#	Article	IF	CITATIONS
1	Qualitative research methods: when to use them and how to judge them. Human Reproduction, 2016, 31, 498-501.	0.4	525
2	Mental health of people in Australia in the first month of <scp>COVID</scp> â€19 restrictions: a national survey. Medical Journal of Australia, 2020, 213, 458-464.	0.8	234
3	Women's experience of IVF: a follow-up study. Human Reproduction, 2001, 16, 374-383.	0.4	221
4	Psychological and social aspects of pregnancy, childbirth and early parenting after assisted conception: a systematic review. Human Reproduction Update, 2008, 14, 395-414.	5.2	204
5	Psychological and social aspects of infertility in men: an overview of the evidence and implications for psychologically informed clinical care and future research. Asian Journal of Andrology, 2012, 14, 121-129.	0.8	174
6	Knowledge about factors that influence fertility among Australians of reproductive age: a population-based survey. Fertility and Sterility, 2013, 99, 502-507.	0.5	119
7	Alcohol use and mental health status during the first months of COVID-19 pandemic in Australia. Journal of Affective Disorders, 2020, 277, 810-813.	2.0	110
8	Deciding the fate of supernumerary frozen embryos: a survey of couples' decisions and the factors influencing their choice. Fertility and Sterility, 2006, 86, 86-91.	0.5	99
9	Assisted reproductive technologies are associated with limited epigenetic variation at birth that largely resolves by adulthood. Nature Communications, 2019, 10, 3922.	5.8	94
10	Men's knowledge, attitudes and behaviours relating to fertility. Human Reproduction Update, 2017, 23, 458-480.	5.2	82
11	Age at first birth, mode of conception and psychological wellbeing in pregnancy: findings from the parental age and transition to parenthood Australia (PATPA) study. Human Reproduction, 2011, 26, 1389-1398.	0.4	77
12	Reasons for delaying childbearinga survey of women aged over 35 years seeking assisted reproductive technology. Australian Family Physician, 2005, 34, 187-8, 206.	0.5	76
13	ICSI does not increase the cumulative live birth rate in non-male factor infertility. Human Reproduction, 2018, 33, 1322-1330.	0.4	69
14	Assisted conception is a risk factor for postnatal mood disturbance and early parenting difficulties. Fertility and Sterility, 2005, 84, 426-430.	0.5	68
15	Reproductive experiences of women who cryopreserved oocytes for non-medical reasons. Human Reproduction, 2017, 32, 575-581.	0.4	67
16	Antenatal mood and fetal attachment after assisted conception. Fertility and Sterility, 2008, 89, 1103-1112.	0.5	66
17	Fertility-related knowledge and information-seeking behaviour among people of reproductive age: a qualitative study. Human Fertility, 2017, 20, 88-95.	0.7	64
18	Use of a vaginal transducer for oocyte retrieval in an IVF/ET program. Journal of Clinical Ultrasound, 1987, 15, 245-251.	0.4	63

#	Article	IF	CITATIONS
19	Long-term health, well-being, life satisfaction, and attitudes toward parenthood in men diagnosed as infertile: challenges to gender stereotypes and implications for practice. Fertility and Sterility, 2010, 94, 574-580.	0.5	58
20	Characteristics and circumstances of women in Australia who cryopreserved their oocytes for non-medical indications. Journal of Reproductive and Infant Psychology, 2017, 35, 108-118.	0.9	56
21	Looking downstream: a review of the literature on physical and psychosocial health outcomes in adolescents and young adults who were conceived by ART. Human Reproduction, 2011, 26, 1209-1219.	0.4	54
22	Pregnancy-specific anxiety, ART conception and infant temperament at 4 months post-partum. Human Reproduction, 2013, 28, 997-1005.	0.4	53
23	Men's experiences of infertility and infertility treatment 5 years after diagnosis of male factor infertility: a retrospective cohort study. Human Reproduction, 2010, 25, 2815-2820.	0.4	52
24	Health of adults aged 22 to 35Âyears conceived by assisted reproductive technology. Fertility and Sterility, 2019, 112, 130-139.	0.5	49
25	Comparing indicators of health and development of singleton young adults conceived with and without assisted reproductive technology. Fertility and Sterility, 2014, 101, 1055-1063.	0.5	46
26	Poor appetite and overeating reported by adults in Australia during the coronavirus-19 disease pandemic: a population-based study. Public Health Nutrition, 2021, 24, 275-281.	1.1	43
27	Gamete donors' and recipients' evaluation of donor counselling: A prospective longitudinal cohort study. Australian and New Zealand Journal of Obstetrics and Gynaecology, 2008, 48, 601-606.	0.4	40
28	Quantifying the mental health burden of the most severe covid-19 restrictions: A natural experiment. Journal of Affective Disorders, 2021, 293, 406-414.	2.0	40
29	Do à la carte menus serve infertility patients? The ethics and regulation of inÂvitro fertility add-ons. Fertility and Sterility, 2019, 112, 973-977.	0.5	38
30	Older first-time mothers and early postpartum depression: a prospective cohort study of women conceiving spontaneously or with assisted reproductive technologies. Fertility and Sterility, 2011, 96, 1218-1224.	0.5	37
31	Gamete donors' expectations and experiences of contact with their donor offspring. Human Reproduction, 2014, 29, 731-738.	0.4	35
32	Infertility in resource-constrained settings: moving towards amelioration. Reproductive BioMedicine Online, 2013, 26, 189-195.	1.1	34
33	Breastfeeding after assisted conception: a prospective cohort study. Acta Paediatrica, International Journal of Paediatrics, 2011, 100, 529-533.	0.7	32
34	Australians' use of surrogacy. Medical Journal of Australia, 2014, 201, 270-273.	0.8	32
35	Older maternal age and major depressive episodes in the first two years after birth: Findings from the Parental Age and Transition to Parenthood Australia (PATPA) study. Journal of Affective Disorders, 2015, 175, 454-462.	2.0	32
36	Development of a health promotion programme to improve awareness of factors that affect fertility, and evaluation of its reach in the first 5 years. Reproductive Biomedicine and Society Online, 2017, 4, 33-40.	0.9	32

#	Article	IF	CITATIONS
37	Sex and age differences in clinically significant symptoms of depression and anxiety among people in Australia in the first month of COVID-19 restrictions: a national survey. BMJ Open, 2020, 10, e042696.	0.8	32
38	Patient Health Questionnaire 9 (PHQ-9) and General Anxiety Disorder 7 (GAD-7) data contributed by 13,829 respondents to a national survey about COVID-19 restrictions in Australia. Psychiatry Research, 2021, 298, 113792.	1.7	32
39	Ultrasound-guided puncture of cystic tumors in the lower pelvis of young women. Journal of Clinical Ultrasound, 1989, 17, 107-111.	0.4	31
40	How common is add-on use and how do patients decide whether to use them? A national survey of IVF patients. Human Reproduction, 2021, 36, 1854-1861.	0.4	31
41	Assisted conception, maternal age and breastfeeding: an Australian cohort study. Acta Paediatrica, International Journal of Paediatrics, 2013, 102, 970-976.	0.7	30
42	Improving clinical care for women with endometriosis: qualitative analysis of women's and health professionals' views. Journal of Psychosomatic Obstetrics and Gynaecology, 2021, 42, 174-180.	1.1	28
43	Fertility facts, figures and future plans: an online survey of university students. Human Fertility, 2019, 22, 283-290.	0.7	27
44	Oocyte retrieval under the guidance of a vaginal transducer: evaluation of patient acceptance. Human Reproduction, 1987, 2, 487-490.	0.4	26
45	Cumulative live birth rates following a â€~freeze-all' strategy: a population-based study. Human Reproduction Open, 2019, 2019, hoz004.	2.3	26
46	Early post-partum adjustment and admission to parenting services in Victoria, Australia after assisted conception. Human Reproduction, 2009, 24, 2801-2809.	0.4	23
47	Community participation in research from resource-constrained countries: a scoping review. Health Promotion International, 2018, 33, 723-733.	0.9	23
48	Fertility concerns and related information needs and preferences of women with PCOS. Human Reproduction Open, 2018, 2018, hoy019.	2.3	23
49	Oocyte donor age has a significant impact on oocyte recipients' cumulative live-birth rate: a population-based cohort study. Fertility and Sterility, 2019, 112, 724-730.	0.5	23
50	The International Fertility Education Initiative: research and action to improve fertility awareness. Human Reproduction Open, 2021, 2021, hoab031.	2.3	23
51	Admissions for early parenting difficulties among women with infants conceived by assisted reproductive technologies: a prospective cohort study. Fertility and Sterility, 2012, 97, 1410-1416.	0.5	22
52	Survey of Reproductive Experiences and Outcomes of Cancer Survivors Who Stored Reproductive Material Before Treatment. Human Reproduction, 2017, 32, 2423-2430.	0.4	22
53	IVF addâ€ons in Australia and New Zealand: A systematic assessment of IVF clinic websites. Australian and New Zealand Journal of Obstetrics and Gynaecology, 2021, 61, 430-438.	0.4	22
54	Patients'Experience of Transvaginal Follicle Aspiration under Local Anesthesia. Annals of the New York Academy of Sciences, 1988, 541, 134-137.	1.8	21

#	Article	IF	CITATIONS
55	Age, mode of conception, health service use and pregnancy health: a prospective cohort study of Australian women. BMC Pregnancy and Childbirth, 2013, 13, 88.	0.9	21
56	Intended parents' motivations and information and support needs when seeking extraterritorial compensated surrogacy. Reproductive BioMedicine Online, 2015, 31, 689-696.	1.1	21
57	Proposed legislative change mandating retrospective release of identifying information: consultation with donors and Government response. Human Reproduction, 2014, 29, 286-292.	0.4	19
58	Experiences of menopause, self-management strategies for menopausal symptoms and perceptions of health care among immigrant women: a systematic review. Climacteric, 2018, 21, 101-110.	1.1	19
59	Admission of women, with their infants, for psychological and psychiatric causes in Victoria, Australia. Australian and New Zealand Journal of Public Health, 2011, 35, 146-150.	0.8	18
