#	ARTICLE	IF	CITATIONS
1	Personalizing interventions using real-world interactions: Improving symptoms and social functioning in schizophrenia with tailored metacognitive therapy.. Journal of Consulting and Clinical Psychology, 2022, 90, 18-28.	1.6	16
2	Semantic and phonetic similarity of verbal fluency responses in early-stage psychosis. Psychiatry Research, 2022, 309, 114404.	1.7	6
3	Stuck Inside. Journal of Nervous and Mental Disease, 2022, 210, 915-924.	0.5	3
4	Comparing symptoms and emotion recognition in African American and White samples with schizophrenia. International Journal of Psychology, 2021, 56, 865-869.	1.7	4
5	Social functioning in schizophrenia: Comparing laboratory-based assessment with real-world measures. Journal of Psychiatric Research, 2021, 138, 500-506.	1.5	16
6	Quality versus quantity: Determining real-world social functioning deficits in schizophrenia. Psychiatry Research, 2021, 301, 113980.	1.7	19
7	Metacognitive function and fragmentation in schizophrenia: Relationship to cognition, self-experience and developing treatments. Schizophrenia Research: Cognition, 2020, 19, 100142.	0.7	68
8	Piecing together fragments: Linguistic cohesion mediates the relationship between executive function and metacognition in schizophrenia. Schizophrenia Research, 2020, 215, 54-60.	1.1	19
9	A cognitive model of diminished expression in schizophrenia: The interface of metacognition, cognitive symptoms and language disturbances. Journal of Psychiatric Research, 2020, 131, 169-176.	1.5	20
10	Social functioning in schizotypy: How affect influences social behavior in daily life. Journal of Clinical Psychology, 2020, 76, 2212-2221.	1.0	8
11	The insight paradox in schizophrenia: A meta-analysis of the relationship between clinical insight and quality of life. Schizophrenia Research, 2020, 223, 9-17.	1.1	27
12	The link between formal thought disorder and social functioning in schizophrenia: A meta-analysis. European Psychiatry, 2020, 63, e34.	0.1	17
13	Mobile enhancement of motivation in schizophrenia: A pilot randomized controlled trial of a personalized text message intervention for motivation deficits.. Journal of Consulting and Clinical Psychology, 2020, 88, 923-936.	1.6	12
14	Speech production and disorganization in schizotypy: Investigating the role of cognitive and affective systems. Journal of Psychiatric Research, 2019, 114, 11-16.	1.5	8
15	Metacognition, Personal Distress, and Performance-Based Empathy in Schizophrenia. Schizophrenia Bulletin, 2019, 45, 19-26.	2.3	31
16	Metacognitive self-reflectivity moderates the relationship between distress tolerance and empathy in schizophrenia. Psychiatry Research, 2018, 265, 1-6.	1.7	16
17	A meta-analytic review of self-reported, clinician-rated, and performance-based motivation measures in schizophrenia: Are we measuring the same "stuff"? Clinical Psychology Review, 2018, 61, 24-37.	6.0	23
18	Emergence of psychotic content in psychotherapy: An exploratory qualitative analysis of content, process, and therapist variables in a single case study. Psychotherapy Research, 2018, 28, 264-280.	1.1	9

#	ARTICLE	IF	CITATIONS
19	Semantic coherence in psychometric schizotypy: An investigation using Latent Semantic Analysis. <i>Psychiatry Research</i> , 2018, 259, 63-67.	1.7	12
20	Evidence of disturbances of deep levels of semantic cohesion within personal narratives in schizophrenia. <i>Schizophrenia Research</i> , 2018, 197, 365-369.	1.1	32
21	A test of the cognitive model of negative symptoms: Associations between defeatist performance beliefs, self-efficacy beliefs, and negative symptoms in a non-clinical sample. <i>Psychiatry Research</i> , 2018, 269, 278-285.	1.7	10
22	Words matter: Implementing the electronically activated recorder in schizotypy.. <i>Personality Disorders: Theory, Research, and Treatment</i> , 2018, 9, 133-143.	1.0	25
23	Longitudinal determinants of client treatment satisfaction in an intensive first-episode psychosis treatment programme. <i>Microbial Biotechnology</i> , 2017, 11, 354-362.	0.9	7
24	The effect of limited cognitive resources on communication disturbances in serious mental illness. <i>Psychiatry Research</i> , 2017, 248, 98-104.	1.7	8
25	Empathy in schizophrenia: A meta-analysis of the Interpersonal Reactivity Index. <i>Psychiatry Research</i> , 2017, 249, 293-303.	1.7	74
26	Metacognition Is Necessary for the Emergence of Motivation in People With Schizophrenia Spectrum Disorders. <i>Journal of Nervous and Mental Disease</i> , 2017, 205, 960-966.	0.5	28
27	The Stigma Resistance Scale: A multi-sample validation of a new instrument to assess mental illness stigma resistance. <i>Psychiatry Research</i> , 2017, 258, 37-43.	1.7	16
28	Using lexical analysis to identify emotional distress in psychometric schizotypy. <i>Psychiatry Research</i> , 2017, 255, 412-417.	1.7	6
29	Using text-analysis computer software and thematic analysis on the same qualitative data: A case example.. <i>Qualitative Psychology</i> , 2017, 4, 201-210.	3.1	11
30	Stigma resistance at the personal, peer, and public levels: A new conceptual model.. <i>Stigma and Health</i> , 2017, 2, 182-194.	1.2	33
31	Metacognition moderates the relationship between dysfunctional self-appraisal and social functioning in prolonged schizophrenia independent of psychopathology. <i>Comprehensive Psychiatry</i> , 2016, 69, 62-70.	1.5	23
32	Additional support for the cognitive model of schizophrenia: evidence of elevated defeatist beliefs in schizotypy. <i>Comprehensive Psychiatry</i> , 2016, 68, 40-47.	1.5	22
33	Stigma resistance is positively associated with psychiatric and psychosocial outcomes: A meta-analysis. <i>Schizophrenia Research</i> , 2016, 175, 118-128.	1.1	57
34	Affective empathy in schizophrenia: a meta-analysis. <i>Schizophrenia Research</i> , 2016, 175, 109-117.	1.1	62
35	Affective systems induce formal thought disorder in early-stage psychosis.. <i>Journal of Abnormal Psychology</i> , 2016, 125, 537-542.	2.0	28
36	Metacognition deficits as a risk factor for prospective motivation deficits in schizophrenia spectrum disorders. <i>Psychiatry Research</i> , 2016, 245, 172-178.	1.7	28

#	ARTICLE	IF	CITATIONS
37	Language and hope in schizophrenia-spectrum disorders. <i>Psychiatry Research</i> , 2016, 245, 8-14.	1.7	14
38	Metacognitive Deficits in Schizophrenia. <i>Journal of Nervous and Mental Disease</i> , 2015, 203, 530-536.	0.5	77
39	The impact of premorbid adjustment, neurocognition, and depression on social and role functioning in patients in an early psychosis treatment program. <i>Australian and New Zealand Journal of Psychiatry</i> , 2015, 49, 444-452.	1.3	15
40	Category fluency in psychometric schizotypy: how altering emotional valence and cognitive load affects performance. <i>Cognitive Neuropsychiatry</i> , 2015, 20, 542-550.	0.7	9
41	Differential lexical correlates of social cognition and metacognition in schizophrenia; a study of spontaneously-generated life narratives. <i>Comprehensive Psychiatry</i> , 2015, 58, 138-145.	1.5	27
42	Expectancies of success as a predictor of negative symptoms reduction over 18 months in individuals with schizophrenia. <i>Psychiatry Research</i> , 2015, 229, 505-510.	1.7	14
43	Metacognitive deficits predict future levels of negative symptoms in schizophrenia controlling for neurocognition, affect recognition, and self-expectation of goal attainment. <i>Schizophrenia Research</i> , 2015, 168, 267-272.	1.1	35
44	Lexical analysis in schizophrenia: How emotion and social word use informs our understanding of clinical presentation. <i>Journal of Psychiatric Research</i> , 2015, 64, 74-78.	1.5	48
45	Metacognitive Capacity as a Predictor of Insight in First-Episode Psychosis. <i>Journal of Nervous and Mental Disease</i> , 2015, 203, 372-378.	0.5	35
46	Lexical Characteristics of Anticipatory and Consummatory Anhedonia in Schizophrenia: A Study of Language in Spontaneous Life Narratives. <i>Journal of Clinical Psychology</i> , 2015, 71, 696-706.	1.0	13
47	Conceptual disorganization weakens links in cognitive pathways: Disentangling neurocognition, social cognition, and metacognition in schizophrenia. <i>Schizophrenia Research</i> , 2015, 169, 153-158.	1.1	33
48	Neurocognitive underpinnings of language disorder: Contrasting schizophrenia and mood disorders. <i>Journal of Experimental Psychopathology</i> , 2014, 5, 492-502.	0.4	3
49	Conceptualizing Schizotypal Ambivalence. <i>Journal of Nervous and Mental Disease</i> , 2014, 202, 793-801.	0.5	6
50	Anhedonia in prolonged schizophrenia spectrum patients with relatively lower vs. higher levels of depression disorders: Associations with deficits in social cognition and metacognition. <i>Consciousness and Cognition</i> , 2014, 29, 68-75.	0.8	19
51	Necessary, but not sufficient: Links between neurocognition, social cognition, and metacognition in schizophrenia are moderated by disorganized symptoms. <i>Schizophrenia Research</i> , 2014, 159, 198-204.	1.1	63
52	Predicting creativity: The role of psychometric schizotypy and cannabis use in divergent thinking. <i>Psychiatry Research</i> , 2014, 220, 205-210.	1.7	9
53	Deficits in metacognitive capacity distinguish patients with schizophrenia from those with prolonged medical adversity. <i>Journal of Psychiatric Research</i> , 2014, 55, 126-132.	1.5	55
54	Neurocognition in Psychometrically Defined College Schizotypy Samples: We Are NOT Measuring the "Right Stuff". <i>Journal of the International Neuropsychological Society</i> , 2013, 19, 324-337.	1.2	64

#	ARTICLE	IF	CITATIONS
55	Towards a cognitive resource limitations model of diminished expression in schizotypy.. Journal of Abnormal Psychology, 2012, 121, 109-118.	2.0	46
56	The role of atypical semantic activation and stress in odd speech: Implications for individuals with psychometrically defined schizotypy. Journal of Psychiatric Research, 2012, 46, 1231-1236.	1.5	23
57	The relationship between atypical semantic activation and odd speech in schizotypy across emotionally evocative conditions. Schizophrenia Research, 2011, 126, 144-149.	1.1	28
58	Smoking, Depression, and Gender in Low-Income African Americans with HIV/AIDS. Behavioral Medicine, 2011, 37, 77-80.	1.0	27
59	The state-trait disjunction of anhedonia in schizophrenia: Potential affective, cognitive and social-based mechanisms. Clinical Psychology Review, 2011, 31, 440-448.	6.0	140
60	A laboratory study of affectivity in schizotypy: Subjective and lexical analysis. Psychiatry Research, 2011, 189, 233-238.	1.7	15
61	Comparing Two Measures of Psychomotor Performance in Patients With HIV: The Coin Rotation Test and the Modified HIV Dementia Screen. Journal of Acquired Immune Deficiency Syndromes (1999), 2010, 55, 225-227.	0.9	6
62	Affective reactivity of speech disturbances in schizotypy. Journal of Psychiatric Research, 2010, 44, 99-105.	1.5	36
63	Validation of the Coin Rotation Test. Neurologist, 2010, 16, 249-253.	0.4	22
64	The psychiatric symptomatology of deficit schizophrenia: A meta-analysis. Schizophrenia Research, 2010, 118, 122-127.	1.1	48
65	Emotional Experience in Patients With Schizophrenia Revisited: Meta-analysis of Laboratory Studies. Schizophrenia Bulletin, 2010, 36, 143-150.	2.3	445
66	A framework for understanding experiential deficits in schizophrenia. Psychiatry Research, 2010, 178, 10-16.	1.7	20
67	Meta-analysis of Cholecystectomy in Symptomatic Patients With Positive Hepatobiliary Iminodiacetic Acid Scan Results Without Gallstones. Archives of Surgery (Chicago, Ill: 1920), 2009, 144, 180.	1.5	44
68	A laboratory-based procedure for measuring emotional expression from natural speech. Behavior Research Methods, 2009, 41, 204-212.	2.3	33
69	The neurocognitive underpinnings of diminished expressivity in schizotypy: What the voice reveals. Schizophrenia Research, 2009, 109, 38-45.	1.1	67
70	Clarifying the Linguistic Signature: Measuring Personality From Natural Speech. Journal of Personality Assessment, 2008, 90, 559-563.	1.3	26
71	Active and Passive Smoking in Childhood Is Related to the Development of Inflammatory Bowel Disease. Inflammatory Bowel Diseases, 2007, 13, 431-438.	0.9	87
72	The Role of Smoking in Crohn's Disease as Defined by Clinical Variables. Digestive Diseases and Sciences, 2007, 52, 2897-2903.	1.1	63

#	ARTICLE	IF	CITATIONS
73	Smoking and Inflammatory Bowel Disease: A Meta-analysis. Mayo Clinic Proceedings, 2006, 81, 1462-1471.	1.4	612
