#	ARTICLE	IF	CITATIONS
1	Enhancing Visibility in International Supply Chains. International Journal of Electronic Government Research, 2012, 8, 14-33.	1.1	43
2	Control patterns in a health-care network. European Journal of Information Systems, 2010, 19, 320-343.	9.2	26
3	Value-based argumentation for justifying compliance. Artificial Intelligence and Law, 2011, 19, 149-186.	4.0	26
4	A Comparative Study of Ontology Matching Systems via Inferential Statistics. IEEE Transactions on Knowledge and Data Engineering, 2019, 31, 615-628.	5.7	21
5	A Stakeholder Analysis of Business-to-Government Information Sharing. International Journal of Electronic Government Research, 2012, 8, 54-64.	1.1	18
6	Risk based framework for assessing resilience in a complex multi-actor supply chain domain. Supply Chain Forum, 2018, 19, 266-281.	4.2	14
7	A research agenda for information quality assurance in public safety networks: information orchestration as the middle ground between hierarchical and netcentric approaches. Cognition, Technology and Work, 2011, 13, 203-216.	3.0	13
8	The use of a blockchain-based smart import declaration to reduce the need for manual cross-validation by customs authorities. , 2019, , .		8
9	Emergence of collective digital innovations through the process of controlÁpoint driven network reconfiguration and reframing: the case of mobile payment. Electronic Markets, 2020, 30, 107-129.	8.1	8
10	Circular economy visibility evaluation framework. Journal of Responsible Technology, 2022, 10, 100026.	1.8	8
11	Realizing value from voluntary business-government information sharing through blockchain-enabled infrastructures: The case of importing tires to the Netherlands using TradeLens. , 2021, , .		6
12	Value-based argumentation for designing and auditing security measures. Ethics and Information Technology, 2013, 15, 153-171.	3.8	5
13	Aligning Stakeholder Interests, Governance Requirements and Blockchain Design in Business and Government Information Sharing. Lecture Notes in Computer Science, 2020, , 197-209.	1.3	4
14	Data quality assurance in international supply chains: an application of the value cycle approach to customs reporting. International Journal of Advanced Logistics, 0, , 1-10.	0.2	2
15	Robust group fused lasso for multisample copy number variation detection under uncertainty. IET Systems Biology, 2016, 10, 229-236.	1.5	2
16	Agent-Based Modeling and Simulation of Multi-organizational Interactions in International Trade. , 2012, , .		0
17	Workshop on Blockchain based applications. , 2019, , .		0
18	SANOM-HOBBIT: simulated annealing-based ontology matching on HOBBIT platform. Knowledge Engineering Review, 2020, 35, .	2.6	0
