#	ARTICLE	IF	CITATIONS
1	Effects of dietary supplementation of emulsifier and carbohydrase on the growth performance, serum cholesterol and breast meat fatty acids profile of broiler chickens. <i>Animal Science Journal</i> , 2016, 87, 250-256.	0.6	48
2	Vanadate oxidative and apoptotic effects are mediated by the MAPK-Nrf2 pathway in layer oviduct magnum epithelial cells. <i>Metallomics</i> , 2017, 9, 1562-1575.	1.0	37
3	Green tea polyphenol epigallocatechin-3-gallate improves the antioxidant capacity of eggs. <i>Food and Function</i> , 2020, 11, 534-543.	2.1	29
4	The Effect of Oxidative Stress on the Chicken Ovary: Involvement of Microbiota and Melatonin Interventions. <i>Antioxidants</i> , 2021, 10, 1422.	2.2	28
5	Alteration of the Antioxidant Capacity and Gut Microbiota under High Levels of Molybdenum and Green Tea Polyphenols in Laying Hens. <i>Antioxidants</i> , 2019, 8, 503.	2.2	27
6	Differential analysis of gut microbiota and the effect of dietary <i>Enterococcus faecium</i> supplementation in broiler breeders with high or low laying performance. <i>Poultry Science</i> , 2021, 100, 1109-1119.	1.5	26
7	Quantitative proteomic analysis reveals the role of tea polyphenol EGCG in egg whites in response to vanadium stress. <i>Nutrition</i> , 2017, 39-40, 20-29.	1.1	15
8	Tea polyphenols increase the antioxidant status of laying hens fed diets with different levels of ageing corn. <i>Animal Nutrition</i> , 2021, 7, 650-660.	2.1	13
9	Effects of vitamin E supplementation on performance, serum biochemical parameters and fatty acid composition of egg yolk in laying hens fed a diet containing ageing corn. <i>Journal of Animal Physiology and Animal Nutrition</i> , 2019, 103, 135-145.	1.0	11
10	Glucose activates the primordial follicle through the AMPK/mTOR signaling pathway. <i>Clinical and Translational Medicine</i> , 2020, 10, e122.	1.7	11
11	Dietary resveratrol improved production performance, egg quality, and intestinal health of laying hens under oxidative stress. <i>Poultry Science</i> , 2022, 101, 101886.	1.5	10
12	Resveratrol Alleviating the Ovarian Function Under Oxidative Stress by Alternating Microbiota Related Tryptophan-Kynurenine Pathway. <i>Frontiers in Immunology</i> , 0, 13, .	2.2	10
13	Dietary phosphorus deficiency impaired growth, intestinal digestion and absorption function of meat ducks. <i>Asian-Australasian Journal of Animal Sciences</i> , 2019, 32, 1897-1906.	2.4	7
14	Involvement of P38 and ERK1/2 in mitochondrial pathways independent cell apoptosis in oviduct magnum epithelial cells of layers challenged with vanadium. <i>Environmental Toxicology</i> , 2018, 33, 1312-1320.	2.1	4
15	Vanadium in high-fat diets sourced from egg yolk decreases growth and antioxidative status of Wistar rats. <i>Animal Nutrition</i> , 2019, 5, 307-313.	2.1	4
16	Effects of Dietary Glucose Oxidase Supplementation on the Performance, Apparent Ileal Amino Acids Digestibility, and Ileal Microbiota of Broiler Chickens. <i>Animals</i> , 2021, 11, 2909.	1.0	4
17	Effects of dietary water-soaked barley on amino acid digestibility, growth performance, pork quality and <i>Longissimus dorsi</i> muscle fatty acid profiles in pigs. <i>Animal Science Journal</i> , 2014, 85, 942-950.	0.6	2
18	Limitation and Potential Effects of Different Levels of Aging Corn on Performance, Antioxidative Capacity, Intestinal Health, and Microbiota in Broiler Chickens. <i>Animals</i> , 2021, 11, 2832.	1.0	2

#	ARTICLE	IF	CITATIONS
19	Effects of Chronic Exposure to Diets Containing Moldy Corn or Moldy Wheat Bran on Growth Performance, Ovarian Follicular Pool, and Oxidative Status of Gilts. <i>Toxins</i> , 2022, 14, 413.	1.5	2
