#	ARTICLE	IF	CITATIONS
1	The expanding role of primary care in cancer control. <i>Lancet Oncology</i> , The, 2015, 16, 1231-1272.	5.1	399
2	Time-to-diagnosis and symptoms of myeloma, lymphomas and leukaemias: a report from the Haematological Malignancy Research Network. <i>BMC Blood Disorders</i> , 2013, 13, 9.	0.9	94
3	Evaluation of risk assessment tools for suspected cancer in general practice: a cohort study. <i>British Journal of General Practice</i> , 2013, 63, e30-e36.	0.7	86
4	Palliative Care among Heart Failure Patients in Primary Care: A Comparison to Cancer Patients Using English Family Practice Data. <i>PLoS ONE</i> , 2014, 9, e113188.	1.1	83
5	Patient, Carer and Professional Perspectives on Barriers and Facilitators to Quality Care in Advanced Heart Failure. <i>PLoS ONE</i> , 2014, 9, e93288.	1.1	72
6	Help seeking for cancer "alarm"™ symptoms: a qualitative interview study of primary care patients in the UK. <i>British Journal of General Practice</i> , 2015, 65, e96-e105.	0.7	63
7	Identifying potentially inappropriate prescribing in older people with dementia: a systematic review. <i>European Journal of Clinical Pharmacology</i> , 2019, 75, 467-481.	0.8	60
8	Understanding diagnosis of lung cancer in primary care: qualitative synthesis of significant event audit reports. <i>British Journal of General Practice</i> , 2013, 63, e37-e46.	0.7	56
9	Safety netting for primary care: evidence from a literature review. <i>British Journal of General Practice</i> , 2019, 69, e70-e79.	0.7	55
10	Primary and secondary care management of women with early breast cancer from affluent and deprived areas: retrospective review of hospital and general practice records. <i>BMJ: British Medical Journal</i> , 2000, 320, 1442-1445.	2.4	52
11	Primary care oncology: essential if high quality cancer care is to be achieved for all. <i>Family Practice</i> , 2002, 19, 577-578.	0.8	52
12	Interventions to improve the uptake of cervical cancer screening among lower socioeconomic groups: A systematic review. <i>Preventive Medicine</i> , 2018, 111, 323-335.	1.6	52
13	Yorkshire Lung Screening Trial (YLST): protocol for a randomised controlled trial to evaluate invitation to community-based low-dose CT screening for lung cancer versus usual care in a targeted population at risk. <i>BMJ Open</i> , 2020, 10, e037075.	0.8	48
14	Attributions of Cancer "Alarm"™ Symptoms in a Community Sample. <i>PLoS ONE</i> , 2014, 9, e114028.	1.1	47
15	Risk factors for emergency presentation with lung and colorectal cancers: a systematic review. <i>BMJ Open</i> , 2015, 5, e006965-e006965.	0.8	47
16	Mirtazapine added to SSRIs or SNRIs for treatment resistant depression in primary care: phase III randomised placebo controlled trial (MIR). <i>BMJ: British Medical Journal</i> , 2018, 363, k4218.	2.4	44
17	Multiple myeloma: routes to diagnosis, clinical characteristics and survival " findings from a <sc>UK</sc> population-based study. <i>British Journal of Haematology</i> , 2017, 177, 67-71.	1.2	39
18	Comorbidity and socioeconomic deprivation: an observational study of the prevalence of comorbidity in general practice. <i>European Journal of General Practice</i> , 2004, 10, 24-26.	0.9	37

#	ARTICLE	IF	CITATIONS
19	The diagnostic test accuracy of rectal examination for prostate cancer diagnosis in symptomatic patients: a systematic review. <i>BMC Family Practice</i> , 2018, 19, 79.	2.9	36
20	Patients' needs following colorectal cancer diagnosis: where does primary care fit in?. <i>British Journal of General Practice</i> , 2011, 61, e692-e699.	0.7	35
21	Reducing the time before consulting with symptoms of lung cancer: a randomised controlled trial in primary care. <i>British Journal of General Practice</i> , 2013, 63, e47-e54.	0.7	34
22	Embedding electronic decision-support tools for suspected cancer in primary care: a qualitative study of GPs' experiences. <i>Primary Health Care Research and Development</i> , 2015, 16, 548-555.	0.5	32
23	Exploring GPs' experiences of using diagnostic tools for cancer: a qualitative study in primary care. <i>Family Practice</i> , 2015, 32, 101-105.	0.8	28
24	The Adaptation, Face, and Content Validation of a Needs Assessment Tool: Progressive Disease for People with Interstitial Lung Disease. <i>Journal of Palliative Medicine</i> , 2016, 19, 549-555.	0.6	28
25	Illness identity as an important component of candidacy: Contrasting experiences of help-seeking and access to care in cancer and heart disease. <i>Social Science and Medicine</i> , 2016, 168, 101-110.	1.8	28
26	Myeloma: Patient accounts of their pathways to diagnosis. <i>PLoS ONE</i> , 2018, 13, e0194788.	1.1	26
27	Developing a complex intervention to reduce time to presentation with symptoms of lung cancer. <i>British Journal of General Practice</i> , 2012, 62, e605-e615.	0.7	25
28	Attitudes of newly qualified doctors towards a career in general practice: a qualitative focus group study. <i>British Journal of General Practice</i> , 2017, 67, e253-e259.	0.7	24
29	In search of the cancer candidate: can lay epidemiology help?. <i>Sociology of Health and Illness</i> , 2013, 35, 575-591.	1.1	22
30	Combining mirtazapine with SSRIs or SNRIs for treatment-resistant depression: the MIR RCT. <i>Health Technology Assessment</i> , 2018, 22, 1-136.	1.3	21
31	Patient non-attendance at urgent referral appointments for suspected cancer and its links to cancer diagnosis and one year mortality: A cohort study of patients referred on the Two Week Wait pathway. <i>Cancer Epidemiology</i> , 2019, 63, 101588.	0.8	20
32	Does the use of specialist palliative care services modify the effect of socioeconomic status on place of death? A systematic review. <i>Palliative Medicine</i> , 2016, 30, 434-445.	1.3	16
33	Mass media and risk factors for cancer: the under-representation of age. <i>BMC Public Health</i> , 2018, 18, 490.	1.2	16
34	Lung cancer symptom appraisal among people with chronic obstructive pulmonary disease: A qualitative interview study. <i>Psycho-Oncology</i> , 2019, 28, 718-725.	1.0	16
35	The impact of consent on observational research: a comparison of outcomes from consenters and non consenters to an observational study. <i>BMC Medical Research Methodology</i> , 2008, 8, 15.	1.4	15
36	Emergency admissions and subsequent inpatient care through an emergency oncology service at a tertiary cancer centre: service users' experiences and views. <i>Supportive Care in Cancer</i> , 2019, 27, 451-460.	1.0	15

#	ARTICLE	IF	CITATIONS
37	Disease-related factors affecting timely lymphoma diagnosis: a qualitative study exploring patient experiences. <i>British Journal of General Practice</i> , 2019, 69, e134-e145.	0.7	15
38	Self-reported skin concerns: An epidemiological study of community-dwelling older people. <i>International Journal of Older People Nursing</i> , 2018, 13, e12195.	0.6	14
39	Low cancer suspicion following experience of a cancer "warning sign". <i>European Journal of Cancer</i> , 2015, 51, 2473-2479.	1.3	13
40	Family Caregivers Who Would Be Unwilling to Provide Care at the End of Life Again: Findings from the Health Survey for England Population Survey. <i>PLoS ONE</i> , 2016, 11, e0146960.	1.1	13
41	Experience of, awareness of and help-seeking for potential cancer symptoms in smokers and non-smokers: A cross-sectional study. <i>PLoS ONE</i> , 2017, 12, e0183647.	1.1	13
42	The complex relationship between household income of family caregivers, access to palliative care services and place of death: A national household population survey. <i>Palliative Medicine</i> , 2018, 32, 357-365.	1.3	12
43	An integrated understanding of the complex drivers of emergency presentations and admissions in cancer patients: Qualitative modelling of secondary-care health professionals' experiences and views. <i>PLoS ONE</i> , 2019, 14, e0216430.	1.1	12
44	Non-attendance at urgent referral appointments for suspected cancer: a qualitative study to gain understanding from patients and GPs. <i>British Journal of General Practice</i> , 2019, 69, e850-e859.	0.7	12
45	"Unpacking" pathways to lymphoma and myeloma diagnosis: Do experiences align with the Model of Pathways to Treatment? Findings from a UK qualitative study with patients and relatives. <i>BMJ Open</i> , 2020, 10, e034244.	0.8	12
46	Psychometric Properties of the Needs Assessment Tool "Progressive Disease Cancer in U.K. Primary Care. <i>Journal of Pain and Symptom Management</i> , 2018, 56, 602-612.	0.6	11
47	REDUCE (Reviewing long-term antidepressant use by careful monitoring in everyday practice) internet and telephone support to people coming off long-term antidepressants: protocol for a randomised controlled trial. <i>Trials</i> , 2020, 21, 419.	0.7	11
48	Mirtazapine added to selective serotonin reuptake inhibitors for treatment-resistant depression in primary care (MIR trial): study protocol for a randomised controlled trial. <i>Trials</i> , 2016, 17, 66.	0.7	10
49	Place of death: is home always best?. <i>British Journal of Hospital Medicine (London, England: 2005)</i> , 2011, 72, 441-443.	0.2	9
50	Developing a community-based intervention to improve quality of life in people with colorectal cancer: a complex intervention development study. <i>BMJ Open</i> , 2013, 3, e002596.	0.8	9
51	Time intervals from first symptom to diagnosis for head and neck cancers: An analysis of linked patient reports and medical records from the UK. <i>Cancer Epidemiology</i> , 2019, 59, 37-45.	0.8	8
52	Core intended learning outcomes for tackling health inequalities in undergraduate medicine. <i>BMC Medical Education</i> , 2015, 15, 66.	1.0	7
53	<sc>GP</sc>'s perceptions and experiences of public awareness campaigns for cancer: a qualitative enquiry. <i>Health Expectations</i> , 2016, 19, 377-387.	1.1	7
54	Perceived colorectal cancer candidacy and the role of candidacy in colorectal cancer screening. <i>Health, Risk and Society</i> , 2019, 21, 352-372.	0.9	7

#	ARTICLE	IF	CITATIONS
55	Making sense of bodily sensations: Do shared cancer narratives influence symptom appraisal?. <i>Social Science and Medicine</i> , 2019, 223, 31-39.	1.8	6
56	The association between normalising attributions and help-seeking for cancer alarm symptoms in the community: a cross-sectional survey. <i>Lancet, The</i> , 2014, 384, S86.	6.3	4
57	A cluster randomised trial of a Needs Assessment Tool for adult Cancer patients and their carers (NAT-C) in primary care: A feasibility study. <i>PLoS ONE</i> , 2021, 16, e0245647.	1.1	3
58	Geographical distance and reduced access to palliative radiotherapy: systematic review and meta-analysis. <i>BMJ Supportive and Palliative Care</i> , 2022, , bmjspcare-2021-003356.	0.8	3
59	Rapid review of factors associated with flexible sigmoidoscopy screening use. <i>Preventive Medicine</i> , 2019, 120, 8-18.	1.6	2
60	Non-attendance at urgent referral appointments for suspected cancer: a qualitative study to gain understanding from patients and GPs. <i>British Journal of General Practice</i> , 2019, , bjgp1919X706625.	0.7	2
61	Use of a GP-endorsed 12 months' reminder letter to promote uptake of bowel scope screening: protocol for a randomised controlled trial in a hard-to-reach population. <i>BMJ Open</i> , 2018, 8, e022263.	0.8	2
62	Barriers to provision of high quality care for patients with end stage heart failure. <i>BMJ Supportive and Palliative Care</i> , 2012, 2, A17.3-A18.	0.8	1
63	A qualitative exploration of women's perspectives and acceptability of including new cancer awareness information in all-clear breast or cervical screening results. <i>European Journal of Cancer Care</i> , 2022, , .	0.7	1
64	Translating qualitative data into intervention content using the Theoretical Domains Framework and stakeholder co-design: a worked example from a study of cervical screening attendance in older women. <i>BMC Health Services Research</i> , 2022, 22, 610.	0.9	1
65	A MIXED METHOD STUDY EXPLORING A PALLIATIVE CARE APPROACH FOR PEOPLE WITH ADVANCED HEART FAILURE. <i>BMJ Supportive and Palliative Care</i> , 2014, 4, A11.1-A11.	0.8	0
66	Recognition and referral of cancer symptoms in primary care. <i>Practice Nursing</i> , 2015, 26, 426-431.	0.1	0
67	Using primary care-based paper and telephone interventions to increase uptake of bowel scope screening in Yorkshire: a protocol of a randomised controlled trial. <i>BMJ Open</i> , 2018, 8, e024616.	0.8	0
68	173â€¦Identifying inappropriate prescribing in older people with dementia: a systematic review. , 2018, , .		0
69	63â€¦Systematic review of prognostic variables associated with mortality in adult patients with heart failure. , 2020, , .		0
