

David Magne

List of Publications by Citations

Source: <https://exaly.com/author-pdf/5511942/david-magne-publications-by-citations.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
12	Multisystemic functions of alkaline phosphatases. <i>Methods in Molecular Biology</i> , 2013 , 1053, 27-51	1.4	111
11	Phospholipases of mineralization competent cells and matrix vesicles: roles in physiological and pathological mineralizations. <i>International Journal of Molecular Sciences</i> , 2013 , 14, 5036-129	6.3	43
10	Glucose stimulates chondrocyte differentiation of vascular smooth muscle cells and calcification: A possible role for IL-1. <i>FEBS Letters</i> , 2015 , 589, 2797-804	3.8	27
9	Crosstalk between tyrosine kinase receptors, GSK3 and BMP2 signaling during osteoblastic differentiation of human mesenchymal stem cells. <i>Molecular and Cellular Endocrinology</i> , 2014 , 382, 120-130	4.4	27
8	Characterization and assessment of potential microRNAs involved in phosphate-induced aortic calcification. <i>Journal of Cellular Physiology</i> , 2018 , 233, 4056-4067	7	17
7	Multiple Functions of MSCA-1/TNAP in Adult Mesenchymal Progenitor/Stromal Cells. <i>Stem Cells International</i> , 2016 , 2016, 1815982	5	15
6	Prostate cancer-derived exosomes promote osteoblast differentiation and activity through phospholipase D2. <i>Biochimica Et Biophysica Acta - Molecular Basis of Disease</i> , 2020 , 1866, 165919	6.9	12
5	Phospholipase D: A new mediator during high phosphate-induced vascular calcification associated with chronic kidney disease. <i>Journal of Cellular Physiology</i> , 2019 , 234, 4825-4839	7	12
4	Effects of phospholipase D during cultured osteoblast mineralization and bone formation. <i>Journal of Cellular Biochemistry</i> , 2019 , 120, 5923-5935	4.7	7
3	TNAP as a therapeutic target for cardiovascular calcification - a discussion of its pleiotropic functions in the body. <i>Cardiovascular Research</i> , 2020 ,	9.9	6
2	Hydrolysis of Extracellular ATP by Vascular Smooth Muscle Cells Transdifferentiated into Chondrocytes Generates P but Not PP. <i>International Journal of Molecular Sciences</i> , 2021 , 22,	6.3	4
1	Increased phospholipase D activity contributes to tumorigenesis in prostate cancer cell models. <i>Molecular and Cellular Biochemistry</i> , 2020 , 473, 263-279	4.2	2
