#	ARTICLE	IF	CITATIONS
1	Older adults's memory beliefs predict perceptions of memory strategy difficulty and effectiveness. <i>Aging, Neuropsychology, and Cognition</i> , 2023, 30, 66-77.	1.3	2
2	The Effects of Individualized Music Listening on Affective, Behavioral, Cognitive, and Sundowning Symptoms of Dementia in Long-Term Care Residents. <i>Journal of Aging and Health</i> , 2022, 34, 130-143.	1.7	11
3	Cognitive outcomes following pediatric epilepsy surgery. <i>Epilepsy Research</i> , 2022, 180, 106859.	1.6	4
4	Mother knows best or does she? Perceptions of the memory abilities of pediatric patients with epilepsy as reported by patients and their parents across time. <i>Epilepsy and Behavior</i> , 2022, 128, 108589.	1.7	2
5	Teaching Students to Study More Effectively: Lessons Learned from an Empirical Comparison of a Study Tips Presentation and a Review Article. <i>Journal of College Reading and Learning</i> , 2022, 52, 170-190.	0.7	1
6	Nursing Home Residents' Positive Behavioral Responses to Individualized Music Predict Improvements in Sundowning Symptoms After Music Listening. <i>Journal of Aging and Health</i> , 2022, 34, 1037-1047.	1.7	1
7	The effect of medication and question wording on self-reported symptoms and their accuracy in young adults with attention-deficit/hyperactivity disorder. <i>British Journal of Clinical Psychology</i> , 2021, 60, 252-269.	3.5	1
8	Cognitive outcomes following frontal lobe resection for treatment of epilepsy in children and adolescents. <i>Epilepsy and Behavior</i> , 2021, 124, 108265.	1.7	7
9	Easy or effective? Explaining young adults' and older adults' likelihood of using various strategies to improve their memory. <i>Aging, Neuropsychology, and Cognition</i> , 2020, 27, 1-17.	1.3	3
10	Generating Civically-Engaged Undergraduate Student Scientists in General Education Classrooms. <i>Frontiers in Psychology</i> , 2019, 10, 664.	2.1	0
11	Introducing and Evaluating a "Study Smarter, Not Harder" Study Tips Presentation Offered to Incoming Students at a Four-Year University. <i>Journal of the Scholarship of Teaching and Learning</i> , 2019, 19, .	0.3	4
12	Age differences in perceptions of memory strategy effectiveness for recent and remote memory. <i>Aging, Neuropsychology, and Cognition</i> , 2018, 25, 146-166.	1.3	4
13	Beliefs about age-related changes in physical functioning across the adult life span and their relationship with physical activity levels of older adults. <i>Aging, Neuropsychology, and Cognition</i> , 2018, 25, 613-631.	1.3	9
14	"Music First": <i>GeroPsych: the Journal of Gerontopsychology and Geriatric Psychiatry</i> , 2018, 31, 17-30.	0.5	7
15	Children's stereotypes of older adults: Evaluating contributions of cognitive development and social learning. <i>Educational Gerontology</i> , 2017, 43, 300-312.	1.3	14
16	Compared to what? The effects of a frame of reference on older adults' subjective memory. <i>Aging, Neuropsychology, and Cognition</i> , 2016, 23, 327-337.	1.3	4
17	Reliable change indices and standardized regression-based change score norms for evaluating neuropsychological change in children with epilepsy. <i>Epilepsy and Behavior</i> , 2015, 47, 45-54.	1.7	32

#	ARTICLE	IF	CITATIONS
19	How you ask matters: An experimental investigation of the influence of mood on memory self-perceptions and their relationship with objective memory. <i>Memory</i> , 2014, 22, 1103-1115.	1.7	8
20	Computerized Assessment of Age Differences in Memory Beliefs. <i>Perceptual and Motor Skills</i> , 2014, 119, 609-628.	1.3	2
21	The effects of distraction and a brief intervention on auditory and visual-spatial working memory in college students with attention deficit hyperactivity disorder. <i>Journal of Clinical and Experimental Neuropsychology</i> , 2012, 34, 791-805.	1.3	7
22	Young and older adults' beliefs about effective ways to mitigate age-related memory decline.. <i>Psychology and Aging</i> , 2012, 27, 293-304.	1.6	21
23	Expectations about memory change across the life span are impacted by aging stereotypes.. <i>Psychology and Aging</i> , 2009, 24, 169-176.	1.6	35
24	Evaluating the Contributions of State-of-the-Art Assessment Techniques to Predicting Memory Outcome after Unilateral Anterior Temporal Lobectomy. <i>Epilepsia</i> , 2006, 47, 1895-1903.	5.1	86
25	Differential effects of Alzheimer's disease and Huntington's disease on the performance of mental rotation. <i>Journal of the International Neuropsychological Society</i> , 2005, 11, 30-39.	1.8	30
26	Patients' Perceptions of Memory Functioning Before and After Surgical Intervention to Treat Medically Refractory Epilepsy. <i>Epilepsia</i> , 2004, 45, 1604-1612.	5.1	31
27	Use of the WAIS-III and WMS-III in the Context of Serial Assessments. , 2003, , 303-337.		13
28	Adults' Efficacy and Control Beliefs Regarding Memory and Aging: Separating General from Personal Beliefs. <i>Aging, Neuropsychology, and Cognition</i> , 1998, 5, 264-296.	1.3	141
29	Aging, Attributions, Perceived Control, and Strategy Use in a Free Recall Task. <i>Aging, Neuropsychology, and Cognition</i> , 1998, 5, 85-106.	1.3	102
30	Developing Integrative Thinking in Undergraduate Students through an Interdisciplinary General Education Course on Mental Illness. <i>College Teaching</i> , 0, , 1-13.	0.6	0
31	Same Goals, but Different Outcomes: Present-Focused versus Future-Focused Memory Beliefs Differentially Predict Young and Older Adults's™ Everyday Use of Memory Strategies. <i>Experimental Aging Research</i> , 0, , 1-18.	1.2	0
