#	Article	IF	CITATIONS
1	The Construct of Resilience: A Critical Evaluation and Guidelines for Future Work. Child Development, 2000, 71, 543-562.	1.7	5,939
2	The construct of resilience: Implications for interventions and social policies. Development and Psychopathology, 2000, 12, 857-885.	1.4	1,502
3	Equifinality and multifinality in developmental psychopathology. Development and Psychopathology, 1996, 8, 597-600.	1.4	1,408
4	Developmental cascades. Development and Psychopathology, 2010, 22, 491-495.	1.4	1,193
5	Emotion regulation among school-age children: The development and validation of a new criterion Q-sort scale Developmental Psychology, 1997, 33, 906-916.	1.2	972
6	Toward an Ecological/Transactional Model of Community Violence and Child Maltreatment: Consequences for Children's Development. Psychiatry (New York), 1993, 56, 96-118.	0.3	897
7	A developmental psychopathology perspective on adolescence Journal of Consulting and Clinical Psychology, 2002, 70, 6-20.	1.6	825
8	Longitudinal pathways linking child maltreatment, emotion regulation, peer relations, and psychopathology. Journal of Child Psychology and Psychiatry and Allied Disciplines, 2010, 51, 706-716.	3.1	819
9	A Developmental Psychopathology Perspective on Child Abuse and Neglect. Journal of the American Academy of Child and Adolescent Psychiatry, 1995, 34, 541-565.	0.3	808
10	Child Maltreatment. Annual Review of Clinical Psychology, 2005, 1, 409-438.	6.3	711
11	Recognizing emotion in faces: Developmental effects of child abuse and neglect Developmental Psychology, 2000, 36, 679-688.	1.2	641
12	Dimensions of child maltreatment and children's adjustment: Contributions of developmental timing and subtype. Development and Psychopathology, 2001, 13, 759-782.	1.4	630
13	Resilience under conditions of extreme stress: a multilevel perspective. World Psychiatry, 2010, 9, 145-154.	4.8	508
14	An ecological-transactional analysis of children and contexts: The longitudinal interplay among child maltreatment, community violence, and children's symptomatology. Development and Psychopathology, 1998, 10, 235-257.	1.4	505
15	The Emergence of Developmental Psychopathology. Child Development, 1984, 55, 1.	1.7	504
16	Parental Maltreatment and Emotion Dysregulation as Risk Factors for Bullying and Victimization in Middle Childhood. Journal of Clinical Child and Adolescent Psychology, 2001, 30, 349-363.	2.2	503
17	Disorganized/disoriented attachment relationships in maltreated infants Developmental Psychology, 1989, 25, 525-531.	1.2	502
18	Reactive Aggression Among Maltreated Children: The Contributions of Attention and Emotion Dysregulation. Journal of Clinical Child and Adolescent Psychology, 1998, 27, 381-395.	2.1	499

#	Article	IF	CITATIONS
19	Emotions and emotion regulation in developmental psychopathology. Development and Psychopathology, 1995, 7, 1-10.	1.4	490
20	Fostering secure attachment in infants in maltreating families through preventive interventions. Development and Psychopathology, 2006, 18, 623-49.	1.4	472
21	Annual Research Review: Resilient functioning in maltreated children – past, present, and future perspectives. Journal of Child Psychology and Psychiatry and Allied Disciplines, 2013, 54, 402-422.	3.1	441
22	The past achievements and future promises of developmental psychopathology: the coming of age of a discipline. Journal of Child Psychology and Psychiatry and Allied Disciplines, 2009, 50, 16-25.	3.1	439
23	Developmental Psychopathology: Reactions, Reflections, Projections. Developmental Review, 1993, 13, 471-502.	2.6	430
24	Impact of Child Maltreatment and Interadult Violence on Children's Emotion Regulation Abilities and Socioemotional Adjustment. Child Development, 2002, 73, 1525-1542.	1.7	419
25	Development and self-regulatory structures of the mind. Development and Psychopathology, 1994, 6, 533-549.	1.4	399
26	The impact of subtype, frequency, chronicity, and severity of child maltreatment on social competence and behavior problems. Development and Psychopathology, 1994, 6, 121-143.	1.4	380
27	The role of self-organization in the promotion of resilience in maltreated children. Development and Psychopathology, 1997, 9, 797-815.	1.4	375
28	Diverse patterns of neuroendocrine activity in maltreated children. Development and Psychopathology, 2001, 13, 677-693.	1.4	375
29	The impact of child maltreatment and psychopathology on neuroendocrine functioning. Development and Psychopathology, 2001, 13, 783-804.	1.4	370
30	Assessment of the Harmful Psychiatric and Behavioral Effects of Different Forms of Child Maltreatment. JAMA Psychiatry, 2015, 72, 1135.	6.0	359
31	Developmental perspectives on the etiology, intergenerational transmission, and sequelae of child maltreatment. New Directions for Child and Adolescent Development, 1981, 1981, 31-55.	1.3	333
32	A developmental psychopathology perspective on adolescence. Journal of Consulting and Clinical Psychology, 2002, 70, 6-20.	1.6	323
33	The Differential Impacts of Early Physical and Sexual Abuse and Internalizing Problems on Daytime Cortisol Rhythm in Schoolâ€Aged Children. Child Development, 2010, 81, 252-269.	1.7	304
34	Maltreatment, competency deficits, and risk for academic and behavioral maladjustment Developmental Psychology, 2001, 37, 3-17.	1.2	295
35	Prospects and promises in the study of resilience. Development and Psychopathology, 1993, 5, 497-502.	1.4	292
36	Moving research on resilience into the 21st century: Theoretical and methodological considerations in examining the biological contributors to resilience. Development and Psychopathology, 2003, 15, 773-810.	1.4	289

3

#	Article	IF	CITATIONS
37	Resilience in maltreated children: Processes leading to adaptive outcome. Development and Psychopathology, 1993, 5, 629-647.	1.4	274
38	The relative efficacy of two interventions in altering maltreated preschool children's representational models: Implications for attachment theory. Development and Psychopathology, 2002, 14, 877-908.	1.4	263
39	Socioemotional, Personality, and Biological Development: Illustrations from a Multilevel Developmental Psychopathology Perspective on Child Maltreatment. Annual Review of Psychology, 2016, 67, 187-211.	9.9	260
40	The efficacy of toddler-parent psychotherapy to reorganize attachment in the young offspring of mothers with major depressive disorder: A randomized preventive trial Journal of Consulting and Clinical Psychology, 2006, 74, 1006-1016.	1.6	259
41	Attachment organization in maltreated preschoolers. Development and Psychopathology, 1991, 3, 397-411.	1.4	251
42	Child maltreatment, attachment, and the self system: Emergence of an internal state lexicon in toddlers at high social risk. Development and Psychopathology, 1994, 6, 5-30.	1.4	246
43	Longitudinal Trajectories of Self-System Processes and Depressive Symptoms Among Maltreated and Nonmaltreated Children. Child Development, 2006, 77, 624-639.	1.7	246
44	Stigma and mental disorder: Conceptions of illness, public attitudes, personal disclosure, and social policy. Development and Psychopathology, 2000, 12, 555-598.	1.4	238
45	A Longitudinal Study of Emotion Regulation, Emotion Labilityâ€Negativity, and Internalizing Symptomatology in Maltreated and Nonmaltreated Children. Child Development, 2013, 84, 512-527.	1.7	234
46	The role of child maltreatment in early deviations in cognitive and affective processing abilities and later peer relationship problems. Development and Psychopathology, 1995, 7, 591-609.	1.4	225
47	Editorial: Multiple levels of analysis. Development and Psychopathology, 2002, 14, 417-420.	1.4	218
48	Longitudinal associations among child maltreatment, social functioning, and cortisol regulation Developmental Psychology, 2012, 48, 224-236.	1.2	218
49	Gene × Environment interaction and resilience: Effects of child maltreatment and serotonin, corticotropin releasing hormone, dopamine, and oxytocin genes. Development and Psychopathology, 2012, 24, 411-427.	1.4	217
50	Representations of self and other in the narratives of neglected, physically abused, and sexually abused preschoolers. Development and Psychopathology, 1997, 9, 781-796.	1.4	216
51	Childhood maltreatment and its effect on neurocognitive functioning: Timing and chronicity matter. Development and Psychopathology, 2015, 27, 521-533.	1.4	202
52	P3b reflects maltreated children's reactions to facial displays of emotion. Psychophysiology, 2001, 38, 267-274.	1.2	201
53	Narrative representations of caregivers and emotion dysregulation as predictors of maltreated children's rejection by peers Developmental Psychology, 2001, 37, 321-337.	1.2	200
54	Child maltreatment and vulnerability to depression. Development and Psychopathology, 1992, 4, 97-112.	1.4	197

#	Article	IF	Citations
55	A Multiple-Levels-of-Analysis Perspective on Resilience: Implications for the Developing Brain, Neural Plasticity, and Preventive Interventions. Annals of the New York Academy of Sciences, 2006, 1094, 248-258.	1.8	189
56	Organizational perspective on cognitive control functioning and cognitive^affective balance in maltreated children Developmental Psychology, 1989, 25, 382-393.	1.2	181
57	Interactions of child maltreatment and serotonin transporter and monoamine oxidase A polymorphisms: Depressive symptomatology among adolescents from low socioeconomic status backgrounds. Development and Psychopathology, 2007, 19, 1161-1180.	1.4	179
58	Altered neuroendocrine activity in maltreated children related to symptoms of depression. Development and Psychopathology, 1996, 8, 201-214.	1.4	172
59	Cultural influences on developmental processes and outcomes: Implications for the study of development and psychopathology. Development and Psychopathology, 2000, 12, 333-356.	1.4	171
60	The Relationship between Affect and Cognition in Maltreated Infants: Quality of Attachment and the Development of Visual Self-Recognition. Child Development, 1984, 55, 648.	1.7	167
61	Mark Twain meets DSM-III-R: Conduct disorder, development, and the concept of harmful dysfunction. Development and Psychopathology, 1993, 5, 5-29.	1.4	163
62	Salivary cortisol in maltreated children: Evidence of relations between neuroendocrine activity and social competence. Development and Psychopathology, 1995, 7, 11-26.	1.4	163
63	Patterns of relatedness in maltreated and nonmaltreated children: Connections among multiple representational models. Development and Psychopathology, 1991, 3, 207-226.	1.4	161
64	The role of child adrenocortical functioning in pathways between interparental conflict and child maladjustment Developmental Psychology, 2007, 43, 918-930.	1.2	156
65	The development of dissociation in maltreated preschool-aged children. Development and Psychopathology, 2001, 13, 233-254.	1.4	155
66	Cognitive Brain Event-Related Potentials and Emotion Processing in Maltreated Children. Child Development, 1997, 68, 773-787.	1.7	152
67	How research on child maltreatment has informed the study of child development: perspectives from developmental psychopathology. , 1989, , 377-431.		150
68	Predictors of Resilience in Maltreated and Nonmaltreated Latino Children Developmental Psychology, 2005, 41, 338-351.	1.2	148
69	A historical perspective on the discipline of developmental psychopathology. , 1990, , 2-28.		147
70	The role of developmental theory in prevention and intervention. Development and Psychopathology, 1992, 4, 489-493.	1.4	147
71	Normalizing the development of cortisol regulation in maltreated infants through preventive interventions. Development and Psychopathology, 2011, 23, 789-800.	1.4	147
72	Cognitive Brain Event-Related Potentials and Emotion Processing in Maltreated Children. Child Development, 1997, 68, 773.	1.7	146

#	Article	IF	CITATIONS
73	False belief understanding in maltreated children. Development and Psychopathology, 2003, 15, 1067-1091.	1.4	144
74	Emotion and resilience: A multilevel investigation of hemispheric electroencephalogram asymmetry and emotion regulation in maltreated and nonmaltreated children. Development and Psychopathology, 2007, 19, 811-840.	1.4	142
75	Narrative representations of caregivers and self in maltreated pre-schoolers. Attachment and Human Development, 2000, 2, 271-305.	1.2	136
76	From child maltreatment to adolescent cannabis abuse and dependence: A developmental cascade model. Development and Psychopathology, 2010, 22, 883-897.	1.4	136
77	Personality, adrenal steroid hormones, and resilience in maltreated children: A multilevel perspective. Development and Psychopathology, 2007, 19, 787-809.	1.4	135
78	Integrating biological measures into the design and evaluation of preventive interventions. Development and Psychopathology, 2008, 20, 737-743.	1.4	135
79	A Longitudinal Study of Child Maltreatment, Mother–Child Relationship Quality and Maladjustment: The Role of Self-Esteem and Social Competence. Journal of Abnormal Child Psychology, 2004, 32, 341-354.	3.5	134
80	Child maltreatment and allostatic load: Consequences for physical and mental health in children from low-income families. Development and Psychopathology, 2011, 23, 1107-1124.	1.4	134
81	The impact of social experience on neurobiological systems: illustration from a constructivist view of child maltreatment. Cognitive Development, 2002, 17, 1407-1428.	0.7	133
82	Adaptive coping under conditions of extreme stress: Multilevel influences on the determinants of resilience in maltreated children. New Directions for Child and Adolescent Development, 2009, 2009, 47-59.	1.3	130
83	The impact of child maltreatment on expressive syntax at 60 months. Developmental Science, 2004, 7, 88-102.	1.3	128
84	Child maltreatment, attention networks, and potential precursors to borderline personality disorder. Development and Psychopathology, 2005, 17, 1071-89.	1.4	128
85	Sources of cognitive exploration: Genetic variation in the prefrontal dopamine system predicts Openness/Intellect. Journal of Research in Personality, 2011, 45, 364-371.	0.9	127
86	Relationship of socioeconomic status to the etiology and developmental sequelae of physical child abuse Developmental Psychology, 1991, 27, 148-158.	1.2	125
87	The intergenerational transmission of child abuse. , 1989, , 129-150.		124
88	Child Maltreatment and Emergent Personality Organization: Perspectives from the Five-Factor Model. Journal of Abnormal Child Psychology, 2004, 32, 123-145.	3.5	123
89	The effects of child maltreatment on early signs of antisocial behavior: Genetic moderation by tryptophan hydroxylase, serotonin transporter, and monoamine oxidase A genes. Development and Psychopathology, 2012, 24, 907-928.	1.4	121
90	Long-term consequences of childhood maltreatment: Altered amygdala functional connectivity. Development and Psychopathology, 2015, 27, 1577-1589.	1.4	119

#	Article	IF	Citations
91	Child maltreatment and the development of substance use and disorder. Neurobiology of Stress, 2019, 10, 100144.	1.9	119
92	Chapter V. Maltreatment, Negative Expressivity, and the Development of Type D Attachments from 12 to 24 Months of Age. Monographs of the Society for Research in Child Development, 1999, 64, 97-118.	6.8	118
93	Childhood Maltreatment and the Development of Relational and Physical Aggression: The Importance of a Genderâ€Informed Approach. Child Development, 2008, 79, 1736-1751.	1.7	117
94	Developmental pathways to adolescent cannabis abuse and dependence: Child maltreatment, emerging personality, and internalizing versus externalizing psychopathology Psychology of Addictive Behaviors, 2011, 25, 634-644.	1.4	117
95	A Developmental Psychopathology Perspective on Child Maltreatment. Child Maltreatment, 2013, 18, 135-139.	2.0	116
96	Neurodevelopmental processes in the ontogenesis and epigenesis of psychopathology. Development and Psychopathology, 1999, 11, 375-393.	1.4	109
97	Multilevel perspectives on pathways to resilient functioning. Development and Psychopathology, 2007, 19, 627-629.	1.4	109
98	An Odyssey of Discovery: Lessons Learned through Three Decades of Research on Child Maltreatment American Psychologist, 2004, 59, 731-741.	3.8	108
99	Interactive effects of corticotropin releasing hormone receptor 1, serotonin transporter linked polymorphic region, and child maltreatment on diurnal cortisol regulation and internalizing symptomatology. Development and Psychopathology, 2011, 23, 1125-1138.	1.4	107
100	Relational interventions for child maltreatment: Past, present, and future perspectives. Development and Psychopathology, 2013, 25, 1601-1617.	1.4	106
101	The implications of emotional security theory for understanding and treating childhood psychopathology. Development and Psychopathology, 2006, 18, 707-35.	1.4	105
102	The past as prologue to the future: The times, they've been a-changin'. Development and Psychopathology, 2000, 12, 255-264.	1.4	104
103	Dissociation in maltreated versus nonmaltreated preschool-aged children. Child Abuse and Neglect, 2001, 25, 1253-1267.	1.3	103
104	Current Perspectives in Attachment Theory: Illustration from the Study of Maltreated Infants. Monographs of the Society for Research in Child Development, 1985, 50, 194.	6.8	102
105	Psychopathology as Risk for Adolescent Substance Use Disorders: A Developmental Psychopathology Perspective. Journal of Clinical Child and Adolescent Psychology, 1999, 28, 355-365.	2.1	102
106	Child maltreatment and trajectories of personality and behavioral functioning: Implications for the development of personality disorder. Development and Psychopathology, 2009, 21, 889-912.	1.4	100
107	Interparental violence, maternal emotional unavailability and children's cortisol functioning in family contexts Developmental Psychology, 2012, 48, 237-249.	1.2	100
108	Finding order in disorganization: lessons from research on maltreated infants' attachments to their caregivers., 1989,, 494-528.		100
