#	ARTICLE	IF	CITATIONS
1	Effects of dietary supplemental lysophospholipids and vitamin C on performance, antioxidant enzymes, lipid peroxidation, thyroid hormones and serum metabolites of broiler chickens reared under thermoneutral and high ambient temperature. <i>Journal of Animal Physiology and Animal Nutrition</i> , 2018, 102, 1521-1532.	1.0	11
2	The effects of increasing levels of dietary garlic bulb on growth performance, systolic blood pressure, hematology, and ascites syndrome in broiler chickens. <i>Poultry Science</i> , 2015, 94, 1812-1820.	1.5	29
3	Effects of guanidinoacetic acid supplementation to broiler diets with varying energy contents. <i>Journal of Applied Poultry Research</i> , 2013, 22, 47-54.	0.6	55
4	Effect of olive leaves on ascites incidence, hematological parameters and growth performance in broilers reared under standard and cold temperature conditions. <i>Animal Feed Science and Technology</i> , 2013, 185, 60-69.	1.1	19
5	Effects of Ground Thyme and Probiotic Supplements in Diets on Broiler Performance, Blood Biochemistry and Immunological Response to Sheep Red Blood Cells. <i>Italian Journal of Animal Science</i> , 2013, 12, e19.	0.8	27
6	Effects of flavomycin and probiotic supplementation to diets containing different sources of fat on growth performance, intestinal morphology, apparent metabolizable energy, and fat digestibility in broiler chickens. <i>Poultry Science</i> , 2012, 91, 918-927.	1.5	37
7	Reevaluation of Methionine Requirement Based on Performance and Immune Responses in Broiler Breeder Hens. <i>Journal of Poultry Science</i> , 2012, 49, 26-33.	0.7	14
8	Effects of supplementing layer hen diets with selenium and vitamin E on egg quality, lipid oxidation and fatty acid composition during storage. <i>Canadian Journal of Animal Science</i> , 2008, 88, 475-483.	0.7	55
9	L-Carnitine Effect on Quantity and Quality of African Black Neck Ostrich Sperm. <i>Asian Journal of Animal and Veterinary Advances</i> , 2008, 3, 369-374.	0.3	7
10	Study on the effects of <i>Saccharomyces cerevisiae</i> SC47 on broiler performance and immune organs. <i>Proceedings of the British Society of Animal Science</i> , 2007, 2007, 245-245.	0.0	0
11	Effect of Probiotics, Yeast, Vitamin E and Vitamin C Supplements on Performance and Immune Response of Laying Hen During High Environmental Temperature. <i>International Journal of Poultry Science</i> , 2007, 6, 895-900.	0.6	88
12	Evaluation of Metabolizable Energy Values of Some Feeding Stuffs. <i>Pakistan Journal of Biological Sciences</i> , 2007, 10, 995-997.	0.2	3
13	Study on the Effect of Yeast (<i>Saccharomyces cerevisiae</i> SC47) Utilization on the Commercial Layer Hen's Performance. <i>Pakistan Journal of Biological Sciences</i> , 2006, 9, 2346-2349.	0.2	15
14	Effects of Ascorbic Acid on Egg Production and Egg Shell Quality in Laying Hens Drinking Saline Water. <i>Pakistan Journal of Biological Sciences</i> , 2006, 9, 2897-2900.	0.2	0
