Helminth Protection against Autoimmune Diabetes in Nonobese Diabetic Mice is Independent of a Type 2 Involvement of TNF in limiting liver pathology and promoting parasite survival during schistosome infection. International Journal for Parasitology, 2004, 34, 27-36.  Chronic Helminth Infection Reduces Basophil Responsiveness in an IL-108€"Dependent Manner. Journal of Immunology, 2012, 188, 4188-4199.  A Schistosome cAMP-Dependent Protein Kinase Catalytic Subunit is Essential for Parasite Viability. PLoS Neglected Tropical Diseases, 2009, 3, e505.  Induction of Type 2 Responses by Schistosome Worms during Prepatent Infection. Journal of Infectious Diseases, 2010, 201, 464-472.  Blood Fluke Exploitation of Non-Cognate CD4+T Cell Help to Facilitate Parasite Development. PLoS Pathogens, 2010, 6, e1000892.  Pevelopmental plasticity in schistosomes and other helminths. International Journal for Parasitology, 2003, 33, 1277-1284.  The Common IB Chain Cytokines Interleukin (IL)8€"2 and IL3€7 Indirectly Modulate Blood Fluke Development via Effects on CD4+T Cells. Journal of Infectious Diseases, 2006, 194, 1609-1616.  Paparasitology, 2003, 2010, 11, 255-564.  Schistosoma comparative genomics: integrating genome structure, parasite biology and anthelmintic discovery. Trends in Parasitology, 2011, 27, 555-564.  Schistosoma mansoni: sex-specific modulation of parasite growth by host immune signals. Experimental Parasitology, 2004, 106, 59-61.  Schistosoma mansoni: sex-specific modulation of parasite growth by host immune signals. Experimental Parasitology, 2004, 106, 59-61.  Surface-associated serine-threonine kinase in Schistosoma mansoni. Molecular and Biochemical 1.1 29 Parasitology, 1995, 70, 33-44.	IF CITATIONS
infection. International Journal for Parasitology, 2004, 34, 27-36.  Chronic Helminth Infection Reduces Basophil Responsiveness in an IL-10â€"Dependent Manner. Journal of Immunology, 2012, 188, 4188-4199.  A Schistosome cAMP-Dependent Protein Kinase Catalytic Subunit Is Essential for Parasite Viability. PLoS Neglected Tropical Diseases, 2009, 3, e505.  Induction of Type 2 Responses by Schistosome Worms during Prepatent Infection. Journal of Infectious Diseases, 2010, 201, 464-472.  Blood Fluke Exploitation of Non-Cognate CD4+ T Cell Help to Facilitate Parasite Development. PLoS Pathogens, 2010, 6, e1000892.  Developmental plasticity in schistosomes and other helminths. International Journal for Parasitology, 2003, 33, 1277-1284.  The Common 1³ Chain Cytokines Interleukin (IL)â€"2 and ILâ€" Indirectly Modulate Blood Fluke Development via Effects on CD4+T Cells. Journal of Infectious Diseases, 2006, 194, 1609-1616.  Rapid induction of IgE responses to a worm cysteine protease during murine pre-patent schistosome infection. BMC Immunology, 2010, 11, 56.  Schistosoma comparative genomics: integrating genome structure, parasite biology and anthelmintic discovery. Trends in Parasitology, 2011, 27, 555-564.  Schistosoma mansoni: sex-specific modulation of parasite growth by host immune signals.  Experimental Parasitology, 2004, 106, 59-61.  Surface-associated serine-threonine kinase in Schistosoma mansoni. Molecular and Biochemical Parasitology, 1995, 70, 33-44.	
A Schistosome cAMP-Dependent Protein Kinase Catalytic Subunit Is Essential for Parasite Viability. PLoS Neglected Tropical Diseases, 2009, 3, e505.
