#	ARTICLE	IF	CITATIONS
1	How do dermatologists'™ personal models inform a patient'€centred approach to management: a qualitative study using the example of prescribing a new treatment (Apremilast). British Journal of Dermatology, 2022, , .	1.5	2
2	Covid-19 Coping Survey: an In-depth Qualitative Analysis of Free-Text Responses from People With and Without Existing Health Conditions in the UK. International Journal of Behavioral Medicine, 2022, , 1.	1.7	0
3	Identifying and managing psoriasis-associated comorbidities: the IMPACT research programme. Programme Grants for Applied Research, 2022, 10, 1-240.	1.0	0
4	Safeguarding online research integrity: concerns from recent experience. British Journal of Dermatology, 2022, 187, 999-1000.	1.5	3
5	Characteristics and outcomes of patients treated with apremilast in the real world: results from the APPRECIATE study. Journal of the European Academy of Dermatology and Venereology, 2021, 35, 123-134.	2.4	25
6	Translating research into clinical practice: quality improvement to halve non-adherence to methotrexate. Rheumatology, 2021, 60, 125-131.	1.9	6
7	Diurnal and seasonal variation in psoriasis symptoms. Journal of the European Academy of Dermatology and Venereology, 2021, 35, e45-e47.	2.4	22
8	Implementation of the PsoWellâ„¢ Model for the Management of People with Complex Psoriasis. Acta Dermato-Venereologica, 2021, 101, adv00445.	1.3	8
9	Gender differences in patient journey to diagnosis and disease outcomes: results from the European Map of Axial Spondyloarthritis (EMAS). Clinical Rheumatology, 2021, 40, 2753-2761.	2.2	28
10	Exploring beliefs and distress in patients with facial palsies. Psychology, Health and Medicine, 2021, , 1-15.	2.4	5
11	New technology use needs patient input. British Journal of Dermatology, 2021, 185, 880-881.	1.5	3
12	Thematic synthesis of the experiences of people with hidradenitis suppurativa: a systematic review*. British Journal of Dermatology, 2021, 185, 921-934.	1.5	13
13	Impact of axial spondyloarthritis on mental health in Europe: results from the EMAS study. RMD Open, 2021, 7, e001769.	3.8	8
14	Psychological distress and coping following eye removal surgery. Orbit, 2020, 39, 175-182.	0.8	6
15	The relationship between sleep disturbance, symptoms and daytime functioning in psoriasis: a prospective study integrating actigraphy and experience sampling methodology. Sleep Medicine, 2020, 72, 144-149.	1.6	7
16	Selfâ€management: <scp>PROM</scp> s can prompt support. British Journal of Dermatology, 2020, 183, 418-419.	1.5	1
17	Understanding the experience of sleep disturbance in psoriasis: a qualitative exploration using the Commonâ€Sense Model of Selfâ€Regulation. British Journal of Dermatology, 2019, 180, 1397-1404.	1.5	10
18	The European Map of Axial Spondyloarthritis: Capturing the Patient Perspectiveâ€an Analysis of 2846 Patients Across 13 Countries. Current Rheumatology Reports, 2019, 21, 19.	4.7	63

#	ARTICLE	IF	CITATIONS
19	A prospective, clinical, nonrandomized controlled trial of individualized, nurse-led patient-centred intervention in patients with psoriasis. <i>British Journal of Dermatology</i> , 2019, 180, 1244-1245.	1.5	1
20	Does message framing affect changes in behavioural intentions in people with psoriasis? A randomized exploratory study examining health risk communication. <i>Psychology, Health and Medicine</i> , 2018, 23, 763-778.	2.4	31
21	Barriers and facilitators to health care professionals discussing child weight with parents: A meta-synthesis of qualitative studies. <i>British Journal of Health Psychology</i> , 2018, 23, 701-722.	3.5	66
22	Developing a protocol to identify and prioritize research questions for psoriasis: a James Lind Alliance Priority Setting Partnership. <i>British Journal of Dermatology</i> , 2018, 178, 1383-1387.	1.5	4
23	Impact of Disease Severity, Illness Beliefs, and Coping Strategies on Outcomes in Psoriatic Arthritis. <i>Arthritis Care and Research</i> , 2018, 70, 295-302.	3.4	22
24	“New to me”: changing patient understanding of psoriasis and identifying mechanisms of change. The Pso Well^Å patient materials mixed-methods feasibility study. <i>British Journal of Dermatology</i> , 2017, 177, 758-770.	1.5	25
25	A cross-sectional survey of the nature and correlates of sleep disturbance in people with psoriasis. <i>British Journal of Dermatology</i> , 2017, 177, 1052-1059.	1.5	44
26	Motivational interviewing-based training enhances clinicians’ skills and knowledge in psoriasis: findings from the Pso Well^Å study. <i>British Journal of Dermatology</i> , 2017, 176, 677-686.	1.5	39
27	Nonadherence to psoriasis medication as an outcome of limited coping resources and conflicting goals: findings from a qualitative interview study with people with psoriasis. <i>British Journal of Dermatology</i> , 2017, 176, 667-676.	1.5	40
28	1030 BELIEFS ABOUT SLEEP IN PEOPLE WITH PSORIASIS: AN IN-DEPTH QUALITATIVE STUDY USING THE COMMON-SENSE MODEL OF SELF-REGULATION FRAMEWORK. <i>Sleep</i> , 2017, 40, A383-A383.	1.1	0
29	Getting under the Skin: Report from the International Psoriasis Council Workshop on the Role of Stress in Psoriasis. <i>Frontiers in Psychology</i> , 2016, 7, 87.	2.1	14
30	Is education enough to improve quality of life in people with chronic inflammatory skin conditions?. <i>British Journal of Dermatology</i> , 2016, 174, 1179-1179.	1.5	0
31	A call for improved sleep research in psoriasis populations. <i>International Journal of Dermatology</i> , 2016, 55, e312.	1.0	3
32	Distress, misperceptions, poor coping and suicidal ideation in psoriatic arthritis: a qualitative study. <i>Rheumatology</i> , 2016, 55, 1047-1052.	1.9	13
33	Early- and late-onset psoriasis: a cross-sectional clinical and immunocytochemical investigation. <i>British Journal of Dermatology</i> , 2016, 175, 1038-1044.	1.5	33
34	The role of personal models in clinical management: Exploring health care providers’ beliefs about psoriasis. <i>British Journal of Health Psychology</i> , 2016, 21, 114-134.	3.5	15
35	Promoting patient-centred care in psoriatic arthritis: a multidisciplinary <sc>E</sc>uropean perspective on improving the patient experience. <i>Journal of the European Academy of Dermatology and Venereology</i> , 2016, 30, 576-585.	2.4	62
36	What are the combined effects of negative emotions and illness cognitions on self-care in people with type 2 diabetes? A longitudinal structural equation model. <i>Psychology and Health</i> , 2016, 31, 873-890.	2.2	9

#	ARTICLE	IF	CITATIONS
37	Measurement, Classification and Evaluation of Sleep Disturbance in Psoriasis: A Systematic Review. PLoS ONE, 2016, 11, e0157843.	2.5	44
38	Patient-reported outcome measures in psoriasis: the good, the bad and the missing!. British Journal of Dermatology, 2015, 172, 1210-1221.	1.5	48
39	A pilot study examining mindfulness-based cognitive therapy in psoriasis. Psychology, Health and Medicine, 2015, 20, 121-127.	2.4	86
40	The role of beliefs: lessons from a pilot study on illness perception, psychological distress and quality of life in patients with primary cicatricial alopecia. British Journal of Dermatology, 2015, 172, 130-137.	1.5	69
41	Sunlight exposure and photoprotection behaviour of white Caucasian adolescents in the UK. Journal of the European Academy of Dermatology and Venereology, 2015, 29, 732-737.	2.4	9
42	Emotions and identity in the figured world of becoming a doctor. Medical Education, 2015, 49, 174-185.	2.1	71
43	The acceptability and usefulness of mindfulness-based cognitive therapy for people living with psoriasis: a qualitative study. British Journal of Dermatology, 2015, 172, 823-825.	1.5	15
44	Illness beliefs and the sociocultural context of diabetes self-management in British South Asians: a mixed methods study. BMC Family Practice, 2015, 16, 58.	2.9	43
45	Practitioners need input from behavioural medicine specialists. BMJ, The, 2015, 351, h5291.	6.0	0
46	Do English healthcare settings use "Choice Architecture" principles in promoting healthy lifestyles for people with psoriasis? An observational study. BMC Health Services Research, 2015, 15, 215.	2.2	8
47	"In someone's clinic but not in mine" clinicians' views of supporting lifestyle behaviour change in patients with psoriasis: a qualitative interview study. British Journal of Dermatology, 2014, 171, 1116-1122.	1.5	30
48	Providing lifestyle behaviour change support for patients with psoriasis: an assessment of the existing training competencies across medical and nursing health professionals. British Journal of Dermatology, 2014, 171, 602-608.	1.5	14
49	Psoriasis: snapshots of the unspoken: using novel methods to explore patients' personal models of psoriasis and the impact on well-being. British Journal of Dermatology, 2014, 171, 825-831.	1.5	33
50	Exploring the relationship between cognitive illness representations and poor emotional health and their combined association with diabetes self-care. A systematic review with meta-analysis. Journal of Psychosomatic Research, 2014, 76, 265-274.	2.6	66
51	Adherence to medication in patients with psoriasis: a systematic literature review. British Journal of Dermatology, 2013, 168, 20-31.	1.5	125
52	Psychodermatology services guidance: the report of the British Association of Dermatologists' Psychodermatology Working Party. British Journal of Dermatology, 2013, 168, 1149-1150.	1.5	27
53	A novel, web-based, psychological intervention for people with psoriasis: the electronic Targeted Intervention for Psoriasis (eTIPs) study. British Journal of Dermatology, 2013, 169, 329-336.	1.5	64
54	Can stress reduction interventions improve psoriasis? A review. Psychology, Health and Medicine, 2013, 18, 501-514.	2.4	29

#	ARTICLE	IF	CITATIONS
55	IS TREATMENT OF DEPRESSION COST-EFFECTIVE IN PEOPLE WITH DIABETES? A SYSTEMATIC REVIEW OF THE ECONOMIC EVIDENCE. <i>International Journal of Technology Assessment in Health Care</i> , 2013, 29, 384-391.	0.5	22
