#	ARTICLE	IF	CITATIONS
1	Translation and Initial Validation of the Japanese Version of the Ruminative Responses Scale. <i>Psychological Reports</i> , 2013, 112, 716-726.	1.7	53
2	Longitudinal Predictions of the Brooding and Reflection Subscales of the Japanese Ruminative Responses Scale for Depression. <i>Psychological Reports</i> , 2013, 113, 566-585.	1.7	22
3	How do Rumination and Social Problem Solving Intensify Depression? A Longitudinal Study. <i>Journal of Rational - Emotive and Cognitive - Behavior Therapy</i> , 2018, 36, 28-46.	1.7	21
4	Depressive rumination and urgency have mutually enhancing relationships but both predict unique variance in future depression: A longitudinal study. <i>Cogent Psychology</i> , 2018, 5, 1450919.	1.3	17
5	Depressive Rumination and Social Problem Solving in Japanese University Students. <i>Journal of Cognitive Psychotherapy</i> , 2015, 29, 134-152.	0.4	11
6	Is Trait Rumination Associated with the Ability to Generate Effective Problem Solving Strategies? Utilizing Two Versions of the Means-Ends Problem-Solving Test. <i>Journal of Rational - Emotive and Cognitive - Behavior Therapy</i> , 2016, 34, 14-30.	1.7	11
7	Prospective Associations of Depressive Rumination and Social Problem Solving with Depression: A 6-Month Longitudinal Study. <i>Psychological Reports</i> , 2015, 116, 870-888.	1.7	10
8	Depression, Rumination, and Impulsive Action: A Latent Variable Approach to Behavioral Impulsivity. <i>Journal of Psychology: Interdisciplinary and Applied</i> , 2021, 155, 717-737.	1.6	9
9	Associations between self-reported impulsivity and a latent variable of impulsive action constructed from three laboratory tasks. <i>Journal of Experimental Psychopathology</i> , 2019, 10, 204380871986189.	0.8	8
10	Response inhibition deficits are positively associated with trait rumination, but attentional inhibition deficits are not: aggressive behaviors and interpersonal stressors as mediators. <i>Psychological Research</i> , 2022, 86, 858-870.	1.7	7
11	Causes and consequences of stress generation: Longitudinal associations of negative events, aggressive behaviors, rumination, and depressive symptoms. <i>Current Psychology</i> , 2022, , 1-10.	2.8	6
12	Depressive Rumination and Past Depression in Japanese University Students: Comparison of Brooding and Reflection. <i>Psychological Reports</i> , 2014, 114, 653-674.	1.7	4
13	How Autistic Traits, Inattention and Hyperactivity-Impulsivity Symptoms Influence Depression in Nonclinical Undergraduate Students? Mediating Role of Depressive Rumination. <i>Current Psychology</i> , 2020, 39, 1543-1551.	2.8	3
14	Relationship between trait rumination and imbalanced working memory: Analysis at the latent variable and individual task levels. <i>Current Psychology</i> , 2020, , 1.	2.8	3
15	Longitudinal association between autistic traits and affinity for hikikomori in Japanese university students. <i>Current Psychology</i> , 2022, 41, 8842-8849.	2.8	3
16	Development of the affinity for hikikomori scale in university students. <i>Japanese Journal of Research on Emotions</i> , 2020, 27, 51-60.	0.0	3
17	Do shorter interstimulus intervals in the go/no-go task enable better assessment of response inhibition?. <i>Scandinavian Journal of Psychology</i> , 2021, 62, 118-124.	1.5	2
18	Differences in Social Problem Solving and Rumination between Formerly Depressed and Never-Depressed Japanese University Students. <i>Japanese Journal of Personality</i> , 2016, 25, 162-165.	0.4	1
