

Shuohua Chen

List of Publications by Citations

Source: <https://exaly.com/author-pdf/5398789/shuohua-chen-publications-by-citations.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
122	Prevalence of venous thromboembolism in patients with severe novel coronavirus pneumonia. <i>Journal of Thrombosis and Haemostasis</i> , 2020 , 18, 1421-1424	15.4	1048
121	Pathological Findings in the Testes of COVID-19 Patients: Clinical Implications. <i>European Urology Focus</i> , 2020 , 6, 1124-1129	5.1	177
120	Multi-organ proteomic landscape of COVID-19 autopsies. <i>Cell</i> , 2021 , 184, 775-791.e14	56.2	108
119	Alcohol Consumption and Risk of Cardiovascular Disease, Cancer and Mortality: A Prospective Cohort Study (OR17-07-19). <i>Current Developments in Nutrition</i> , 2019 , 3,	0.4	78
118	Habitual Night Eating Was Positively Associated with Progress of Arterial Stiffness in Chinese Adults. <i>Current Developments in Nutrition</i> , 2020 , 4, 1511-1511	0.4	78
117	Longitudinal Change in Fasting Blood Glucose and Myocardial Infarction Risk in a Population Without Diabetes. <i>Diabetes Care</i> , 2017 , 40, 1565-1572	14.6	73
116	Association of Age of Onset of Hypertension With Cardiovascular Diseases and Mortality. <i>Journal of the American College of Cardiology</i> , 2020 , 75, 2921-2930	15.1	60
115	Risk factors for probable REM sleep behavior disorder: A community-based study. <i>Neurology</i> , 2016 , 86, 1306-1312	6.5	57
114	Visit-to-Visit Variability of Fasting Plasma Glucose and the Risk of Cardiovascular Disease and All-Cause Mortality in the General Population. <i>Journal of the American Heart Association</i> , 2017 , 6,	6	41
113	Association Between Carotid Atherosclerotic Plaque Calcification and Intraplaque Hemorrhage: A Magnetic Resonance Imaging Study. <i>Arteriosclerosis, Thrombosis, and Vascular Biology</i> , 2017 , 37, 1228-1233	9.4	39
112	Progression to fibrosing diffuse alveolar damage in a series of 30 minimally invasive autopsies with COVID-19 pneumonia in Wuhan, China. <i>Histopathology</i> , 2021 , 78, 542-555	7.3	39
111	Resting Heart Rate Trajectory Pattern Predicts Arterial Stiffness in a Community-Based Chinese Cohort. <i>Arteriosclerosis, Thrombosis, and Vascular Biology</i> , 2017 , 37, 359-364	9.4	35
110	Cumulative Exposure to High-Sensitivity C-Reactive Protein Predicts the Risk of Cardiovascular Disease. <i>Journal of the American Heart Association</i> , 2017 , 6,	6	32
109	Air pollution and fasting blood glucose: A longitudinal study in China. <i>Science of the Total Environment</i> , 2016 , 541, 750-755	10.2	28
108	Arterial Stiffness Preceding Diabetes: A Longitudinal Study. <i>Circulation Research</i> , 2020 , 127, 1491-1498	15.7	27
107	Triglyceride-glucose index is associated with the risk of myocardial infarction: an 11-year prospective study in the Kailuan cohort. <i>Cardiovascular Diabetology</i> , 2021 , 20, 19	8.7	21
106	A prospective study of impaired fasting glucose and type 2 diabetes in China: The Kailuan study. <i>Medicine (United States)</i> , 2016 , 95, e5350	1.8	19

105	Prevalence of venous thromboembolism after lung surgery in China: a single-centre, prospective cohort study involving patients undergoing lung resections without perioperative venous thromboembolism prophylaxis. <i>European Journal of Cardio-thoracic Surgery</i> , 2019 , 55, 455-460	3	18
104	Cumulative Exposure to Ideal Cardiovascular Health and Incident Diabetes in a Chinese Population: The Kailuan Study. <i>Journal of the American Heart Association</i> , 2016 , 5,	6	15
103	Brachial-ankle pulse wave velocity and metabolic syndrome in general population: the APAC study. <i>BMC Cardiovascular Disorders</i> , 2016 , 16, 228	2.3	15
102	Carotid intima-media thickness and cognitive function in a middle-aged and older adult community: a cross-sectional study. <i>Journal of Neurology</i> , 2016 , 263, 2097-104	5.5	14
101	All-cause mortality in metabolically healthy individuals was not predicted by overweight and obesity. <i>JCI Insight</i> , 2020 , 5,	9.9	14
100	Association Between Body Mass Index (BMI) and Brachial-Ankle Pulse Wave Velocity (baPWV) in Males with Hypertension: A Community-Based Cross-Section Study in North China. <i>Medical Science Monitor</i> , 2019 , 25, 5241-5257	3.2	14
99	Association between the metabolically healthy obese phenotype and the risk of myocardial infarction: results from the Kailuan study. <i>European Journal of Endocrinology</i> , 2018 , 179, 343-352	6.5	14
98	Triglyceride-glucose index and the risk of stroke and its subtypes in the general population: an 11-year follow-up. <i>Cardiovascular Diabetology</i> , 2021 , 20, 46	8.7	14
97	Blood Pressure Classification of 2017 Associated With Cardiovascular Disease and Mortality in Young Chinese Adults. <i>Hypertension</i> , 2020 , 76, 251-258	8.5	13
96	Association between triglyceride-glucose index and risk of arterial stiffness: a cohort study. <i>Cardiovascular Diabetology</i> , 2021 , 20, 146	8.7	13
95	Genome Wide Association Study Identifies L3MBTL4 as a Novel Susceptibility Gene for Hypertension. <i>Scientific Reports</i> , 2016 , 6, 30811	4.9	11
94	A preliminary exploration of the intravoxel incoherent motion applied in the preoperative evaluation of mediastinal lymph node metastasis of lung cancer. <i>Journal of Thoracic Disease</i> , 2017 , 9, 1073-1080	2.6	11
93	The EGFR-rearranged adenocarcinoma is associated with a high rate of venous thromboembolism. <i>Annals of Translational Medicine</i> , 2019 , 7, 724	3.2	11
92	Associations Between Nonalcoholic Fatty Liver Disease and Cancers in a Large Cohort in China. <i>Clinical Gastroenterology and Hepatology</i> , 2021 , 19, 788-796.e4	6.9	11
91	Association of Cumulative Exposure to Resting Heart Rate with Risk of Stroke in General Population: The Kailuan Cohort Study. <i>Journal of Stroke and Cerebrovascular Diseases</i> , 2017 , 26, 2501-2509	2.8	10
90	Heterogeneous contributions of change in population distribution of body mass index to change in obesity and underweight. <i>ELife</i> , 2021 , 10,	8.9	10
89	The significance of perioperative coagulation and fibrinolysis related parameters after lung surgery for predicting venous thromboembolism: a prospective, single center study. <i>Journal of Thoracic Disease</i> , 2018 , 10, 2223-2230	2.6	10
88	Higher Levels of Lipoprotein Associated Phospholipase A2 is associated with Increased Prevalence of Cognitive Impairment: the APAC Study. <i>Scientific Reports</i> , 2016 , 6, 33073	4.9	9

87	Two-Year Changes in Proteinuria and the Risk of Stroke in the Chinese Population: A Prospective Cohort Study. <i>Journal of the American Heart Association</i> , 2017 , 6,	6	9
86	Clinical features and long-term outcomes of diabetic kidney disease - A prospective cohort study from China. <i>Journal of Diabetes and Its Complications</i> , 2019 , 33, 39-45	3.2	9
85	Changes in proteinuria and the risk of myocardial infarction in people with diabetes or pre-diabetes: a prospective cohort study. <i>Cardiovascular Diabetology</i> , 2017 , 16, 104	8.7	8
84	Ideal Cardiovascular Health Metrics and Incident Hyperuricemia. <i>Arthritis Care and Research</i> , 2016 , 68, 660-6	4.7	8
83	Habitual Night Eating Was Positively Associated With Progress of Arterial Stiffness in Chinese Adults. <i>Journal of the American Heart Association</i> , 2020 , 9, e016455	6	8
82	Change in triglyceride-glucose index predicts the risk of cardiovascular disease in the general population: a prospective cohort study. <i>Cardiovascular Diabetology</i> , 2021 , 20, 113	8.7	8
81	Risk scores for predicting incidence of type 2 diabetes in the Chinese population: the Kailuan prospective study. <i>Scientific Reports</i> , 2016 , 6, 26548	4.9	8
80	Alcohol consumption and risk of cardiovascular disease, cancer and mortality: a prospective cohort study. <i>Nutrition Journal</i> , 2021 , 20, 13	4.3	8
79	Hematocrit and the incidence of stroke: a prospective, population-based cohort study. <i>Therapeutics and Clinical Risk Management</i> , 2018 , 14, 2081-2088	2.9	8
78	Risk prediction model for lung cancer incorporating metabolic markers: Development and internal validation in a Chinese population. <i>Cancer Medicine</i> , 2020 , 9, 3983-3994	4.8	7
77	Repeated measurements of serum urate and mortality: a prospective cohort study of 152,358 individuals over 8 years of follow-up. <i>Arthritis Research and Therapy</i> , 2020 , 22, 84	5.7	7
76	Cumulative Resting Heart Rate Exposure and Risk of All-Cause Mortality: Results from the Kailuan Cohort Study. <i>Scientific Reports</i> , 2017 , 7, 40212	4.9	6
75	Cumulative alcohol consumption and stroke risk in men. <i>Journal of Neurology</i> , 2019 , 266, 2112-2119	5.5	6
74	Estimated Glomerular Filtration Rate, Proteinuria, and Risk of Cardiovascular Diseases and All-cause Mortality in Diabetic Population: a Community-based Cohort Study. <i>Scientific Reports</i> , 2017 , 7, 17948	4.9	6
73	Isolated diastolic hypertension as defined by the 2017 American College of Cardiology/American Heart Association blood pressure guideline and incident cardiovascular events in Chinese. <i>Journal of Hypertension</i> , 2021 , 39, 519-525	1.9	6
72	Association between blood copper and nonalcoholic fatty liver disease according to sex. <i>Clinical Nutrition</i> , 2021 , 40, 2045-2052	5.9	6
71	Stage 1 hypertension defined by the 2017 ACC/AHA Hypertension Guidelines and Risk of Cardiovascular Events: a Cohort Study from Northern China. <i>Hypertension Research</i> , 2019 , 42, 1606-1615	4.7	5
70	Association between tea consumption and cognitive impairment in middle-aged and older adults. <i>BMC Geriatrics</i> , 2020 , 20, 447	4.1	5

69	Combined effects of carotid plaques and hypertension on the risk of cardiovascular disease and all-cause mortality. <i>Clinical Cardiology</i> , 2020 , 43, 715-722	3.3	5
68	Associations between changes in serum uric acid and the risk of myocardial infarction. <i>International Journal of Cardiology</i> , 2020 , 314, 25-31	3.2	5
67	Proteinuria and risk of stroke in patients with hypertension: The Kailuan cohort study. <i>Journal of Clinical Hypertension</i> , 2018 , 20, 765-774	2.3	5
66	Relationship between systolic blood pressure and all-cause mortality: a prospective study in a cohort of Chinese adults. <i>BMC Public Health</i> , 2018 , 18, 107	4.1	5
65	Association between healthy vascular aging and the risk of the first stroke in a community-based Chinese cohort. <i>Aging</i> , 2019 , 11, 5807-5816	5.6	5
64	Association between ideal cardiovascular health score trajectories and arterial stiffness: the Kailuan Study. <i>Hypertension Research</i> , 2020 , 43, 140-147	4.7	5
63	Cumulative Serum Uric Acid and Its Time Course Are Associated With Risk of Myocardial Infarction and All-Cause Mortality. <i>Journal of the American Heart Association</i> , 2021 , 10, e020180	6	5
62	Metabolic dysfunction-associated fatty liver disease and mortality among Chinese adults: a prospective cohort study. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2021 ,	5.6	5
61	No Association Between High-Sensitivity C-Reactive Protein and Carotid Intima-Media Progression: The APAC Study. <i>Journal of Stroke and Cerebrovascular Diseases</i> , 2017 , 26, 252-259	2.8	4
60	The Cumulative Exposure to High-Sensitivity C-Reactive Protein Predicts the Risk of Chronic Kidney Diseases. <i>Kidney and Blood Pressure Research</i> , 2020 , 45, 84-94	3.1	4
59	Development of a risk score for colorectal cancer in Chinese males: A prospective cohort study. <i>Cancer Medicine</i> , 2020 , 9, 816-823	4.8	4
58	A meta-analysis of nivolumab for the treatment of advanced non-small-cell lung cancer. <i>OncoTargets and Therapy</i> , 2018 , 11, 7691-7697	4.4	4
57	Joint association of body mass index and central obesity with cardiovascular events and all-cause mortality in prediabetic population: A prospective cohort study. <i>Obesity Research and Clinical Practice</i> , 2019 , 13, 453-461	5.4	3
56	Dynamics of D-dimer in non-small cell lung cancer patients receiving radical surgery and its association with postoperative venous thromboembolism. <i>Thoracic Cancer</i> , 2020 , 11, 2483-2492	3.2	3
55	Association between pre-diagnostic serum albumin and cancer risk: Results from a prospective population-based study. <i>Cancer Medicine</i> , 2021 , 10, 4054-4065	4.8	3
54	Distinct eGFR trajectories are associated with risk of myocardial infarction in people with diabetes or prediabetes. <i>Journal of Diabetes</i> , 2021 , 13, 124-133	3.8	3
53	Baseline CHADS2 Score and Risk of Cardiovascular Events in the Population Without Atrial Fibrillation. <i>American Journal of Cardiology</i> , 2020 , 129, 30-35	3	2
52	Dipstick proteinuria and risk of myocardial infarction and all-cause mortality in diabetes or pre-diabetes: a population-based cohort study. <i>Scientific Reports</i> , 2017 , 7, 11986	4.9	2

51	Effectiveness of a Workplace-Based, Multicomponent Hypertension Management Program in Real-World Practice: A Propensity-Matched Analysis. <i>Hypertension</i> , 2022 , 79, 230-240	8.5	2
50	U-Shaped Relationship of High-Density Lipoprotein Cholesterol and Incidence of Total, Ischemic and Hemorrhagic Stroke: A Prospective Cohort Study.. <i>Stroke</i> , 2022 , STROKEAHA121034393	6.7	2
49	Neck-to-height ratio and arterial stiffness in Chinese adults: cross-sectional associations in a community-based cohort. <i>Journal of Hypertension</i> , 2021 , 39, 1195-1202	1.9	2
48	Diabetes modifies the association of prehypertension with cardiovascular disease and all-cause mortality. <i>Journal of Clinical Hypertension</i> , 2021 , 23, 1221-1228	2.3	2
47	Changes in serum uric acid and the risk of cardiovascular disease and all-cause mortality in the general population. <i>Nutrition, Metabolism and Cardiovascular Diseases</i> , 2021 , 31, 1401-1409	4.5	2
46	Triglycerides Mediate Body Mass Index and Nonalcoholic Fatty Liver Disease: A Population-Based Study. <i>Obesity Facts</i> , 2021 , 14, 190-196	5.1	2
45	Metabolic syndrome severity score and the progression of CKD. <i>European Journal of Clinical Investigation</i> , 2021 , e13646	4.6	2
44	Association of changes in lipids with risk of myocardial infarction among people without lipid-lowering therapy. <i>Atherosclerosis</i> , 2020 , 301, 69-78	3.1	1
43	Reply to "Ibuprofen and thromboembolism in SARS-COV2". <i>Journal of Thrombosis and Haemostasis</i> , 2020 , 18, 2427-2428	15.4	1
42	Reduction in Serum High-Sensitivity C-Reactive Protein Favors Kidney Outcomes in Patients with Impaired Fasting Glucose or Diabetes. <i>Journal of Diabetes Research</i> , 2020 , 2020, 2720905	3.9	1
41	Changes in Proteinuria on the Risk of All-Cause Mortality in People with Diabetes or Prediabetes: A Prospective Cohort Study. <i>Journal of Diabetes Research</i> , 2017 , 2017, 8368513	3.9	1
40	BMI changes and the risk of lung cancer in male never-smokers: A prospective cohort study.. <i>Cancer Medicine</i> , 2022 ,	4.8	1
39	Metabolic Factors Mediate the Association Between Serum Uric Acid to Serum Creatinine Ratio and Cardiovascular Disease. <i>Journal of the American Heart Association</i> , 2021 , 10, e023054	6	1
38	Ideal Cardiovascular Health Metric and Its Change With Lifetime Risk of Cardiovascular Diseases: A Prospective Cohort Study. <i>Journal of the American Heart Association</i> , 2021 , 10, e022502	6	1
37	Time-averaged serum uric acid and 10-year incident diabetic kidney disease: A prospective study from China. <i>Journal of Diabetes</i> , 2020 , 12, 169-178	3.8	1
36	Risk factors for venous thromboembolism and evaluation of the modified Caprini score in patients undergoing lung resection. <i>Journal of Thoracic Disease</i> , 2020 , 12, 4805-4816	2.6	1
35	Antihypertensive treatment decrease stroke occurrence: a prospective cohort study. <i>Journal of Hypertension</i> , 2021 , 39, 1652-1661	1.9	1
34	Visit-to-visit variability of serum uric acid measurements and the risk of all-cause mortality in the general population. <i>Arthritis Research and Therapy</i> , 2021 , 23, 74	5.7	1

33	Mediation effect of arterial stiffness on ideal cardiovascular health and stroke. <i>Nutrition, Metabolism and Cardiovascular Diseases</i> , 2021 , 31, 2382-2390	4.5	1
32	Fetal exposure to the Great Chinese Famine and risk of ischemic stroke in midlife. <i>European Journal of Neurology</i> , 2021 , 28, 1244-1252	6	1
31	Expression of TGF-beta receptor 1 and Smads in the tissues of primary spontaneous pneumothorax. <i>Journal of Thoracic Disease</i> , 2018 , 10, 1765-1774	2.6	1
30	Transitions in metabolic health status over time and risk of heart failure: A prospective study. <i>Diabetes and Metabolism</i> , 2021 , 48, 101266	5.4	1
29	Dynamic Changes of Metabolic Syndrome Alter the Risks of Cardiovascular Diseases and All-Cause Mortality: Evidence From a Prospective Cohort Study. <i>Frontiers in Cardiovascular Medicine</i> , 2021 , 8, 706999	5.4	1
28	Systolic Blood Pressure Mediates Body Mass Index and Non-alcoholic Fatty Liver Disease: A Population-Based Study. <i>Turkish Journal of Gastroenterology</i> , 2021 , 32, 458-465	1	1
27	Association of triglyceride-glucose index with intra- and extra-cranial arterial stenosis: a combined cross-sectional and longitudinal analysis. <i>Endocrine</i> , 2021 , 74, 308-317	4	1
26	Level of systolic blood pressure within the normal range and risk of cardiovascular events in the absence of risk factors in Chinese. <i>Journal of Human Hypertension</i> , 2021 ,	2.6	1
25	Blood manganese and nonalcoholic fatty liver disease: A cohort-based case-control study. <i>Chemosphere</i> , 2022 , 287, 132316	8.4	1
24	Distinct triglyceride-glucose trajectories are associated with different risks of incident cardiovascular disease in normal-weight adults.. <i>American Heart Journal</i> , 2022 , 248, 63-63	4.9	1
23	Associations Between Healthy Lifestyle Trajectories and the Incidence of Cardiovascular Disease With All-Cause Mortality: A Large, Prospective, Chinese Cohort Study.. <i>Frontiers in Cardiovascular Medicine</i> , 2021 , 8, 790497	5.4	1
22	Subclinical Atherosclerosis Could Increase the Risk of Hearing Impairment in Males: A Community-Based Cross-Sectional Survey of the Kailuan Study.. <i>Frontiers in Neuroscience</i> , 2022 , 16, 813628	5.1	1
21	Evaluation of Carotid Artery Atherosclerosis and Arterial Stiffness in Cardiovascular Disease Risk: An Ongoing Prospective Study From the Kailuan Cohort.. <i>Frontiers in Cardiovascular Medicine</i> , 2022 , 9, 812652	5.4	1
20	Hypertension, Arterial Stiffness, and Diabetes: a Prospective Cohort Study.. <i>Hypertension</i> , 2022 , 1011618	8.9	1
19	Association of blood pressure in the supine position with target organ damage in subjects over 60 years old. <i>Journal of International Medical Research</i> , 2017 , 45, 123-133	1.4	0
18	Self-reported snoring is associated with nonalcoholic fatty liver disease. <i>Scientific Reports</i> , 2020 , 10, 9267	4.9	0
17	Moderate physical activity may not decrease the risk of cardiovascular disease in persistently overweight and obesity adults.. <i>Journal of Translational Medicine</i> , 2022 , 20, 45	8.5	0
16	Time course of serum uric acid accumulation and the risk of diabetes mellitus.. <i>Nutrition and Diabetes</i> , 2022 , 12, 1	4.7	0

15	Ideal Cardiovascular Health Metrics Modify the Association Between Exposure to Chinese Famine in Fetal and Cardiovascular Disease: A Prospective Cohort Study. <i>Frontiers in Cardiovascular Medicine</i> , 2021 , 8, 751910	5.4	○
14	Effects of low-density lipoprotein cholesterol on cardiovascular disease and all-cause mortality in elderly patients (≥5 years old). <i>Endocrine</i> , 2021 , 1	4	○
13	Clinical significance of single and persistent elevation of serum high-sensitivity C-reactive protein levels for prediction of kidney outcomes in patients with impaired fasting glucose or diabetes mellitus. <i>Journal of Nephrology</i> , 2021 , 34, 1179-1188	4.8	○
12	Serum Uric Acid Is a Mediator of the Association Between Obesity and Incident Nonalcoholic Fatty Liver Disease: A Prospective Cohort Study. <i>Frontiers in Endocrinology</i> , 2021 , 12, 657856	5.7	○
11	Risk of arterial stiffness according to metabolically healthy obese phenotype: a combined cross-sectional and longitudinal study in kailuan cohort. <i>Aging</i> , 2021 , 13, 15114-15125	5.6	○
10	Association between egg consumption and arterial stiffness: a longitudinal study. <i>Nutrition Journal</i> , 2021 , 20, 67	4.3	○
9	Visit-to-visit variability in the measurements of metabolic syndrome components and the risk of all-cause mortality, cardiovascular disease, and arterial stiffness. <i>Nutrition, Metabolism and Cardiovascular Diseases</i> , 2021 , 31, 2895-2903	4.5	○
8	Transitions in Metabolic Health and Associations With Arterial Stiffness Progression Across Body Mass Index Categories. <i>Hypertension</i> , 2021 , 78, 1270-1277	8.5	○
7	Baseline and Cumulative Blood Pressure in Predicting the Occurrence of Cardiovascular Events. <i>Frontiers in Cardiovascular Medicine</i> , 2021 , 8, 735679	5.4	○
6	Incidence of multiple myeloma in Kailuan cohort: A prospective community-based study in China.. <i>Cancer Epidemiology</i> , 2022 , 78, 102168	2.8	○
5	Prediabetes and risk of stroke and its subtypes by hypertension status.. <i>Diabetes/Metabolism Research and Reviews</i> , 2022 , e3521	7.5	○
4	Response to Chinese famine and ischemic stroke: The need to control for age differences and improve famine severity measurement. <i>European Journal of Neurology</i> , 2021 , 28, e55-e56	6	○
3	Joint association of modifiable lifestyle and metabolic health status with incidence of cardiovascular disease and all-cause mortality: a prospective cohort study. <i>Endocrine</i> , 2021 , 1	4	○
2	Development and Validation of Prediction Models for Hypertensive Nephropathy, the PANDORA Study.. <i>Frontiers in Cardiovascular Medicine</i> , 2022 , 9, 794768	5.4	○
1	Association between fetal famine exposure and risk of type 2 diabetes: a prospective cohort study.. <i>Applied Physiology, Nutrition and Metabolism</i> , 2022 , 1-7	3	○
