#	ARTICLE	IF	CITATIONS
1	Measurement invariance of the short Warwick-Edinburgh Mental Wellbeing Scale and latent mean differences (SWEMWBS) in young people by current care status. <i>Quality of Life Research</i> , 2022, 31, 205-213.	3.1	12
2	Police referrals for domestic abuse before and during the first COVID-19 lockdown: An analysis of routine data from one specialist service in South Wales. <i>Journal of Public Health</i> , 2022, 44, e252-e259.	1.8	5
3	Choosing Active Role Models to INspire Girls (CHARMING): protocol for a cluster randomised feasibility trial of a school-based, community-linked programme to increase physical activity levels in 9-10-year-old girls. <i>Pilot and Feasibility Studies</i> , 2022, 8, 2.	1.2	3
4	Collecting genetic samples and linked mental health data from adolescents in schools: protocol coproduction and a mixed-methods pilot of feasibility and acceptability. <i>BMJ Open</i> , 2022, 12, e049283.	1.9	0
5	Prevalence of Menthol and Menthol Capsule Cigarette Use Among 11-16 Year Olds in Wales Prior to a Ban on Characterizing Flavors in Cigarettes: Findings From the 2019 Student Health and Wellbeing Survey. <i>Nicotine and Tobacco Research</i> , 2022, 24, 1257-1263.	2.6	3
6	Tobacco use, smoking identities and pathways into and out of smoking among young adults: a meta-ethnography. <i>Substance Abuse Treatment, Prevention, and Policy</i> , 2022, 17, 24.	2.2	6
7	Mental health and life satisfaction among 10-11-year-olds in Wales, before and one year after onset of the COVID-19 pandemic. <i>BMC Public Health</i> , 2022, 22, 379.	2.9	10
8	How can we adapt complex population health interventions for new contexts? Progressing debates and research priorities. <i>Journal of Epidemiology and Community Health</i> , 2021, 75, jech-2020-214468.	3.7	21
9	Change over time in adolescent smoking, cannabis use and their association: findings from the School Health Research Network in Wales. <i>Journal of Public Health</i> , 2021, 43, e620-e628.	1.8	9
10	A Transdisciplinary Complex Adaptive Systems (T-CAS) Approach to Developing a National School-Based Culture of Prevention for Health Improvement: the School Health Research Network (SHRN) in Wales. <i>Prevention Science</i> , 2021, 22, 50-61.	2.6	26
11	Dating and relationship violence victimization and perpetration among 11-16 year olds in Wales: a cross-sectional analysis of the School Health Research Network (SHRN) survey. <i>Journal of Public Health</i> , 2021, 43, 111-122.	1.8	12
12	Risk Behaviours Associated with Dating and Relationship Violence among 11-16 Year Olds in Wales: Results from the 2019 Student Health and Wellbeing Survey. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 1192.	2.6	6
13	Adapting evidence-informed population health interventions for new contexts: a scoping review of current practice. <i>Health Research Policy and Systems</i> , 2021, 19, 13.	2.8	24
14	Socio-Economic Status, Mental Health Difficulties and Feelings about Transition to Secondary School among 10-11 Year Olds in Wales: Multi-Level Analysis of a Cross Sectional Survey. <i>Child Indicators Research</i> , 2021, 14, 1597-1615.	2.3	6
15	Pupil Mental Health, Concerns and Expectations About Secondary School as Predictors of Adjustment Across the Transition to Secondary School: A Longitudinal Multi-informant Study. <i>School Mental Health</i> , 2021, 13, 279-298.	2.1	10
16	Protocol for expansion of an existing national monthly survey of smoking behaviour and alcohol use in England to Scotland and Wales: The Smoking and Alcohol Toolkit Study. <i>Wellcome Open Research</i> , 2021, 6, 67.	1.8	21
17	Sugar-sweetened beverage consumption from 1998-2017: Findings from the health behaviour in school-aged children/school health research network in Wales. <i>PLoS ONE</i> , 2021, 16, e0248847.	2.5	12
18	Implementation of e-cigarette regulation through the EU Tobacco Products Directive (2016) in Wales, Scotland and England from the perspectives of stakeholders involved in policy introduction and enforcement. <i>Tobacco Prevention and Cessation</i> , 2021, 7, 1-10.	0.4	3

#	ARTICLE	IF	CITATIONS
19	Psychosocial determinants of quit motivation in older smokers from deprived backgrounds: a cross-sectional survey. <i>BMJ Open</i> , 2021, 11, e044815.	1.9	3
20	The what, why and when of adapting interventions for new contexts: A qualitative study of researchers, funders, journal editors and practitioners's™ understandings. <i>PLoS ONE</i> , 2021, 16, e0254020.	2.5	9
21	Using Latent Class Analysis to Explore Complex Associations Between Socioeconomic Status and Adolescent Health and Well-Being. <i>Journal of Adolescent Health</i> , 2021, 69, 774-781.	2.5	9
22	A Sociological Framework to Reduce Aberrant Behaviour of School Students Through Increasing School Connectedness. <i>SAGE Open</i> , 2021, 11, 215824402110318.	1.7	1
23	Adapting interventions to new contexts's™the ADAPT guidance. <i>BMJ, The</i> , 2021, 374, n1679.	6.0	130
24	Process evaluation of complex interventions in chronic and neglected tropical diseases in low- and middle-income countries's™a scoping review protocol. <i>Systematic Reviews</i> , 2021, 10, 244.	5.3	3
25	Cancer symptom experience and help-seeking behaviour during the COVID-19 pandemic in the UK: a cross-sectional population survey. <i>BMJ Open</i> , 2021, 11, e053095.	1.9	72
26	Intentions to participate in cervical and colorectal cancer screening during the COVID-19 pandemic: A mixed-methods study. <i>Preventive Medicine</i> , 2021, 153, 106826.	3.4	18
27	The SPECTRUM Consortium: a new UK Prevention Research Partnership consortium focussed on the commercial determinants of health, the prevention of non-communicable diseases, and the reduction of health inequalities. <i>Wellcome Open Research</i> , 2021, 6, 6.	1.8	7
28	Changes in childhood experimentation with, and exposure to, tobacco and e-cigarettes and perceived smoking norms: a repeated cross-sectional study of 10's™11's™year olds's™ in Wales. <i>BMC Public Health</i> , 2021, 21, 1924.	2.9	3
29	From a research trial to routine practice: stakeholders's™ perceptions and experiences of referrals to the National Exercise Referral Scheme (NERS) in Wales. <i>BMC Health Services Research</i> , 2021, 21, 1232.	2.2	3
30	Have e-cigarettes renormalised or displaced youth smoking? Results of a segmented regression analysis of repeated cross sectional survey data in England, Scotland and Wales. <i>Tobacco Control</i> , 2020, 29, tobaccocontrol-2018-054584.	3.2	34
31	Prevalence of gambling behaviours and their associations with socioemotional harm among 11's™16 year olds in Wales: findings from the School Health Research Network survey. <i>European Journal of Public Health</i> , 2020, 30, 451-457.	0.3	6
32	A Latent Class Analysis of Parental Alcohol and Drug Use: Findings from the Avon Longitudinal Study of Parents and Children. <i>Addictive Behaviors</i> , 2020, 104, 106281.	3.0	8
33	A qualitative study of e-cigarette emergence and the potential for renormalisation of smoking in UK youth. <i>International Journal of Drug Policy</i> , 2020, 75, 102598.	3.3	25
34	Young people's use of e-cigarettes in Wales, England and Scotland before and after introduction of EU Tobacco Products Directive regulations: a mixed-method natural experimental evaluation. <i>International Journal of Drug Policy</i> , 2020, 85, 102795.	3.3	12
35	ADAPT study: adaptation of evidence-informed complex population health interventions for implementation and/or re-evaluation in new contexts: protocol for a Delphi consensus exercise to develop guidance. <i>BMJ Open</i> , 2020, 10, e038965.	1.9	12
36	Ecological Exploration of Knowledge and Attitudes Towards Tobacco and E-Cigarettes Among Primary School Children, Teachers, and Parents in Wales: A Qualitative Study. <i>Tobacco Use Insights</i> , 2020, 13, 1179173X2093877.	1.6	5

#	ARTICLE	IF	CITATIONS
37	Testing the "Zero-Sum Game" Hypothesis: An Examination of School Health Policies and Practices and Inequalities in Educational Outcomes. <i>Journal of School Health</i> , 2020, 90, 415-424.	1.6	10
38	Patterning in Patient Referral to and Uptake of a National Exercise Referral Scheme (NERS) in Wales from 2008 to 2017: A Data Linkage Study. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 3942.	2.6	16
39	Sources of potential bias when combining routine data linkage and a national survey of secondary school-aged children: a record linkage study. <i>BMC Medical Research Methodology</i> , 2020, 20, 178.	3.1	11
40	Associations of Socioeconomic Status, Parental Smoking and Parental E-Cigarette Use with 10-11-Year-Old Children's Perceptions of Tobacco Cigarettes and E-Cigarettes: Cross Sectional Analysis of the CHETS Wales 3 Survey. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 683.	2.6	11
41	Socioeconomic status, mental wellbeing and transition to secondary school: Analysis of the School Health Research Network/Health Behaviour in School-Aged Children survey in Wales. <i>British Educational Research Journal</i> , 2020, 46, 1111-1130.	2.5	22
42	OP80...Guidance for adapting evidence-informed population health interventions for new contexts: The ADAPT study. , 2020, , .		0
43	Measurement invariance properties and external construct validity of the short Warwick-Edinburgh mental wellbeing scale in a large national sample of secondary school students in Wales. <i>Health and Quality of Life Outcomes</i> , 2019, 17, 139.	2.4	32
44	Population health intervention research: the place of theories. <i>Trials</i> , 2019, 20, 285.	1.6	76
45	From Complex Interventions to Complex Systems: Using Social Network Analysis to Understand School Engagement with Health and Wellbeing. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 1694.	2.6	10
46	Socio-Economic Inequalities in Adolescent Summer Holiday Experiences, and Mental Wellbeing on Return to School: Analysis of the School Health Research Network/Health Behaviour in School-Aged Children Survey in Wales. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 1107.	2.6	32
47	When and how do "effective" interventions need to be adapted and/or re-evaluated in new contexts? The need for guidance. <i>Journal of Epidemiology and Community Health</i> , 2019, 73, 481-482.	3.7	59
48	Taking account of context in systematic reviews and guidelines considering a complexity perspective. <i>BMJ Global Health</i> , 2019, 4, e000840.	4.7	58
49	Synthesising quantitative and qualitative evidence to inform guidelines on complex interventions: clarifying the purposes, designs and outlining some methods. <i>BMJ Global Health</i> , 2019, 4, e000893.	4.7	221
50	Formulating questions to explore complex interventions within qualitative evidence synthesis. <i>BMJ Global Health</i> , 2019, 4, e001107.	4.7	104
51	Systematic review of behavioural smoking cessation interventions for older smokers from deprived backgrounds. <i>BMJ Open</i> , 2019, 9, e032727.	1.9	10
52	Adapting evidence-informed complex population health interventions for new contexts: a systematic review of guidance. <i>Implementation Science</i> , 2019, 14, 105.	6.9	146
53	Integrating quantitative and qualitative data and findings when undertaking randomised controlled trials. <i>BMJ Open</i> , 2019, 9, e032081.	1.9	42
54	Associations between school-based peer networks and smoking according to socioeconomic status and tobacco control context: protocol for a mixed method systematic review. <i>Systematic Reviews</i> , 2019, 8, 313.	5.3	4

#	ARTICLE	IF	CITATIONS
55	From complex social interventions to interventions in complex social systems: Future directions and unresolved questions for intervention development and evaluation. <i>Evaluation</i> , 2019, 25, 23-45.	1.8	280
56	Acceptability and Feasibility of Implementing Accelerometry-Based Activity Monitors and a Linked Web Portal in an Exercise Referral Scheme: Feasibility Randomized Controlled Trial. <i>Journal of Medical Internet Research</i> , 2019, 21, e12374.	4.3	21
57	School practices important for students'™ sexual health: analysis of the school health research network survey in Wales. <i>European Journal of Public Health</i> , 2018, 28, 309-314.	0.3	2
58	Health Improvement and Educational Attainment in Secondary Schools: Complementary or Competing Priorities? Exploratory Analyses From the School Health Research Network in Wales. <i>Health Education and Behavior</i> , 2018, 45, 635-644.	2.5	8
59	Cluster randomised trial of a school-community child health promotion and obesity prevention intervention: findings from the evaluation of fun & healthy in Moreland!. <i>BMC Public Health</i> , 2018, 18, 92.	2.9	51
60	Exploratory studies to inform full-scale evaluations of complex public health interventions: the need for guidance. <i>Journal of Epidemiology and Community Health</i> , 2018, 72, 865-866.	3.7	60
61	Are randomised controlled trials positivist? Reviewing the social science and philosophy literature to assess positivist tendencies of trials of social interventions in public health and health services. <i>Trials</i> , 2018, 19, 238.	1.6	20
62	School, Peer and Family Relationships and Adolescent Substance Use, Subjective Wellbeing and Mental Health Symptoms in Wales: a Cross Sectional Study. <i>Child Indicators Research</i> , 2018, 11, 1951-1965.	2.3	131
63	Exploratory studies to decide whether and how to proceed with full-scale evaluations of public health interventions: a systematic review of guidance. <i>Pilot and Feasibility Studies</i> , 2018, 4, 104.	1.2	150
64	Multilevel population-based cross-sectional study examining school substance-misuse policy and the use of cannabis, mephedrone and novel psychoactive substances among students aged 11-16 years in schools in Wales. <i>BMJ Open</i> , 2018, 8, e020737.	1.9	3
65	What theory, for whom and in which context? Reflections on the application of theory in the development and evaluation of complex population health interventions. <i>SSM - Population Health</i> , 2017, 3, 132-135.	2.7	144
66	Comparison of substance use, subjective well-being and interpersonal relationships among young people in foster care and private households: a cross sectional analysis of the School Health Research Network survey in Wales. <i>BMJ Open</i> , 2017, 7, e014198.	1.9	38
67	Cross-sectional study examining the prevalence, correlates and sequencing of electronic cigarette and tobacco use among 11-16-year olds in schools in Wales. <i>BMJ Open</i> , 2017, 7, e012784.	1.9	46
68	School composition, school culture and socioeconomic inequalities in young people's health: Multi-level analysis of the Health Behaviour in School-Aged Children (HBSC) survey in Wales. <i>British Educational Research Journal</i> , 2017, 43, 310-329.	2.5	32
69	Young People's Use of E-Cigarettes across the United Kingdom: Findings from Five Surveys 2015-2017. <i>International Journal of Environmental Research and Public Health</i> , 2017, 14, 973.	2.6	100
70	Protocol for a feasibility randomised controlled trial of the use of Physical Activity monitors in an Exercise Referral Setting: the PACERS study. <i>Pilot and Feasibility Studies</i> , 2017, 3, 51.	1.2	4
71	All interventions are complex, but some are more complex than others: using iCAT_SR to assess complexity. <i>The Cochrane Library</i> , 2017, 7, ED000122.	2.8	11
72	Pilot trial and process evaluation of a multilevel smoking prevention intervention in further education settings. <i>Public Health Research</i> , 2017, 5, 1-82.	1.3	2

#	ARTICLE	IF	CITATIONS
73	Predictors of physical activity and sedentary behaviours among 11-16 year olds: Multilevel analysis of the 2013 Health Behaviour in School-aged Children (HBSC) study in Wales. BMC Public Health, 2016, 16, 569.	2.9	25
74	Association between breakfast consumption and educational outcomes in 9-11-year-old children. Public Health Nutrition, 2016, 19, 1575-1582.	2.2	31
75	Realist complex intervention science: Applying realist principles across all phases of the Medical Research Council framework for developing and evaluating complex interventions. Evaluation, 2016, 22, 286-303.	1.8	176
76	Gender, Relationship Breakdown, and Suicide Risk. Journal of Family Issues, 2016, 37, 2239-2264.	1.6	41
77	Variations in schools' commitment to health and implementation of health improvement activities: a cross-sectional study of secondary schools in Wales. BMC Public Health, 2016, 16, 138.	2.9	13
78	E-cigarette use and intentions to smoke among 10-11-year-old never-smokers in Wales. Tobacco Control, 2016, 25, 147-152.	3.2	42
79	Challenges, solutions and future directions in the evaluation of service innovations in health care and public health. Health Services and Delivery Research, 2016, 4, 1-136.	1.4	83
80	School- and Family-Level Socioeconomic Status and Health Behaviors: Multilevel Analysis of a National Survey in Wales, <sc>United Kingdom</sc>. Journal of School Health, 2015, 85, 267-275.	1.6	69
81	Socioeconomic gradients in the effects of universal school-based health behaviour interventions: a systematic review of intervention studies. BMC Public Health, 2015, 15, 907.	2.9	55
82	Process evaluation of complex interventions: Medical Research Council guidance. BMJ, The, 2015, 350, h1258-h1258.	6.0	3,602
83	Prevalence of smoking restrictions and child exposure to secondhand smoke in cars and homes: a repeated cross-sectional survey of children aged 10-11 years in Wales. BMJ Open, 2015, 5, e006914-e006914.	1.9	31
84	Electronic-cigarette use among young people in Wales: evidence from two cross-sectional surveys. BMJ Open, 2015, 5, e007072-e007072.	1.9	62
85	Maximising the impact of qualitative research in feasibility studies for randomised controlled trials: guidance for researchers. Pilot and Feasibility Studies, 2015, 1, 32.	1.2	240
86	Health professionals' perspectives on exercise referral and physical activity promotion in primary care: Findings from a process evaluation of the National Exercise Referral Scheme in Wales. Health Education Journal, 2015, 74, 743-757.	1.2	53
87	Psychosocial mediators of change in physical activity in the Welsh national exercise referral scheme: secondary analysis of a randomised controlled trial. International Journal of Behavioral Nutrition and Physical Activity, 2014, 11, 109.	4.6	29
88	Process evaluation in complex public health intervention studies: the need for guidance. Journal of Epidemiology and Community Health, 2014, 68, 101-102.	3.7	228
89	Impacts of the Primary School Free Breakfast Initiative on socio-economic inequalities in breakfast consumption among 9-11-year-old schoolchildren in Wales. Public Health Nutrition, 2014, 17, 1280-1289.	2.2	41
90	An exploratory cluster randomised trial of a university halls of residence based social norms marketing campaign to reduce alcohol consumption among 1st year students. Substance Abuse Treatment, Prevention, and Policy, 2013, 8, 15.	2.2	14

#	ARTICLE	IF	CITATIONS
91	Mixed-method process evaluation of the Welsh National Exercise Referral Scheme. <i>Health Education</i> , 2013, 113, 476-501.	0.9	46
92	Socioeconomic inequalities in childhood exposure to secondhand smoke before and after smoke-free legislation in three UK countries. <i>Journal of Public Health</i> , 2012, 34, 599-608.	1.8	71
93	An evaluation of the effectiveness and cost effectiveness of the National Exercise Referral Scheme in Wales, UK: a randomised controlled trial of a public health policy initiative. <i>Journal of Epidemiology and Community Health</i> , 2012, 66, 745-753.	3.7	123
94	Integration of Motivational Interviewing into Practice in the National Exercise Referral Scheme in Wales: A Mixed Methods Study. <i>Behavioural and Cognitive Psychotherapy</i> , 2012, 40, 313-330.	1.2	21
95	An exploratory cluster randomised trial of a university halls of residence based social norms intervention in Wales, UK. <i>BMC Public Health</i> , 2012, 12, 186.	2.9	12
96	Facilitating adherence to physical activity: exercise professionals' experiences of the National Exercise Referral Scheme in Wales. a qualitative study. <i>BMC Public Health</i> , 2011, 11, 935.	2.9	40
97	Socioeconomic Patterning in Changes in Child Exposure to Secondhand Smoke After Implementation of Smoke-Free Legislation in Wales. <i>Nicotine and Tobacco Research</i> , 2011, 13, 903-910.	2.6	35
98	A pragmatic randomised controlled trial of the Welsh National Exercise Referral Scheme: protocol for trial and integrated economic and process evaluation. <i>BMC Public Health</i> , 2010, 10, 352.	2.9	33
99	An exploratory study of the relationship between parental attitudes and behaviour and young people's consumption of alcohol. <i>Substance Abuse Treatment, Prevention, and Policy</i> , 2010, 5, 6.	2.2	64
100	Changes in child exposure to secondhand smoke after implementation of smoke-free legislation in Wales: a repeated cross-sectional study. <i>BMC Public Health</i> , 2009, 9, 430.	2.9	64
101	Normative and cognitive correlates of breakfast skipping in 9-11-year-old schoolchildren in Wales. <i>Appetite</i> , 2009, 53, 332-337.	3.7	16
102	Cognitive, Behavioral, and Social Factors Are Associated with Bias in Dietary Questionnaire Self-Reports by Schoolchildren Aged 9 to 11 Years. <i>Journal of the American Dietetic Association</i> , 2008, 108, 1865-1873.	1.1	24
103	Associations between deprivation, attitudes towards eating breakfast and breakfast eating behaviours in 9-11-year-olds. <i>Public Health Nutrition</i> , 2007, 10, 582-589.	2.2	54
104	Improving young people's health and well-being through a school health research network: Reflections on school researcher engagement at the national level. <i>Research for All</i> , 0, 2, .	0.4	9
105	The Impact of COVID-19 on Cancer Symptom Experience and Help-Seeking Behaviour in the United Kingdom: A Cross-Sectional Population Survey. <i>SSRN Electronic Journal</i> , 0, , .	0.4	7
