#	ARTICLE	IF	CITATIONS
1	Adaptive profile of dairy cows in a tropical region. International Journal of Biometeorology, 2020, 64, 105-113.	3.0	20
2	The dynamic adaptation of Brazilian Brahman bulls. Journal of Thermal Biology, 2019, 81, 128-136.	2.5	19
3	Does organic selenium supplement affect the thermoregulatory responses of dairy goats?. Biological Rhythm Research, 2021, 52, 869-881.	0.9	17
4	Are locally adapted goats able to recover homeothermy, acid-base and electrolyte equilibrium in a semi-arid region?. Journal of Thermal Biology, 2020, 90, 102593.	2.5	16
5	Development of an animal adaptability index: Application for dairy cows. Journal of Thermal Biology, 2020, 89, 102543.	2.5	16
6	Relationship between thermal environment and morphophysiological, performance and carcass traits of Brahman bulls raised on tropical pasture: A canonical approach to a set of indicators. Journal of Thermal Biology, 2021, 96, 102814.	2.5	15
7	Locally adapted goats efficiently gain and lose heat in an equatorial semi-arid environment. International Journal of Biometeorology, 2020, 64, 1777-1782.	3.0	14
8	Evaluation of homeothermy, acid-base and electrolytic balance of black goats and ewes in an equatorial semi-arid environment. Journal of Thermal Biology, 2021, 100, 103027.	2.5	14
9	Simultaneity between nutrition and thermoregulatory responses in ruminants. Biological Rhythm Research, 2021, 52, 1372-1382.	0.9	13
10	Sensitivity and specificity of the FAMACHA® system in tropical hair sheep. Tropical Animal Health and Production, 2019, 51, 1767-1771.	1.4	13
11	Adaptive profile of Saanen goats in tropical conditions. Biological Rhythm Research, 2021, 52, 748-758.	0.9	13
12	Performance, endoparasitary control and blood values of ewes locally adapted in semiarid region. Comparative Immunology, Microbiology and Infectious Diseases, 2017, 52, 23-29.	1.6	12
13	Postoperative pain behaviour associated with surgical castration in donkeys (Equus asinus). Equine Veterinary Journal, 2021, 53, 261-266.	1.7	11
14	Typification, characterization, and differentiation of sheep production systems in the Brazilian semiarid region. NJAS Impact in Agricultural and Life Sciences, 2021, 93, 48-73.	0.6	11
15	Thermoregulatory capacity of Santa Inês hair ewes of different genotypes associated with coat colors raised in a hot environment. Journal of Applied Animal Welfare Science, 2021, 24, 400-410.	1.0	10
16	Morphometric characterization and zoometric indices of white Morada Nova breed: The first step for conservation. Small Ruminant Research, 2020, 192, 106178.	1.2	10
17	Population structure and effect of inbreeding on milk yield of Saanen goats in Brazilian production systems. Small Ruminant Research, 2020, 192, 106194.	1.2	9
18	Thermoregulatory responses, and acid-base and electrolytic balance of indigenous ewes of different coat colour in an equatorial semi-arid region. Animal Production Science, 2022, 62, 121-130.	1.3	8

#	ARTICLE	IF	CITATIONS
19	Sheep meat production in the Brazilian semi-arid region: crossing between indigenous breeds. <i>Tropical Animal Health and Production</i> , 2021, 53, 510.	1.4	8
20	Diversity in smallholder dairy production systems in the Brazilian semiarid region: Farm typologies and characteristics of raw milk and water used in milking. <i>Journal of Arid Environments</i> , 2022, 203, 104774.	2.4	7
21	A multivariate approach to the diagnosis of gastrointestinal infection in ewes. <i>Veterinary Parasitology</i> , 2018, 252, 95-97.	1.8	6
22	Evaluation of non-linear models for growth curve in Brazilian tropical goats. <i>Tropical Animal Health and Production</i> , 2021, 53, 198.	1.4	6
23	Milk yield in Holstein cows and physiological responses in hot environment. <i>Acta Veterinaria Brasilica</i> , 2016, 10, 208.	0.1	5
24	Influência dos Índices reprodutivos na produção de leite de vacas mestiças criadas no litoral Cearense. <i>Agropecuária Científica No Semi-Árido</i> , 2019, 14, 117.	0.1	5
25	Detecting estrus in Canindé goats by two infrared thermography methods. <i>Acta Veterinaria Brasilica</i> , 2018, 12, 49-54.	0.1	4
26	Polymorphisms of leptin, β -lactoglobulin and pituitary transcription factor have no effect on milk characteristics in crossbred cows. <i>Arquivo Brasileiro De Medicina Veterinaria E Zootecnia</i> , 2019, 71, 715-719.	0.4	4
27	Fine genetic structure of Brazilian white Morada Nova hair sheep breed from semi-arid region. <i>Small Ruminant Research</i> , 2022, 211, 106694.	1.2	4
28	Northeast Brazilian donkeys have little physiological responses influenced by tropical conditions. <i>Biological Rhythm Research</i> , 2021, 52, 1383-1393.	0.9	3
29	Body condition score and age do not affect the physiological responses, thyroid hormones, hematological or serum biochemical parameters for tropical ewes. <i>Biological Rhythm Research</i> , 2021, 52, 1461-1475.	0.9	3
30	PRODUCTION AND NUTRITIVE VALUE OF CANARANA ERECTA LISA (<i>Echinochloa pyramidalis</i> Lam.) IN RESPONSE TO HARVEST INTERVALS. <i>Ciencia Animal Brasileira</i> , 2019, 20, .	0.3	2
31	Multivariate approach to milk production and some physiological traits of crossbred dairy cows. <i>Semina: Ciências Agrárias</i> , 2017, 38, 2851.	0.3	1
