#	ARTICLE	IF	CITATIONS
1	Collaborative co-design and evaluation of an immersive virtual reality application prototype for communication rehabilitation (DISCOVER prototype). <i>Disability and Rehabilitation: Assistive Technology</i> , 2024, 19, 90-99.	1.3	8
2	Mealtime difficulties in adults with mental health conditions: an integrative review. <i>Journal of Mental Health</i> , 2023, 32, 504-516.	1.0	0
3	Virtual Reality and Augmented Reality for Children, Adolescents, and Adults with Communication Disability and Neurodevelopmental Disorders: a Systematic Review. <i>Review Journal of Autism and Developmental Disorders</i> , 2022, 9, 160-183.	2.2	23
4	The Future of Disability Research in Australia: Protocol for a Multiphase Research Agendaâ€œSetting Study. <i>JMIR Research Protocols</i> , 2022, 11, e31126.	0.5	7
5	Dysphagia and Quality of Life, Participation, and Inclusion Experiences and Outcomes for Adults and Children With Dysphagia: A Scoping Review. <i>Perspectives of the ASHA Special Interest Groups</i> , 2022, 7, 181-196.	0.4	13
6	Circumstances and outcomes of falls in hospital for adults with communication disability secondary to stroke: A qualitative synthesis. <i>Advances in Communication and Swallowing</i> , 2022, 24, 99-110.	0.2	3
7	Examining the Content and Outcomes of Training in Dysphagia and Mealtime Management: A Systematic Review Informing Co-Design of New Training. <i>American Journal of Speech-Language Pathology</i> , 2022, , 1-18.	0.9	2
8	Bouncing off Each Other: Experiencing Interprofessional Collaboration Through Simulation. <i>Clinical Simulation in Nursing</i> , 2022, 65, 26-34.	1.5	2
9	Developing and sustaining a social media ecosystem in speech-language pathology: Using innovative qualitative methods to visualise and cultivate a social media garden. <i>International Journal of Speech-Language Pathology</i> , 2022, 24, 558-569.	0.6	2
10	Allied Health Professionals' Views on the Use of 3D Food Printing to Improve the Mealtime Quality of Life for People With Dysphagia: Impact, Cost, Practicality, and Potential. <i>American Journal of Speech-Language Pathology</i> , 2022, 31, 1868-1877.	0.9	7
11	Rehabilitation professionalsâ€™ views on social media use in traumatic brain injury rehabilitation: gatekeepers to participation. <i>Disability and Rehabilitation</i> , 2021, 43, 1955-1964.	0.9	14
12	Content and network analysis of tweets tagged with #aphasia: an emergent community of practice. <i>Aphasiology</i> , 2021, 35, 1084-1102.	1.4	7
13	A Consensus Statement for the Management and Rehabilitation of Communication and Swallowing Function in the ICU: A Global Response to COVID-19. <i>Archives of Physical Medicine and Rehabilitation</i> , 2021, 102, 835-842.	0.5	25
14	Assessing the information quality and usability of <i>My Health Record</i> within a health literacy framework: Whatâ€™s changed since 2016?. <i>Health Information Management Journal</i> , 2021, 50, 13-25.	0.9	21
15	Social Media and People With Traumatic Brain Injury: A Metasynthesis of Research Informing a Framework for Rehabilitation Clinical Practice, Policy, and Training. <i>American Journal of Speech-Language Pathology</i> , 2021, 30, 19-33.	0.9	22
16	Making Public Involvement in Research More Inclusive of People With Complex Speech and Motor Disorders: The I-ASC Project. <i>Qualitative Health Research</i> , 2021, 31, 1260-1274.	1.0	7
17	1C.001â€œ...A systematic review and meta-analysis of hospital falls in people with stroke. , 2021, , .		0
18	Recognising complexity: Foregrounding vulnerable and diverse populations for inclusive health information management research. <i>Health Information Management Journal</i> , 2021, , 183335832110527.	0.9	2

#	ARTICLE	IF	CITATIONS
19	A review of virtual reality technologies in the field of communication disability: implications for practice and research. <i>Disability and Rehabilitation: Assistive Technology</i> , 2020, 15, 365-372.	1.3	52
20	“I knew what I was doing on Twitter then I would use it more” Twitter experiences and networks of people with traumatic brain injury (TBI). <i>Brain Impairment</i> , 2020, 21, 1-18.	0.5	11
21	Falls in hospital patients with acquired communication disability secondary to stroke: A systematic review and meta-analysis. <i>International Journal of Language and Communication Disorders</i> , 2020, 55, 837-851.	0.7	5
22	Conceptualisation and development of the RIPE-N model (reflective interprofessional) Tj ETQqO 0 0 rgBT /Overlock 10 Tf 50 627 Td (edu professions. <i>Reflective Practice</i> , 2020, 21, 712-730.	0.7	8
23	Opportunities for the Implementation of Immersive Virtual Reality in Rehabilitation. , 2020, , .		5
24	Rapid Prompting Method and Autism Spectrum Disorder: Systematic Review Exposes Lack of Evidence. <i>Review Journal of Autism and Developmental Disorders</i> , 2019, 6, 403-412.	2.2	13
25	Information infrastructure and quality person-centred support in supported accommodation: An integrative review. <i>Patient Education and Counseling</i> , 2019, 102, 1413-1426.	1.0	2
26	An integrative review of stakeholder views on Advance Care Directives (ACD): Barriers and facilitators to initiation, documentation, storage, and implementation. <i>Patient Education and Counseling</i> , 2019, 102, 1067-1079.	1.0	35
27	A systematic review of falls in hospital for patients with communication disability: Highlighting an invisible population. <i>Journal of Safety Research</i> , 2019, 68, 89-105.	1.7	19
28	“I kind of figured it out”™: the views and experiences of people with traumatic brain injury (TBI) in using social media “self-determination for participation and inclusion online. <i>International Journal of Language and Communication Disorders</i> , 2019, 54, 221-233.	0.7	37
29	A content analysis of documentation on communication disability in hospital progress notes: diagnosis, function, and patient safety. <i>Clinical Rehabilitation</i> , 2019, 33, 943-956.	1.0	10
30	Health Information Infrastructure for People with Intellectual and Developmental Disabilities (I/DD) Living in Supported Accommodation: Communication, Co-Ordination and Integration of Health Information. <i>Health Communication</i> , 2019, 34, 91-99.	1.8	2
31	Dying for a Meal: An Integrative Review of Characteristics of Choking Incidents and Recommendations to Prevent Fatal and Nonfatal Choking Across Populations. <i>American Journal of Speech-Language Pathology</i> , 2019, 28, 1283-1297.	0.9	24
32	Content Analysis of Tweets by People with Traumatic Brain Injury (TBI): Implications for Rehabilitation and Social Media Goals. , 2019, , .		4
33	Whose words are these? Statements derived from Facilitated Communication and Rapid Prompting Method undermine the credibility of Jaswal & Akhtar’s social motivation hypotheses. <i>Behavioral and Brain Sciences</i> , 2019, 42, .	0.4	3
34	Using Twitter to access the human right of communication for people who use Augmentative and Alternative Communication (AAC). <i>International Journal of Speech-Language Pathology</i> , 2018, 20, 50-58.	0.6	18
35	Legal, ethical, and rights issues in the adoption and use of the “My Health Record” by people with communication disability in Australia. <i>Journal of Intellectual and Developmental Disability</i> , 2018, 43, 506-514.	1.1	10
36	A content analysis of the consumer-facing online information about My Health Record: Implications for increasing knowledge and awareness to facilitate uptake and use. <i>Health Information Management Journal</i> , 2018, 47, 106-115.	0.9	16

#	ARTICLE	IF	CITATIONS
37	The health literacy demands of electronic personal health records (e-PHRs): An integrative review to inform future inclusive research. <i>Patient Education and Counseling</i> , 2018, 101, 2-15.	1.0	37
38	Hashtag #TBI: A content and network data analysis of tweets about Traumatic Brain Injury. <i>Brain Injury</i> , 2018, 32, 49-63.	0.6	29
39	Systematic review of facilitated communication 2014â€“2018 finds no new evidence that messages delivered using facilitated communication are authored by the person with disability. <i>Autism and Developmental Language Impairments</i> , 2018, 3, 239694151882157.	0.8	23
40	Health Information and the Quality and Safety of Care for People With Disability. <i>Journal of Patient Safety</i> , 2018, Publish Ahead of Print, e1559-e1575.	0.7	2
41	Reflections on a special issue: motivations to encourage intervention designs. <i>AAC: Augmentative and Alternative Communication</i> , 2018, 34, 255-257.	0.8	1
42	Legal and Ethical Issues Surrounding the Use of Older Children's Electronic Personal Health Records. <i>Journal of Law & Medicine</i> , 2018, 25, 1042-1055.	0.0	1
43	Technology and its role in rehabilitation for people with cognitive-communication disability following a traumatic brain injury (TBI). <i>Brain Injury</i> , 2017, 31, 1028-1043.	0.6	54
44	A call for innovative social media research in the field of augmentative and alternative communication. <i>AAC: Augmentative and Alternative Communication</i> , 2017, 33, 14-22.	0.8	19
45	Validation of the Choking Risk Assessment and Pneumonia Risk Assessment for adults with Intellectual and Developmental Disability (IDD). <i>Research in Developmental Disabilities</i> , 2017, 69, 61-76.	1.2	13
46	Motor Neurone Disease (MND) and Amyotrophic Lateral Sclerosis (ALS): Social Media Communication on Selected #MND and #ALS Tagged Tweets. , 2017, , .		7
47	The E-health Literacy Demands of Australia's My Health Record: A Heuristic Evaluation of Usability. <i>Perspectives in Health Information Management / AHIMA, American Health Information Management Association</i> , 2017, 14, 1f.	0.0	16
48	Legal and Ethical Issues Surrounding Advance Care Directives in Australia: Implications for the Advance Care Planning Document in the Australian My Health Record. <i>Journal of Law & Medicine</i> , 2017, 25, 136-149.	0.0	5
49	Evidence does not support the use of Rapid Prompting Method (RPM) as an intervention for students with autism spectrum disorder and further primary research is not justified. <i>Evidence-Based Communication Assessment and Intervention</i> , 2016, 10, 122-130.	0.6	6
50	3D printing of a pavlova. , 2016, , .		5
51	Feasibility of implementing oral health guidelines in residential care settings: views of nursing staff and residential care workers. <i>Applied Nursing Research</i> , 2016, 30, 194-203.	1.0	13
52	An integrative review of patient safety in studies on the care and safety of patients with communication disabilities in hospital. <i>Patient Education and Counseling</i> , 2016, 99, 501-511.	1.0	22
53	ISQUA16-1897 DOCUMENTATION OF PATIENT COMMUNICATION IN HOSPITAL MEDICAL RECORDS: A PROTECTION OR A THREAT TO PATIENT SAFETY FOR ADULTS WITH COMMUNICATION DISABILITY. <i>International Journal for Quality in Health Care</i> , 2016, 28, 44-45.	0.9	1
54	Use of the My Health Record by people with communication disability in Australia. <i>Health Information Management Journal</i> , 2016, 45, 107-115.	0.9	20

#	ARTICLE	IF	CITATIONS
55	Improving nurseâ€œpatient communication with patients with communication impairments: hospital nurses' views on the feasibility of using mobile communication technologies. <i>Applied Nursing Research</i> , 2016, 30, 228-236.	1.0	22
56	Two Studies on Twitter Networks and Tweet Content in Relation to Amyotrophic Lateral Sclerosis (ALS): Conversation, Information, and 'Diary of a Daily Life'. <i>Studies in Health Technology and Informatics</i> , 2016, 227, 41-7.	0.2	6
57	A call for dysphagia-related safety incident research in people with developmental disabilities. <i>Journal of Intellectual and Developmental Disability</i> , 2015, 40, 99-103.	1.1	11
58	â€œWe definitely need an audienceâ€œ: experiences of Twitter, Twitter networks and tweet content in adults with severe communication disabilities who use augmentative and alternative communication (AAC). <i>Disability and Rehabilitation</i> , 2015, 37, 1531-1542.	0.9	43
59	Distance and proximity: research on social media connections in the field of communication disability. <i>Disability and Rehabilitation</i> , 2015, 37, 1509-1510.	0.9	9
60	Review of the literature on the use of social media by people with traumatic brain injury (TBI). <i>Disability and Rehabilitation</i> , 2015, 37, 1511-1521.	0.9	57
61	The Personally Controlled Electronic Health Record (PCEHR) for Adults with Severe Communication Impairments: Findings of Pilot Research. <i>Studies in Health Technology and Informatics</i> , 2015, 214, 100-6.	0.2	1
62	Supporting communication for children with cerebral palsy in hospital: Views of community and hospital staff. <i>Developmental Neurorehabilitation</i> , 2014, 17, 156-166.	0.5	20
63	Facilitated Communication and Authorship: A Systematic Review. <i>AAC: Augmentative and Alternative Communication</i> , 2014, 30, 359-368.	0.8	50
64	A Metasynthesis of Patient-Provider Communication in Hospital for Patients with Severe Communication Disabilities: Informing New Translational Research. <i>AAC: Augmentative and Alternative Communication</i> , 2014, 30, 329-343.	0.8	83
65	Exploring the feasibility of the Visual Language in Autism program for children in an early intervention group setting: Views of parents, educators, and health professionals. <i>Developmental Neurorehabilitation</i> , 2014, 17, 115-124.	0.5	19
66	Social media and social marketing in relation to facilitated communication: Harnessing the affordances of social media for knowledge translation. <i>Evidence-Based Communication Assessment and Intervention</i> , 2014, 8, 187-206.	0.6	15
67	Tweet reach: A research protocol for using Twitter to increase information exchange in people with communication disabilities. <i>Developmental Neurorehabilitation</i> , 2014, 17, 84-89.	0.5	24
68	â€œThat really shouldn't have happenedâ€œ: People with aphasia and their spouses narrate adverse events in hospital. <i>Aphasiology</i> , 2013, 27, 706-722.	1.4	61
69	Parents and children with cerebral palsy discuss communication needs in hospital. <i>Developmental Neurorehabilitation</i> , 2013, 16, 363-374.	0.5	20
70	Access to journals through peer reviewers. <i>Cmaj</i> , 2012, 184, 1283.1-1283.	0.9	0
71	Adults with aphasia value their involvement in teaching nursing assistant students about aphasia and communication. <i>Evidence-Based Communication Assessment and Intervention</i> , 2012, 6, 104-107.	0.6	0
72	Nursing the patient with complex communication needs: time as a barrier and a facilitator to successful communication in hospital. <i>Journal of Advanced Nursing</i> , 2012, 68, 116-126.	1.5	94

#	ARTICLE	IF	CITATIONS
73	The "Big 5" and beyond: Nurses, paid carers, and adults with developmental disability discuss communication needs in hospital. <i>Applied Nursing Research</i> , 2011, 24, e51-e58.	1.0	27
74	Nursing the Patient With Developmental Disability in Hospital. <i>Qualitative Health Research</i> , 2011, 21, 1632-1642.	1.0	19
75	Words needed for sharing a story: Implications for vocabulary selection in augmentative and alternative communication. <i>Journal of Intellectual and Developmental Disability</i> , 2010, 35, 268-278.	1.1	14
76	Understanding mealtime changes for adults with cerebral palsy and the implications for support services. <i>Journal of Intellectual and Developmental Disability</i> , 2009, 34, 197-206.	1.1	43
77	Family Caregivers Discuss Roles and Needs in Supporting Adults with Cerebral Palsy and Complex Communication Needs in the Hospital Setting. <i>Journal of Developmental and Physical Disabilities</i> , 2008, 20, 257-274.	1.0	19
78	"We need to be the centrepiece": Adults with cerebral palsy and complex communication needs discuss the roles and needs of family carers in hospital. <i>Disability and Rehabilitation</i> , 2008, 30, 1759-1771.	0.9	33
79	Professionals' views on the roles and needs of family carers of adults with cerebral palsy and complex communication needs in hospital. <i>Journal of Intellectual and Developmental Disability</i> , 2008, 33, 127-136.	1.1	31
80	"I've Got Something to Say": Interaction in a Focus Group of Adults with Cerebral Palsy and Complex Communication Needs. <i>AAC: Augmentative and Alternative Communication</i> , 2008, 24, 110-122.	0.8	13
81	Communicating with nurses: The experiences of 10 adults with cerebral palsy and complex communication needs. <i>Applied Nursing Research</i> , 2007, 20, 56-62.	1.0	76
82	Narrative analysis of the hospital experience for older parents of people who cannot speak. <i>Journal of Aging Studies</i> , 2007, 21, 239-254.	0.7	28
83	Older Unpaid Carers' Experiences Supporting Adults with Cerebral Palsy and Complex Communication Needs in Hospital. <i>Journal of Developmental and Physical Disabilities</i> , 2007, 19, 115-124.	1.0	18
84	Without AAC: The Stories of Unpaid Carers of Adults with Cerebral Palsy and Complex Communication Needs in Hospital. <i>AAC: Augmentative and Alternative Communication</i> , 2004, 20, 243-258.	0.8	39
85	Disability, dysphagia, and complex communication needs: Making room for communication in ethical decisions about dysphagia. <i>International Journal of Speech-Language Pathology</i> , 2003, 5, 125-129.	0.5	4
86	Nursing the patient with severe communication impairment. <i>Journal of Advanced Nursing</i> , 2001, 35, 827-835.	1.5	116
87	Communicating with Nurses: The Experiences of 10 Individuals with an Acquired Severe Communication Impairment. <i>Brain Impairment</i> , 2001, 2, 109-118.	0.5	26
88	People with Parkinson's disease who succeed in the LSVT LOUD® treatment also report significant improvement in communication effectiveness, vocal disability, and communicative participation ¹ . <i>Evidence-Based Communication Assessment and Intervention</i> , 0, , 1-7.	0.6	0
89	Digital health autonomy for people with communication or swallowing disability and the sustainable development goal 10 of reducing inequalities and goal 3 of good health and well-being. <i>International Journal of Speech-Language Pathology</i> , 0, , 1-5.	0.6	1
