#	ARTICLE	IF	CITATIONS
1	Finding the patient in patient safety. Health (United Kingdom), 2013, 17, 567-583.	0.9	59
2	An innovative approach to strengthening health professionals' infection control and limiting hospital-acquired infection: video-reflexive ethnography. BMJ Innovations, 2015, 1, 157-162.	1.0	48
3	The National Open Disclosure Pilot: evaluation of a policy implementation initiative. Medical Journal of Australia, 2008, 188, 397-400.	0.8	42
4	Creating spaces in intensive care for safe communication: a video-reflexive ethnographic study: Table 1. BMJ Quality and Safety, 2014, 23, 1007-1013.	1.8	39
5	Involving patients in understanding hospital infection control using visual methods. Journal of Clinical Nursing, 2015, 24, 1718-1729.	1.4	39
6	Beyond hand hygiene: a qualitative study of the everyday work of preventing cross-contamination on hospital wards. BMJ Quality and Safety, 2017, 26, 552-558.	1.8	33
7	Multiple Accountabilities in Incident Reporting and Management. Qualitative Health Research, 2010, 20, 1091-1100.	1.0	27
8	Video-Reflexive Ethnography in Health Research and Healthcare Improvement. , 0, , .		26
9	Patient Involvement Can Affect Clinicians' Perspectives and Practices of Infection Prevention and Control. International Journal of Qualitative Methods, The, 2017, 16, 160940691769017.	1.3	24
10	Medical interns' reflections on their training in use of personal protective equipment. BMC Medical Education, 2020, 20, 328.	1.0	17
11	Enablers of, and barriers to, optimal glove and mask use for routine care in the emergency department: an ethnographic study of Australian clinicians. Australasian Emergency Care, 2020, 23, 105-113.	0.7	15
12	Trajectories of hospital infection control: Using non-representational theory to understand and improve infection prevention and control. Social Science and Medicine, 2020, 256, 113023.	1.8	13
13	Sustained fall in inpatient MRSA prevalence after a video-reflexive ethnography project; an observational study. Infection, Disease and Health, 2020, 25, 140-150.	0.5	12
14	To follow a rule? On frontline clinicians' understandings and embodiments of hospital-acquired infection prevention and control rules. Health (United Kingdom), 2020, 24, 132-151.	0.9	11
15	Entanglements of affect, space, and evidence in pandemic healthcare: An analysis of Australian healthcare workers' experiences of COVID-19. Health and Place, 2021, 72, 102693.	1.5	9
16	The influence of the built environment in enacting a household model of residential aged care for people living with a mental health condition: A qualitative post-occupancy evaluation. Health and Place, 2021, 71, 102624.	1.5	8
17	Should I stay or should I go? Patient understandings of and responses to source-isolation practices. Patient Experience Journal, 2015, 2, 60-68.	0.3	8
18	"One minute it's an airborne virus, then it's a droplet virus, and then it's like nobody really knows" Experiences of pandemic PPE amongst Australian healthcare workers. Infection, Disease and Health, 2022, 27, 71-80.	0.5	8

#	ARTICLE	IF	CITATIONS
19	Considerations of Australian community pharmacists in the provision and implementation of cognitive pharmacy services: a qualitative study. BMC Health Services Research, 2021, 21, 906.	0.9	7
20	Out of the frying pan? Streamlining the ethics review process of multisite qualitative research projects. Australian Health Review, 2013, 37, 137.	0.5	7
21	Experiences of the SARS-CoV-2 pandemic amongst Australian healthcare workers: from stressors to protective factors. Journal of Hospital Infection, 2022, 121, 75-81.	1.4	6
22	Testing the efficacy and acceptability of video-reflexive methods in personal protective equipment training for medical interns: a mixed methods study. BMJ Open, 2021, 11, e052985.	0.8	5
23	Editorial: Patients: passive subjects or active participants in reducing the spread of infection?. Journal of Clinical Nursing, 2014, 23, 2385-2386.	1.4	3
24	Paradoxes of pandemic infection control: Proximity, pace and care within and beyond SARS-CoV-2. SSM Qualitative Research in Health, 2022, 2, 100110.	0.6	3
