#	ARTICLE	IF	CITATIONS
1	High testosterone levels and sensitivity to acute stress in perpetrators of domestic violence with low cognitive flexibility and impairments in their emotional decoding process: A preliminary study. <i>Aggressive Behavior</i> , 2013, 39, 355-369.	2.4	62
2	Testosterone/cortisol ratio in response to acute stress: A possible marker of risk for marital violence. <i>Social Neuroscience</i> , 2013, 8, 240-247.	1.3	52
3	The Contribution of Childhood Parental Rejection and Early Androgen Exposure to Impairments in Socio-Cognitive Skills in Intimate Partner Violence Perpetrators with High Alcohol Consumption. <i>International Journal of Environmental Research and Public Health</i> , 2013, 10, 3753-3770.	2.6	40
4	Empathy Impairments in Intimate Partner Violence Perpetrators With Antisocial and Borderline Traits: A Key Factor in the Risk of Recidivism. <i>Violence and Victims</i> , 2016, 31, 347-360.	0.7	38
5	Improvements in Empathy and Cognitive Flexibility after Court-Mandated Intervention Program in Intimate Partner Violence Perpetrators: The Role of Alcohol Abuse. <i>International Journal of Environmental Research and Public Health</i> , 2016, 13, 394.	2.6	37
6	Skin conductance rises in preparation and recovery to psychosocial stress and its relationship with impulsivity and testosterone in intimate partner violence perpetrators. <i>International Journal of Psychophysiology</i> , 2013, 90, 329-333.	1.0	36
7	Improving empathy with motivational strategies in batterer intervention programmes: Results of a randomized controlled trial. <i>British Journal of Clinical Psychology</i> , 2019, 58, 125-139.	3.5	34
8	Childhood history of abuse and child abuse potential: The role of parent's gender and timing of childhood abuse. <i>Child Abuse and Neglect</i> , 2014, 38, 510-516.	2.6	33
9	Differential cognitive profiles of intimate partner violence perpetrators based on alcohol consumption. <i>Alcohol</i> , 2018, 70, 61-71.	1.7	27
10	Cardiovascular reactivity to a marital conflict version of the Trier social stress test in intimate partner violence perpetrators. <i>Stress</i> , 2014, 17, 321-327.	1.8	23
11	The Brain Resting-State Functional Connectivity Underlying Violence Proneness: Is It a Reliable Marker for Neurocriminology? A Systematic Review. <i>Behavioral Sciences (Basel, Switzerland)</i> , 2019, 9, 11.	2.1	23
12	Neuropsychological consequences of chronic stress: the case of informal caregivers. <i>Aging and Mental Health</i> , 2020, 24, 259-271.	2.8	23
13	The importance of impulsivity and attention switching deficits in perpetrators convicted for intimate partner violence. <i>Aggressive Behavior</i> , 2019, 45, 129-138.	2.4	21
14	Immunoglobulin A response to acute stress in intimate partner violence perpetrators: The role of anger expression-out and testosterone. <i>Biological Psychology</i> , 2014, 96, 66-71.	2.2	20
15	Testosterone and attention deficits as possible mechanisms underlying impaired emotion recognition in intimate partner violence perpetrators. <i>European Journal of Psychology Applied To Legal Context</i> , 2016, 8, 57-62.	4.6	20
16	Increased Salivary IgA Response as an Indicator of Immunocompetence After a Mindfulness and Self-Compassion-Based Intervention. <i>Mindfulness</i> , 2018, 9, 905-913.	2.8	19
17	Dropout from Court-Mandated Intervention Programs for Intimate Partner Violence Offenders: The Relevance of Alcohol Misuse and Cognitive Impairments. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 2402.	2.6	18
18	Alexithymic traits are closely related to impulsivity and cognitive and empathic dysfunctions in intimate partner violence perpetrators: New targets for intervention. <i>Applied Neuropsychology Adult</i> , 2021, 28, 71-79.	1.2	17

#	ARTICLE	IF	CITATIONS
19	Could Alcohol Abuse Drive Intimate Partner Violence Perpetratorsâ€™™ Psychophysiological Response to Acute Stress?. <i>International Journal of Environmental Research and Public Health</i> , 2018, 15, 2729.	2.6	16
20	Neuropsychology of perpetrators of domestic violence: the role of traumatic brain injury and alcohol abuse and/or dependence. <i>Revista De Neurologia</i> , 2013, 57, 515-22.	7.8	16
21	Lower cortisol response in highâ€™resilient caregivers of people with autism: the role of anger. <i>Stress and Health</i> , 2017, 33, 370-377.	2.6	15
22	Reactive vs proactive aggression: A differential psychobiological profile? Conclusions derived from a systematic review. <i>Neuroscience and Biobehavioral Reviews</i> , 2022, 136, 104626.	6.1	15
23	Is Sertraline a Good Pharmacological Strategy to Control Anger? Results of a Systematic Review. <i>Behavioral Sciences (Basel, Switzerland)</i> , 2019, 9, 57.	2.1	14
24	Cortisol response to stress in caregivers of offspring with autism spectrum disorder is associated with care recipient characteristics. <i>Stress</i> , 2013, 16, 510-519.	1.8	13
25	DÃ©ficits neuropsicolÃ³gicos asociados a la relaciÃ³n entre abuso de cocaÃ­na y violencia: mecanismos neuronales facilitadores. <i>Revista De Psicología De La Salud</i> , 2015, 27, 64.	0.5	12
26	A cognitive-behavioural intervention improves cognition in caregivers of people with autism spectrum disorder: A pilot study. <i>Psychosocial Intervention</i> , 2017, 26, 165-170.	2.2	11
27	Emotional and autonomic dysregulation in abstinent alcoholic men: An idiosyncratic profile?. <i>Alcohol</i> , 2019, 77, 155-162.	1.7	11
28	Acceptability of Intimate Partner Violence among Male Offenders: The Role of Set-Shifting and Emotion Decoding Dysfunctions as Cognitive Risk Factors. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 1537.	2.6	11
29	The Role of Mental Rigidity and Alcohol Consumption Interaction on Intimate Partner Violence: A Spanish Study. <i>Journal of Aggression, Maltreatment and Trauma</i> , 2017, 26, 664-675.	1.4	10
30	A Systematic Review of the Effectiveness of Non-Invasive Brain Stimulation Techniques to Reduce Violence Proneness by Interfering in Anger and Irritability. <i>Journal of Clinical Medicine</i> , 2020, 9, 882.	2.4	10
31	Cognitive Flexibility and Reaction Time Improvements After Cognitive Training Designed for Men Perpetrators of Intimate Partner Violence: Results of a Pilot Randomized Controlled Trial. <i>Journal of Family Violence</i> , 2022, 37, 461-473.	3.3	10
32	Alcohol Abuse Mediates the Association between Baseline T/C Ratio and Anger Expression in Intimate Partner Violence Perpetrators. <i>Behavioral Sciences (Basel, Switzerland)</i> , 2015, 5, 113-120.	2.1	9
33	El consumo abusivo de alcohol en inmigrantes latinoamericanos que participan en programas de intervenciÃ³n para maltratadores: importancia de la adherencia al tratamiento. <i>Universitas Psychologica</i> , 2016, 15, .	0.6	9
34	The Use of Testosterone/Cortisol Ratio in Response to Acute Stress as an Indicator of Propensity to Anger in Informal Caregivers. <i>Spanish Journal of Psychology</i> , 2016, 19, E48.	2.1	9
35	The testosterone/cortisol ratio moderates the proneness to anger expression in antisocial and borderline intimate partner violence perpetrators. <i>Journal of Forensic Psychiatry and Psychology</i> , 2016, 27, 135-144.	1.0	9
36	Cooperation Induces an Increase in Emotional Response, as Measured by Electrodermal Activity and Mood. <i>Current Psychology</i> , 2017, 36, 366-375.	2.8	9

#	ARTICLE	IF	CITATIONS
37	Reduced cardiovascular activation following chronic stress in caregivers of people with anorexia nervosa. <i>Stress</i> , 2017, 20, 390-397.	1.8	9
38	Long-Term Drug Misuse Increases the Risk of Cognitive Dysfunctions in Intimate Partner Violence Perpetrators: Key Intervention Targets for Reducing Dropout and Reoffending. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 3792.	2.6	9
39	Reduced salivary oxytocin after an empathic induction task in Intimate Partner Violence perpetrators: Importance of socio-affective functions and its impact on prosocial behavior. <i>Psychoneuroendocrinology</i> , 2022, 137, 105644.	2.7	9
40	Neuropsychological Performance, Substance Misuse, and Recidivism in Intimate Partner Violence Perpetrators. <i>Psychosocial Intervention</i> , 2023, 32, 69-77.	2.2	9
41	Depressive Mood and Testosterone Related to Declarative Verbal Memory Decline in Middle-Aged Caregivers of Children with Eating Disorders. <i>International Journal of Environmental Research and Public Health</i> , 2016, 13, 286.	2.6	8
42	Stress-Induced Endocrine and Immune Dysfunctions in Caregivers of People with Eating Disorders. <i>International Journal of Environmental Research and Public Health</i> , 2017, 14, 1560.	2.6	8
43	Can Attention and Working Memory Impairments of Intimate Partner Perpetrators Explain Their Risky Decision Making?. <i>Journal of Interpersonal Violence</i> , 2021, 36, NP6492-NP6507.	2.0	8
44	Cooperation Between Strangers in Face-to-Face Dyads Produces More Cardiovascular Activation Than Competition or Working Alone. <i>Journal of Psychophysiology</i> , 2019, 33, 65-75.	0.7	8
45	Perfil cognitivo de los alcohólicos abstinentes durante un periodo de tiempo prolongado en comparación con un grupo de hombres que no consumen alcohol. <i>Revista De Psicología De La Salud</i> , 2020, 32, 19.	0.5	8
46	Psychophysiological responses to cooperation: The role of outcome and gender. <i>International Journal of Psychology</i> , 2013, 48, 542-550.	2.8	7
47	High Immunoglobulin A Levels Mediate the Association Between High Anger Expression and Low Somatic Symptoms in Intimate Partner Violence Perpetrators. <i>Journal of Interpersonal Violence</i> , 2016, 31, 732-742.	2.0	7
48	Sympathetic Nervous System Predominance in Intimate Partner Violence Perpetrators After Coping With Acute Stress. <i>Journal of Interpersonal Violence</i> , 2022, 37, NP10148-NP10169.	2.0	7
49	Hormonal Differences in Intimate Partner Violence Perpetrators When They Cope with Acute Stress: A Pilot Study. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 5831.	2.6	7
50	Generally antisocial batterers with high neuropsychological deficits present lower treatment compliance and higher recidivism.. <i>Psychology of Violence</i> , 2021, 11, 318-328.	1.5	7
51	A Systematic Review of the Role of Oxytocin, Cortisol, and Testosterone in Facial Emotional Processing. <i>Biology</i> , 2021, 10, 1334.	2.8	7
52	Prenatal testosterone of progenitors could be involved in the etiology of both anorexia nervosa and autism spectrum disorders of their offspring. <i>American Journal of Human Biology</i> , 2014, 26, 863-866.	1.6	6
53	High cognitive sensitivity to activational effects of testosterone in parents of offspring with autism spectrum disorders. <i>Personality and Individual Differences</i> , 2014, 71, 45-50.	2.9	6
54	Masculinization in Parents of Offspring With Autism Spectrum Disorders Could Be Involved in Comorbid ADHD Symptoms. <i>Journal of Attention Disorders</i> , 2017, 21, 938-943.	2.6	6

#	ARTICLE	IF	CITATIONS
55	Neuropsychological impairments associated with the relation between cocaine abuse and violence: neurological facilitation mechanisms. <i>Revista De Psicología De La Salud</i> , 2015, 27, 64-74.	0.5	6
56	Genetic and environmental contributions to the inverse association between specific autistic traits and experience seeking in adults. <i>American Journal of Medical Genetics Part B: Neuropsychiatric Genetics</i> , 2016, 171, 1190-1197.	1.7	5
57	The Importance of Considering Alexithymia during Initial Stages of Intimate Partner Violence Interventions to Design Adjuvant Treatments. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 3695.	2.6	5
58	Alexithymia as a Predictor of Arousal and Affect Dysregulations when Batterers with Attention Deficit Hyperactivity Disorder Cope with Acute Stress. <i>Behavioral Sciences (Basel, Switzerland)</i> , 2020, 10, 70.	2.1	5
59	An Autistic Endophenotype and Testosterone Are Involved in an Atypical Decline in Selective Attention and Visuospatial Processing in Middle-Aged Women. <i>International Journal of Environmental Research and Public Health</i> , 2015, 12, 15960-15966.	2.6	4
60	Declarative verbal memory impairments in middle-aged women who are caregivers of offspring with autism spectrum disorders: The role of negative affect and testosterone. <i>Memory</i> , 2016, 24, 640-649.	1.7	4
61	Hormonal Profile in Response to an Empathic Induction Task in Perpetrators of Intimate Partner Violence: Oxytocin/Testosterone Ratio and Social Cognition. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 7897.	2.6	4
62	Blunted Cortisol Awakening Response and Poor Self-Perceived Health in Informal Caregivers of People with Eating Disorders. <i>European Eating Disorders Review</i> , 2016, 24, 383-390.	4.1	3
63	Does being a Stranger make it Difficult to Cooperate?. <i>Spanish Journal of Psychology</i> , 2017, 20, E35.	2.1	3
64	Is It Easy to Synchronize Our Minds When We Are Forced to Cooperate?. <i>Brain Sciences</i> , 2019, 9, 282.	2.3	3
65	The 2D:4D Ratio as a Predictor of the Risk of Recidivism after Court-Mandated Intervention Program for Intimate Partner Violence Perpetrators. <i>Journal of Forensic Sciences</i> , 2017, 62, 705-709.	1.6	2
66	The relationship between 2D:4D ratio and systemizing and empathy quotients in parents of people with autism spectrum disorders. <i>European Psychiatry</i> , 2011, 26, 1750-1750.	0.2	1
67	La ratio interdigital D2:D4 y su relación con otros indicadores de androgenización en progenitores de personas con trastornos del espectro autista. <i>Anales De Psicología</i> , 2013, 29, .	0.7	1
68	Aggression predicts Cortisol Awakening Response in healthy young adults. <i>Anales De Psicología</i> , 2015, 31, 1044.	0.7	1
69	Mujeres violentas y/o delincuentes: una visión desde la perspectiva biopsicosocial. <i>Anales De Psicología</i> , 2015, 32, 279.	0.7	1
70	Blunted Electrodermal and Psychological Response to Acute Stress in Family Caregivers of People with Eating Disorders. <i>Spanish Journal of Psychology</i> , 2016, 19, E20.	2.1	1
71	Hormonal Alterations in Victimized Women Explained by Their Hostile Reactions in Coping with Couple Violence. <i>Spanish Journal of Psychology</i> , 2019, 22, E40.	2.1	1
72	Mini review: psychosocial stress such as violence against their partners could benefit general immunity in intimate partner violence perpetrators. <i>International Journal of Emergency Mental Health</i> , 2014, 16, 346-9.	0.3	1

#	ARTICLE	IF	CITATIONS
73	Electrodermal activity in response to a set of mental tasks in caregivers of persons with autism spectrum disorders. <i>European Psychiatry</i> , 2011, 26, 1595-1595.	0.2	0
74	Cardiovascular Response to Psychosocial Repeated Stress in Caregivers of Offspring with Schizophrenia. <i>Spanish Journal of Psychology</i> , 2013, 16, E3.	2.1	0
75	High Anger Expression is Associated with Reduced Cortisol Awakening Response and Health Complaints in Healthy Young Adults. <i>Spanish Journal of Psychology</i> , 2016, 19, E19.	2.1	0
