#	ARTICLE	IF	CITATIONS
1	Qualitative research in health care: Analysing qualitative data. <i>BMJ: British Medical Journal</i> , 2000, 320, 114-116.	2.4	4,793
2	Making sense of qualitative data analysis: an introduction with illustrations from DIPEX (personal) Tj ETQq0 0 0 rgBT /Overlock 10 Tf 50	1.1	456
3	Effects of fruit and vegetable consumption on plasma antioxidant concentrations and blood pressure: a randomised controlled trial. <i>Lancet, The</i> , 2002, 359, 1969-1974.	6.3	438
4	How the internet affects patients' experience of cancer: a qualitative study. <i>BMJ: British Medical Journal</i> , 2004, 328, 564.	2.4	387
5	Health and Illness in a Connected World: How Might Sharing Experiences on the Internet Affect People's Health?. <i>Milbank Quarterly</i> , 2012, 90, 219-249.	2.1	377
6	Men's accounts of depression: Reconstructing or resisting hegemonic masculinity?. <i>Social Science and Medicine</i> , 2006, 62, 2246-2257.	1.8	327
7	Collecting data on patient experience is not enough: they must be used to improve care. <i>BMJ, The</i> , 2014, 348, g2225-g2225.	3.0	298
8	Gender, cancer experience and internet use: A comparative keyword analysis of interviews and online cancer support groups. <i>Social Science and Medicine</i> , 2006, 62, 2577-2590.	1.8	252
9	An open letter to <i>The BMJ</i> editors on qualitative research. <i>BMJ, The</i> , 2016, 352, i563.	3.0	234
10	What do patients with prostate or breast cancer want from an Internet site? A qualitative study of information needs. <i>Patient Education and Counseling</i> , 2004, 53, 57-64.	1.0	232
11	Prostate cancer: embodied experience and perceptions of masculinity. <i>Sociology of Health and Illness</i> , 2002, 24, 820-841.	1.1	220
12	The importance of being expert: the quest for cancer information on the Internet. <i>Social Science and Medicine</i> , 2004, 59, 1783-1793.	1.8	180
13	Advanced provision of emergency contraception does not reduce abortion rates. <i>Contraception</i> , 2004, 69, 361-366.	0.8	147
14	Core outcome sets in women's and newborn health: a systematic review. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2017, 124, 1481-1489.	1.1	131
15	Database of patients' experiences (DIPEX): a multi-media approach to sharing experiences and information. <i>Lancet, The</i> , 2000, 355, 1540-1543.	6.3	124
16	What affects the uptake of screening for bowel cancer using a faecal occult blood test (FOBT): A qualitative study. <i>Social Science and Medicine</i> , 2008, 66, 2425-2435.	1.8	122
17	Have men been overlooked? A comparison of young men and women's experiences of chemotherapy-induced alopecia. <i>Psycho-Oncology</i> , 2008, 17, 577-583.	1.0	113
18	How information about other people's personal experiences can help with healthcare decision-making: A qualitative study. <i>Patient Education and Counseling</i> , 2011, 85, e291-e298.	1.0	110

#	ARTICLE	IF	CITATIONS
19	Using alternatives to face-to-face consultations: a survey of prevalence and attitudes in general practice. <i>British Journal of General Practice</i> , 2016, 66, e460-e466.	0.7	100
20	Communication with children and adolescents about the diagnosis of their own life-threatening condition. <i>Lancet, The</i> , 2019, 393, 1150-1163.	6.3	100
21	Advancing gender equality through the Athena SWAN Charter for Women in Science: an exploratory study of women's and men's perceptions. <i>Health Research Policy and Systems</i> , 2017, 15, 12.	1.1	99
22	Communication with children and adolescents about the diagnosis of a life-threatening condition in their parent. <i>Lancet, The</i> , 2019, 393, 1164-1176.	6.3	99
23	Biographical disruption, abrupture and repair in the context of Motor Neurone Disease. <i>Sociology of Health and Illness</i> , 2009, 31, 1043-1058.	1.1	98
24	Fertility Issues: The Perceptions and Experiences of Young Men Recently Diagnosed and Treated for Cancer. <i>Journal of Adolescent Health</i> , 2007, 40, 69-75.	1.2	97
25	Breast cancer in the family's children's perceptions of their mother's cancer and its initial treatment: qualitative study. <i>BMJ: British Medical Journal</i> , 2006, 332, 998-1003.	2.4	96
26	Is "watchful waiting" a real choice for men with prostate cancer? A qualitative study. <i>BJU International</i> , 2002, 90, 257-264.	1.3	91
27	Factors contributing to the time taken to consult with symptoms of lung cancer: a cross-sectional study. <i>Thorax</i> , 2009, 64, 523-531.	2.7	91
28	Infertility; isolation and the Internet: A qualitative interview study. <i>Patient Education and Counseling</i> , 2010, 81, 436-441.	1.0	91
29	Development and validation of the Day in the Life Questionnaire (DILQ) as a measure of fruit and vegetable questionnaire for 7-9 year olds. <i>Health Education Research</i> , 2002, 17, 211-220.	1.0	88
30	Talk of frustration in the narratives of people with chronic pain. <i>Chronic Illness</i> , 2012, 8, 176-191.	0.6	86
31	Desire for the body normal: body image and discrepancies between self reported and measured height and weight in a British population.. <i>Journal of Epidemiology and Community Health</i> , 1996, 50, 105-106.	2.0	84
32	Using a national archive of patient experience narratives to promote local patient-centered quality improvement: an ethnographic process evaluation of "accelerated" experience-based co-design. <i>Journal of Health Services Research and Policy</i> , 2014, 19, 200-207.	0.8	84
33	Personal identity and the role of "carer" among relatives and friends of people with multiple sclerosis. <i>Social Science and Medicine</i> , 2013, 96, 78-85.	1.8	81
34	Disclosing a Cancer Diagnosis to Friends and Family: A Gendered Analysis of Young Men's and Women's Experiences. <i>Qualitative Health Research</i> , 2009, 19, 744-754.	1.0	77
35	Taboo and the different death? Perceptions of those bereaved by suicide or other traumatic death. <i>Sociology of Health and Illness</i> , 2015, 37, 610-625.	1.1	77
36	Face-to-Face Compared With Online Collected Accounts of Health and Illness Experiences: A Scoping Review. <i>Qualitative Health Research</i> , 2020, 30, 2092-2102.	1.0	77

#	ARTICLE	IF	CITATIONS
37	Reported barriers to eating more fruit and vegetables before and after participation in a randomized controlled trial: a qualitative study. <i>Health Education Research</i> , 2004, 19, 165-174.	1.0	76
38	Comparison of two approaches to measuring change in health status in rheumatoid arthritis: the Health Assessment Questionnaire (HAQ) and modified HAQ. <i>Annals of the Rheumatic Diseases</i> , 1992, 51, 1202-1205.	0.5	74
39	Minimizing delays in ovarian cancer diagnosis: an expansion of Andersen's model of 'total patient delay'. <i>Family Practice</i> , 2006, 24, 48-55.	0.8	74
40	Alternatives to the face-to-face consultation in general practice: focused ethnographic case study. <i>British Journal of General Practice</i> , 2018, 68, e293-e300.	0.7	74
41	“The Old Me Could Never Have Done That” How People Give Meaning to Recovery Following Depression. <i>Qualitative Health Research</i> , 2006, 16, 1038-1053.	1.0	73
42	The Role of Humor for Men with Testicular Cancer. <i>Qualitative Health Research</i> , 2004, 14, 1123-1139.	1.0	71
43	Testing accelerated experience-based co-design: a qualitative study of using a national archive of patient experience narrative interviews to promote rapid patient-centred service improvement. <i>Health Services and Delivery Research</i> , 2014, 2, 1-122.	1.4	71
44	Expressions of Loss of Adulthood in the Narratives of People with Colorectal Cancer. <i>Qualitative Health Research</i> , 2004, 14, 187-203.	1.0	70
45	Using secondary analysis of qualitative data of patient experiences of health care to inform health services research and policy. <i>Journal of Health Services Research and Policy</i> , 2014, 19, 177-182.	0.8	70
46	What people close to death say about euthanasia and assisted suicide: a qualitative study. <i>Journal of Medical Ethics</i> , 2006, 32, 706-710.	1.0	69
47	“Getting through” not “going under”: A qualitative study of gender and spousal support after diagnosis with colorectal cancer. <i>Social Science and Medicine</i> , 2009, 68, 1169-1175.	1.8	68
48	Does it matter if clinicians recruiting for a trial don't understand what the trial is really about? Qualitative study of surgeons' experiences of participation in a pragmatic multi-centre RCT. <i>Trials</i> , 2007, 8, 4.	0.7	66
49	Ethics and dementia: mapping the literature by bibliometric analysis. <i>International Journal of Geriatric Psychiatry</i> , 2003, 18, 41-54.	1.3	62
50	How patients' experiences contribute to decision making: illustrations from DIPEX (personal) Tj ETQq0 0 0 rgBT, /Overlock, 10 Tf 50 2	1.4	61
51	“It can't be very important because it comes and goes” patients' accounts of intermittent symptoms preceding a pancreatic cancer diagnosis: a qualitative study: Table 1. <i>BMJ Open</i> , 2014, 4, e004215.	0.8	61
52	Exploring men's and women's experiences of depression and engagement with health professionals: more similarities than differences? A qualitative interview study. <i>BMC Family Practice</i> , 2007, 8, 43.	2.9	59
53	The potential of alternatives to face-to-face consultation in general practice, and the impact on different patient groups: a mixed-methods case study. <i>Health Services and Delivery Research</i> , 2018, 6, 1-200.	1.4	59
54	Lack of willpower or lack of wherewithal? “Internal” and “external” barriers to changing diet and exercise in a three year follow-up of participants in a health check. <i>Social Science and Medicine</i> , 1998, 46, 461-465.	1.8	58

#	ARTICLE	IF	CITATIONS
55	Breast cancer in young families: a qualitative interview study of fathers and their role and communication with their children following the diagnosis of maternal breast cancer. <i>Psycho-Oncology</i> , 2009, 18, 96-103.	1.0	58
56	Qualitative study of men's perceptions of why treatment delays occur in the UK for those with testicular cancer. <i>British Journal of General Practice</i> , 2004, 54, 25-32.	0.7	58
57	The Effect of Joint Interviewing on the Performance of Gender. <i>Field Methods</i> , 2008, 20, 107-128.	0.5	55
58	Measuring the effects of online health information: Scale validation for the e-Health Impact Questionnaire. <i>Patient Education and Counseling</i> , 2015, 98, 1418-1424.	1.0	55
59	Patients' views of routine hospital follow-up: a qualitative study of women with breast cancer in remission. , 1998, 7, 436-439.		52
60	Measuring the effects of online health information for patients: Item generation for an e-health impact questionnaire. <i>Patient Education and Counseling</i> , 2013, 93, 433-438.	1.0	51
61	What patients do and their impact on implementation. <i>Journal of Health Organization and Management</i> , 2016, 30, 258-278.	0.6	50
62	A protocol for developing, disseminating, and implementing a core outcome set for pre-eclampsia. <i>Pregnancy Hypertension</i> , 2016, 6, 274-278.	0.6	48
63	Understanding the role of GPs's gut feelings in diagnosing cancer in primary care: a systematic review and meta-analysis of existing evidence. <i>British Journal of General Practice</i> , 2020, 70, e612-e621.	0.7	48
64	Why men with prostate cancer want wider access to prostate specific antigen testing: qualitative study. <i>BMJ: British Medical Journal</i> , 2002, 325, 737-737.	2.4	46
65	Incurable, invisible and inconclusive: watchful waiting for chronic lymphocytic leukaemia and implications for doctor-patient communication. <i>European Journal of Cancer Care</i> , 2012, 21, 67-77.	0.7	45
66	"My brain couldn't move from planning a birth to planning a funeral": A qualitative study of parents' experiences of decisions after ending a pregnancy for fetal abnormality. <i>International Journal of Nursing Studies</i> , 2009, 46, 1111-1121.	2.5	44
67	An Overview of Self-Administered Health Literacy Instruments. <i>PLoS ONE</i> , 2014, 9, e109110.	1.1	43
68	How the Internet is changing the experience of bereavement by suicide: A qualitative study in the UK. <i>Health (United Kingdom)</i> , 2011, 15, 173-187.	0.9	42
69	If social determinants of health are so important, shouldn't we ask patients about them?. <i>BMJ, The</i> , 2020, 371, m4150.	3.0	42
70	Tackling poorly selected, collected, and reported outcomes in obstetrics and gynecology research. <i>American Journal of Obstetrics and Gynecology</i> , 2019, 220, 71.e1-71.e4.	0.7	41
71	In the absence of evidence, who chooses? A qualitative study of patients' needs after treatment for colorectal cancer. <i>Journal of Health Services Research and Policy</i> , 2004, 9, 159-164.	0.8	40
72	'Can I come off the tablets now?' A qualitative analysis of heart failure patients' understanding of their medication. <i>Family Practice</i> , 2006, 23, 624-630.	0.8	39

#	ARTICLE	IF	CITATIONS
73	Barriers to shared decisions in the most serious of cancers: a qualitative study of patients with pancreatic cancer treated in the <scp>UK</scp>. <i>Health Expectations</i> , 2015, 18, 3302-3312.	1.1	39
74	The choice is yours? How women with ovarian cancer make sense of treatment choices. <i>Patient Education and Counseling</i> , 2006, 62, 361-367.	1.0	38
75	On interviewing people with pets: reflections from qualitative research on people with long-term conditions. <i>Sociology of Health and Illness</i> , 2015, 37, 67-80.	1.1	38
76	Smoking cessation interventions for dental patients--attitudes and reported practices of dentists in the Oxford region. <i>British Dental Journal</i> , 1997, 183, 359-364.	0.3	38
77	Unintended consequences of online consultations: a qualitative study in UK primary care. <i>British Journal of General Practice</i> , 2022, 72, e128-e137.	0.7	38
78	Emergency contraception: why can't you give it away? Qualitative findings from an evaluation of advance provision of emergency contraception. <i>Contraception</i> , 2004, 70, 25-29.	0.8	37
79	Methodological and Practical Issues in Cross-National Qualitative Research: Lessons From the Literature and a Comparative Study of the Experiences of People Receiving a Diagnosis of Cancer. <i>Qualitative Health Research</i> , 2018, 28, 789-799.	1.0	37
80	User-Generated Online Health Content: A Survey of Internet Users in the United Kingdom. <i>Journal of Medical Internet Research</i> , 2014, 16, e118.	2.1	37
81	The short form 36 health status questionnaire: clues from the Oxford region's normative data about its usefulness in measuring health gain in population surveys.. <i>Journal of Epidemiology and Community Health</i> , 1995, 49, 102-105.	2.0	36
82	Emergency contraception: an anomalous position in the family planning repertoire?. <i>Social Science and Medicine</i> , 1999, 49, 1409-1417.	1.8	36
83	Why do General Practitioners prescribe antibiotics for acute infective conjunctivitis in children? Qualitative interviews with GPs and a questionnaire survey of parents and teachers. <i>Family Practice</i> , 2006, 23, 226-232.	0.8	36
84	How personal experiences feature in women's accounts of use of information for decisions about antenatal diagnostic testing for foetal abnormality. <i>Social Science and Medicine</i> , 2011, 72, 755-762.	1.8	36
85	What happened when Scottish women were given advance supplies of emergency contraception? A survey and qualitative study of women's views and experiences. <i>Social Science and Medicine</i> , 2005, 60, 1767-1779.	1.8	35
86	Patients' needs following colorectal cancer diagnosis: where does primary care fit in?. <i>British Journal of General Practice</i> , 2011, 61, e692-e699.	0.7	35
87	GPs' understanding and practice of safety netting for potential cancer presentations: a qualitative study in primary care. <i>British Journal of General Practice</i> , 2018, 68, e505-e511.	0.7	35
88	Patients' views of a multimedia resource featuring experiences of rheumatoid arthritis: pilot evaluation of www.healthtalkonline.org. <i>Health Informatics Journal</i> , 2009, 15, 147-159.	1.1	34
89	What do we need to consider when planning, implementing and researching the use of alternatives to face-to-face consultations in primary healthcare?. <i>Digital Health</i> , 2016, 2, 205520761667555.	0.9	34
90	Concerns and cautions about prescribing and deregulating emergency contraception: a qualitative study of GPs using telephone interviews. <i>Family Practice</i> , 1998, 15, 449-456.	0.8	33

#	ARTICLE	IF	CITATIONS
91	Body image and weight change in middle age: a qualitative study. <i>International Journal of Obesity</i> , 2002, 26, 1083-1091.	1.6	32
92	The specialist palliative care nurse: A qualitative study of the patients' perspective. <i>International Journal of Nursing Studies</i> , 2006, 43, 1011-1022.	2.5	32
93	A systematic review and thematic synthesis of qualitative studies exploring GPs' and nurses' perspectives on discussing weight with patients with overweight and obesity in primary care. <i>Obesity Reviews</i> , 2021, 22, e13151.	3.1	32
94	How people bereaved by suicide perceive newspaper reporting: qualitative study. <i>British Journal of Psychiatry</i> , 2013, 203, 228-232.	1.7	31
95	Mapping patients' experiences from initial symptoms to gout diagnosis: a qualitative exploration: Table A1. <i>BMJ Open</i> , 2015, 5, e008323.	0.8	30
96	A systematic review of reasons for and against asking patients about their socioeconomic contexts. <i>International Journal for Equity in Health</i> , 2019, 18, 112.	1.5	30
97	Lung cancer patients' perceptions of access to financial benefits: a qualitative study. <i>British Journal of General Practice</i> , 2004, 54, 589-94.	0.7	30
98	Tacit models of disability underlying health status instruments. <i>Social Science and Medicine</i> , 1993, 37, 69-75.	1.8	29
99	"I knew before I was told": Breaches, cues and clues in the diagnostic assemblage. <i>Social Science and Medicine</i> , 2016, 154, 85-92.	1.8	28
100	The role of spirituality and religion for those bereaved due to a traumatic death. <i>Mortality</i> , 2011, 16, 1-19.	0.3	27
101	Carers, ethics and dementia: a survey and review of the literature. <i>International Journal of Geriatric Psychiatry</i> , 2002, 17, 35-40.	1.3	26
102	A systematic review of primary outcomes and outcome measure reporting in randomized trials evaluating treatments for pre-eclampsia. <i>International Journal of Gynecology and Obstetrics</i> , 2017, 139, 262-267.	1.0	26
103	Power, paradox and pessimism: On the unintended consequences of digital health technologies in primary care. <i>Social Science and Medicine</i> , 2021, 289, 114419.	1.8	26
104	"People sometimes react funny if they're not told enough": women's views about the risks of diagnostic laparoscopy. <i>Health Expectations</i> , 2002, 5, 302-309.	1.1	25
105	The role of the Internet for people with chronic pain: examples from the DIPEX International Project. <i>British Journal of Pain</i> , 2015, 9, 62-64.	0.7	25
106	"Why me? I don't fit the mould I am a freak of nature": a qualitative study of women's experience of gout. <i>BMC Women's Health</i> , 2015, 15, 122.	0.8	23
107	Prescribing antibiotics to "at-risk" children with influenza-like illness in primary care: qualitative study: Table 1. <i>BMJ Open</i> , 2016, 6, e011497.	0.8	23
108	Patients' initial steps to cancer diagnosis in Denmark, England and Sweden: what can a qualitative, cross-country comparison of narrative interviews tell us about potentially modifiable factors?. <i>BMJ Open</i> , 2017, 7, e018210.	0.8	23

#	ARTICLE	IF	CITATIONS
109	How do frontline staff use patient experience data for service improvement? Findings from an ethnographic case study evaluation. <i>Journal of Health Services Research and Policy</i> , 2020, 25, 151-161.	0.8	23
110	Polyphonic perspectives on health and care: Reflections from two decades of the DIPEX project. <i>Journal of Health Services Research and Policy</i> , 2021, 26, 133-140.	0.8	22
111	The DIPEX Project: Collecting Personal Experiences of Illness and Health Care. , 0, , 115-131.		22
112	Using online patient feedback to improve NHS services: the INQUIRE multimethod study. <i>Health Services and Delivery Research</i> , 2019, 7, 1-150.	1.4	22
113	Imagined futures: how experiential knowledge of disability affects parentsâ€™ decision making about fetal abnormality. <i>Health Expectations</i> , 2012, 15, 139-156.	1.1	21
114	Understanding depression through a â€˜coming outâ€™ framework. <i>Sociology of Health and Illness</i> , 2012, 34, 730-745.	1.1	21
115	Randomised feasibility study of a novel experience-based internet intervention to support self-management in chronic asthma. <i>BMJ Open</i> , 2016, 6, e013401.	0.8	21
116	Challenges of safeguarding via remote consulting during the COVID-19 pandemic: a qualitative interview study. <i>British Journal of General Practice</i> , 2022, 72, e199-e208.	0.7	20
117	A qualitative exploration of the role of primary care in supporting colorectal cancer patients. <i>Supportive Care in Cancer</i> , 2012, 20, 3071-3078.	1.0	19
118	What parents say about disclosing the end of their pregnancy due to fetal abnormality. <i>Midwifery</i> , 2013, 29, 24-32.	1.0	19
119	GP-delivered brief weight loss interventions: a cohort study of patient responses and subsequent actions, using conversation analysis in UK primary care. <i>British Journal of General Practice</i> , 2018, 68, e646-e653.	0.7	19
120	An Alarming Prognosis: How People Affected by Pancreatic Cancer Use (and Avoid) Internet Information. <i>Policy and Internet</i> , 2012, 4, 1.	2.0	18
121	Do we all agree what â€˜good health careâ€™ looks like? Views from those who are â€˜seldom heardâ€™ in health research, policy and service improvement. <i>Health Expectations</i> , 2017, 20, 878-885.	1.1	17
122	Examining the role of patientsâ€™ experiences as a resource for choice and decision-making in health care: a creative, interdisciplinary mixed-method study in digital health. <i>Programme Grants for Applied Research</i> , 2016, 4, 1-214.	0.4	17
123	Positive prevention: Contemporary issues facing HIV positive people negotiating sex in the UK. <i>Social Science and Medicine</i> , 2007, 65, 755-770.	1.8	16
124	Why Men in the United Kingdom Still Want the Prostate Specific Antigen Test. <i>Qualitative Health Research</i> , 2008, 18, 56-64.	1.0	15
125	Reassured or fobbed off? Perspectives on infertility consultations in primary care: a qualitative study. <i>British Journal of General Practice</i> , 2012, 62, e438-e445.	0.7	15
126	A Proper, Fitting Explanation?. <i>Crisis</i> , 2012, 33, 230-238.	0.9	15
