YONG ZENG

#	Article	IF	CITATIONS
1	A nomogram to assist blastocyst selection in vitrifiedâ€warmed embryo transfer cycles. Journal of Obstetrics and Gynaecology Research, 2022, 48, 1816-1828.	0.6	5
2	Decreased expression of SEMA4D in recurrent implantation failure induces reduction of trophoblast invasion and migration via the Met/PI3K/Akt pathway. Journal of Reproductive Immunology, 2022, 153, 103657.	0.8	3
3	Hormone replacement therapy with GnRH agonist pretreatment improves pregnancy outcomes in patients with previous intrauterine adhesions. Journal of Gynecology Obstetrics and Human Reproduction, 2022, 51, 102439.	0.6	0
4	Diagnosis of chronic endometritis: How many CD138 ⁺ cells/HPF in endometrial stroma affect pregnancy outcome of infertile women?. American Journal of Reproductive Immunology, 2021, 85, e13369.	1.2	40
5	NKG2D as a Cell Surface Marker on γÎ-T Cells for Predicting Pregnancy Outcomes in Patients With Unexplained Repeated Implantation Failure. Frontiers in Immunology, 2021, 12, 631077.	2.2	8
6	Optimal Endometrial Preparation Protocols for Frozen-thawed Embryo Transfer Cycles by Maternal Age. Reproductive Sciences, 2021, 28, 2847-2854.	1.1	5
7	The low cytotoxic activity of peripheral blood NK cells may relate to unexplained recurrent miscarriage. American Journal of Reproductive Immunology, 2021, 85, e13388.	1.2	9
8	Evaluation of peripheral and uterine immune status of chronic endometritis in patients with recurrent reproductive failure. Fertility and Sterility, 2020, 113, 187-196.e1.	0.5	78
9	A visualized clinical model predicting good quality blastocyst development in the first IVF/ICSI cycle. Reproductive BioMedicine Online, 2020, 41, 807-817.	1.1	2
10	New endometrial immune cell-based score (El-score) for the prediction of implantation success for patients undergoing IVF/ICSI. Placenta, 2020, 99, 180-188.	0.7	17
11	Association between the number of top-quality blastocysts and live births after single blastocyst transfer in the first fresh or vitrified–warmed IVF/ICSI cycle. Reproductive BioMedicine Online, 2020, 40, 530-537.	1.1	12
12	Potential impact of maternal vitamin D status on peripheral blood and endometrium cellular immunity in women with recurrent implantation failure. American Journal of Reproductive Immunology, 2020, 84, e13243.	1.2	11
13	Clinical outcomes after transfer of blastocysts derived from frozen–thawed cleavage embryos: a retrospective propensity-matched cohort study. Archives of Gynecology and Obstetrics, 2019, 300, 751-761.	0.8	11
14	Obstetric and perinatal outcomes of pregnancies according to initial maternal serum HCG concentrations after vitrified–warmed single blastocyst transfer. Reproductive BioMedicine Online, 2019, 38, 455-464.	1.1	12
15	Aberrant expressions of endometrial Id3 and CTLAâ€4 are associated with unexplained repeated implantation failure and recurrent miscarriage. American Journal of Reproductive Immunology, 2017, 78, e12632.	1.2	16
16	Efficacy of intrauterine perfusion of granulocyte colonyâ€stimulating factor (Gâ€CSF) for Infertile women with thin endometrium: A systematic review and metaâ€analysis. American Journal of Reproductive Immunology, 2017, 78, e12701.	1.2	42
17	Functional properties of peripheral <scp>CD</scp> 8 ⁺ ÂT cells in patients with repeated implantation failure. American Journal of Reproductive Immunology, 2017, 78, e12704.	1.2	6
18	Successful treatment with intrauterine delivery of dexamethasone for repeated implantation failure. American Journal of Reproductive Immunology, 2017, 78, e12766.	1.2	28

Yong Zeng

#	Article	IF	CITATIONS
19	The role of γδâ€T cells during human pregnancy. American Journal of Reproductive Immunology, 2017, 78, e12713.	1.2	13
20	Modulatory effects of vitamin D on peripheral cellular immunity in patients with recurrent miscarriage. American Journal of Reproductive Immunology, 2016, 76, 432-438.	1.2	25
21	The pro-inflammatory and anti-inflammatory cytokine profile in peripheral blood of women with recurrent implantation failure. Reproductive BioMedicine Online, 2015, 31, 823-826.	1.1	89
22	Laser-assisted hatching improves clinical outcomes of vitrified–warmed blastocysts developed from low-grade cleavage-stage embryos: a prospective randomized study. Reproductive BioMedicine Online, 2014, 28, 582-589.	1.1	41
