#	ARTICLE	IF	CITATIONS
1	Online food delivery systems and their potential to improve public health nutrition: a response to a narrative review of online food delivery in Australia. Public Health Nutrition, 2023, 26, 273-274.	2.2	8
2	Interventions for increasing fruit and vegetable consumption in children aged five years and under. The Cochrane Library, 2022, 2022, CD008552.	2.8	109
3	Multi-strategy intervention increases school implementation and maintenance of a mandatory physical activity policy: outcomes of a cluster randomised controlled trial. British Journal of Sports Medicine, 2022, 56, 385-393.	6.7	24
4	Building capacity from within: qualitative evaluation of a training program aimed at upskilling healthcare workers in delivering an evidence-based implementation approach. Translational Behavioral Medicine, 2022, 12, .	2.4	4
5	An mHealth Intervention to Reduce the Packing of Discretionary Foods in Children's Lunch Boxes in Early Childhood Education and Care Services: Cluster Randomized Controlled Trial. Journal of Medical Internet Research, 2022, 24, e27760.	4.3	7
6	Transforming Obesity Prevention for CHILDren (TOPCHILD) Collaboration: protocol for a systematic review with individual participant data meta-analysis of behavioural interventions for the prevention of early childhood obesity. BMJ Open, 2022, 12, e048166.	1.9	17
7	Unpacking the behavioural components and delivery features of early childhood obesity prevention interventions in the TOPCHILD Collaboration: a systematic review and intervention coding protocol. BMJ Open, 2022, 12, e048165.	1.9	14
8	Effectiveness of referral to a population-level telephone coaching service for improving health risk behaviours in people with a mental health condition: study protocol for a randomised controlled trial. Trials, 2022, 23, 49.	1.6	2
9	Increased use of knowledge translation strategies is associated with greater research impact on public health policy and practice: an analysis of trials of nutrition, physical activity, sexual health, tobacco, alcohol and substance use interventions. Health Research Policy and Systems, 2022, 20, 15.	2.8	11
10	Cost, cost-consequence and cost-effectiveness evaluation of a practice change intervention to increase routine provision of antenatal care addressing maternal alcohol consumption. Implementation Science, 2022, 17, 14.	6.9	12
11	Interventions to Improve Child Physical Activity in the Early Childhood Education and Care Setting: An Umbrella Review. International Journal of Environmental Research and Public Health, 2022, 19, 1963.	2.6	11
12	Maximising the adoption of a school-based mHealth intervention to improve the nutritional quality of student lunchboxes to ensure population-level impact. Health Promotion Journal of Australia, 2022, 33, 412-414.	1.2	1
13	The benefits of data sharing and ensuring open sources of systematic review data. Journal of Public Health, 2022, 44, e582-e587.	1.8	5
14	Tools for assessing the scalability of innovations in health: a systematic review. Health Research Policy and Systems, 2022, 20, 34.	2.8	16
15	Does an active play standard change childcare physical activity and healthy eating policies? A natural policy experiment. BMC Public Health, 2022, 22, 687.	2.9	4
16	The impact of an implementation intervention that increased school's delivery of a mandatory physical activity policy on student outcomes: A cluster-randomised controlled trial. Journal of Science and Medicine in Sport, 2022, 25, 321-326.	1.3	2
17	Telephone and Web-Based Delivery of Healthy Eating and Active Living Interventions for Parents of Children Aged 2 to 6 Years: Mixed Methods Process Evaluation of the Time for Healthy Habits Translation Trial. Journal of Medical Internet Research, 2022, 24, e35771.	4.3	5
18	A systematic review of adaptations and effectiveness of scaled-up nutrition interventions. Nutrition Reviews, 2022, 80, 962-979.	5.8	13

#	ARTICLE	IF	CITATIONS
19	A randomised controlled trial of an implementation strategy delivered at scale to increase outdoor free play opportunities in early childhood education and care (ECEC) services: a study protocol for the get outside get active (GOGA) trial. BMC Public Health, 2022, 22, 610.	2.9	6
20	Identifying essential implementation strategies: a mixed methods process evaluation of a multi-strategy policy implementation intervention for schools. International Journal of Behavioral Nutrition and Physical Activity, 2022, 19, 44.	4.6	2
21	Practice change intervention to improve antenatal care addressing alcohol consumption during pregnancy: a randomised stepped-wedge controlled trial. BMC Pregnancy and Childbirth, 2022, 22, 345.	2.4	7
22	A call to action: More collaborative implementation research is needed to prevent chronic disease. Australian and New Zealand Journal of Public Health, 2022, 46, 549-553.	1.8	3
23	Research Note: Designing implementation trials in physiotherapy. Journal of Physiotherapy, 2022, 68, 210-212.	1.7	1
24	Smoking and other health factors in patients with head and neck cancer. Cancer Epidemiology, 2022, 79, 102202.	1.9	1
25	Economic evaluation of a multi-strategy intervention that improves school-based physical activity policy implementation. Implementation Science, 2022, 17, .	6.9	4
26	Interventions to prevent obesity in children aged 12 to 18 years old. The Cochrane Library, 2022, 2022, .	2.8	1
27	Interventions to prevent obesity in children aged 5 to 11 years old. The Cochrane Library, 2022, 2022, .	2.8	0
28	Enhancing the potential effects of text messages delivered via an m-health intervention to improve packing of healthy school lunchboxes. Public Health Nutrition, 2021, 24, 2867-2876.	2.2	3
29	A cross-sectional study of packed lunchbox foods and their consumption by children in early childhood education and care services. Nutrition and Dietetics, 2021, 78, 397-405.	1.8	9
30	Pragmatic measures for implementation research: development of the Psychometric and Pragmatic Evidence Rating Scale (PAPERS). Translational Behavioral Medicine, 2021, 11, 11-20.	2.4	55
31	Economic evaluation of a web-based menu planning intervention to improve childcare service adherence with dietary guidelines. Implementation Science, 2021, 16, 1.	6.9	44
32	How effective are physical activity interventions when they are scaled-up: a systematic review. International Journal of Behavioral Nutrition and Physical Activity, 2021, 18, 16.	4.6	54
33	Consolidating evidence on the effectiveness of interventions promoting fruit and vegetable consumption: an umbrella review. International Journal of Behavioral Nutrition and Physical Activity, 2021, 18, 11.	4.6	34
34	The impact of school uniforms on primary school students' physical activity at school: outcomes of a cluster randomized controlled trial. International Journal of Behavioral Nutrition and Physical Activity, 2021, 18, 17.	4.6	15
35	Many Papers but Limited Policy Impact? A Bibliometric Review of Physical Activity Research. Translational Journal of the American College of Sports Medicine, 2021, 6, .	0.6	10
36	Strategies for involving patients and the public in scaling-up initiatives in health and social services: protocol for a scoping review and Delphi survey. Systematic Reviews, 2021, 10, 55.	5.3	6

#	ARTICLE	IF	CITATIONS
37	Associations Between Digital Health Intervention Engagement, Physical Activity, and Sedentary Behavior: Systematic Review and Meta-analysis. <i>Journal of Medical Internet Research</i> , 2021, 23, e23180.	4.3	48
38	A cluster randomised controlled trial of a secondary school intervention to reduce intake of sugar-sweetened beverages: Mid-intervention impact of switch environmental strategies. <i>Health Promotion Journal of Australia</i> , 2021, , .	1.2	5
39	Evaluation of a voucher scheme to increase child physical activity in participants of a school physical activity trial in the Hunter region of Australia. <i>BMC Public Health</i> , 2021, 21, 570.	2.9	1
40	The Association between Australian Childcare Centre Healthy Eating Practices and Children's Healthy Eating Behaviours: A Cross-Sectional Study within Lunchbox Centres. <i>Nutrients</i> , 2021, 13, 1139.	4.1	5
41	Selecting Review Outcomes for Systematic Reviews of Public Health Interventions. <i>American Journal of Public Health</i> , 2021, 111, 465-470.	2.7	4
42	Is fidelity to a complex behaviour change intervention associated with patient outcomes? Exploring the relationship between dietitian adherence and competence and the nutritional status of intervention patients in a successful stepped-wedge randomised clinical trial of eating as treatment (EAT). <i>Implementation Science</i> , 2021, 16, 46.	6.9	7
43	Exploring the effect of a school-based cluster-randomised controlled trial to increase the scheduling of physical activity for primary school students on teachers' physical activity. <i>Health Promotion Journal of Australia</i> , 2021, , .	1.2	0
44	An exploratory analysis to identify behavior change techniques of implementation interventions associated with the implementation of healthy canteen policies. <i>Translational Behavioral Medicine</i> , 2021, 11, 1606-1616.	2.4	0
45	Barriers and facilitators influencing the sustainment of health behaviour interventions in schools and childcare services: a systematic review. <i>Implementation Science</i> , 2021, 16, 62.	6.9	72
46	Improving implementation of school-based healthy eating and physical activity policies, practices, and programs: a systematic review. <i>Translational Behavioral Medicine</i> , 2021, 11, 1365-1410.	2.4	17
47	The Effectiveness of Interventions Delivered Using Digital Food Environments to Encourage Healthy Food Choices: A Systematic Review and Meta-Analysis. <i>Nutrients</i> , 2021, 13, 2255.	4.1	21
48	A Multicomponent mHealth-Based Intervention (SWAP IT) to Decrease the Consumption of Discretionary Foods Packed in School Lunchboxes: Type I Effectiveness Implementation Hybrid Cluster Randomized Controlled Trial. <i>Journal of Medical Internet Research</i> , 2021, 23, e25256.	4.3	19
49	A Cluster Randomized Controlled Trial Evaluating the Impact of Tailored Feedback on the Purchase of Healthier Foods from Primary School Online Canteens. <i>Nutrients</i> , 2021, 13, 2405.	4.1	1
50	Long-term Effectiveness of a Multistrategy Behavioral Intervention to Increase the Nutritional Quality of Primary School Students' Online Lunch Orders: 18-Month Follow-up of the Click & Crunch Cluster Randomized Controlled Trial. <i>Journal of Medical Internet Research</i> , 2021, 23, e31734.	4.3	4
51	Evaluating Digital Program Support for the Physical Activity 4 Everyone (PA4E1) School Program: Mixed Methods Study. <i>JMIR Pediatrics and Parenting</i> , 2021, 4, e26690.	1.6	1
52	“He who pays the piper calls the tune”: Researcher experiences of funder suppression of health behaviour intervention trial findings. <i>PLoS ONE</i> , 2021, 16, e0255704.	2.5	11
53	Workplace wellness programmes to improve health. <i>Lancet Public Health</i> , The, 2021, 6, e625.	10.0	3
54	Efficacy of a school-based physical activity and nutrition intervention on child weight status: Findings from a cluster randomized controlled trial. <i>Preventive Medicine</i> , 2021, 153, 106822.	3.4	5

#	ARTICLE	IF	CITATIONS
55	Association between electronic nicotine delivery systems and electronic non-nicotine delivery systems with initiation of tobacco use in individuals aged < 20 years. A systematic review and meta-analysis. PLoS ONE, 2021, 16, e0256044.	2.5	26
56	Effectiveness of a Multistrategy Behavioral Intervention to Increase the Nutritional Quality of Primary School Studentsâ€™ Web-Based Canteen Lunch Orders (Click & Crunch): Cluster Randomized Controlled Trial. Journal of Medical Internet Research, 2021, 23, e26054.	4.3	8
57	Prevalence of electronic nicotine delivery systems and electronic non-nicotine delivery systems in children and adolescents: a systematic review and meta-analysis. Lancet Public Health, The, 2021, 6, e661-e673.	10.0	33
58	Associations between Digital Health Intervention Engagement and Dietary Intake: A Systematic Review. Nutrients, 2021, 13, 3281.	4.1	7
59	Translation of Two Healthy Eating and Active Living Support Programs for Parents of 2-6-Year-Old Children: Outcomes of the â€˜Time for Healthy Habitsâ€™ Parallel Partially Randomised Preference Trial. Nutrients, 2021, 13, 3348.	4.1	8
60	Evidence on scaling in health and social care: protocol for a living umbrella review. Systematic Reviews, 2021, 10, 261.	5.3	1
61	Designing and undertaking randomised implementation trials: guide for researchers. BMJ, The, 2021, 372, m3721.	6.0	99
62	Secondary school implementation of a healthy eating policy. Health Promotion Journal of Australia, 2021, 32, 21-25.	1.2	5
63	Prevalence of current school-level nutrition policies and practices of secondary schools in NSW, Australia. Health Promotion Journal of Australia, 2021, 32, 216-226.	1.2	5
64	Interventions in outside-school hours childcare settings for promoting physical activity amongst schoolchildren aged 4 to 12 years. The Cochrane Library, 2021, 2021, CD013380.	2.8	5
65	Scale-up of the Physical Activity 4 Everyone (PA4E1) intervention in secondary schools: 24-month implementation and cost outcomes from a cluster randomised controlled trial. International Journal of Behavioral Nutrition and Physical Activity, 2021, 18, 137.	4.6	7
66	Adaptation and Validation of the Program Sustainability Assessment Tool (PSAT) for Use in the Elementary School Setting. International Journal of Environmental Research and Public Health, 2021, 18, 11414.	2.6	7
67	A Cross-Sectional Study of the Nutritional Quality of New South Wales High School Student Food and Drink Purchases Made via an Online Canteen Ordering System. Nutrients, 2021, 13, 4327.	4.1	3
68	Cost and Cost Effectiveness of a Pilot m-Health Intervention Targeting Parents of School-Aged Children to Improve the Nutritional Quality of Foods Packed in the Lunchbox. Nutrients, 2021, 13, 4136.	4.1	8
69	A trial of a six-month sugar-sweetened beverage intervention in secondary schools from a socioeconomically disadvantaged region in Australia. Australian and New Zealand Journal of Public Health, 2021, 45, 599-607.	1.8	5
70	Feasibility of a Web-Based Implementation Intervention to Improve Child Dietary Intake in Early Childhood Education and Care: Pilot Randomized Controlled Trial. Journal of Medical Internet Research, 2021, 23, e25902.	4.3	6
71	Interventions Targeting Smoking Cessation for Patients With Chronic Pain: An Evidence Synthesis. Nicotine and Tobacco Research, 2020, 22, 135-140.	2.6	10
72	Barriers to the implementation of clinical guidelines for maternal alcohol consumption in antenatal services: A survey using the theoretical domains framework. Health Promotion Journal of Australia, 2020, 31, 133-139.	1.2	15

#	ARTICLE	IF	CITATIONS
73	Implementation of policies and practices to increase physical activity among children attending centre-based childcare: A cross-sectional study. Health Promotion Journal of Australia, 2020, 31, 207-215.	1.2	7
74	The provision of preventive care for modifiable health risk behaviours by clinicians within substance use treatment settings: A systematic review. Preventive Medicine, 2020, 130, 105870.	3.4	1
75	Implementation of continuous free play schedules in Australian childcare services: A cross-sectional study. Health Promotion Journal of Australia, 2020, 31, 199-206.	1.2	7
76	Intervention Scalability Assessment Tool: A decision support tool for health policy makers and implementers. Health Research Policy and Systems, 2020, 18, 1.	2.8	147
77	Non-wear or sleep? Evaluation of five non-wear detection algorithms for raw accelerometer data. Journal of Sports Sciences, 2020, 38, 399-404.	2.0	33
78	Scaling up population health interventions from decision to sustainability – a window of opportunity? A qualitative view from policy-makers. Health Research Policy and Systems, 2020, 18, 118.	2.8	14
79	Improving the impact of public health service delivery and research: a decision tree to aid evidence-based public health practice and research. Australian and New Zealand Journal of Public Health, 2020, 44, 331-332.	1.8	5
80	Guidance for conducting feasibility and pilot studies for implementation trials. Pilot and Feasibility Studies, 2020, 6, 167.	1.2	128
81	A pilot randomised controlled trial of a web-based implementation intervention to increase child intake of fruit and vegetables within childcare centres. Pilot and Feasibility Studies, 2020, 6, 163.	1.2	12
82	Sustained effects of infant-onset 20-year dietary intervention. The Lancet Child and Adolescent Health, 2020, 4, 342-343.	5.6	0
83	Assessing Adherence, Competence and Differentiation in a Stepped-Wedge Randomised Clinical Trial of a Complex Behaviour Change Intervention. Nutrients, 2020, 12, 2332.	4.1	3
84	A Three-Arm Randomised Controlled Trial of High- and Low-Intensity Implementation Strategies to Support Centre-Based Childcare Service Implementation of Nutrition Guidelines: 12-Month Follow-Up. International Journal of Environmental Research and Public Health, 2020, 17, 4664.	2.6	4
85	Worldwide surveillance of self-reported sitting time: a scoping review. International Journal of Behavioral Nutrition and Physical Activity, 2020, 17, 111.	4.6	52
86	Physical Activity Behaviors of Children Who Register for the Universal, State-Wide Active Kids Voucher: Who Did the Voucher Program Reach?. International Journal of Environmental Research and Public Health, 2020, 17, 5691.	2.6	9
87	Scale-up of the Physical Activity 4 Everyone (PA4E1) intervention in secondary schools: 12-month implementation outcomes from a cluster randomized controlled trial. International Journal of Behavioral Nutrition and Physical Activity, 2020, 17, 100.	4.6	21
88	Early childhood education and care-based healthy eating interventions for improving child diet: a systematic review protocol. Systematic Reviews, 2020, 9, 181.	5.3	2
89	5-Year Follow-Up of a Telephone Intervention to Increase Fruit and Vegetable Consumption in Preschoolers: The “Healthy Habits” Cluster Randomised Trial. Nutrients, 2020, 12, 3702.	4.1	0
90	How to optimise public health interventions: a scoping review of guidance from optimisation process frameworks. BMC Public Health, 2020, 20, 1849.	2.9	6

#	ARTICLE	IF	CITATIONS
91	Adaptation of public health initiatives: expert views on current guidance and opportunities to advance their application and benefit. <i>Health Education Research</i> , 2020, 35, 243-257.	1.9	12
92	The effectiveness of interventions to increase preventive care provision for chronic disease risk behaviours in mental health settings: A systematic review and meta-analysis. <i>Preventive Medicine Reports</i> , 2020, 19, 101108.	1.8	9
93	Translation of two healthy eating and active living support programs for parents of 2-6-year old children: a parallel partially randomised preference trial protocol (the "time for healthy habits" trial). <i>BMC Public Health</i> , 2020, 20, 636.	2.9	7
94	Understanding implementation success: protocol for an in-depth, mixed-methods process evaluation of a cluster randomised controlled trial testing methods to improve detection of Lynch syndrome in Australian hospitals. <i>BMJ Open</i> , 2020, 10, e033552.	1.9	6
95	Protocol for a mixed methods process evaluation of a hybrid implementation-effectiveness trial of a scaled-up whole-school physical activity program for adolescents: Physical Activity 4 Everyone (PA4E1). <i>Trials</i> , 2020, 21, 268.	1.6	11
96	Substance use treatment clinician attitudes to care for chronic disease health risk behaviours and associations of attitudes with care provision. <i>Drug and Alcohol Review</i> , 2020, 39, 232-237.	2.1	2
97	A comprehensive overview and qualitative analysis of government-led nutrition policies in Australian institutions. <i>BMC Public Health</i> , 2020, 20, 1038.	2.9	16
98	Nudge strategies to improve healthcare providers' implementation of evidence-based guidelines, policies and practices: a systematic review of trials included within Cochrane systematic reviews. <i>Implementation Science</i> , 2020, 15, 50.	6.9	76
99	Strategies to improve the implementation of healthy eating, physical activity and obesity prevention policies, practices or programmes within childcare services. <i>The Cochrane Library</i> , 2020, 2020, CD011779.	2.8	67
100	Child-level evaluation of a web-based intervention to improve dietary guideline implementation in childcare centers: a cluster-randomized controlled trial. <i>American Journal of Clinical Nutrition</i> , 2020, 111, 854-863.	4.7	22
101	What Is Dissemination and Implementation Science?: An Introduction and Opportunities to Advance Behavioral Medicine and Public Health Globally. <i>International Journal of Behavioral Medicine</i> , 2020, 27, 3-20.	1.7	61
102	Prevalence and Relationships among Physical Activity Policy, Environment, and Practices in Licensed Childcare Centers from a Manager and Staff Perspective. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 1064.	2.6	3
103	Alcohol and fast food sponsorship in sporting clubs with junior teams participating in the "Good Sports" program: a cross-sectional study. <i>Australian and New Zealand Journal of Public Health</i> , 2020, 44, 145-151.	1.8	10
104	A cross-sectional study to determine the energy density and nutritional quality of primary-school children's lunchboxes. <i>Public Health Nutrition</i> , 2020, 23, 1108-1116.	2.2	16
105	Essential items for reporting of scaling studies of health interventions (SUCCEED): protocol for a systematic review and Delphi process. <i>Systematic Reviews</i> , 2020, 9, 11.	5.3	11
106	Effectiveness of Weight-Loss Interventions for Reducing Pain and Disability in People With Common Musculoskeletal Disorders: A Systematic Review With Meta-Analysis. <i>Journal of Orthopaedic and Sports Physical Therapy</i> , 2020, 50, 319-333.	3.5	31
107	Implementation of a School Physical Activity Policy Improves Student Physical Activity Levels: Outcomes of a Cluster-Randomized Controlled Trial. <i>Journal of Physical Activity and Health</i> , 2020, 17, 1009-1018.	2.0	35
108	Australian Primary School Principals', Teachers', and Parents' Attitudes and Barriers to Changing School Uniform Policies From Traditional Uniforms to Sports Uniforms. <i>Journal of Physical Activity and Health</i> , 2020, 17, 1019-1024.	2.0	7
