#	ARTICLE	IF	CITATIONS
1	No more than discomfort: the trauma film paradigm meets definitions of minimal-risk research. <i>Ethics and Behavior</i> , 2023, 33, 1-17.	1.8	5
2	Nocebo effects on informed consent within medical and psychological settings: A scoping review. <i>Ethics and Behavior</i> , 2023, 33, 387-412.	1.8	1
3	Self-reported, but not lab-based, prospective memory failures relate to PTSD symptom severity in a general population.. <i>Journal of Applied Research in Memory and Cognition</i> , 2023, 12, 116-127.	1.1	1
4	Something Distressing This Way Comes: The Effects of Trigger Warnings on Avoidance Behaviors in an Analogue Trauma Task. <i>Behavior Therapy</i> , 2022, 53, 414-427.	2.4	12
5	Unprepared: Thinking of a trigger warning does not prompt preparation for trauma-related content. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2022, 75, 101708.	1.2	14
6	Food for thought: Commentary on Burnette et al. (2021) "Concerns and recommendations for using Amazon <scp>MTurk</scp> for eating disorder research" International Journal of Eating Disorders, 2022, 55, 282-284.	4.0	18
7	The effects of computerised metacognitive cognitive bias modification training on the development of adaptive metacognitive beliefs and post-traumatic stress disorder symptoms. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2022, 75, 101716.	1.2	2
8	Posttraumatic stress disorder symptom severity and functional impairment in the education domain. <i>Journal of Anxiety Disorders</i> , 2022, 88, 102573.	3.2	2
9	Does emotional or repeated misinformation increase memory distortion for a trauma analogue event?. <i>Psychological Research</i> , 2021, 85, 2453-2465.	1.7	5
10	Are Individuals Always Aware of Their Trauma-Related Intrusive Thoughts? A Study of Meta-Awareness. <i>Behavior Therapy</i> , 2021, 52, 874-882.	2.4	2
11	Preliminary evidence for a relationship between prospective memory and PTSD symptoms in the general population. <i>Journal of Anxiety Disorders</i> , 2021, 77, 102325.	3.2	1
12	Danger! Negative memories ahead: the effect of warnings on reactions to and recall of negative memories. <i>Memory</i> , 2021, 29, 319-329.	1.7	9
13	Memory consistency for sexual assault events.. <i>Psychology of Consciousness: Theory Research, and Practice</i> , 2021, 8, 52-64.	0.4	1
14	Mechanisms underlying memory enhancement for disgust over fear. <i>Cognition and Emotion</i> , 2021, 35, 1231-1237.	2.0	3
15	The cost of being absent: Is meta-awareness of mind-wandering related to depression symptom severity, rumination tendencies and trauma intrusions?. <i>Journal of Affective Disorders</i> , 2021, 292, 131-138.	4.1	17
16	The role of belief in memory amplification for trauma events. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2021, 72, 101652.	1.2	3
17	Right Hemisphere Memory Bias Does Not Extend to Involuntary Memories for Negative Scenes. <i>Perception</i> , 2021, 50, 27-38.	1.2	0
18	Why the COVID-19 pandemic is a traumatic stressor. <i>PLoS ONE</i> , 2021, 16, e0240146.	2.5	301

#	ARTICLE	IF	CITATIONS
19	Using the landmark task to test the underlying assumptions of unilateral contraction research. <i>Laterality</i> , 2020, 25, 363-389.	1.0	1
20	Judgments of Memory Coherence Depend on the Conditions Under Which a Memory is Retrieved, Regardless of Reported PTSD Symptoms. <i>Journal of Applied Research in Memory and Cognition</i> , 2020, 9, 396-409.	1.1	6
21	Lateralized processing of emotional images: A left hemisphere memory deficit.. <i>Emotion</i> , 2020, 20, 236-247.	1.8	5
22	Judgments of memory coherence depend on the conditions under which a memory is retrieved, regardless of reported PTSD symptoms.. <i>Journal of Applied Research in Memory and Cognition</i> , 2020, 9, 396-409.	1.1	6
23	When more is not merrier: shared stressful experiences amplify. <i>Cognition and Emotion</i> , 2019, 33, 1718-1725.	2.0	3
24	The role of arousal in boundary judgement errors. <i>Memory and Cognition</i> , 2019, 47, 968-982.	1.6	1
25	Current PTSD symptomatology distorts memory for past symptoms. <i>Psychiatry Research</i> , 2019, 274, 330-334.	3.3	6
26	Expecting the worst: Investigating the effects of trigger warnings on reactions to ambiguously themed photos.. <i>Journal of Experimental Psychology: Applied</i> , 2019, 25, 602-617.	1.2	25
27	Measuring PhD Studentâ€™s Psychological Well-being: Are we seeing the whole picture?. <i>Student Success</i> , 2019, 10, 14-24.	0.8	21
28	Written cues provoke involuntary cognitions about a trauma analogue. <i>Journal of Applied Research in Memory and Cognition</i> , 2018, 7, 270-279.	1.1	1
29	Explaining Memory Amplification: Is It All About the Test Format?. <i>Clinical Psychological Science</i> , 2018, 6, 394-406.	4.0	1
30	Imagining trauma: Memory amplification and the role of elaborative cognitions. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2018, 60, 78-86.	1.2	5
31	PTSD and the role of spontaneous elaborative â€œnonmemoriesâ€œ. <i>Psychology of Consciousness: Theory Research, and Practice</i> , 2018, 5, 398-413.	0.4	3
32	Visuospatial asymmetries and emotional valence influence mental time travel.. <i>Emotion</i> , 2018, 18, 577-596.	1.8	1
33	Trauma memories on trial: is cross-examination a safeguard against distorted analogue traumatic memories?. <i>Memory</i> , 2017, 25, 95-106.	1.7	8
34	The Effects of Alcohol Intoxication on Accuracy and the Confidenceâ€œAccuracy Relationship in Photographic Simultaneous Lineâ€œups. <i>Applied Cognitive Psychology</i> , 2017, 31, 379-391.	1.6	32
35	Metacognitive and Metamemory Beliefs in the Development and Maintenance of Posttraumatic Stress Disorder. <i>Clinical Psychological Science</i> , 2017, 5, 131-140.	4.0	21
36	Do meta-cognitive beliefs affect meta-awareness of intrusive thoughts about trauma?. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2017, 54, 292-300.	1.2	7

#	ARTICLE	IF	CITATIONS
37	False Memories for an Analogue Trauma: Does Thought Suppression Help or Hinder Memory Accuracy?. <i>Applied Cognitive Psychology</i> , 2016, 30, 350-359.	1.6	1
38	Trauma-related versus positive involuntary thoughts with and without meta-awareness. <i>Consciousness and Cognition</i> , 2016, 46, 163-172.	1.5	12
39	Memory amplification for trauma: Investigating the role of analogue PTSD symptoms in the laboratory. <i>Journal of Anxiety Disorders</i> , 2016, 42, 60-70.	3.2	31
40	Alcohol and remembering a hypothetical sexual assault: Can people who were under the influence of alcohol during the event provide accurate testimony?. <i>Memory</i> , 2016, 24, 1042-1061.	1.7	41
41	Encoding disorganized memories for an analogue trauma does not increase memory distortion or analogue symptoms of PTSD. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2016, 50, 127-134.	1.2	8
42	Boundary Restriction for Negative Emotional Images Is an Example of Memory Amplification. <i>Clinical Psychological Science</i> , 2016, 4, 82-95.	4.0	10
43	The relation between self-reported PTSD and depression symptoms and the psychological distance of positive and negative events. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2015, 48, 177-184.	1.2	25
44	Memory Distortion for Traumatic Events: The Role of Mental Imagery. <i>Frontiers in Psychiatry</i> , 2015, 6, 27.	2.6	29
45	Investigating the variability of memory distortion for an analogue trauma. <i>Memory</i> , 2015, 23, 991-1000.	1.7	9
46	Event familiarity influences memory detection using the aIAT. <i>Memory</i> , 2015, 23, 453-461.	1.7	5
47	Meta-awareness and the involuntary memory spectrum: Reply to Meyer, Otgaar, and Smeets (2015). <i>Consciousness and Cognition</i> , 2015, 34, 1-3.	1.5	5
48	Emotional impact feedback affects how people remember an analogue trauma event. <i>Memory</i> , 2014, 22, 1041-1051.	1.7	8
49	Self-report may underestimate trauma intrusions. <i>Consciousness and Cognition</i> , 2014, 27, 297-305.	1.5	51
50	False memories for aggressive acts. <i>Acta Psychologica</i> , 2013, 143, 227-234.	1.5	22
51	Source confusion influences the effectiveness of the autobiographical IAT. <i>Psychonomic Bulletin and Review</i> , 2013, 20, 1232-1238.	2.8	12
52	Intoxicated witnesses and suspects: An archival analysis of their involvement in criminal case processing.. <i>Law and Human Behavior</i> , 2013, 37, 54-59.	0.7	53
53	False memories for missing aspects of traumatic events. <i>Acta Psychologica</i> , 2012, 141, 322-326.	1.5	46
54	Reconstructing alcohol-induced memory blackouts. <i>Memory</i> , 2011, 19, 566-573.	1.7	24

#	ARTICLE	IF	CITATIONS
55	Cognitive-behavioural rehabilitation of high-risk violent offenders: Investigating treatment change with explicit and implicit measures of cognition. <i>Applied Cognitive Psychology</i> , 2010, 24, 437-449.	1.6	34
56	Emotional Impact Feedback Changes How We Remember Negative Autobiographical Experiences. <i>Experimental Psychology</i> , 2010, 57, 354-359.	0.7	12
57	Chronic and temporary aggression causes hostile false memories for ambiguous information. <i>Applied Cognitive Psychology</i> , 2008, 22, 39-49.	1.6	9
58	Psychological Science, Victim Advocates, and the Problem of Recovered Memories. <i>International Review of Victimology</i> , 2008, 15, 147-163.	1.4	5
59	Dear diary, is plastic better than paper? I can't remember: Comment on Green, Rafaeli, Bolger, Shrout, and Reis (2006).. <i>Psychological Methods</i> , 2006, 11, 119-122.	3.5	33
60	Modernising the misinformation effect: the development of a new stimulus set. <i>Applied Cognitive Psychology</i> , 2006, 20, 583-590.	1.6	65
61	Blind drunk: the effects of alcohol on inattentive blindness. <i>Applied Cognitive Psychology</i> , 2006, 20, 697-704.	1.6	50
62	Evidence From the Trauma-Film Paradigm That Traumatic and Nontraumatic Memories Are Statistically Equivalent on Coherence. <i>Clinical Psychological Science</i> , 0, , 216770262110533.	4.0	2
63	Encouraging source monitoring after post-event information exposure for analog trauma. <i>Applied Cognitive Psychology</i> , 0, , .	1.6	0
