|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1  | Establishing the optimal male cut-off point: confirmatory factor analysis of the eating disorder examination-questionnaire (EDE-Q) in a representative sample of Spanish university students. <i>Eating and Weight Disorders</i> , 2022, 27, 969-977.                  | 1.2 | 13        |
| 2  | Using structural equation modeling to understand family and psychological factors of childhood obesity: from socioeconomic disadvantage to loss of control eating. <i>Eating and Weight Disorders</i> , 2022, 27, 1809-1819.                                           | 1.2 | 1         |
| 3  | Physical Appearance Perfectionism: Psychometric Properties and Factor Structure of an Assessment Instrument in a Representative Sample of Males. <i>Frontiers in Psychology</i> , 2022, 13, 806460.                                                                    | 1.1 | 2         |
| 4  | Impact of COVID-19 Lockdown in Eating Disorders: A Multicentre Collaborative International Study. <i>Nutrients</i> , 2022, 14, 100.                                                                                                                                    | 1.7 | 18        |
| 5  | Validation of the Spanish Compulsive Exercise Test Version in Male University Students: A Confirmatory Factor Analysis and invariance study. <i>Cuadernos De Psicología Del Deporte</i> , 2022, 22, 85-98.                                                             | 0.2 | 2         |
| 6  | Family-reported barriers and predictors of short-term attendance in a multidisciplinary intervention for managing childhood obesity: A psycho-family-system based randomised controlled trial (ENTRENAR). <i>European Eating Disorders Review</i> , 2022, 30, 746-759. | 2.3 | 3         |
| 7  | Adding maintaining factors to developmental models of anorexia nervosa: An empirical examination in adolescents. <i>European Eating Disorders Review</i> , 2021, 29, 548-558.                                                                                          | 2.3 | 4         |
| 8  | Linking Psychosocial Stress Events, Psychological Disorders and Childhood Obesity. <i>Children</i> , 2021, 8, 211.                                                                                                                                                     | 0.6 | 9         |
| 9  | Modelo de interiorización y exteriorización para explicar el inicio de la psicopatología de los trastornos alimentarios en la adolescencia. <i>Psicología Conductual</i> , 2021, 29, 51-72.                                                                            | 0.1 | 0         |
| 10 | Toward a Biological, Psychological and Familial Approach of Eating Disorders at Onset: Case-Control ANOBAS Study. <i>Frontiers in Psychology</i> , 2021, 12, 714414.                                                                                                   | 1.1 | 5         |
| 11 | Development and validation of a multicultural Spanish-language version of the Muscularity-Oriented Eating Test (MOET) in Argentina. <i>Eating Behaviors</i> , 2021, 43, 101542.                                                                                        | 1.1 | 4         |
| 12 | Approximations to an Integrated Model of Eating Disorders and Muscle Dysmorphia among University Male Students in Argentina. <i>Men and Masculinities</i> , 2020, 23, 288-305.                                                                                         | 1.7 | 10        |
| 13 | Psychometric properties of the Spanish version of the Experience of Caregiving Inventory (ECI) among caregivers of individuals with an eating disorder. <i>Eating and Weight Disorders</i> , 2020, 25, 299-307.                                                        | 1.2 | 1         |
| 14 | Psychological well-being and weight-related teasing in childhood obesity: a case-control study. <i>Eating and Weight Disorders</i> , 2020, 25, 751-759.                                                                                                                | 1.2 | 23        |
| 15 | Feasibility, acceptability, and effectiveness of a multidisciplinary intervention in childhood obesity from primary care: Nutrition, physical activity, emotional regulation, and family. <i>European Eating Disorders Review</i> , 2020, 28, 184-198.                 | 2.3 | 14        |
| 16 | Identifying Loss of Control Eating within Childhood Obesity: The Importance of Family Environment and Child Psychological Distress. <i>Children</i> , 2020, 7, 225.                                                                                                    | 0.6 | 6         |
| 17 | The Spanish version of the Home Environment Survey (HES) among families of children with overweight/obesity: a validation study. <i>Eating and Weight Disorders</i> , 2020, 26, 2153-2163.                                                                             | 1.2 | 1         |
| 18 | Identifying psychosocial and familial correlates and the impact of the stressful life events in the onset of anorexia nervosa: Control-case study (ANOBAS). <i>Psychiatry Research</i> , 2020, 284, 112768.                                                            | 1.7 | 4         |

| #  | ARTICLE                                                                                                                                                                                                                      | IF  | CITATIONS |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 19 | Actualización de las Intervenciones Dirigidas al Contexto Familiar en los Trastornos del Comportamiento Alimentario: El Rol de los Padres. <i>Revista De Psicoterapia</i> , 2020, 31, 49-63.                                 | 0.0 | 1         |
| 20 | Assessment and validation of a Spanish version of the Muscle Dysmorphia Disorder Inventory in Argentinian men who exercise: Inventario de Dismorfia Muscular. <i>Body Image</i> , 2019, 31, 24-34.                           | 1.9 | 20        |
| 21 | Identifying the relationship between biological, psychosocial and family markers associated with childhood obesity: Case-control "ANOBAS" study. <i>Psychoneuroendocrinology</i> , 2019, 110, 104428.                        | 1.3 | 6         |
| 22 | A controlled study of an integrated prevention program for improving disordered eating and body image among Mexican university students: A 3-month follow-up. <i>European Eating Disorders Review</i> , 2019, 27, 541-556.   | 2.3 | 10        |
| 23 | Confirmatory factor analysis and measurement invariance of the eating disorders examination questionnaire across four male samples in Argentina. <i>International Journal of Eating Disorders</i> , 2019, 52, 740-745.       | 2.1 | 16        |
| 24 | Spanish validation of the Eating Disorder Examination Questionnaire for Adolescents (EDE-Q-A): confirmatory factor analyses among a clinical sample. <i>Eating Disorders</i> , 2019, 27, 565-576.                            | 1.9 | 9         |
| 25 | Adipokines, cortisol and cytokine alterations in recent onset anorexia nervosa. A case-control study. <i>Endocrinología Diabetes Y Nutrición (English Ed)</i> , 2019, 66, 571-578.                                           | 0.1 | 1         |
| 26 | A controlled study of the Collaborative Care Skills Workshops versus Psychoeducational Workshops among Spanish caregivers of relatives with an eating disorder. <i>European Eating Disorders Review</i> , 2019, 27, 247-262. | 2.3 | 14        |
| 27 | Assessing the male body image: Spanish validation of two instruments. <i>Psychiatry Research</i> , 2019, 272, 483-490.                                                                                                       | 1.7 | 16        |
| 28 | Adipokines, cortisol and cytokine alterations in recent onset anorexia nervosa. A case-control study. <i>Endocrinología, Diabetes Y Nutrición</i> , 2019, 66, 571-578.                                                       | 0.1 | 6         |
| 29 | What position do you play? Eating disorder pathology among rugby players, and the understudied role of player position. <i>International Journal of Eating Disorders</i> , 2018, 51, 1015-1019.                              | 2.1 | 6         |
| 30 | The adolescent onset anorexia nervosa study (ANABEL): Design and baseline results. <i>International Journal of Methods in Psychiatric Research</i> , 2018, 27, e1739.                                                        | 1.1 | 4         |
| 31 | Prevalence of childhood mental disorders in overweight and obese Spanish children: Identifying loss of control eating. <i>Psychiatry Research</i> , 2018, 267, 175-181.                                                      | 1.7 | 13        |
| 32 | Experience of caregiving and coping strategies in caregivers of adolescents with an eating disorder: A comparative study. <i>Psychiatry Research</i> , 2018, 260, 241-247.                                                   | 1.7 | 8         |
| 33 | VALIDACIÓN MEXICANA DE LA ESCALA DE ACTITUDES MASCULINAS SOBRE EL CUERPO EN ESTUDIANTES UNIVERSITARIOS VARONES. <i>Revista Iberoamericana De Diagnostico Y Evaluacion Psicologica</i> , 2018, 46, 51-65.                     | 0.1 | 3         |
| 34 | Confirmatory Factor Analysis of the Male Body Attitudes Scale (MBAS) among Spanish Adolescent Males. <i>Men and Masculinities</i> , 2017, 20, 345-363.                                                                       | 1.7 | 10        |
| 35 | Examining Maternal Psychopathology, Family Functioning and Coping Skills in Childhood Obesity: A Case-control Study. <i>European Eating Disorders Review</i> , 2017, 25, 359-365.                                            | 2.3 | 13        |
| 36 | Psychiatric comorbidity and maternal distress among adolescent eating disorder patients: A comparison with substance use disorder patients. <i>Eating Behaviors</i> , 2017, 24, 74-80.                                       | 1.1 | 4         |

| #  | ARTICLE                                                                                                                                                                                                                                                         | IF  | CITATIONS |
|----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 37 | The Spanish Validation of the Accommodation and Enabling Scale for Eating Disorders Among Carers: A Pilot Study. <i>European Eating Disorders Review</i> , 2016, 24, 62-68.                                                                                     | 2.3 | 3         |
| 38 | Family Functioning and Quality of Life among Families in Eating Disorders: A Comparison with Substance-Related Disorders and Healthy Controls. <i>European Eating Disorders Review</i> , 2016, 24, 294-303.                                                     | 2.3 | 14        |
| 39 | Validation of the Spanish version of the Drive for Muscularity Scale (DMS) among males: Confirmatory factor analysis. <i>Eating Behaviors</i> , 2016, 21, 116-122.                                                                                              | 1.1 | 15        |
| 40 | The relationship between dysfunctional family patterns and symptom severity among adolescent patients with eating disorders: A gender-specific approach. <i>Women and Health</i> , 2016, 56, 695-712.                                                           | 0.4 | 18        |
| 41 | A two-stage epidemiological study of eating disorders and muscle dysmorphia in male university students in Buenos Aires. <i>International Journal of Eating Disorders</i> , 2015, 48, 1092-1101.                                                                | 2.1 | 60        |
| 42 | Cuestionario de Observación de la Conducta Bulímica (COBU): Desarrollo de un instrumento para cuidadores de pacientes con bulimia nerviosa. <i>Revista De Psicopatología Y Psicología Clínica</i> , 2015, 20, 135.                                              | 0.1 | 0         |
| 43 | Confirmatory factor analysis of the Drive for Muscularity Scale-S (DMS-S) and Male Body Attitudes Scale-S (MBAS-S) among male university students in Buenos Aires. <i>Body Image</i> , 2015, 14, 13-19.                                                         | 1.9 | 23        |
| 44 | Conformidad con roles femeninos y conductas alimentarias inadecuadas en estudiantes de danza [Conformity to the feminine norms and inadequate eating behaviors in female dance students]. <i>Revista De Psicopatología Y Psicología Clínica</i> , 2014, 18, 31. | 0.1 | 4         |
| 45 | A systematic review of family caregiving in eating disorders. <i>Eating Behaviors</i> , 2014, 15, 464-477.                                                                                                                                                      | 1.1 | 152       |
| 46 | Impact of caregiving experience on mental health among caregivers: a comparison of eating disorder patients with purging and non-purging behaviors. <i>Eating and Weight Disorders</i> , 2014, 19, 31-39.                                                       | 1.2 | 7         |
| 47 | Spanish validation of the Family Questionnaire (FQ) in families of patients with an eating disorder. <i>Psicothema</i> , 2014, 26, 321-7.                                                                                                                       | 0.7 | 19        |
| 48 | Development and reliability of a Motivational Interviewing Scenarios Tool for Eating Disorders (MIST-ED) using a skills-based intervention among caregivers. <i>Eating Behaviors</i> , 2013, 14, 432-436.                                                       | 1.1 | 5         |
| 49 | The Spanish validation of an Eating Disorders Symptom Impact Scale (EDSIS) among caregivers. <i>Psychiatry Research</i> , 2013, 209, 626-631.                                                                                                                   | 1.7 | 5         |
| 50 | A Meta-Analysis of the Diagnostic Accuracy of the SCOFF. <i>Spanish Journal of Psychology</i> , 2013, 16, E92.                                                                                                                                                  | 1.1 | 64        |
| 51 | Familia y Trastornos del Comportamiento Alimentario: Avances en Evaluación y Diseño e Intervención Psicoeducativa. <i>Clínica Contemporánea</i> , 2013, 4, 107-117.                                                                                             | 0.1 | 2         |
| 52 | The Spanish Validation of Level of Expressed Emotion Scale for Relatives of People with Eating Disorders. <i>Spanish Journal of Psychology</i> , 2012, 15, 825-839.                                                                                             | 1.1 | 9         |
