**ΟΠΠΑΝΟ ΕΒΑΝΟΟ** 

#	Article	IF	CITATIONS
1	Serum bile acid concentrations as a liver function test in workers occupationally exposed to organic solvents. International Archives of Occupational and Environmental Health, 1986, 58, 157-164.	2.3	44
2	Bernardino Ramazzini: The Father of Occupational Medicine. American Journal of Public Health, 2001, 91, 1382-1382.	2.7	42
3	Texaco and its Consultants. International Journal of Occupational and Environmental Health, 2005, 11, 217-220.	1.2	38
4	Bernardino Ramazzini's early observations of the link between musculoskeletal disorders and ergonomic factors. Applied Ergonomics, 2004, 35, 67-70.	3.1	30
5	METHYLENE CHLORIDE EXPOSURE IN INDUSTRIAL WORKERS. AIHA Journal, 1993, 54, 27-31.	0.4	20
6	CHEMICALS AND HODGKIN'S DISEASE. Lancet, The, 1982, 320, 50.	13.7	19
7	Research Evaluation and Competition for Academic Positions in Occupational Medicine. Archives of Environmental and Occupational Health, 2013, 68, 123-127.	1.4	16
8	GLUCOSE TOLERANCE AND OCCUPATIONAL EXPOSURE TO CARBON DISULPHIDE. Lancet, The, 1978, 312, 1208.	13.7	15
9	Bernardino Ramazzini and women workers' health in the second half of the XVIIth century. Journal of Public Health, 2012, 34, 305-308.	1.8	15
10	Evidence-based decision making in occupational health. Occupational Medicine, 2005, 55, 1-2.	1.4	13
11	Altered glucose tolerance in carbon disulfiede exposed workers. Acta Diabetologica Latina, 1979, 16, 259-263.	0.2	12
12	Occupational physicians' education and training across European Union countries. International Archives of Occupational and Environmental Health, 1999, 72, 338-342.	2.3	11
13	Jobâ€related risk of latent tuberculosis infection in a homogeneous population of hospital workers in a low incidence area. American Journal of Industrial Medicine, 2009, 52, 297-303.	2.1	11
14	Room size is the major determinant for tuberculin conversion in health care workers exposed to a multidrug-resistant tuberculosis patient. International Archives of Occupational and Environmental Health, 2007, 80, 533-538.	2.3	10
15	Work-related Musculoskeletal Disorders. Epidemiology, 2010, 21, 577-579.	2.7	9
16	Health Disorders and Ergonomic Concerns From the Use of the Microscope: A Voice From the Past. American Journal of Clinical Pathology, 2011, 135, 170-171.	0.7	9
17	Assessment of coronary heart disease risk among viscose rayon workers exposed to carbon disulfide at concentrations of about 30 mg/m3 Scandinavian Journal of Work, Environment and Health, 1982, 8, 113-120.	3.4	9
18	A tribute to Bernardino Ramazzini (1633-1714) on the tercentenary of his death. Occupational Medicine, 2014, 64, 2-4.	1.4	8
