#	ARTICLE	IF	CITATIONS
1	Adverse health effects of high-effort/low-reward conditions.. Journal of Occupational Health Psychology, 1996, 1, 27-41.	2.3	3,522
2	The measurement of effortâ€“reward imbalance at work: European comparisons. Social Science and Medicine, 2004, 58, 1483-1499.	1.8	1,704
3	Job strain, effort-reward imbalance and employee well-being: a large-scale cross-sectional study. Social Science and Medicine, 2000, 50, 1317-1327.	1.8	539
4	Long working hours and risk of coronary heart disease and stroke: a systematic review and meta-analysis of published and unpublished data for 603â€“838 individuals. Lancet, The, 2015, 386, 1739-1746.	6.3	529
5	Health inequalities and the psychosocial environmentâ€”two scientific challenges. Social Science and Medicine, 2004, 58, 1463-1473.	1.8	426
6	Effort-reward imbalance and burnout among nurses. Journal of Advanced Nursing, 2000, 31, 884-891.	1.5	329
7	Quality of work, well-being, and intended early retirement of older employeesâ€“baseline results from the SHARE Study. European Journal of Public Health, 2007, 17, 62-68.	0.1	282
8	Work stress and health risk behavior. Scandinavian Journal of Work, Environment and Health, 2006, 32, 473-481.	1.7	268
9	Chronic psychosocial stress at work and risk of depression: evidence from prospective studies. European Archives of Psychiatry and Clinical Neuroscience, 2008, 258, 115-119.	1.8	251
10	Social relationships, mental health and wellbeing in physical disability: a systematic review. BMC Public Health, 2017, 17, 414.	1.2	236
11	Effortâ€“Reward Imbalance at Work and Incident Coronary Heart Disease. Epidemiology, 2017, 28, 619-626.	1.2	224
12	Job Strain as a Risk Factor for Leisure-Time Physical Inactivity: An Individual-Participant Meta-Analysis of Up to 170,000 Men and Women: The IPD-Work Consortium. American Journal of Epidemiology, 2012, 176, 1078-1089.	1.6	198
13	Long working hours, socioeconomic status, and the risk of incident type 2 diabetes: a meta-analysis of published and unpublished data from 222â€“120 individuals. Lancet Diabetes and Endocrinology,the, 2015, 3, 27-34.	5.5	197
14	Job Strain as a Risk Factor for Type 2 Diabetes: A Pooled Analysis of 124,808 Men and Women. Diabetes Care, 2014, 37, 2268-2275.	4.3	185
15	Social reciprocity and health: New scientific evidence and policy implications. Psychoneuroendocrinology, 2005, 30, 1033-1038.	1.3	153
16	Long working hours and alcohol use: systematic review and meta-analysis of published studies and unpublished individual participant data. BMJ, The, 2015, 350, g7772-g7772.	3.0	152
17	Low socio-economic position is associated with poor social networks and social support: results from the Heinz Nixdorf Recall Study. International Journal for Equity in Health, 2008, 7, 13.	1.5	127
18	Socio-economic position and quality of life among older people in 10 European countries: results of the SHARE study. Ageing and Society, 2007, 27, 269-284.	1.2	112

#	ARTICLE	IF	CITATIONS
19	Effort-reward imbalance at work and cardiovascular diseases. <i>International Journal of Occupational Medicine and Environmental Health</i> , 2010, 23, 279-85.	0.6	107
20	Work stress and risk of death in men and women with and without cardiometabolic disease: a multicohort study. <i>Lancet Diabetes and Endocrinology</i> , 2018, 6, 705-713.	5.5	100
21	Work stress of primary care physicians in the US, UK and German health care systems. <i>Social Science and Medicine</i> , 2010, 71, 298-304.	1.8	89
22	How valid is a short measure of effort-reward imbalance at work? A replication study from Sweden. <i>Occupational and Environmental Medicine</i> , 2010, 67, 526-531.	1.3	89
23	Are changes in productive activities of older people associated with changes in their well-being? Results of a longitudinal European study. <i>European Journal of Ageing</i> , 2010, 7, 59-68.	1.2	86
24	Social productivity and well-being of older people: baseline results from the SHARE study. <i>European Journal of Ageing</i> , 2006, 3, 67-73.	1.2	84
25	Social Productivity and Well-being of Older People: A Sociological Exploration. <i>Social Theory and Health</i> , 2004, 2, 1-17.	1.0	80
26	Working conditions in mid-life and mental health in older ages. <i>Advances in Life Course Research</i> , 2013, 18, 16-25.	0.8	72
27	Failed reciprocity in close social relationships and health: Findings from the Whitehall II study. <i>Journal of Psychosomatic Research</i> , 2007, 63, 403-411.	1.2	71
28	The Association between Education and Work Stress: Does the Policy Context Matter?. <i>PLoS ONE</i> , 2015, 10, e0121573.	1.1	71
29	Reported nonreciprocity of social exchange and depressive symptoms. <i>Journal of Psychosomatic Research</i> , 2003, 55, 209-214.	1.2	66
30	Depressive symptoms and psychosocial stress at work among older employees in three continents. <i>Globalization and Health</i> , 2012, 8, 27.	2.4	66
31	Associations of effort-reward imbalance at work and reported symptoms in different groups of male and female public transport workers. <i>Stress and Health</i> , 1998, 14, 175-182.	0.7	60
32	Work stress and depressive symptoms in older employees: impact of national labour and social policies. <i>BMC Public Health</i> , 2013, 13, 1086.	1.2	60
33	Health impact of objective burden, subjective burden and positive aspects of caregiving: an observational study among caregivers in Switzerland. <i>BMJ Open</i> , 2017, 7, e017369.	0.8	53
34	Differential brain activation according to chronic social reward frustration. <i>NeuroReport</i> , 2005, 16, 1899-1903.	0.6	51
35	Productive activities, mental health and quality of life in disability: exploring the role enhancement and the role strain hypotheses. <i>BMC Psychology</i> , 2019, 7, 1.	0.9	51
36	Validating abbreviated measures of effort-reward imbalance at work in European cohort studies: the IPD-Work consortium. <i>International Archives of Occupational and Environmental Health</i> , 2014, 87, 249-256.	1.1	46

#	ARTICLE	IF	CITATIONS
37	Disturbed Redox Homeostasis in Oxidative Distress. <i>Circulation Research</i> , 2017, 121, 103-105.	2.0	46
38	Unfair Pay and Health. <i>Management Science</i> , 2018, 64, 1477-1488.	2.4	42
39	Mental health in individuals with spinal cord injury: The role of socioeconomic conditions and social relationships. <i>PLoS ONE</i> , 2019, 14, e0206069.	1.1	42
40	Are there gender differences in associations of effortâ€“reward imbalance at work with self-reported doctor-diagnosed depression? Prospective evidence from the German Socio-Economic Panel. <i>International Archives of Occupational and Environmental Health</i> , 2018, 91, 435-443.	1.1	39
41	Adverse psychosocial working conditions and subjective health in freelance media workers. <i>Work and Stress</i> , 2005, 19, 293-299.	2.8	38
