#	Article	IF	Citations
1	Influence of non-clinical factors on restorative rectal cancer surgery: An analysis of four specialized population-based digestive cancer registries in France. Digestive and Liver Disease, 2022, 54, 258-267.	0.4	3
2	How do age and social environment affect the dynamics of death hazard and survival in patients with breast or gynecological cancer in France?. International Journal of Cancer, 2022, 150, 253-262.	2.3	3
3	Can an Ecological Index of Deprivation Be Used at the Country Level? The Case of the French Version of the European Deprivation Index (F-EDI). International Journal of Environmental Research and Public Health, 2022, 19, 2311.	1.2	6
4	Are Geographical Health Accessibility and Socioeconomic Deprivation Associated with Outcomes Following Bariatric Surgery? A Retrospective Study in a High-Volume Referral Bariatric Surgical Center. Obesity Surgery, 2022, 32, 1486-1497.	1.1	6
5	Evaluation of a mobile mammography unit: concepts and randomized cluster trial protocol of a population health intervention research to reduce breast cancer screening inequalities. Trials, 2022, 23, .	0.7	2
6	The European Deprivation Index: A Tool to Help Build an Evidence-Based Cancer Policy for Europe. , 2021, , 13-19.		1
7	Geographical Remoteness and Cancer Survival in Europe. , 2021, , 287-296.		0
8	Same Chance of Accessing Resection? Impact of Socioeconomic Status on Resection Rates Among Patients with Pancreatic Adenocarcinomaâ€"A Systematic Review. Health Equity, 2021, 5, 143-150.	0.8	9
9	Association Between Disease-Modifying Therapies Prescribed to Persons with Multiple Sclerosis and Cancer: a WHO Pharmacovigilance Database Analysis. Neurotherapeutics, 2021, 18, 1657-1664.	2.1	13
10	Socioeconomic Environment and Survival in Patients with Digestive Cancers: A French Population-Based Study. Cancers, 2021, 13, 5156.	1.7	8
11	Socioeconomic Deprivation Does Not Impact Liver Transplantation Outcome for HCC: A Survival Analysis From a National Database. Transplantation, 2021, 105, 1061-1068.	0.5	6
12	Is self-care dialysis associated with social deprivation in a universal health care system? A cohort study with data from the Renal Epidemiology and Information Network Registry. Nephrology Dialysis Transplantation, 2020, 35, 861-869.	0.4	11
13	â€˜French LARS scoreâ€™: validation of the French version of the low anterior resection syndrome (LARS) score for measuring bowel dysfunction after sphincter-preserving surgery among rectal cancer patients: a study protocol. BMJ Open, 2020, 10, e034251.	0.8	9
14	Socioeconomic deprivation increases the risk of disability in multiple sclerosis patients. Multiple Sclerosis and Related Disorders, 2020, 40, 101930.	0.9	24
15	Cost-Effectiveness Analysis of a Mobile Mammography Unit for Breast Cancer Screening to Reduce Geographic and Social Health Inequalities. Value in Health, 2019, 22, 1111-1118.	0.1	7
16	Methodology for building a geographical accessibility health index throughout metropolitan France. PLoS ONE, 2019, 14, e0221417.	1.1	11
17	Digestive and genitourinary sequelae in rectal cancer survivors andÂtheir impact on health-related quality of life: Outcome of a high-resolution population-based study. Surgery, 2019, 166, 327-335.	1.0	25
18	Has adherence to treatment guidelines for mid/low rectal cancer affected the management of patients? A monocentric study of 604 consecutive patients. Journal of Visceral Surgery, 2019, 156, 281-290.	0.4	5

#	Article	IF	Citations
19	Influence of social deprivation and remoteness on the likelihood of sphincter amputation for rectal cancer: a high-resolution population-based study. International Journal of Colorectal Disease, 2019, 34, 927-931.	1.0	8
20	Impact of socioeconomic status on survival in patients with ovarian cancer. International Journal of Gynecological Cancer, 2019, 29, 792-801.	1.2	7
21	Socioeconomic environment and disparities in cancer survival for 19 solid tumor sites: An analysis of the French Network of Cancer Registries (FRANCIM) data. International Journal of Cancer, 2019, 144, 1262-1274.	2.3	35
22	Ã‰pidÃ©miologie, environnement et gÃ©nÃ©tique dans la sclÃ©rose en plaques. , 2019, , 31-105.		0
23	Incidence and characteristics of chronic renal replacement therapy in patients with cancer: data from kidney and cancer registries in Basse-Normandie. Journal of Nephrology, 2018, 31, 111-118.	0.9	5
24	Socioeconomic status and site-specific cancer incidence, a Bayesian approach in a French Cancer Registries Network study. European Journal of Cancer Prevention, 2018, 27, 391-398.	0.6	63
25	Survival of patients with cancer starting chronic dialysis: Data from kidney and cancer registries in lower Normandy. Nephrology, 2018, 23, 1125-1130.	0.7	6
26	No effect of comorbidities on the association between social deprivation and geographical access to the reference care center in the management of colon cancer. Digestive and Liver Disease, 2018, 50, 297-304.	0.4	11
27	Cost-Effectiveness Analysis of a Navigation Program for Colorectal Cancer Screening to Reduce Social Health Inequalities: A French Cluster Randomized Controlled Trial. Value in Health, 2018, 21, 685-691.	0.1	18
28	European Deprivation Index: designed to tackle socioeconomic inequalities in cancer in Europe. European Journal of Public Health, 2018, 28, .	0.1	5
29	Describing the association between socioeconomic inequalities and cancer survival: methodological guidelines and illustration with population-based data. Clinical Epidemiology, 2018, Volume 10, 561-573.	1.5	21
30	Socioeconomic status impacts survival and access to resection in pancreatic adenocarcinoma: A high-resolution population-based cancer registry study. Surgical Oncology, 2018, 27, 759-766.	0.8	16
31	Socio-economic status influences access to second-line disease modifying treatment in Relapsing Remitting Multiple Sclerosis patients. PLoS ONE, 2018, 13, e0191646.	1.1	14
32	Could mobile mammography reduce social and geographic inequalities in breast cancer screening participation?. Preventive Medicine, 2017, 100, 84-88.	1.6	43
33	Assessment of the ecological bias of seven aggregate social deprivation indices. BMC Public Health, 2017, 17, 86.	1.2	54
34	Trends in net survival from rectal cancer in six European Latin countries: results from the SUDCAN population-based study. European Journal of Cancer Prevention, 2017, 26, S48-S55.	0.6	14
35	Oral cancer characteristics in France: Descriptive epidemiology for early detection. Journal of Stomatology, Oral and Maxillofacial Surgery, 2017, 118, 84-89.	0.5	9
36	Factors related to the relative survival of patients with diffuse large B-cell lymphoma in a population-based study in France: does socio-economic status have a role?. Haematologica, 2017, 102, 584-592.	1.7	27

#	Article	IF	Citations
37	Patient navigation to reduce social inequalities in colorectal cancer screening participation: A cluster randomized controlled trial. Preventive Medicine, 2017, 103, 76-83.	1.6	25
38	Neighborhood deprivation and risk of head and neck cancer: A multilevel analysis from France. Oral Oncology, 2017, 71, 144-149.	0.8	19
39	Diagnosis and management of head and neck cancers in a high-incidence area in France. Medicine (United States), 2017, 96, e7285.	0.4	28
40	Small-area geographic and socioeconomic inequalities in colorectal tumour detection in France. European Journal of Cancer Prevention, 2016, 25, 269-274.	0.6	4
41	Pancreatic cancer: Wait times from presentation to treatment and survival in a populationâ€based study. International Journal of Cancer, 2016, 139, 1073-1080.	2.3	57
42	Development of a cross-cultural deprivation index in five European countries. Journal of Epidemiology and Community Health, 2016, 70, 493-499.	2.0	135
43	What are the real waiting times for therapeutic management of head and neck cancer: a study in the general population in the north-west of France. European Archives of Oto-Rhino-Laryngology, 2016, 273, 3951-3958.	0.8	24
44	Health professionals and the early detection of head and neck cancers: a population-based study in a high incidence area. BMC Cancer, 2016, 16, 456.	1.1	17
45	A multilevel excess hazard model to estimate net survival on hierarchical data allowing for non-linear and non-proportional effects of covariates. Statistics in Medicine, 2016, 35, 3066-3084.	0.8	37
46	Influence of a screening navigation program on social inequalities in health beliefs about colorectal cancer screening. Journal of Health Psychology, 2016, 21, 1700-1710.	1.3	3
47	Correction of misclassification bias induced by the residential mobility in studies examining the link between socioeconomic environment and cancer incidence. Cancer Epidemiology, 2015, 39, 256-264.	0.8	9
48	Multi-state relative survival modelling of colorectal cancer progression and mortality. Cancer Epidemiology, 2015, 39, 447-455.	0.8	14
49	Socioeconomic environment and cancer incidence: a French population-based study in Normandy. BMC Cancer, 2014, 14, 87.	1.1	57
50	The influence of geographical access to health care and material deprivation on colorectal cancer survival: Evidence from France and England. Health and Place, 2014, 30, 36-44.	1.5	36
51	Management of colorectal cancer explains differences in 1-year relative survival between France and England for patients diagnosed 1997â€“2004. British Journal of Cancer, 2013, 108, 775-783.	2.9	10
52	Construction of an adaptable European transnational ecological deprivation index: the French version. Journal of Epidemiology and Community Health, 2012, 66, 982-989.	2.0	239
53	For patients with breast cancer, geographic and social disparities are independent determinants of access to specialized surgeons. A eleven-year population-based multilevel analysis. BMC Cancer, 2012, 12, 351.	1.1	41
54	Volume of surgical activity and lymph node evaluation for patients with colorectal cancer in France. Digestive and Liver Disease, 2012, 44, 261-267.	0.4	16

#	Article	IF	Citations
55	Influence of socioeconomic environment on survival in patients diagnosed with esophageal cancer: a population-based study. Ecological Management and Restoration, 2012, 25, 723-730.	0.2	20
56	Socio-geographical determinants of colonoscopy uptake after faecal occult blood test. Digestive and Liver Disease, 2011, 43, 714-720.	0.4	19
57	Iâ€”Lâ€™Ã©pidÃ©miologie des inÃ©galitÃ©s sociales en cancÃ©rologie. Psycho-oncologie, 2010, 4, 276-278.	0.0	1
58	Socioeconomic and healthcare supply statistical determinants of compliance to mammography screening programs: A multilevel analysis in Calvados, France. Cancer Epidemiology, 2010, 34, 309-315.	0.8	45
59	Eliciting Population Preferences for Mass Colorectal Cancer Screening Organization. Medical Decision Making, 2010, 30, 224-233.	1.2	38
60	Socioeconomic determinants for compliance to colorectal cancer screening. A multilevel analysis. Journal of Epidemiology and Community Health, 2010, 64, 318-324.	2.0	108
61	Access to care, socioeconomic deprivation and colon cancer survival. Alimentary Pharmacology and Therapeutics, 2008, 27, 940-949.	1.9	46
62	Social determinants of access to reference care centres for patients with colorectal cancer â€“ A multilevel analysis. European Journal of Cancer, 2006, 42, 3041-3048.	1.3	34
63	Socioeconomic and geographic determinants of survival of patients with digestive cancer in France. British Journal of Cancer, 2006, 95, 944-949.	2.9	44
64	Social and geographic disparities in access to reference care site for patients with colorectal cancer in France. British Journal of Cancer, 2005, 92, 1842-1845.	2.9	39
65	Social and geographical factors influencing the delay in treatment for colorectal cancer. British Journal of Cancer, 2004, 91, 1751-1752.	2.9	7
