

Jasper Schipperijn

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/5534387/jasper-schipperijn-publications-by-year.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
112	Demographic, social, and environmental factors predicting Danish children's greenspace use. <i>Urban Forestry and Urban Greening</i> , 2022 , 69, 127487	5.4	
111	Evaluating the effectiveness of the Play Active policy intervention and implementation support in early childhood education and care: a pragmatic cluster randomised trial protocol.. <i>BMC Public Health</i> , 2022 , 22, 306	4.1	2
110	Meeting the Australian 24-Hour Movement Guidelines for the Early Years is associated with better social-emotional development in preschool boys.. <i>Preventive Medicine Reports</i> , 2022 , 27, 101770	2.6	0
109	Using open data and open-source software to develop spatial indicators of urban design and transport features for achieving healthy and sustainable cities.. <i>The Lancet Global Health</i> , 2022 , 10, e907-e918	13.6	14
108	Traffic exposure, air pollution and children's physical activity at early childhood education and care. <i>International Journal of Hygiene and Environmental Health</i> , 2021 , 240, 113885	6.9	0
107	Is vegetation cover in key behaviour settings important for early childhood socioemotional function? A preregistered, cross-sectional study. <i>Developmental Science</i> , 2021 , e13200	4.5	
106	Validity of a Global Positioning System-Based Algorithm and Consumer Wearables for Classifying Active Trips in Children and Adults. <i>Journal for the Measurement of Physical Behaviour</i> , 2021 , 4, 321-332	2.3	
105	Change in GPS-assessed walking locations following a cluster-randomized controlled physical activity trial in older adults, results from the MIPARC trial. <i>Health and Place</i> , 2021 , 69, 102573	4.6	2
104	An ecosystem service perspective on urban nature, physical activity, and health. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2021 , 118,	11.5	34
103	Frequency of Neighborhood Park Use Is Associated With Physical Activity Among Adults in Four US Cities. <i>Journal of Physical Activity and Health</i> , 2021 , 18, 603-609	2.5	0
102	Eight Investments That Work for Physical Activity. <i>Journal of Physical Activity and Health</i> , 2021 , 18, 625-630	6.9	21
101	Investigating the WHAT and WHY on older adults' use of neighborhood open spaces following an environmental intervention. <i>Translational Behavioral Medicine</i> , 2021 , 11, 582-596	3.2	1
100	Combining Accelerometry and GPS to Assess Neighborhood-Based Physical Activity: Associations With Perceived Neighborhood Walkability. <i>Environment and Behavior</i> , 2021 , 53, 732-752	5.6	2
99	Correlates of active commuting, transport physical activity, and light rail use in a university setting. <i>Journal of Transport and Health</i> , 2021 , 20, 100978	3	4
98	Contribution of park visits to daily physical activity levels among older adults: Evidence using GPS and accelerometry data. <i>Urban Forestry and Urban Greening</i> , 2021 , 63, 127225	5.4	2
97	Tunneling a crosstown highway: a natural experiment testing the longitudinal effect on physical activity and active transport. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2021 , 18, 111	8.4	
96	International Physical Activity and Built Environment Study of adolescents: IPEN Adolescent design, protocol and measures. <i>BMJ Open</i> , 2021 , 11, e046636	3	9

95	ParkIndex: Validation and application of a pragmatic measure of park access and use. <i>Preventive Medicine Reports</i> , 2020 , 20, 101218	2.6	2
94	Built Environment, Physical Activity, and Obesity: Findings from the International Physical Activity and Environment Network (IPEN) Adult Study. <i>Annual Review of Public Health</i> , 2020 , 41, 119-139	20.6	49
93	Considerations in Processing Accelerometry Data to Explore Physical Activity and Sedentary Time in Older Adults. <i>Journal of Aging and Physical Activity</i> , 2020 , 1-11	1.6	5
92	Difference in Outdoor Time and Physical Activity During Recess After Schoolyard Renewal for the Least-Active Children. <i>Journal of Physical Activity and Health</i> , 2020 , 17, 968-976	2.5	1
91	Differences in adolescent activity and dietary behaviors across home, school, and other locations warrant location-specific intervention approaches. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2020 , 17, 123	8.4	2
90	Physical activity benefits of attending a senior center depend largely on age and gender: a study using GPS and accelerometry data. <i>BMC Geriatrics</i> , 2020 , 20, 134	4.1	6
89	The Influence of the Early Childhood Education and Care Environment on Young Children's Physical Activity: Development and Reliability of the PLAYCE Study Environmental Audit and Educator Survey. <i>International Journal of Environmental Research and Public Health</i> , 2020 , 17,	4.6	1
88	What we build makes a difference □Mapping activating schoolyard features after renewal using GIS, GPS and accelerometers. <i>Landscape and Urban Planning</i> , 2019 , 191, 103617	7.7	14
87	Will the children use it?-A RE-AIM evaluation of a local public open space intervention involving children from a deprived neighbourhood. <i>Evaluation and Program Planning</i> , 2019 , 77, 101706	1.7	8
86	Changing recess geographies: children's perceptions of a schoolyard renovation project promoting physical activity. <i>Children's Geographies</i> , 2019 , 17, 664-675	1.5	7
85	Temperature and Rain Moderate the Effect of Neighborhood Walkability on Walking Time for Seniors in Barcelona. <i>International Journal of Environmental Research and Public Health</i> , 2019 , 17,	4.6	8
84	Associations between Neighborhood Open Space Features and Walking and Social Interaction in Older Adults-A Mixed Methods Study. <i>Geriatrics (Switzerland)</i> , 2019 , 4,	2.2	14
83	Shade coverage, ultraviolet radiation and children's physical activity in early childhood education and care. <i>International Journal of Public Health</i> , 2019 , 64, 1325-1333	4	7
82	Natural Landscape, Infrastructure, and Health: The Physical Activity Implications of Urban Green Space Composition among the Elderly. <i>International Journal of Environmental Research and Public Health</i> , 2019 , 16,	4.6	12
81	Fear Factor: Level of Traffic Stress and GPS Assessed Cycling Routes. <i>Journal of Transportation Technologies</i> , 2019 , 09, 14-30	0.8	3
80	ParkIndex: Using Key Informant Interviews to Inform the Development of a New Park Access Evaluation Tool. <i>Journal of Park and Recreation Administration</i> , 2019 , 37,	1	2
79	The comparison of Holux and Qstarz GPS receivers in free living conditions: Dynamic accuracy in different active transport modes. <i>Acta Gymnica</i> , 2019 , 49, 109-114	0.6	1
78	Nature Play and Fundamental Movement Skills Training Programs Improve Childcare Educator Supportive Physical Activity Behavior. <i>International Journal of Environmental Research and Public Health</i> , 2019 , 17,	4.6	10

77	Psychosocial and Physiological Health Outcomes of Green Exercise in Children and Adolescents-A Systematic Review. <i>International Journal of Environmental Research and Public Health</i> , 2019 , 16,	4.6	23
76	Challenges in using wearable GPS devices in low-income older adults: Can map-based interviews help with assessments of mobility?. <i>Translational Behavioral Medicine</i> , 2019 , 9, 99-109	3.2	14
75	A school excursion to a museum can promote physical activity in children by integrating movement into curricular activities. <i>European Physical Education Review</i> , 2019 , 25, 35-47	2.8	2
74	Defining Accelerometer Nonwear Time to Maximize Detection of Sedentary Time in Youth. <i>Pediatric Exercise Science</i> , 2018 , 30, 288-295	2	8
73	Collaboration between physical activity researchers and transport planners: A qualitative study of attitudes to data driven approaches. <i>Journal of Transport and Health</i> , 2018 , 8, 157-168	3	2
72	Giving children a voice: Exploring qualitative perspectives on factors influencing recess physical activity. <i>European Physical Education Review</i> , 2018 , 24, 39-55	2.8	14
71	Latent profile analysis of young adolescents' physical activity across locations on schooldays. <i>Journal of Transport and Health</i> , 2018 , 10, 304-314	3	11
70	Using Accelerometer/GPS Data to Validate a Neighborhood-Adapted Version of the International Physical Activity Questionnaire (IPAQ). <i>Journal for the Measurement of Physical Behaviour</i> , 2018 , 1, 181-190	2.3	6
69	Adolescents who engage in active school transport are also more active in other contexts: A space-time investigation. <i>Health and Place</i> , 2017 , 43, 25-32	4.6	25
68	International comparison of observation-specific spatial buffers: maximizing the ability to estimate physical activity. <i>International Journal of Health Geographics</i> , 2017 , 16, 4	3.5	32
67	Gender Differences in the Domain-Specific Contributions to Moderate-to-Vigorous Physical Activity, Accessed by GPS. <i>Journal of Physical Activity and Health</i> , 2017 , 14, 474-478	2.5	15
66	Increases in Use and Activity Due to Urban Renewal: Effect of a Natural Experiment. <i>American Journal of Preventive Medicine</i> , 2017 , 53, e81-e87	6.1	14
65	Measuring Children's Physical Activity: Compliance Using Skin-Taped Accelerometers. <i>Medicine and Science in Sports and Exercise</i> , 2017 , 49, 1261-1269	1.2	27
64	Use of global positioning system for physical activity research in youth: ESPAOS Adolescentes, Brazil. <i>Preventive Medicine</i> , 2017 , 103S, S59-S65	4.3	13
63	Access to parks and physical activity: an eight country comparison. <i>Urban Forestry and Urban Greening</i> , 2017 , 27, 253-263	5.4	80
62	A Northern European perspective on creating more activity friendly cities. <i>Preventive Medicine</i> , 2017 , 103S, S3-S4	4.3	2
61	Are children participating in a quasi-experimental education outside the classroom intervention more physically active?. <i>BMC Public Health</i> , 2017 , 17, 523	4.1	30
60	A Multicomponent Schoolyard Intervention Targeting Children's Recess Physical Activity and Sedentary Behavior: Effects After 1 Year. <i>Journal of Physical Activity and Health</i> , 2017 , 14, 866-875	2.5	9

59	Move the Neighbourhood: Study design of a community-based participatory public open space intervention in a Danish deprived neighbourhood to promote active living. <i>BMC Public Health</i> , 2017 , 17, 481	4.1	14
58	Do associations between objectively-assessed physical activity and neighbourhood environment attributes vary by time of the day and day of the week? IPEN adult study. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2017 , 14, 34	8.4	29
57	Within-person associations of young adolescents' physical activity across five primary locations: is there evidence of cross-location compensation?. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2017 , 14, 50	8.4	18
56	Children's physical activity during a segmented school week: results from a quasi-experimental education outside the classroom intervention. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2017 , 14, 80	8.4	22
55	Adolescent school travel: Is online mapping a practical alternative to GPS-assessed travel routes?. <i>Journal of Transport and Health</i> , 2017 , 5, 113-122	3	16
54	Correlates of Agreement between Accelerometry and Self-reported Physical Activity. <i>Medicine and Science in Sports and Exercise</i> , 2016 , 48, 1075-84	1.2	82
53	Schoolyard Characteristics, Physical Activity, and Sedentary Behavior: Combining GPS and Accelerometry. <i>Journal of School Health</i> , 2016 , 86, 913-921	2.1	19
52	Geographical clustering of incident acute myocardial infarction in Denmark: A spatial analysis approach. <i>Spatial and Spatio-temporal Epidemiology</i> , 2016 , 19, 46-59	3.5	10
51	Children's GPS-determined versus self-reported transport in leisure time and associations with parental perceptions of the neighborhood environment. <i>International Journal of Health Geographics</i> , 2016 , 15, 16	3.5	18
50	ParkIndex: Development of a standardized metric of park access for research and planning. <i>Preventive Medicine</i> , 2016 , 87, 110-114	4.3	30
49	Locations of Physical Activity as Assessed by GPS in Young Adolescents. <i>Pediatrics</i> , 2016 , 137,	7.4	48
48	Space, body, time and relationship experiences of recess physical activity: a qualitative case study among the least physical active schoolchildren. <i>BMC Public Health</i> , 2016 , 16, 16	4.1	16
47	Children's Physical Activity Behavior during School Recess: A Pilot Study Using GPS, Accelerometer, Participant Observation, and Go-Along Interview. <i>PLoS ONE</i> , 2016 , 11, e0148786	3.7	48
46	Is missing geographic positioning system data in accelerometry studies a problem, and is imputation the solution?. <i>Geospatial Health</i> , 2016 , 11, 403	2.2	25
45	Influence of the day care, home and neighbourhood environment on young children's physical activity and health: protocol for the PLAYCE observational study. <i>BMJ Open</i> , 2016 , 6, e014058	3	21
44	The Copenhagen Consensus Conference 2016: children, youth, and physical activity in schools and during leisure time. <i>British Journal of Sports Medicine</i> , 2016 , 50, 1177-8	10.3	63
43	A quasi-experimental cross-disciplinary evaluation of the impacts of education outside the classroom on pupils' physical activity, well-being and learning: the TEACHOUT study protocol. <i>BMC Public Health</i> , 2016 , 16, 1117	4.1	35
42	How do socio-economic factors and distance predict access to prevention and rehabilitation services in a Danish municipality?. <i>Primary Health Care Research and Development</i> , 2016 , 17, 578-585	1.6	4

41	Physical activity in relation to urban environments in 14 cities worldwide: a cross-sectional study. <i>Lancet, The</i> , 2016 , 387, 2207-17	40	602
40	Fast-food intake and perceived and objective measures of the local fast-food environment in adolescents. <i>Public Health Nutrition</i> , 2016 , 19, 446-55	3.3	9
39	Active commuting to school in Portuguese adolescents: Using PALMS to detect trips. <i>Journal of Transport and Health</i> , 2016 , 3, 297-304	3	22
38	Geographical variation in a fatal outcome of acute myocardial infarction and association with contact to a general practitioner. <i>Spatial and Spatio-temporal Epidemiology</i> , 2016 , 19, 60-69	3.5	8
37	A novel assessment of adolescent mobility: a pilot study. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2015 , 12, 18	8.4	17
36	Use and activity levels on newly built bicycle playgrounds. <i>Urban Forestry and Urban Greening</i> , 2015 , 14, 163-169	5.4	5
35	Contribution of various microenvironments to the daily personal exposure to ultrafine particles: Personal monitoring coupled with GPS tracking. <i>Atmospheric Environment</i> , 2015 , 110, 122-129	5.3	46
34	Activating schoolyards: study design of a quasi-experimental schoolyard intervention study. <i>BMC Public Health</i> , 2015 , 15, 523	4.1	15
33	Active use of urban park facilities [Expectations versus reality. <i>Urban Forestry and Urban Greening</i> , 2015 , 14, 909-918	5.4	27
32	When cities move children: development of a new methodology to assess context-specific physical activity behaviour among children and adolescents using accelerometers and GPS. <i>Health and Place</i> , 2015 , 31, 90-9	4.6	44
31	Objectively measured differences in physical activity in five types of schoolyard area. <i>Landscape and Urban Planning</i> , 2015 , 134, 83-92	7.7	39
30	A Longitudinal Study of Objectively Measured Built Environment as Determinant of Physical Activity in Young Adults: The European Youth Heart Study. <i>Journal of Physical Activity and Health</i> , 2015 , 12, 909-14	2.5	12
29	A framework for using GPS data in physical activity and sedentary behavior studies. <i>Exercise and Sport Sciences Reviews</i> , 2015 , 43, 48-56	6.7	116
28	Like a soccer camp for boys [A qualitative exploration of gendered activity patterns in children] self-organized play during school recess. <i>European Physical Education Review</i> , 2015 , 21, 275-291	2.8	23
27	The impact of interventions to promote physical activity in urban green space: a systematic review and recommendations for future research. <i>Social Science and Medicine</i> , 2015 , 124, 246-56	5.1	206
26	Association between neighborhood walkability and GPS-measured walking, bicycling and vehicle time in adolescents. <i>Health and Place</i> , 2015 , 32, 1-7	4.6	105
25	Using accelerometers and global positioning system devices to assess gender and age differences in children's school, transport, leisure and home based physical activity. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2014 , 11, 8	8.4	78
24	Barriers for recess physical activity: a gender specific qualitative focus group exploration. <i>BMC Public Health</i> , 2014 , 14, 639	4.1	66

23	Perceived neighbourhood environmental attributes associated with adults? recreational walking: IPEN Adult study in 12 countries. <i>Health and Place</i> , 2014 , 28, 22-30	4.6	103
22	School site walkability and active school transport Association, mediation and moderation. <i>Journal of Transport Geography</i> , 2014 , 34, 7-15	5.2	39
21	Occupational exposure to ultrafine particles among airport employees--combining personal monitoring and global positioning system. <i>PLoS ONE</i> , 2014 , 9, e106671	3.7	17
20	Context-Specific Outdoor Time and Physical Activity among School-Children Across Gender and Age: Using Accelerometers and GPS to Advance Methods. <i>Frontiers in Public Health</i> , 2014 , 2, 20	6	58
19	Dynamic Accuracy of GPS Receivers for Use in Health Research: A Novel Method to Assess GPS Accuracy in Real-World Settings. <i>Frontiers in Public Health</i> , 2014 , 2, 21	6	100
18	Developing suitable buffers to capture transport cycling behavior. <i>Frontiers in Public Health</i> , 2014 , 2, 61	6	11
17	International variation in neighborhood walkability, transit, and recreation environments using geographic information systems: the IPEN adult study. <i>International Journal of Health Geographics</i> , 2014 , 13, 43	3.5	139
16	Variations in active transport behavior among different neighborhoods and across adult lifestages. <i>Journal of Transport and Health</i> , 2014 , 1, 316-325	3	40
15	Neighborhood environments and objectively measured physical activity in 11 countries. <i>Medicine and Science in Sports and Exercise</i> , 2014 , 46, 2253-64	1.2	75
14	Associations between physical activity and characteristics of urban green space. <i>Urban Forestry and Urban Greening</i> , 2013 , 12, 109-116	5.4	182
13	Green Space as Classroom: Outdoor School Teachers' Use, Preferences and Ecostrategies. <i>Landscape Research</i> , 2013 , 38, 561-575	1.4	21
12	GIS: A Spatial Turn in the Health Science? 2013 , 127-152		2
11	Exposure to physical activity resources by neighborhood sociodemographic characteristics in Copenhagen. <i>Journal of Physical Activity and Health</i> , 2012 , 9, 1065-73	2.5	3
10	Use of Small Public Urban Green Spaces (SPUGS). <i>Urban Forestry and Urban Greening</i> , 2012 , 11, 235-244	5.4	138
9	Using global positioning systems in health research: a practical approach to data collection and processing. <i>American Journal of Preventive Medicine</i> , 2011 , 41, 532-40	6.1	175
8	Distance to green space and physical activity: a Danish national representative survey. <i>Journal of Physical Activity and Health</i> , 2011 , 8, 741-9	2.5	99
7	Health promoting outdoor environments--associations between green space, and health, health-related quality of life and stress based on a Danish national representative survey. <i>Scandinavian Journal of Public Health</i> , 2010 , 38, 411-7	3	224
6	Factors influencing the use of green space: Results from a Danish national representative survey. <i>Landscape and Urban Planning</i> , 2010 , 95, 130-137	7.7	273

5	Influences on the use of urban green space – A case study in Odense, Denmark. <i>Urban Forestry and Urban Greening</i> , 2010 , 9, 25-32	5.4	206
4	Research capacity building through twinning: experiences from a Danish-Malaysian twinning project. <i>Public Administration and Development</i> , 2007 , 27, 381-392	1.2	5
3	Tools for mapping social values of urban woodlands and other green areas. <i>Landscape and Urban Planning</i> , 2007 , 79, 5-19	7.7	295
2	Assessment of urban forestry research and research needs in Nordic and Baltic countries. <i>Urban Forestry and Urban Greening</i> , 2007 , 6, 297-309	5.4	18
1	Characteristics of the built environment on GPS-determined bicycle routes used by adolescents. <i>Revista Brasileira De Atividade Física E Saúde</i> , 24, 1-7		2
