#	ARTICLE	IF	CITATIONS
1	Early palliative interventions for improving outcomes in people with a primary malignant brain tumour and their carers. The Cochrane Library, 2022, 2022, CD013440.	1.5	5
2	25â€...â€There is nowhere to place the angerâ€™: accounts of bereavement experiences during the COVID-19 pandemic. , 2022, , .		0
3	15â€...Parentsâ€™ accounts of the grief experiences and support needs of children and young people bereaved during the COVID-19 pandemic: results from a UK-wide online survey. , 2022, , .		0
4	Maximising recruitment of research participants into a general practice based randomised controlled trial concerning lung diagnosisâ€™ staff insights from an embedded qualitative study. Trials, 2022, 23, 225.	0.7	1
5	Symptom burden and lived experiences of patients, caregivers and healthcare professionals on the management of malignant bowel obstruction: A qualitative systematic review. Palliative Medicine, 2022, 36, 895-911.	1.3	11
6	â€It was brutal. It still isâ€™: a qualitative analysis of the challenges of bereavement during the COVID-19 pandemic reported in two national surveys. Palliative Care and Social Practice, 2022, 16, 263235242210924.	0.6	19
7	Hope and meaning-making in phase 1 oncology trials: a systematic review and thematic synthesis of qualitative evidence on patient-participant experiences. Trials, 2022, 23, 409.	0.7	8
8	Using the United Kingdom standards for public involvement to evaluate the impact of public involvement in a multinational clinical study. Research Involvement and Engagement, 2021, 7, 22.	1.1	8
9	Palliative radiotherapy after oesophageal cancer stenting (ROCS): a multicentre, open-label, phase 3 randomised controlled trial. The Lancet Gastroenterology and Hepatology, 2021, 6, 292-303.	3.7	25
10	Palliative radiotherapy combined with stent insertion to reduce recurrent dysphagia in oesophageal cancer patients: the ROCS RCT. Health Technology Assessment, 2021, 25, 1-144.	1.3	2
11	Psychosocial determinants of quit motivation in older smokers from deprived backgrounds: a cross-sectional survey. BMJ Open, 2021, 11, e044815.	0.8	3
12	Before the 2020 Pandemic: an observational study exploring public knowledge, attitudes, plans, and preferences towards death and end of life care in Wales. BMC Palliative Care, 2021, 20, 116.	0.8	8
13	A mixedâ€methods study to evaluate a patientâ€designed tool to reduce harm from cancerâ€associated thrombosis: The EMPOWER study. Research and Practice in Thrombosis and Haemostasis, 2021, 5, e12545.	1.0	9
14	Involving High-Grade Glioma Patients and Their Carers in Qualitative Research to Promote Structured Physical Activity: A Mixed-Methods Study Protocol. International Journal of Qualitative Methods, The, 2021, 20, 160940692098213.	1.3	1
15	Support needs and barriers to accessing support: Baseline results of a mixed-methods national survey of people bereaved during the COVID-19 pandemic. Palliative Medicine, 2021, 35, 1985-1997.	1.3	26
16	The Trigger Project: The Challenge of Introducing Electronic Patient-Reported Outcome Measures Into a Radiotherapy Service. Clinical Oncology, 2020, 32, e76-e79.	0.6	7
17	Patient Experience of Living With Cancerâ€Associated Thrombosis in Canada (PELICANADA). Research and Practice in Thrombosis and Haemostasis, 2020, 4, 154-160.	1.0	26
18	Chemotherapy decision-making in advanced lung cancer: a prospective qualitative study. BMJ Supportive and Palliative Care, 2020, , bmjspcare-2020-002395.	0.8	7

#	ARTICLE	IF	CITATIONS
19	Patients experience of living with cancer associated thrombosis in France (Le PELICAN). <i>Thrombosis Research</i> , 2020, 194, 66-71.	0.8	14
20	The impacts and effectiveness of support for people bereaved through advanced illness: A systematic review and thematic synthesis. <i>Palliative Medicine</i> , 2020, 34, 871-888.	1.3	30
21	“Wolverine, I think it's called: Blood thinners but in tablets.” Patients experience of living with cancer associated thrombosis in New Zealand (PELICANZ). <i>Thrombosis Research</i> , 2020, 189, 35-38.	0.8	6
22	Optimised clinical study recruitment in palliative care: success strategies and lessons learned. <i>BMJ Supportive and Palliative Care</i> , 2020, 10, 216-220.	0.8	4
23	Coping and wellbeing in bereavement: two core outcomes for evaluating bereavement support in palliative care. <i>BMC Palliative Care</i> , 2020, 19, 29.	0.8	29
24	Development of a core outcome set to use in the research and assessment of malignant bowel obstruction: protocol for the RAMBO study. <i>BMJ Open</i> , 2020, 10, e039154.	0.8	12
25	“Hospice inpatient deep vein thrombosis detection (HIDDEN) in advanced non-malignant diseases”: a longitudinal pilot study. <i>BMJ Supportive and Palliative Care</i> , 2020, , bmjspcare-2019-002039.	0.8	2
26	The ALERT-B questionnaire: A screening tool for the detection of gastroenterological late effects after radiotherapy for prostate cancer. <i>Clinical and Translational Radiation Oncology</i> , 2020, 21, 98-103.	0.9	4
27	Carer administration of as-needed subcutaneous medication for breakthrough symptoms in people dying at home: the CARIAD feasibility RCT. <i>Health Technology Assessment</i> , 2020, 24, 1-150.	1.3	10
28	Prevalence, symptom burden, and natural history of deep vein thrombosis in people with advanced cancer in specialist palliative care units (HIDDEN): a prospective longitudinal observational study. <i>Lancet Haematology</i> , 2019, 6, e79-e88.	2.2	54
29	CARer-ADministration of as-needed subcutaneous medication for breakthrough symptoms in homebased dying patients (CARIAD): study protocol for a UK-based open randomised pilot trial. <i>Trials</i> , 2019, 20, 105.	0.7	7
30	“...Notions of safety and risk in palliative care: the role of qualitative health research. , 2019, , .		0
31	Systematic review of behavioural smoking cessation interventions for older smokers from deprived backgrounds. <i>BMJ Open</i> , 2019, 9, e032727.	0.8	10
32	Methods of assessing late radiotherapy effects on bowel function. <i>Current Opinion in Supportive and Palliative Care</i> , 2019, 13, 134-141.	0.5	0
33	Palliative Care Evidence Review Service (PaCERS): a knowledge transfer partnership. <i>Health Research Policy and Systems</i> , 2019, 17, 100.	1.1	4
34	Gaining an accurate reflection of the reality of palliative care through the use of free-text feedback in questionnaires: the AFTER study. <i>BMJ Supportive and Palliative Care</i> , 2019, 9, e17-e17.	0.8	4
35	Palliative care research centre's move into social media: constructing a framework for ethical research, a consensus paper. <i>BMJ Supportive and Palliative Care</i> , 2019, 9, 219-224.	0.8	6
36	Considerations and recommendations for conducting qualitative research interviews with palliative and end-of-life care patients in the home setting: a consensus paper. <i>BMJ Supportive and Palliative Care</i> , 2019, 9, e14-e14.	0.8	33

#	ARTICLE	IF	CITATIONS
37	Patients Experience of Living with Cancer Associated Thrombosis in France (LE PELICAN). Blood, 2019, 134, 3684-3684.	0.6	0
38	Patientsâ€™ Experience of Living with Cancer-associated thrombosis in Spain (PELICANOS). Supportive Care in Cancer, 2018, 26, 3233-3239.	1.0	25
39	Patients with established cancer cachexia lack the motivation and self-efficacy to undertake regular structured exercise. Psycho-Oncology, 2018, 27, 458-464.	1.0	17
40	The challenge pathway: A mixed methods evaluation of an innovative care model for the palliative and end-of-life care of people with dementia (Innovative practice). Dementia, 2018, 17, 252-257.	1.0	12
41	Patient understanding and acceptability of an early lung cancer diagnosis trial: a qualitative study. Trials, 2018, 19, 419.	0.7	9
42	Symptom management, nutrition and hydration at end-of-life: a qualitative exploration of patientsâ€™, carersâ€™ and health professionalsâ€™ experiences and further research questions. BMC Palliative Care, 2018, 17, 60.	0.8	33
43	27â€¦Understanding public attitudes: a crucial component for developing palliative care services. BMJ Supportive and Palliative Care, 2018, 8, 370.1-370.	0.8	1
44	54â€¦Interventions and support for people bereaved through advanced progressive illness: a mixed-methods systematic review. BMJ Supportive and Palliative Care, 2018, 8, 380.2-381.	0.8	1
45	57â€¦Evidence into practice: novel approaches to underpinning evidence-based innovations in care. BMJ Supportive and Palliative Care, 2018, 8, 382.1-382.	0.8	0
46	Immediate chest X-ray for patients at risk of lung cancer presenting in primary care: randomised controlled feasibility trial. British Journal of Cancer, 2017, 116, 293-302.	2.9	15
47	Managing, making sense of and finding meaning in advanced illness: a qualitative exploration of the coping and wellbeing experiences of patients with lung cancer. Sociology of Health and Illness, 2017, 39, 1448-1464.	1.1	32
48	Development of an intervention to support patients and clinicians with advanced lung cancer when considering systematic anticancer therapy: protocol for the PACT study. BMJ Open, 2017, 7, e015277.	0.8	4
49	Improving the well-being of men by Evaluating and Addressing the Gastrointestinal Late Effects (EAGLE) of radical treatment for prostate cancer: study protocol for a mixed-method implementation project. BMJ Open, 2016, 6, e011773.	0.8	8
50	C08-C Decision-Making of Treatment In Advanced Lung Cancer: Results from the First Three Stages of the PACT Study (An Intervention to Support Advanced Lung Cancer Patients and Their Clinicians When) Tj ETQq0 000rgBT /Overlock 10		
51	The Three-item ALERT-B Questionnaire Provides a Validated Screening Tool to Detect Chronic Gastrointestinal Symptoms after Pelvic Radiotherapy in Cancer Survivors. Clinical Oncology, 2016, 28, e139-e147.	0.6	16
52	Impact of a dedicated cancer-associated thrombosis service on clinical outcomes: a mixed-methods evaluation of a clinical improvement exercise. BMJ Open, 2016, 6, e013321.	0.8	12
53	â€˜Go home with your family and a lot of kit, and weâ€™ll leave you to itâ€™: perceptions of out of hours care by the PeolcPSP respondents. BMJ Supportive and Palliative Care, 2016, 6, 400.2-400.	0.8	0
54	â€˜It still haunts me whether we did the right thingâ€™: a qualitative analysis of free text survey data on the bereavement experiences and support needs of family caregivers. BMC Palliative Care, 2016, 15, 92.	0.8	44

#	ARTICLE	IF	CITATIONS
55	âœ didnâ€™t really understand it, I just thought itâ€™d helpâœ exploring the motivations, understandings and experiences of patients with advanced lung cancer participating in a non-placebo clinical IMP trial. Trials, 2016, 17, 329.	0.7	26
56	Why do patients decline surgical trials? Findings from a qualitative interview study embedded in the Cancer Research UK BOLERO trial (Bladder cancer: Open versus Laparoscopic or RObotic) Tj ETQq0 0 0 rgBT /Ovawlock 10 15 50 697 T	0.7	1
57	Late effects of pelvic radiation treatment (EAGLE study).. Journal of Clinical Oncology, 2016, 34, 159-159.	0.8	0
58	Defining the palliative care patient: its challenges and implications for service delivery. BMJ Supportive and Palliative Care, 2015, 5, 46-52.	0.8	9
59	Developing meaningful public involvement in a cancer clinical trials unit. Trials, 2015, 16, .	0.7	0
60	TACT: Research Partner involvement in a cancer clinical trials unit and academic research centre; evaluating its impact. Trials, 2015, 16, .	0.7	1
61	The care needs of patients with idiopathic pulmonary fibrosis and their carers (CaNoPy): results of a qualitative study. BMC Pulmonary Medicine, 2015, 15, 155.	0.8	79
62	Patients’ Experiences of Living with CANcer-associated thrombosis: the PELICAN study. Patient Preference and Adherence, 2015, 9, 337.	0.8	83
63	Identifying the key elements of an education package to up-skill multidisciplinary adult specialist palliative care teams caring for young adults with life-limiting conditions: an online Delphi study. BMJ Supportive and Palliative Care, 2015, 5, 306-315.	0.8	3
64	THE POTENTIAL FOR NURSE INDEPENDENT PRESCRIBING BY THE CLINICAL NURSE SPECIALIST IN PALLIATIVE CARE IN THE COMMUNITY; ATTITUDES AND EXPERIENCES OF GENERAL PRACTITIONERS. BMJ Supportive and Palliative Care, 2015, 5, 105.2-105.	0.8	1
65	A feasibility study to inform the design of a randomised controlled trial to identify the most clinically effective and cost-effective length of Anticoagulation with Low-molecular-weight heparin In the treatment of Cancer-Associated Thrombosis (ALICAT). Health Technology Assessment, 2015, 19, 1-94.	1.3	26
66	O-13â€¦Understanding dying: Supplementary report from the palliative and end of life care priority setting partnership (PEOLCPS). BMJ Supportive and Palliative Care, 2015, 5, A77.2-A77.	0.8	0
67	Cancer-associated thrombosis, low-molecular- weight heparin, and the patient experience: a qualitative study. Patient Preference and Adherence, 2014, 8, 453.	0.8	61
68	The role of the public in developing interventions: a reflection and critique of a cancer clinical trials unit’s model. Patient Preference and Adherence, 2014, 8, 1527.	0.8	2
69	IS LONG-TERM LOW-MOLECULAR-WEIGHT HEPARIN STILL ACCEPTABLE TO PALLIATIVE CARE PATIENTS IN THE TREATMENT OF CANCER-ASSOCIATED THROMBOSIS? A QUALITATIVE STUDY REVISITED. BMJ Supportive and Palliative Care, 2014, 4, A25.2-A25.	0.8	0
70	HIGH FIDELITY SIMULATION: A MODALITY FOR TEACHING END OF LIFE CARE?. BMJ Supportive and Palliative Care, 2014, 4, A33.1-A33.	0.8	2
71	The practice of palliative care from the perspective of patients and carers. BMJ Supportive and Palliative Care, 2014, 4, 291-298.	0.8	34
72	Palliative radiotherapy in addition to self-expanding metal stent for improving dysphagia and survival in advanced oesophageal cancer (ROCS: Radiotherapy after Oesophageal Cancer Stenting): study protocol for a randomized controlled trial. Trials, 2014, 15, 402.	0.7	19

#	ARTICLE	IF	CITATIONS
73	THE PALLIATIVE AND END OF LIFE CARE PRIORITY SETTING PARTNERSHIP (PEOLCPSP): DETERMINING EVIDENCE UNCERTAINTIES FROM THE PERSPECTIVE OF THE END USER OF RESEARCH. <i>BMJ Supportive and Palliative Care</i> , 2014, 4, A42.1-A42.	0.8	8
74	AFTER IWANTGREATCARE: SERVICE USER FEEDBACK AS A MEANS OF REFINING THE IWANTGREATCARE QUESTIONNAIRE. <i>BMJ Supportive and Palliative Care</i> , 2014, 4, A47.3-A48.	0.8	0
75	â€œDonâ€™t blame the middle manâ€™: an exploratory qualitative study to explore the experiences of translators breaking bad news. <i>Journal of the Royal Society of Medicine</i> , 2014, 107, 271-276.	1.1	8
76	A feasibility study testing four hypotheses with phase II outcomes in advanced colorectal cancer (MRC) Tj ETQq0 0 0 rgBT /Overlock 10 <i>Journal of Cancer</i> , 2014, 110, 2178-2186.	2.9	27
77	â€œItâ€™s alright to ask for helpâ€™ findings from a qualitative study exploring the information and support needs of family carers at the end of life. <i>BMC Palliative Care</i> , 2014, 13, 22.	0.8	41
78	A feasibility study to inform the design of a randomized controlled trial to identify the most clinically and cost effective Anticoagulation Length with low molecular weight heparin In the treatment of Cancer Associated Thrombosis (ALICAT): study protocol for a mixed-methods study. <i>Trials</i> , 2014, 15, 122.	0.7	11
79	QUALZICE: A QUALitative exploration of the experiences of the participants from the ZICE clinical trial (metastatic breast cancer) receiving intravenous or oral bisphosphonates. <i>Trials</i> , 2013, 14, 325.	0.7	14
80	A feasibility study examining the effect on lung cancer diagnosis of offering a chest X-ray to higher-risk patients with chest symptoms: protocol for a randomized controlled trial. <i>Trials</i> , 2013, 14, 405.	0.7	9
81	Developing an intervention to support lung cancer patients and their clinicians when considering systemic anti-cancer therapy: pact study. <i>Trials</i> , 2013, 14, .	0.7	0
82	â€œOnce I knew there was a choice, I wanted to exercise that choiceâ€™: using qualitative methods to understand why patients decline surgical trials. <i>Trials</i> , 2013, 14, .	0.7	0
83	ELCID: early lung cancer identification and diagnosis - an embedded interview study to explore patient participation and recruitment. <i>Trials</i> , 2013, 14, .	0.7	0
84	Defining the palliative care patient: its challenges and implications for service delivery. <i>BMJ Supportive and Palliative Care</i> , 2013, 3, 46-52.	0.8	10
85	A mixed-methods study of the Care Needs of individuals with idiopathic Pulmonary fibrosis and their carersâ€™CaNoPy: a study protocol: Table A1. <i>BMJ Open</i> , 2013, 3, e003537.	0.8	4
86	P109â€™...Transition in palliative care study day series. <i>BMJ Supportive and Palliative Care</i> , 2013, 3, A48.3-A49.	0.8	1
87	O12â€™...Improving the transition process for young people with life-limiting conditions. <i>BMJ Supportive and Palliative Care</i> , 2013, 3, A5.1-A5.	0.8	3
88	Neuromuscular Electrical Stimulation of the Quadriceps in Patients with Non-Small Cell Lung Cancer Receiving Palliative Chemotherapy: A Randomized Phase II Study. <i>PLoS ONE</i> , 2013, 8, e86059.	1.1	38
89	iWantGreatCare Survey: analysis of free text responses by patients and carers. <i>BMJ Supportive and Palliative Care</i> , 2012, 2, A30.2-A30.	0.8	0
90	The experiences of palliative lung cancer patients participating in a clinical trial. <i>BMJ Supportive and Palliative Care</i> , 2012, 2, A23.3-A24.	0.8	0

#	ARTICLE	IF	CITATIONS
91	Prepared to care: managing home based care and the information needs of carers at end of life. BMJ Supportive and Palliative Care, 2012, 2, A40.2-A40.	0.8	0
92	FOCUS 3: A study to determine the feasibility of molecular selection of therapy using K-RAS, B-RAF, and topo-1 in patients with advanced colorectal cancer (ACRC).. Journal of Clinical Oncology, 2012, 30, 563-563.	0.8	2
93	Raising awareness of research in palliative care – the roadshow!. BMJ Supportive and Palliative Care, 2012, 2, A106.1-A106.	0.8	0
94	Heartsink encounters: a qualitative study of end-of-life care in out-of-hours general practice. JRSM Short Reports, 2011, 2, 1-9.	0.6	2
95	What challenges good palliative care provision out-of-hours? A qualitative interview study of out-of-hours general practitioners. BMJ Supportive and Palliative Care, 2011, 1, 13-18.	0.8	14
96	Out-of-hours GPs and palliative care-a qualitative study exploring information exchange and communication issues. BMC Palliative Care, 2010, 9, 18.	0.8	17
97	“Oh God, not a Palliative”: out-of-hours general practitioners within the domain of palliative care. Palliative Medicine, 2010, 24, 501-509.	1.3	28
98	Factors influencing hospice thromboprophylaxis policy: a qualitative study. Palliative Medicine, 2008, 22, 808-813.	1.3	39
99	The acceptability of an information leaflet explaining cardiopulmonary resuscitation policy in the hospice setting: a qualitative study exploring patients’ views. Palliative Medicine, 2008, 22, 647-652.	1.3	14
100	Challenges faced by palliative care physicians when caring for doctors with advanced cancer. Palliative Medicine, 2008, 22, 71-76.	1.3	11
101	Acceptability of low molecular weight heparin thromboprophylaxis for inpatients receiving palliative care: qualitative study. BMJ: British Medical Journal, 2006, 332, 577-580.	2.4	81
102	Early palliative interventions for improving outcomes in people with a primary malignant brain tumour and their carers. The Cochrane Library, 0, , .	1.5	1
