#	ARTICLE	IF	CITATIONS
1	Consumer-Based Wearable Activity Trackers Increase Physical Activity Participation: Systematic Review and Meta-Analysis. <i>JMIR MHealth and UHealth</i> , 2019, 7, e11819.	1.8	394
2	Transitional care interventions reduce unplanned hospital readmissions in high-risk older adults. <i>BMC Health Services Research</i> , 2018, 18, 956.	0.9	73
3	Evaluating the effectiveness of a self-management exercise intervention on wound healing, functional ability and health-related quality of life outcomes in adults with venous leg ulcers: a randomised controlled trial. <i>International Wound Journal</i> , 2017, 14, 130-137.	1.3	72
4	Improving physical activity, pain and function in patients waiting for hip and knee arthroplasty by combining targeted exercise training with behaviour change counselling: study protocol for a randomised controlled trial. <i>Trials</i> , 2018, 19, 425.	0.7	59
5	Health-care utilisation for low back pain: a systematic review and meta-analysis of population-based observational studies. <i>Rheumatology International</i> , 2019, 39, 1663-1679.	1.5	51
6	The effectiveness of a four-layer compression bandage system in comparison with Class 3 compression hosiery on healing and quality of life in patients with venous leg ulcers: a randomised controlled trial. <i>International Wound Journal</i> , 2014, 11, 21-27.	1.3	49
7	A home-based progressive resistance exercise programme for patients with venous leg ulcers: a feasibility study. <i>International Wound Journal</i> , 2013, 10, 389-396.	1.3	45
8	What is the effect of exercise on wound healing in patients with venous leg ulcers? A systematic review. <i>International Wound Journal</i> , 2018, 15, 441-453.	1.3	29
9	Older adults' experiences of using a wearable activity tracker with health professional feedback over a 12-month randomised controlled trial. <i>Digital Health</i> , 2020, 6, 205520762092167.	0.9	29
10	Testing the effectiveness of a self-efficacy based exercise intervention for adults with venous leg ulcers: protocol of a randomised controlled trial. <i>BMC Dermatology</i> , 2014, 14, 16.	2.1	22
11	Effects of Activity Tracker Use With Health Professional Support or Telephone Counseling on Maintenance of Physical Activity and Health Outcomes in Older Adults: Randomized Controlled Trial. <i>JMIR MHealth and UHealth</i> , 2021, 9, e18686.	1.8	18
12	Factors associated with physical activity levels in people with venous leg ulcers: A multicentre, prospective, cohort study. <i>International Wound Journal</i> , 2018, 15, 291-296.	1.3	11
13	Using a theoretical approach to identify factors influencing adherence to an exercise programme for adults with venous leg ulcers. <i>Journal of Health Psychology</i> , 2018, 23, 691-700.	1.3	9
14	Determinants of healthcare utilisation for low back pain: A population-based study in Ethiopia. <i>Health and Social Care in the Community</i> , 2020, 28, 1058-1070.	0.7	8
15	Type 2 diabetes and the medicine of exercise: The role of general practice in ensuring exercise is part of every patient's plan. <i>Australian Journal of General Practice</i> , 2020, 49, 189-193.	0.3	8
16	Training physiotherapists to be responsive to their clients' health literacy needs. <i>Physiotherapy Theory and Practice</i> , 2022, 38, 1398-1406.	0.6	7
17	Identifying Opportunities to Integrate Digital Professionalism into Curriculum: A Comparison of Social Media Use by Health Profession Students at an Australian University in 2013 and 2016. <i>Informatics</i> , 2017, 4, 10.	2.4	6
18	Hospital admission and associated factors among individuals presenting to healthcare facilities for low back pain in Ethiopia. <i>International Journal of Rheumatic Diseases</i> , 2020, 23, 763-771.	0.9	5

#	ARTICLE	IF	CITATIONS
19	Prescribed exercise regimen versus usual care and hypochlorous acid wound solution versus placebo for treating venous leg ulcers: study protocol for a randomised controlled trial (Factorial4VLU). <i>BMJ Open</i> , 2021, 11, e043420.	0.8	4
20	The development and validation of a measurement instrument to investigate determinants of health care utilisation for low back pain in Ethiopia. <i>PLoS ONE</i> , 2020, 15, e0227801.	1.1	3
21	Choosing a health behaviour theory or model for related research projects: a narrative review. <i>Journal of Research in Nursing</i> , 2022, 27, 436-446.	0.3	3
22	Profile of individuals with low back pain and factors defining chronicity of pain: a population-based study in Ethiopia. <i>Quality of Life Research</i> , 2022, 31, 2645-2654.	1.5	3
23	Exercise as cardiovascular medicine. <i>Australian Journal of General Practice</i> , 2020, 49, 483-487.	0.3	0
