#	ARTICLE	IF	CITATIONS
1	World Trade Center responders in their own words: predicting PTSD symptom trajectories with AI-based language analyses of interviews. <i>Psychological Medicine</i> , 2023, 53, 918-926.	2.7	9
2	Coordinated data analysis: Knowledge accumulation in lifespan developmental psychology.. <i>Psychology and Aging</i> , 2022, 37, 125-135.	1.4	10
3	Getting a Grip on Secular Changes: Ageâ€“Periodâ€“Cohort Modeling of Grip Strength in the English Longitudinal Study of Ageing. <i>Journals of Gerontology - Series A Biological Sciences and Medical Sciences</i> , 2022, 77, 1413-1420.	1.7	5
4	Elevated C-Reactive Protein in Alzheimerâ€™s Disease Without Depression in Older Adults: Findings From the Health and Retirement Study. <i>Journals of Gerontology - Series A Biological Sciences and Medical Sciences</i> , 2022, 77, 673-682.	1.7	6
5	Association of attention and memory biases for negative stimuli with post-traumatic stress disorder symptoms. <i>Journal of Anxiety Disorders</i> , 2022, 85, 102509.	1.5	5
6	Cognitive impairment and World Trade Centre-related exposures. <i>Nature Reviews Neurology</i> , 2022, 18, 103-116.	4.9	18
7	Reduced cerebellar cortical thickness in World Trade Center responders with cognitive impairment. <i>Translational Psychiatry</i> , 2022, 12, 107.	2.4	8
8	Metabolomics analysis of post-traumatic stress disorder symptoms in World Trade Center responders. <i>Translational Psychiatry</i> , 2022, 12, 174.	2.4	3
9	Competing Risk Analysis of Time to Communal Residence for Elder Orphans. <i>Journal of Applied Gerontology</i> , 2022, 41, 2105-2112.	1.0	1
10	The Course of General Cognitive Ability in Individuals With Psychotic Disorders. <i>JAMA Psychiatry</i> , 2022, 79, 659.	6.0	23
11	The Impact of World Trade Center Related Medical Conditions on the Severity of COVID-19 Disease and Its Long-Term Sequelae. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 6963.	1.2	5
12	Ask Again: Including Gender Identity in Longitudinal Studies of Aging. <i>Gerontologist</i> , The, 2021, 61, 640-649.	2.3	5
13	The causal effect of resilience on risk for drug abuse: a Swedish national instrumental variable, co-relative and propensity-score analysis. <i>Psychological Medicine</i> , 2021, 51, 846-852.	2.7	1
14	A Coordinated Multi-study Analysis of the Longitudinal Association Between Handgrip Strength and Cognitive Function in Older Adults. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2021, 76, 229-241.	2.4	43
15	Smallâ€“area socioeconomic status and children's oral health in a safetyâ€“net care delivery setting. <i>Journal of Public Health Dentistry</i> , 2021, 81, 3-11.	0.5	4
16	FDG PET/MRI for Visual Detection of Crossed Cerebellar Diaschisis in Patients With Dementia. <i>American Journal of Roentgenology</i> , 2021, 216, 165-171.	1.0	12
17	Hybrid imaging in dementia: A semi-quantitative (18F)-fluorodeoxyglucose positron emission tomography/magnetic resonance imaging approach in clinical practice. <i>World Journal of Nuclear Medicine</i> , 2021, 20, 23-31.	0.3	5
18	Socioeconomic inequalities in the spread of coronavirus-19 in the United States: A examination of the emergence of social inequalities. <i>Social Science and Medicine</i> , 2021, 268, 113554.	1.8	157

#	ARTICLE	IF	CITATIONS
19	Selective hippocampal subfield volume reductions in World Trade Center responders with cognitive impairment. <i>Alzheimer's and Dementia: Diagnosis, Assessment and Disease Monitoring</i> , 2021, 13, e12165.	1.2	10
20	A cortical thinning signature to identify World Trade Center responders with possible dementia. <i>Intelligence-based Medicine</i> , 2021, 5, 100032.	1.4	5
21	Incidence of Mild Cognitive Impairment, Conversion to Probable Dementia, and Mortality. <i>American Journal of Alzheimer's Disease and Other Dementias</i> , 2021, 36, 153331752110122.	0.9	19
22	White Matter Connectivity in Incident Mild Cognitive Impairment: A Diffusion Spectrum Imaging Study of World Trade Center Responders at Midlife. <i>Journal of Alzheimer's Disease</i> , 2021, 80, 1209-1219.	1.2	7
23	The Characteristics of Social Network Structure in Later Life in Relation to Incidence of Mild Cognitive Impairment and Conversion to Probable Dementia. <i>Journal of Alzheimer's Disease</i> , 2021, 81, 699-710.	1.2	5
24	Mapping the transcriptomics landscape of post-traumatic stress disorder symptom dimensions in World Trade Center responders. <i>Translational Psychiatry</i> , 2021, 11, 310.	2.4	3
25	PTSD is associated with accelerated transcriptional aging in World Trade Center responders. <i>Translational Psychiatry</i> , 2021, 11, 311.	2.4	15
26	Musical instrument engagement across the life course and episodic memory in late life: An analysis of 60 years of longitudinal data from the Wisconsin Longitudinal Study. <i>PLoS ONE</i> , 2021, 16, e0253053.	1.1	10
27	Cohort and Period Effects as Explanations for Declining Dementia Trends and Cognitive Aging. <i>Population and Development Review</i> , 2021, 47, 611-637.	1.2	9
28	A Retrospective on Fundamental Cause Theory: State of the Literature and Goals for the Future. <i>Annual Review of Sociology</i> , 2021, 47, 131-156.	3.1	64
29	A deep learning approach for monitoring parietal-dominant Alzheimer's disease in World Trade Center responders at midlife. <i>Brain Communications</i> , 2021, 3, fcab145.	1.5	4
30	COVID-19 cumulative incidence, asymptomatic infections, and fatality in Long Island, NY, January–August 2020: A cohort of World Trade Center responders. <i>PLoS ONE</i> , 2021, 16, e0254713.	1.1	8
31	The Association of Posttraumatic Stress Disorder With Longitudinal Change in Glomerular Filtration Rate in World Trade Center Responders. <i>Psychosomatic Medicine</i> , 2021, 83, 978-986.	1.3	5
32	Neuroinflammation in World Trade Center responders at midlife: A pilot study using [18F]-FEPPA PET imaging. <i>Brain, Behavior, &amp; Immunity - Health</i> , 2021, 16, 100287.	1.3	13
33	Re-evaluating physiological indicators for all-cause mortality. <i>The Lancet Healthy Longevity</i> , 2021, 2, e608-e609.	2.0	0
34	Artificial intelligence language predictors of two-year trauma-related outcomes. <i>Journal of Psychiatric Research</i> , 2021, 143, 239-245.	1.5	1
35	Single-cell transcriptomics analysis of mild cognitive impairment in World Trade Center disaster responders. <i>Alzheimer's and Dementia: Diagnosis, Assessment and Disease Monitoring</i> , 2021, 13, e12154.	1.2	8
36	(18F)-Fluorodeoxyglucose positron emission tomography/magnetic resonance imaging assessment of hypometabolism patterns in clinical phenotypes of suspected corticobasal degeneration. <i>World Journal of Nuclear Medicine</i> , 2021, 20, 176-184.	0.3	4

#	ARTICLE	IF	CITATIONS
37	Metabolic positron-emission tomography/magnetic resonance imaging in primary progressive aphasia and frontotemporal lobar degeneration subtypes: Reassessment of expected [18F]-fluorodeoxyglucose uptake patterns. <i>World Journal of Nuclear Medicine</i> , 2021, 20, 294-304.	0.3	3
38	A Workshop on Cognitive Aging and Impairment in the 9/11-Exposed Population. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 681.	1.2	10
39	Demographic correlates of inflammatory and antiviral gene expression in the study of Midlife in the United States (MIDUS). <i>Biodemography and Social Biology</i> , 2021, , 1-14.	0.4	1
40	Cortical complexity in world trade center responders with chronic posttraumatic stress disorder. <i>Translational Psychiatry</i> , 2021, 11, 597.	2.4	7
41	A wind speed threshold for increased outdoor transmission of coronavirus: an ecological study. <i>BMC Infectious Diseases</i> , 2021, 21, 1194.	1.3	9
42	Does Relationship End Precede Cognitive Decline? An Analysis of the Health and Retirement Study. <i>Innovation in Aging</i> , 2021, 5, 281-281.	0.0	0
43	Longitudinal characterization of mild cognitive impairment and dementia in World Trade Center responders at midlife. <i>Alzheimer's and Dementia</i> , 2021, 17, .	0.4	0
44	Immigration-Related Trauma Associated With Metabolic Risk and Cognition in Hispanic and Latino Immigrant Populations. <i>Innovation in Aging</i> , 2021, 5, 76-77.	0.0	0
45	World Trade Center neurotoxic exposures are associated with elevated plasma amyloid, totalâ€tau and neurofilament light in responders. <i>Alzheimer's and Dementia</i> , 2021, 17, .	0.4	0
46	Can Ecological Momentary Assessments Be Used as Daily Markers of Personality Traits?. <i>Innovation in Aging</i> , 2021, 5, 249-249.	0.0	0
47	Incidence of Mild Cognitive Impairment, Conversion to Probable Dementia, and Mortality. <i>Innovation in Aging</i> , 2021, 5, 645-645.	0.0	0
48	Obese Body Mass Index in late-life as a protective factor for Mild Cognitive Impairment, Dementia and Death. <i>Innovation in Aging</i> , 2021, 5, 635-635.	0.0	0
49	Prior Physical Performance Impacts Social Contact and Social Participation of U.S. Older People During COVID-19. <i>Innovation in Aging</i> , 2021, 5, 459-459.	0.0	1
50	Clinical risk factors for mortality in an analysis of 1375 patients admitted for COVID treatment. <i>Scientific Reports</i> , 2021, 11, 23414.	1.6	11
51	Whitepaper: Defining and investigating cognitive reserve, brain reserve, and brain maintenance. <i>Alzheimer's and Dementia</i> , 2020, 16, 1305-1311.	0.4	806
52	Systematic Review of Pulmonary Function and Cognition in Aging. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2020, 75, 937-952.	2.4	22
53	Education and Cognitive Decline: An Integrative Analysis of Global Longitudinal Studies of Cognitive Aging. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2020, 75, e151-e160.	2.4	73
54	Past Experiences of Getting Bullied and Assaulted and Posttraumatic Stress Disorder (PTSD) after a Severe Traumatic Event in Adulthood: A Study of World Trade Center (WTC) Responders. <i>Journal of Aggression, Maltreatment and Trauma</i> , 2020, 29, 167-185.	0.9	5

#	ARTICLE	IF	CITATIONS
55	Physical Functional Limitations in a First-Admission Cohort at Midlife: Findings From the Suffolk County Mental Health Project. <i>Journals of Gerontology - Series A Biological Sciences and Medical Sciences</i> , 2020, 75, 1424-1430.	1.7	0
56	Pattern Recognition to Identify Stroke in the Cognitive Profile: Secondary Analyses of a Prospective Cohort Study. <i>Cerebrovascular Diseases Extra</i> , 2020, 9, 114-122.	0.5	5
57	MRI Volume Changes of Axillary Lymph Nodes as Predictor of Pathologic Complete Responses to Neoadjuvant Chemotherapy in Breast Cancer. <i>Clinical Breast Cancer</i> , 2020, 20, 68-79.e1.	1.1	10
58	Acute versus Chronic Exposures to Inhaled Particulate Matter and Neurocognitive Dysfunction: Pathways to Alzheimer's Disease or a Related Dementia. <i>Journal of Alzheimer's Disease</i> , 2020, 78, 871-886.	1.2	14
59	Molecular linkage between post-traumatic stress disorder and cognitive impairment: a targeted proteomics study of World Trade Center responders. <i>Translational Psychiatry</i> , 2020, 10, 269.	2.4	19
60	Reduced cortical thickness in World Trade Center responders with cognitive impairment. <i>Alzheimer's and Dementia: Diagnosis, Assessment and Disease Monitoring</i> , 2020, 12, e12059.	1.2	19
61	&lt;p&gt;Risk Stratification of Locally Advanced Non-Small Cell Lung Cancer (NSCLC) Patients Treated with Chemo-Radiotherapy: An Institutional Analysis&lt;/p&gt;. <i>Cancer Management and Research</i> , 2020, Volume 12, 7165-7171.	0.9	2
62	Reduced cortical thickness in World Trade Center responders with cognitive impairment. <i>Alzheimer's and Dementia</i> , 2020, 16, e039996.	0.4	6
63	Proteomic analysis of cognitive impairment in responders traumatized by the World Trade Center disaster. <i>Alzheimer's and Dementia</i> , 2020, 16, e040497.	0.4	0
64	Pattern recognition to objectively differentiate the etiology of cognitive decay in longitudinal cognitive data: Analysis of stroke, Alzheimer's disease, and normal aging. <i>Alzheimer's and Dementia</i> , 2020, 16, e041098.	0.4	0
65	Social network structure and dementing processes. <i>Alzheimer's and Dementia</i> , 2020, 16, e047315.	0.4	0
66	Chronic Posttraumatic Stress Disorder and Comorbid Cognitive and Physical Impairments in World Trade Center Responders. <i>Journal of Traumatic Stress</i> , 2020, 34, 616-627.	1.0	12
67	Pattern Recognition to Objectively Differentiate the Etiology of Cognitive Decline: Analysis of the Impact of Stroke and Alzheimer's Disease. <i>Neuroepidemiology</i> , 2020, 54, 446-453.	1.1	2
68	Pathway Analysis for Plasma $\beta$ -Amyloid, Tau and Neurofilament Light (ATN) in World Trade Center Responders at Midlife. <i>Neurology and Therapy</i> , 2020, 9, 159-171.	1.4	20
69	Estimated Prevalence of Elder Orphans Using National Health and Aging Trends Study. <i>Journal of Aging and Health</i> , 2020, 32, 1443-1449.	0.9	9
70	Fundamental social causes of inequalities in colorectal cancer mortality: A study of behavioral and medical mechanisms. <i>Heliyon</i> , 2020, 6, e03484.	1.4	10
71	Factors Associated With Becoming Edentulous in the US Health and Retirement Study. <i>Journal of the American Geriatrics Society</i> , 2019, 67, 2318-2324.	1.3	18
72	Will That Pulmonary Nodule Become Cancerous? A Risk Prediction Model for Incident Lung Cancer. <i>Cancer Prevention Research</i> , 2019, 12, 463-470.	0.7	5

#	ARTICLE	IF	CITATIONS
73	Association of Severity of Posttraumatic Stress Disorder With Inflammation: Using Total White Blood Cell Count as a Marker. <i>Chronic Stress</i> , 2019, 3, 247054701987765.	1.7	4
74	Trauma and Relationship Strain: Oral Histories With World Trade Center Disaster Responders. <i>Qualitative Health Research</i> , 2019, 29, 1751-1765.	1.0	5
75	Impact of an oral health education intervention among a group of patients with eating disorders (anorexia nervosa and bulimia nervosa). <i>Journal of Eating Disorders</i> , 2019, 7, 29.	1.3	9
76	Incidence of mild cognitive impairment in World Trade Center responders: Long-term consequences of re-experiencing the events on 9/11/2001. <i>Alzheimer's and Dementia: Diagnosis, Assessment and Disease Monitoring</i> , 2019, 11, 628-636.	1.2	47
77	Cell type-specific gene expression patterns associated with posttraumatic stress disorder in World Trade Center responders. <i>Translational Psychiatry</i> , 2019, 9, 1.	2.4	383
78	Shortened leukocyte telomere length is associated with reduced pulmonary function and greater subsequent decline in function in a sample of World Trade Center responders. <i>Scientific Reports</i> , 2019, 9, 8148.	1.6	6
79	A Multi-study Coordinated Meta-analysis of Pulmonary Function and Cognition in Aging. <i>Journals of Gerontology - Series A Biological Sciences and Medical Sciences</i> , 2019, 74, 1793-1804.	1.7	20
80	Posttraumatic stress disorder and total amyloid burden and amyloid $\beta$ 42/40 ratios in plasma: Results from a pilot study of World Trade Center responders. <i>Alzheimer's and Dementia: Diagnosis, Assessment and Disease Monitoring</i> , 2019, 11, 216-220.	1.2	22
81	Handgrip Strength of World Trade Center (WTC) Responders: The Role of Re-Experiencing Posttraumatic Stress Disorder (PTSD) Symptoms. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 1128.	1.2	16
82	Mechanisms underlying resilience in Aging. <i>Nature Reviews Neuroscience</i> , 2019, 20, 246-246.	4.9	34
83	Risk factors for incident prostate cancer in a cohort of world trade center responders. <i>BMC Psychiatry</i> , 2019, 19, 389.	1.1	9
84	Midface Growth in Patients With Unilateral Cleft Lip and Palate Treated With a Nasoalveolar Molding Protocol. <i>Journal of Craniofacial Surgery</i> , 2019, 30, 1640-1643.	0.3	12
85	Apolipoprotein E $\epsilon$ 4 allele predicts escalation of psychotic symptoms in late adulthood. <i>Schizophrenia Research</i> , 2019, 206, 82-88.	1.1	8
86	Transitions across cognitive states and death among older adults in relation to education: A multistate survival model using data from six longitudinal studies. <i>Alzheimer's and Dementia</i> , 2018, 14, 462-472.	0.4	47
87	Maladaptive Personality Traits and 10-Year Course of Psychiatric and Medical Symptoms and Functional Impairment Following Trauma. <i>Annals of Behavioral Medicine</i> , 2018, 52, 697-712.	1.7	16
88	Comparative Analysis of Three-Dimensional Nasal Shape of Casts from Patients With Unilateral Cleft Lip and Palate Treated at Two Institutions Following Rotation Advancement Only (Iowa) or Nasoalveolar Molding and Rotation Advancement in Conjunction With Primary Rhinoplasty (New Tj ETQq0 0 0 rgBT /Overlock 10 Tf 50	0.5	13
89	Area racism and birth outcomes among Blacks in the United States. <i>Social Science and Medicine</i> , 2018, 199, 49-55.	1.8	87
90	P4a161: INCIDENCE OF MILD COGNITIVE IMPAIRMENT IN A SAMPLE OF WORLD TRADE CENTER RESPONDERS: THE LONG-TERM IMPLICATIONS OF RE-EXPERIENCING THE EVENT. <i>Alzheimer's and Dementia</i> , 2018, 14, P1501.	0.4	0

#	ARTICLE	IF	CITATIONS
91	CORRELATED CHANGES IN GRIP STRENGTH AND COGNITION: MULTI-STUDY RESULTS BASED ON BIVARIATE LINEAR GROWTH MODELING. <i>Innovation in Aging</i> , 2018, 2, 616-616.	0.0	1
92	P3&#53: EDUCATION AND THE ONSET OF COGNITIVE PATHOLOGY. <i>Alzheimer's and Dementia</i> , 2018, 14, P1334.	0.4	0
93	A life course approach to health literacy: the role of gender, educational attainment and lifetime cognitive capability. <i>Age and Ageing</i> , 2017, 46, 493-499.	0.7	101
94	Mental retirement and health selection: Analyses from the U.S. Health and Retirement Study. <i>Social Science and Medicine</i> , 2017, 178, 78-86.	1.8	32
95	Hurricane Sandy Exposure and the Mental Health of World Trade Center Responders. <i>Journal of Traumatic Stress</i> , 2017, 30, 107-114.	1.0	20
96	Fundamental causes of accelerated declines in colorectal cancer mortality: Modeling multiple ways that disadvantage influences mortality risk. <i>Social Science and Medicine</i> , 2017, 187, 1-10.	1.8	16
97	An International Evaluation of Cognitive Reserve and Memory Changes in Early Old Age in 10 European Countries. <i>Neuroepidemiology</i> , 2017, 48, 9-20.	1.1	30
98	Functional Limitations Among Responders to the World Trade Center Attacks 14 Years After the Disaster: Implications of Chronic Posttraumatic Stress Disorder. <i>Journal of Traumatic Stress</i> , 2017, 30, 443-452.	1.0	28
99	Traumatic exposures, posttraumatic stress disorder, and cognitive functioning in World Trade Center responders. <i>Alzheimer's and Dementia: Translational Research and Clinical Interventions</i> , 2017, 3, 593-602.	1.8	43
100	Proton pump inhibitors and the risk of severe cognitive impairment: TheÂrole of posttraumatic stress disorder. <i>Alzheimer's and Dementia: Translational Research and Clinical Interventions</i> , 2017, 3, 579-583.	1.8	9
101	Retirement and cognition: A life course view. <i>Advances in Life Course Research</i> , 2017, 31, 11-21.	0.8	23
102	Gene expression associated with PTSD in World Trade Center responders: An RNA sequencing study. <i>Translational Psychiatry</i> , 2017, 7, 1297.	2.4	61
103	Conversion Discriminative Analysis on Mild Cognitive Impairment Using Multiple Cortical Features from MR Images. <i>Frontiers in Aging Neuroscience</i> , 2017, 9, 146.	1.7	25
104	Surgeon&#x2013;s and Caregivers&#x2013;s Appraisals of Primary Cleft Lip Treatment with and without Nasoalveolar Molding. <i>Plastic and Reconstructive Surgery</i> , 2016, 137, 938-945.	0.7	49
105	DSM-IV post-traumatic stress disorder among World Trade Center responders 11&#x2013;13 years after the disaster of 11 September 2001 (9/11). <i>Psychological Medicine</i> , 2016, 46, 771-783.	2.7	114
106	A Social History of Disease: Contextualizing the Rise and Fall of Social Inequalities in Cause-Specific Mortality. <i>Demography</i> , 2016, 53, 1631-1656.	1.2	80
107	Independent and interactive impacts of hypertension and diabetes mellitus on verbal memory: A coordinated analysis of longitudinal data from England, Sweden, and the United States.. <i>Psychology and Aging</i> , 2016, 31, 262-273.	1.4	13
108	Cognitive impairment among World Trade Center responders: Long&#x2013;term implications of re&#x2013;experiencing the 9/11 terrorist attacks. <i>Alzheimer's and Dementia: Diagnosis, Assessment and Disease Monitoring</i> , 2016, 4, 67-75.	1.2	53

#	ARTICLE	IF	CITATIONS
109	Fatigue severity in World Trade Center (9/11) responders: a preliminary study. <i>Fatigue: Biomedicine, Health and Behavior</i> , 2016, 4, 70-79.	1.2	6
110	Women's autonomy and cervical cancer screening in the Lesotho Demographic and Health Survey 2009. <i>Social Science and Medicine</i> , 2016, 150, 23-30.	1.8	11
111	Caregiver responses to early cleft palate care: A mixed method approach.. <i>Health Psychology</i> , 2016, 35, 474-482.	1.3	52
112	Social inequalities in malaria knowledge, prevention and prevalence among children under 5 years old and women aged 15-49 in Madagascar. <i>Malaria Journal</i> , 2015, 14, 499.	0.8	26
113	Comparative Study of Early Secondary Nasal Revisions and Costs in Patients With Clefts Treated With and Without Nasoalveolar Molding. <i>Journal of Craniofacial Surgery</i> , 2015, 26, 1229-1233.	0.3	67
114	Basal View Reference Photographs for Nasolabial Appearance Rating in Unilateral Cleft Lip and Palate. <i>Journal of Craniofacial Surgery</i> , 2015, 26, 1548-1550.	0.3	12
115	Association between an Internet-Based Measure of Area Racism and Black Mortality. <i>PLoS ONE</i> , 2015, 10, e0122963.	1.1	132
116	Assessment of Presurgical Clefts and Predicted Surgical Outcome in Patients Treated With and Without Nasoalveolar Molding. <i>Journal of Craniofacial Surgery</i> , 2015, 26, 71-75.	0.3	57
117	Educational inequalities in aging-related declines in fluid cognition and the onset of cognitive pathology. <i>Alzheimer's and Dementia: Diagnosis, Assessment and Disease Monitoring</i> , 2015, 1, 303-310.	1.2	25
118	Educational Inequalities in Health Behaviors at Midlife. <i>Journal of Health and Social Behavior</i> , 2015, 56, 323-340.	2.7	35
119	Social Inequalities in Suicide: The Role of Selective Serotonin Reuptake Inhibitors. <i>American Journal of Epidemiology</i> , 2014, 180, 696-704.	1.6	17
120	The Role of Partnership Status on Late-Life Physical Function. <i>Canadian Journal on Aging</i> , 2014, 33, 413-425.	0.6	13
121	A fundamental cause approach to the study of disparities in lung cancer and pancreatic cancer mortality in the United States. <i>Social Science and Medicine</i> , 2014, 100, 54-61.	1.8	50
122	On the Importance of Early-Life Cognitive Abilities in Shaping Later-Life Outcomes. <i>Research in Human Development</i> , 2014, 11, 241-246.	0.8	12
123	Social inequalities in vaccination uptake among children aged 0-59 months living in Madagascar: An analysis of Demographic and Health Survey data from 2008 to 2009. <i>Vaccine</i> , 2014, 32, 3533-3539.	1.7	49
124	The Dynamic Relationship Between Physical Function and Cognition in Longitudinal Aging Cohorts. <i>Epidemiologic Reviews</i> , 2013, 35, 33-50.	1.3	302
125	Coordinated Analysis of Age, Sex, and Education Effects on Change in MMSE Scores. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2013, 68, 374-390.	2.4	95
126	Fundamental Causes of Colorectal Cancer Mortality in the United States: Understanding the Importance of Socioeconomic Status in Creating Inequality in Mortality. <i>American Journal of Public Health</i> , 2013, 103, 99-104.	1.5	59

#	ARTICLE	IF	CITATIONS
127	Propensity score matching and longitudinal research designs: counterfactual analysis using longitudinal data. , 2013, , 109-117.		0
