

Marcelo Luis Berthier Torres

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/5455399/marcelo-luis-berthier-torres-publications-by-year.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

57
papers

1,750
citations

#	Paper	IF	Citations
57	Spectrum of neuropsychiatric symptoms in chronic post-stroke aphasia.. <i>World Journal of Psychiatry</i> , 2022 , 12, 450-469	3	1
56	Case Report: Barely Able to Speak, Can't Stop Echoing: Echolalic Dynamic Aphasia in Progressive Supranuclear Palsy. <i>Frontiers in Aging Neuroscience</i> , 2021 , 13, 635896	5.3	
55	Ten key reasons for continuing research on pharmacotherapy for post-stroke aphasia. <i>Aphasiology</i> , 2021 , 35, 824-858	1.6	8
54	Neurocognitive signatures of phonemic sequencing in expert backward speakers. <i>Scientific Reports</i> , 2020 , 10, 10621	4.9	6
53	Pharmacological Treatment of Post-stroke Cognitive Deficits 2020 , 465-500		2
52	Paradoxical recovery of L2 in a bilingual aphasic person: addressing issues on causative factors and accent. <i>Aphasiology</i> , 2020 , 34, 1201-1222	1.6	
51	Intensive aphasia therapy improves low mood in fluent post-stroke aphasia: Evidence from a case-controlled study. <i>Neuropsychological Rehabilitation</i> , 2020 , 1-16	3.1	1
50	Pharmacotherapy of Traumatic Childhood Aphasia: Beneficial Effects of Donepezil Alone and Combined With Intensive Naming Therapy. <i>Frontiers in Pharmacology</i> , 2020 , 11, 1144	5.6	2
49	Developmental Dynamic Dysphasia: Are Bilateral Brain Abnormalities a Signature of Inefficient Neural Plasticity?. <i>Frontiers in Human Neuroscience</i> , 2020 , 14, 73	3.3	2
48	Repetitive verbal behaviors are not always harmful signs: Compensatory plasticity within the language network in aphasia. <i>Brain and Language</i> , 2019 , 190, 16-30	2.9	8
47	Language as a Threat: Multimodal Evaluation and Interventions for Overwhelming Linguistic Anxiety in Severe Aphasia. <i>Frontiers in Psychology</i> , 2019 , 10, 678	3.4	9
46	The Role of Verb Fluency in the Detection of Early Cognitive Impairment in Alzheimer's Disease. <i>Journal of Alzheimer's Disease</i> , 2018 , 62, 611-619	4.3	23
45	Are you a doctor? Are you a doctor? I'm not a doctor! A reappraisal of mitigated echolalia in aphasia with evaluation of neural correlates and treatment approaches. <i>Aphasiology</i> , 2018 , 32, 784-813	1.6	7
44	Plasticity in the Working Memory System: Life Span Changes and Response to Injury. <i>Neuroscientist</i> , 2018 , 24, 261-276	7.6	13
43	Intensive Communicative Therapy Reduces Symptoms of Depression in Chronic Nonfluent Aphasia. <i>Neurorehabilitation and Neural Repair</i> , 2017 , 31, 1053-1062	4.7	10
42	Thinking on Treating Echolalia in Aphasia: Recommendations and Caveats for Future Research Directions. <i>Frontiers in Human Neuroscience</i> , 2017 , 11, 164	3.3	14
41	Cholinergic Potentiation and Audiovisual Repetition-Imitation Therapy Improve Speech Production and Communication Deficits in a Person with Crossed Aphasia by Inducing Structural Plasticity in White Matter Tracts. <i>Frontiers in Human Neuroscience</i> , 2017 , 11, 304	3.3	11

40	Mild Developmental Foreign Accent Syndrome and Psychiatric Comorbidity: Altered White Matter Integrity in Speech and Emotion Regulation Networks. <i>Frontiers in Human Neuroscience</i> , 2016 , 10, 399	3.3	10
39	Commentary: Visual Feedback of Tongue Movement for Novel Speech Sound Learning. <i>Frontiers in Human Neuroscience</i> , 2016 , 10, 662	3.3	1
38	Bilateral brain reorganization with memantine and constraint-induced aphasia therapy in chronic post-stroke aphasia: An ERP study. <i>Brain and Language</i> , 2015 , 145-146, 1-10	2.9	30
37	Loss of regional accent after damage to the speech production network. <i>Frontiers in Human Neuroscience</i> , 2015 , 9, 610	3.3	9
36	A clinical study of the combined use of bromocriptine and speech and language therapy in the treatment of a person with aphasia. <i>Aphasiology</i> , 2014 , 28, 171-187	1.6	5
35	Dissecting the function of networks underpinning language repetition. <i>Frontiers in Human Neuroscience</i> , 2014 , 8, 727	3.3	3
34	Cognitive enhancing drugs in aphasia: A vote for hope. <i>Aphasiology</i> , 2014 , 28, 128-132	1.6	3
33	Massed sentence repetition training can augment and speed up recovery of speech production deficits in patients with chronic conduction aphasia receiving donepezil treatment. <i>Aphasiology</i> , 2014 , 28, 188-218	1.6	23
32	Structural and functional brain changes in middle-aged type 2 diabetic patients: a cross-sectional study. <i>Journal of Alzheimer's Disease</i> , 2014 , 40, 375-86	4.3	47
31	Cognitive dysfunctions in middle-aged type 2 diabetic patients and neuroimaging correlations: a cross-sectional study. <i>Journal of Alzheimer's Disease</i> , 2014 , 42, 1337-46	4.3	47
30	Post-stroke Aphasia 2014 , 95-117		3
29	Foreign accent syndrome: a multimodal evaluation in the search of neuroscience-driven treatments. <i>Neuropsychologia</i> , 2013 , 51, 520-37	3.2	25
28	Repeating with the right hemisphere: reduced interactions between phonological and lexical-semantic systems in crossed aphasia?. <i>Frontiers in Human Neuroscience</i> , 2013 , 7, 675	3.3	6
27	Dissociated repetition deficits in aphasia can reflect flexible interactions between left dorsal and ventral streams and gender-dimorphic architecture of the right dorsal stream. <i>Frontiers in Human Neuroscience</i> , 2013 , 7, 873	3.3	10
26	Arcuate fasciculus variability and repetition: the left sometimes can be right. <i>Cortex</i> , 2012 , 48, 133-43	3.8	50
25	Neuroscience insights improve neurorehabilitation of poststroke aphasia. <i>Nature Reviews Neurology</i> , 2011 , 7, 86-97	15	119
24	Drug therapy of post-stroke aphasia: a review of current evidence. <i>Neuropsychology Review</i> , 2011 , 21, 302-17	7.7	65
23	Atypical conduction aphasia and the right hemisphere: Cross-hemispheric plasticity of phonology in a developmentally dyslexic and dysgraphic patient with early left frontal damage. <i>Neurocase</i> , 2011 , 17, 93-111	0.8	6

22	Recovery from post-stroke aphasia: lessons from brain imaging and implications for rehabilitation and biological treatments. <i>Discovery Medicine</i> , 2011 , 12, 275-89	2.5	33
21	Memantine and constraint-induced aphasia therapy in chronic poststroke aphasia. <i>Annals of Neurology</i> , 2009 , 65, 577-85	9.4	146
20	Relearning and retention of verbal labels in a case of semantic dementia. <i>Aphasiology</i> , 2009 , 23, 192-209	1.6	65
19	Aphasia therapy on a neuroscience basis. <i>Aphasiology</i> , 2008 , 22, 563-599	1.6	180
18	Are release phenomena explained by disinhibited mirror neuron circuits? Arnold Pick's remarks on echographia and their relevance for modern cognitive neuroscience. <i>Aphasiology</i> , 2006 , 20, 462-480	1.6	9
17	Poststroke aphasia : epidemiology, pathophysiology and treatment. <i>Drugs and Aging</i> , 2005 , 22, 163-82	4.7	227
16	Open-label study of donepezil in chronic poststroke aphasia. <i>Neurology</i> , 2003 , 60, 1218-9	6.5	86
15	Beneficial effect of donepezil on sensorimotor function after stroke. <i>American Journal of Physical Medicine and Rehabilitation</i> , 2003 , 82, 725-9	2.6	20
14	Unexpected brain-language relationships in aphasia: Evidence from transcortical sensory aphasia associated with frontal lobe lesions. <i>Aphasiology</i> , 2001 , 15, 99-130	1.6	59
13	Chronic effects of dopaminergic replacement on cognitive function in Parkinson's disease: a two-year follow-up study of previously untreated patients. <i>Movement Disorders</i> , 2000 , 15, 613-26	7	134
12	Reactivation of posttraumatic stress disorder after minor head injury. <i>Depression and Anxiety</i> , 1998 , 8, 43-7	8.4	28
11	Unilateral parkinsonism and stereotyped movements following a right lenticular infarction. <i>Movement Disorders</i> , 1996 , 11, 752-4	7	31
10	Perceptual and acoustic correlates of affective prosody repetition in transcortical aphasias. <i>Aphasiology</i> , 1996 , 10, 711-721	1.6	5
9	Transcortical sensory aphasia: Dissociation between naming and comprehension. <i>Aphasiology</i> , 1995 , 9, 431-451	1.6	11
8	Longitudinal evolution of prefrontal leucotomy in Tourette's syndrome. <i>Movement Disorders</i> , 1995 , 10, 345-8	7	7
7	Bipolar affective disorder and unilateral parkinsonism after a brainstem infarction. <i>Movement Disorders</i> , 1995 , 10, 799-802	7	19
6	Catastrophic reaction in crossed aphasia. <i>Aphasiology</i> , 1994 , 8, 89-95	1.6	6
5	Fluoxetine--induced mania in a patient with post-stroke depression. <i>British Journal of Psychiatry</i> , 1993 , 163, 698-9	5.4	11

4	Post-stroke rapid cycling bipolar affective disorder. <i>British Journal of Psychiatry</i> , 1992 , 160, 283	5.4	11
3	Foreign accent syndrome: Behavioural and anatomical findings in recovered and non-recovered patients. <i>Aphasiology</i> , 1991 , 5, 129-147	1.6	50
2	Differential recovery of languages in a bilingual patient: a case study using selective amytal test. <i>Brain and Language</i> , 1990 , 38, 449-53	2.9	29
1	Controlling the past, owning the present, and future: cholinergic modulation decreases semantic perseverations in a person with post-stroke aphasia. <i>Aphasiology</i> , 1-19	1.6	0
