

David Bann

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/5484746/david-bann-publications-by-year.pdf>

Version: 2024-04-09

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

70 papers	1,167 citations	18 h-index	33 g-index
90 ext. papers	1,620 ext. citations	5.7 avg, IF	4.95 L-index

#	Paper	IF	Citations
70	The UK Coronavirus Job Retention Scheme and diet, physical activity, and sleep during the COVID-19 pandemic: evidence from eight longitudinal population surveys.. <i>BMC Medicine</i> , 2022 , 20, 147	11.4	1
69	Mental health in relation to changes in sleep, exercise, alcohol and diet during the COVID-19 pandemic: examination of four UK cohort studies. <i>Psychological Medicine</i> , 2021 , 1-24	6.9	5
68	Inequalities in body mass index, diet and physical activity in the UK: Longitudinal evidence across childhood and adolescence.. <i>SSM - Population Health</i> , 2021 , 16, 100978	3.8	0
67	Childhood correlates of adult positive mental well-being in three British longitudinal studies. <i>Journal of Epidemiology and Community Health</i> , 2021 , 75, 177-184	5.1	0
66	Socioeconomic inequalities across life and premature mortality from 1971 to 2016: findings from three British birth cohorts born in 1946, 1958 and 1970. <i>Journal of Epidemiology and Community Health</i> , 2021 , 75, 193-196	5.1	1
65	The gender gap in adolescent mental health: A cross-national investigation of 566,829 adolescents across 73 countries. <i>SSM - Population Health</i> , 2021 , 13, 100742	3.8	31
64	Evaluating access to health and care services during lockdown by the COVID-19 survey in five UK national longitudinal studies. <i>BMJ Open</i> , 2021 , 11, e045813	3	20
63	Inequality in hospitalization due to non-communicable diseases in Sweden: Age-cohort analysis of the Uppsala Birth Cohort Multigenerational Study. <i>SSM - Population Health</i> , 2021 , 13, 100741	3.8	2
62	Impact of lockdown on key workers: findings from the COVID-19 survey in four UK national longitudinal studies. <i>Journal of Epidemiology and Community Health</i> , 2021 , 75, 955-962	5.1	4
61	Religiosity and mental wellbeing among members of majority and minority religions: findings from Understanding Society, The UK Household Longitudinal Study. <i>American Journal of Epidemiology</i> , 2021 ,	3.8	3
60	Changes in the behavioural determinants of health during the COVID-19 pandemic: gender, socioeconomic and ethnic inequalities in five British cohort studies. <i>Journal of Epidemiology and Community Health</i> , 2021 , 75, 1136-1142	5.1	29
59	Prevalence and early-life determinants of mid-life multimorbidity: evidence from the 1970 British birth cohort. <i>BMC Public Health</i> , 2021 , 21, 1319	4.1	3
58	Association of Early-Life Mental Health With Biomarkers in Midlife and Premature Mortality: Evidence From the 1958 British Birth Cohort. <i>JAMA Psychiatry</i> , 2021 , 78, 38-46	14.5	16
57	Psychological distress from early adulthood to early old age: evidence from the 1946, 1958 and 1970 British birth cohorts. <i>Psychological Medicine</i> , 2021 , 1-10	6.9	8
56	The scope of health injustice. <i>European Journal of Public Health</i> , 2021 , 31, 458-459	2.1	0
55	Mental health in higher education students and non-students: evidence from a nationally representative panel study. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2021 , 56, 879-882	4.5	3
54	Changes in the body mass index and blood pressure association across time: Evidence from multiple cross-sectional and cohort studies. <i>Preventive Medicine</i> , 2021 , 153, 106825	4.3	0

53	Socioeconomic inequalities in prevalence and development of multimorbidity across adulthood: A longitudinal analysis of the MRC 1946 National Survey of Health and Development in the UK. <i>PLoS Medicine</i> , 2021 , 18, e1003775	11.6	3
52	Association of Childhood Psychomotor Coordination With Survival Up to 6 Decades Later. <i>JAMA Network Open</i> , 2020 , 3, e204031	10.4	1
51	Associations of childcare type, age at start, and intensity with body mass index trajectories from 10 to 42 years of age in the 1970 British Cohort Study. <i>Pediatric Obesity</i> , 2020 , 15, e12644	4.6	1
50	Differences in the relationship of weight to height, and thus the meaning of BMI, according to age, sex, and birth year cohort. <i>Annals of Human Biology</i> , 2020 , 47, 199-207	1.7	7
49	Determinants of the population health distribution: an illustration examining body mass index. <i>International Journal of Epidemiology</i> , 2020 , 49, 731-737	7.8	7
48	Duration of obesity exposure between ages 10 and 40 years and its relationship with cardiometabolic disease risk factors: A cohort study. <i>PLoS Medicine</i> , 2020 , 17, e1003387	11.6	8
47	Socioeconomic inequalities in blood pressure: co-ordinated analysis of 147,775 participants from repeated birth cohort and cross-sectional datasets, 1989 to 2016. <i>BMC Medicine</i> , 2020 , 18, 338	11.4	2
46	Educational differentials in key domains of physical activity by ethnicity, age and sex: a cross-sectional study of over 40 000 participants in the UK household longitudinal study (2013-2015). <i>BMJ Open</i> , 2020 , 10, e033318	3	1
45	Socioeconomic inequalities in childhood-to-adulthood BMI tracking in three British birth cohorts. <i>International Journal of Obesity</i> , 2020 , 44, 388-398	5.5	13
44	Duration of obesity exposure between ages 10 and 40 years and its relationship with cardiometabolic disease risk factors: A cohort study 2020 , 17, e1003387		
43	Duration of obesity exposure between ages 10 and 40 years and its relationship with cardiometabolic disease risk factors: A cohort study 2020 , 17, e1003387		
42	Duration of obesity exposure between ages 10 and 40 years and its relationship with cardiometabolic disease risk factors: A cohort study 2020 , 17, e1003387		
41	Duration of obesity exposure between ages 10 and 40 years and its relationship with cardiometabolic disease risk factors: A cohort study 2020 , 17, e1003387		
40	Duration of obesity exposure between ages 10 and 40 years and its relationship with cardiometabolic disease risk factors: A cohort study 2020 , 17, e1003387		
39	Duration of obesity exposure between ages 10 and 40 years and its relationship with cardiometabolic disease risk factors: A cohort study 2020 , 17, e1003387		
38	Post-war (1946-2017) population health change in the United Kingdom: A systematic review. <i>PLoS ONE</i> , 2019 , 14, e0218991	3.7	7
37	Financial stress and mental health among higher education students in the UK up to 2018: rapid review of evidence. <i>Journal of Epidemiology and Community Health</i> , 2019 , 73, 977-984	5.1	21
36	AdolescentsTphysical activity: cross-national comparisons of levels, distributions and disparities across 52 countries. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2019 , 16, 141	8.4	24

35	Infant weight gain and adolescent body mass index: comparison across two British cohorts born in 1946 and 2001. <i>Archives of Disease in Childhood</i> , 2018 , 103, 974-980	2.2	5
34	Motor performance in early life and participation in leisure-time physical activity up to age 68 years. <i>Paediatric and Perinatal Epidemiology</i> , 2018 , 32, 327-334	2.7	5
33	Association of nursery and early school attendance with later health behaviours, biomedical risk factors, and mortality: evidence from four decades of follow-up of participants in the 1958 birth cohort study. <i>Journal of Epidemiology and Community Health</i> , 2018 , 72, 658-663	5.1	4
32	Socioeconomic inequalities in childhood and adolescent body-mass index, weight, and height from 1953 to 2015: an analysis of four longitudinal, observational, British birth cohort studies. <i>Lancet Public Health</i> , 2018 , 3, e194-e203	22.4	89
31	Education-related disparities in reported physical activity during leisure-time, active transportation, and work among US adults: repeated cross-sectional analysis from the National Health and Nutrition Examination Surveys, 2007 to 2016. <i>BMC Public Health</i> , 2018 , 18, 926	4.1	35
30	Intergenerational social mobility and leisure-time physical activity in adulthood: a systematic review. <i>Journal of Epidemiology and Community Health</i> , 2017 , 71, 673-680	5.1	15
29	Birth Weight, School Sports Ability, and Adulthood Leisure-Time Physical Activity. <i>Medicine and Science in Sports and Exercise</i> , 2017 , 49, 64-70	1.2	17
28	Does an elite education benefit health? Findings from the 1970 British Cohort Study. <i>International Journal of Epidemiology</i> , 2017 , 46, 293-302	7.8	11
27	Markers of pubertal timing and leisure-time physical activity from ages 36 to 68 years: findings from a British birth cohort. <i>BMJ Open</i> , 2017 , 7, e017407	3	1
26	Socioeconomic Inequalities in Body Mass Index across Adulthood: Coordinated Analyses of Individual Participant Data from Three British Birth Cohort Studies Initiated in 1946, 1958 and 1970. <i>PLoS Medicine</i> , 2017 , 14, e1002214	11.6	48
25	Childhood socioeconomic position and adult mental wellbeing: Evidence from four British birth cohort studies. <i>PLoS ONE</i> , 2017 , 12, e0185798	3.7	10
24	Socioeconomic differences in the benefits of structured physical activity compared with health education on the prevention of major mobility disability in older adults: the LIFE study. <i>Journal of Epidemiology and Community Health</i> , 2016 , 70, 930-3	5.1	12
23	Understanding the lifetime determinants of television viewing. <i>Journal of Epidemiology and Community Health</i> , 2015 , 69, 314-5	5.1	
22	"Skeletal muscle function deficit" in a nationally representative British birth cohort in early old age. <i>Journals of Gerontology - Series A Biological Sciences and Medical Sciences</i> , 2015 , 70, 604-7	6.4	27
21	Socioeconomic conditions across life related to multiple measures of the endocrine system in older adults: Longitudinal findings from a British birth cohort study. <i>Social Science and Medicine</i> , 2015 , 147, 190-9	5.1	11
20	Changes in testosterone related to body composition in late midlife: Findings from the 1946 British birth cohort study. <i>Obesity</i> , 2015 , 23, 1486-92	8	25
19	Childhood socioeconomic position and adult leisure-time physical activity: a systematic review. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2015 , 12, 92	8.4	39
18	Changes in insulin-like growth factor-I and -II associated with fat but not lean mass in early old age. <i>Obesity</i> , 2015 , 23, 692-8	8	19

17	Light Intensity physical activity and sedentary behavior in relation to body mass index and grip strength in older adults: cross-sectional findings from the Lifestyle Interventions and Independence for Elders (LIFE) study. <i>PLoS ONE</i> , 2015 , 10, e0116058	3.7	73
16	Generation X enters middle age. <i>Longitudinal and Life Course Studies</i> , 2015 , 6,	1	3
15	Gender and telomere length: systematic review and meta-analysis. <i>Experimental Gerontology</i> , 2014 , 51, 15-27	4.5	285
14	Body mass index from age 15 years onwards and muscle mass, strength, and quality in early old age: findings from the MRC National Survey of Health and Development. <i>Journals of Gerontology - Series A Biological Sciences and Medical Sciences</i> , 2014 , 69, 1253-9	6.4	37
13	Socioeconomic position across life and body composition in early old age: findings from a British birth cohort study. <i>Journal of Epidemiology and Community Health</i> , 2014 , 68, 516-23	5.1	29
12	Physical activity across adulthood in relation to fat and lean body mass in early old age: findings from the Medical Research Council National Survey of Health and Development, 1946-2010. <i>American Journal of Epidemiology</i> , 2014 , 179, 1197-207	3.8	60
11	Childhood socioeconomic position and adult leisure-time physical activity: a systematic review protocol. <i>Systematic Reviews</i> , 2014 , 3, 141	3	2
10	Timing of voice breaking in males associated with growth and weight gain across the life course. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2012 , 97, 2844-52	5.6	41
9	Socioeconomic inequalities across life and premature mortality from 1971 to 2016: findings from three British birth cohorts born in 1946, 1958, and 1970		1
8	Mental health in higher-education students and non-students: evidence from a nationally representative panel study		2
7	Determinants of the population health distribution, or why are risk factor-body mass index associations larger at the upper end of the BMI distribution?		2
6	The gender gap in adolescent mental health: a cross-national investigation of 566,827 adolescents across 73 countries		2
5	Changes in the behavioural determinants of health during the coronavirus (COVID-19) pandemic: gender, socioeconomic and ethnic inequalities in 5 British cohort studies		11
4	Inequality in access to health and care services during lockdown [Findings from the COVID-19 survey in five UK national longitudinal studies		5
3	Mental health in relation to changes in sleep, exercise, alcohol and diet during the COVID-19 pandemic: examination of four UK cohort studies		3
2	The UK Coronavirus Job Retention Scheme and changes in diet, physical activity and sleep during the COVID-19 pandemic: Evidence from eight longitudinal studies		8
1	Genetic nurture effects on education: a systematic review and meta-analysis		3
