: a random survey of 18 to 30 year olds in four cities in four different continents. AIMS Public Health, 2018, 6, 15-33.	2.6	2
9	Lower educational level and unemployment increase the impact of cardiometabolic conditions on the quality of life: results of a population-based study in South Australia. Quality of Life Research, 2017, 26, 1521-1530.	3.1	19
10	The independent association of overweight and obesity with breathlessness in adults: a cross-sectional, population-based study. European Respiratory Journal, 2017, 50, 1700558.	6.7	20
11	Frailty and usage of health care systems: Results from the South Australian Monitoring and Surveillance System (SAMSS). Maturitas, 2017, 104, 36-43.	2.4	30
12	Two colliding epidemics – obesity is independently associated with chronic pain interfering with activities of daily living in adults 18Âyears and over; a cross-sectional, population-based study. BMC Public Health, 2016, 16, 1034.	2.9	22
13	Bias of health estimates obtained from chronic disease and risk factor surveillance systems using telephone population surveys in Australia: results from a representative face-to-face survey in Australia from 2010 to 2013. BMC Medical Research Methodology, 2016, 16, 44.	3.1	17
14	Pre-Survey Text Messages (SMS) Improve Participation Rate in an Australian Mobile Telephone Survey: An Experimental Study. PLoS ONE, 2016, 11, e0150231.	2.5	27
15	Parent-reported Mental Health Problems and Mental Health Services Use in South Australian School-aged Children. AIMS Public Health, 2016, 3, 750-768.	2.6	1
16	Heat-health behaviours of older people in two Australian states. Australasian Journal on Ageing, 2015, 34, E19-E25.	0.9	30
17	Who provides care for people dying of cancer? A comparison of a rural and metropolitan cohort in a <scp>S</scp> outh <scp>A</scp> ustralian bereaved population study. Australian Journal of Rural Health, 2015, 23, 24-31.	1.5	15
18	The Use of a Chronic Disease and Risk Factor Surveillance System to Determine the Age, Period and Cohort Effects on the Prevalence of Obesity and Diabetes in South Australian Adults - 2003–2013. PLoS ONE, 2015, 10, e0125233.	2.5	9

#	Article	IF	CITATIONS
19	Health Estimates Using Survey Raked-Weighting Techniques in an Australian Population Health Surveillance System. American Journal of Epidemiology, 2015, 182, 544-556.	3.4	39
20	A Population-Based Cross-Sectional Study That Defined Normative Population Data for the Life-Space Mobility Assessment-Composite Score. Journal of Pain and Symptom Management, 2015, 49, 885-893.	1.2	24
21	Soft drink consumption and multimorbidity among adults. Clinical Nutrition ESPEN, 2015, 10, e71-e76.	1.2	18
22	Effect of social mobility in family financial situation and housing tenure on mental health conditions among South Australian adults: results from a population health surveillance system, 2009 to 2011. BMC Public Health, 2015, 15, 675.	2.9	3
23	Measuring Physical Inactivity: Do Current Measures Provide an Accurate View of "Sedentary―Video Game Time?. Journal of Obesity, 2014, 2014, 1-5.	2.7	18
24	Ten-year trends in major lifestyle risk factors using an ongoing population surveillance system in Australia. Population Health Metrics, 2014, 12, 31.	2.7	37
25	A survey of retirement intentions of baby boomers: an overview of health, social and economic determinants. BMC Public Health, 2014, 14, 355.	2.9	29
26	Do trial-and-error practices and the use of the internet influence how medicines are used?. Australian Journal of Primary Health, 2014, 20, 228.	0.9	1
27	Weighting of the data and analytical approaches may account for differences in overcoming the inadequate representativeness of the respondents to the third wave of a cohort study. Journal of Clinical Epidemiology, 2013, 66, 461-464.	5.0	9
28	Uncovering an invisible network of direct caregivers at the end of life: A population study. Palliative Medicine, 2013, 27, 608-615.	3.1	60
29	Risk Factors, Health Effects and Behaviour in Older People during Extreme Heat: A Survey in South Australia. International Journal of Environmental Research and Public Health, 2013, 10, 6721-6733.	2.6	69
30	Monosodium glutamate intake increases hemoglobin level over 5Âyears among Chinese adults. Amino Acids, 2012, 43, 1389-1397.	2.7	19
31	Reliability of self-reported health risk factors and chronic conditions questions collected using the telephone in South Australia, Australia. BMC Medical Research Methodology, 2012, 12, 108.	3.1	44
32	Association between soft drink consumption and asthma and chronic obstructive pulmonary disease among adults in Australia. Respirology, 2012, 17, 363-369.	2.3	41
33	Methodological issues associated with collecting sensitive information over the telephone - experience from an Australian non-suicidal self-injury (NSSI) prevalence study. BMC Medical Research Methodology, 2011, 11, 20.	3.1	10
34	Mental ill-health across the continuum of body mass index. BMC Public Health, 2011, 11, 765.	2.9	35
35	The use of chronic disease risk factor surveillance systems for evidence-based decision-making: physical activity and nutrition as examples. International Journal of Public Health, 2010, 55, 243-249.	2.3	7
36	Sampling and coverage issues of telephone surveys used for collecting health information in Australia: results from a face-to-face survey from 1999 to 2008. BMC Medical Research Methodology, 2010, 10, 77.	3.1	57

#	Article	IF	CITATIONS
37	Comparing selfâ€reported and measured high blood pressure and high cholesterol status using data from a large representative cohort study. Australian and New Zealand Journal of Public Health, 2010, 34, 394-400.	1.8	43
38	Gender differences in asthma prevalence: Variations with socioeconomic disadvantage. Respirology, 2010, 15, 107-114.	2.3	17
39	Relationships Between Body Mass Index, Mental Health, and Suicidal Ideation: Population Perspective Using Two Methods. Australian and New Zealand Journal of Psychiatry, 2009, 43, 652-658.	2.3	37
40	Tracking Depression-Related Mental Health Literacy Across South Australia: A Decade of Change. Australian and New Zealand Journal of Psychiatry, 2009, 43, 476-483.	2.3	35
41	Population-attributable risk of childhood sexual abuse for symptoms of depression and suicidal ideation in adulthood. International Journal of Psychiatry in Clinical Practice, 2009, 13, 285-291.	2.4	5
42	Quantification and examination of depressionâ€related mental health literacy. Journal of Evaluation in Clinical Practice, 2009, 15, 650-653.	1.8	18
43	Population attributable risk (PAR) of overweight and obesity on chronic diseases: South Australian representative, cross-sectional data, 2004–2006. Obesity Research and Clinical Practice, 2009, 3, 159-168.	1.8	16
44	Are baby boomers booming too much?. Obesity Research and Clinical Practice, 2008, 2, 203-214.	1.8	8
45	Self reported overall health status: Implications for intervention strategies. Australasian Medical Journal, 2008, , 44-57.	0.1	4
46	Have Education and Publicity about Depression Made a Difference? Comparison of Prevalence, Service use and Excess Costs in South Australia: 1998 and 2004. Australian and New Zealand Journal of Psychiatry, 2007, 41, 38-53.	2.3	16
47	Bipolar disorders in Australia. Social Psychiatry and Psychiatric Epidemiology, 2007, 42, 105-109.	3.1	20
48	Detecting determinants of suicidal ideation: South Australian surveillance system results. International Journal of Public Health, 2007, 52, 142-152.	2.6	35
49	Psychological factors and quality of life in arthritis: a population-based study. Clinical Rheumatology, 2007, 26, 1049-1054.	2.2	47
50	Coexistent Chronic Conditions and Asthma Quality of Life. Chest, 2006, 129, 285-291.	0.8	81
51	The North West Adelaide Health Study: detailed methods and baseline segmentation of a cohort for selected chronic diseases. Epidemiologic Perspectives and Innovations, 2006, 3, 4.	7.0	130
52	How valid are selfâ€reported height and weight? A comparison between CATI selfâ€report and clinic measurements using a large cohort study. Australian and New Zealand Journal of Public Health, 2006, 30, 238-246.	1.8	158
53	Factors Associated with Gamblers: A Population-based Cross-sectional Study of South Australian Adults. Journal of Gambling Studies, 2006, 22, 143-164.	1.6	33
54	Beware the pitfalls of ill-placed questions – revisiting questionnaire ordering. International Journal of Public Health, 2006, 51, 43-44.	2.6	1
