#	ARTICLE	IF	CITATIONS
1	Preventing lower limb injuries: Is the latest evidence being translated into the football field?. <i>Journal of Science and Medicine in Sport</i> , 2009, 12, 452-456.	1.3	65
2	Kinematic differences between normal and low arched feet in children using the Heidelberg foot measurement method. <i>Gait and Posture</i> , 2010, 32, 1-5.	1.4	47
3	Implementing an exercise-training programme to prevent lower-limb injuries: considerations for the development of a randomised controlled trial intervention delivery plan. <i>British Journal of Sports Medicine</i> , 2011, 45, 791-796.	6.7	45
4	Preventing Australian football injuries with a targeted neuromuscular control exercise programme: comparative injury rates from a training intervention delivered in a clustered randomised controlled trial. <i>Injury Prevention</i> , 2016, 22, 123-128.	2.4	43
5	What do community football players think about different exercise-training programmes? Implications for the delivery of lower limb injury prevention programmes. <i>British Journal of Sports Medicine</i> , 2014, 48, 702-707.	6.7	35
6	Fielders and batters are injured too: A prospective cohort study of injuries in junior club cricket. <i>Journal of Science and Medicine in Sport</i> , 2010, 13, 489-495.	1.3	33
7	Coding OSICS sports injury diagnoses in epidemiological studies: does the background of the coder matter?. <i>British Journal of Sports Medicine</i> , 2014, 48, 552-556.	6.7	31
8	The effects of low arched feet on lower limb gait kinematics in children. <i>Foot</i> , 2012, 22, 60-65.	1.1	30
9	Ground hardness and injury in community level Australian football. <i>Journal of Science and Medicine in Sport</i> , 2012, 15, 305-310.	1.3	29
10	Priorities for Investment in Injury Prevention in Community Australian Football. <i>Clinical Journal of Sport Medicine</i> , 2013, 23, 430-438.	1.8	29
11	The reach and adoption of a coach-led exercise training programme in community football. <i>British Journal of Sports Medicine</i> , 2014, 48, 718-723.	6.7	23
12	Injury risk associated with ground hardness in junior cricket. <i>Journal of Science and Medicine in Sport</i> , 2012, 15, 110-115.	1.3	21
13	The relationship between ground conditions and injury: What level of evidence do we have?. <i>Journal of Science and Medicine in Sport</i> , 2013, 16, 105-112.	1.3	18
14	Concussion in community Australian football – epidemiological monitoring of the causes and immediate impact on play. <i>Injury Epidemiology</i> , 2015, 2, 20.	1.8	14
15	Level of agreement between field-based data collectors in a large scale injury prevention randomised controlled trial. <i>Journal of Science and Medicine in Sport</i> , 2011, 14, 121-125.	1.3	13
16	Understanding how the Components of a Synthetic Turf System Contribute to Increased Surface Temperature. <i>Procedia Engineering</i> , 2014, 72, 943-948.	1.2	11
17	Evaluating mild traumatic brain injury management at a regional emergency department. <i>Injury Prevention</i> , 2018, 24, 390-394.	2.4	8
18	Hospital-Treated Snow Sport Injury in Victoria, Australia: A Summary of 2003–2012. <i>Wilderness and Environmental Medicine</i> , 2018, 29, 194-202.	0.9	7

#	ARTICLE	IF	CITATIONS
19	Abrasion injuries on artificial turf: A systematic review. <i>Journal of Science and Medicine in Sport</i> , 2019, 22, 550-556.	1.3	6
20	Ground condition as a risk factor in sports injury aetiology studies: the level of concordance between objective and subjective measures. <i>Injury Epidemiology</i> , 2014, 1, 27.	1.8	5
21	One, two, three or four: Does the number of Clegg hammer drops alter ground hardness readings on natural grass?. <i>Proceedings of the Institution of Mechanical Engineers, Part P: Journal of Sports Engineering and Technology</i> , 2014, 228, 33-39.	0.7	4
22	Rotational Traction Testing: How Can We Improve the Current Test Device?. <i>Procedia Engineering</i> , 2014, 72, 919-924.	1.2	4
23	Sport and leisure activities in the heat: What safety resources exist?. <i>Journal of Science and Medicine in Sport</i> , 2021, 24, 781-786.	1.3	3
24	The effects of testing procedure on critical fall height determination for third-generation synthetic turf. <i>Sports Engineering</i> , 2011, 13, 145-151.	1.1	2
25	The effect of stud configuration on rotational traction using the studded boot apparatus. <i>Sports Engineering</i> , 2012, 16, 21.	1.1	2
26	Comparison of surface temperatures of different synthetic turf systems and natural grass: Have advances in synthetic turf technology made a difference. <i>Proceedings of the Institution of Mechanical Engineers, Part P: Journal of Sports Engineering and Technology</i> , 2015, 229, 10-16.	0.7	2
27	Cricket spin bowling remains in its biomechanical infancy. <i>Journal of Science and Medicine in Sport</i> , 2017, 20, 1040.	1.3	1
28	Are patients with concussion getting optimal discharge advice at a regional emergency department?. <i>Australian Journal of Rural Health</i> , 2018, 26, 134-135.	1.5	1
29	A Systematic Review of Head, Neck and-Facial Injuries in Cricket. <i>International Journal of Sports Medicine</i> , 2022, 43, .	1.7	1
30	Abrasion testing on synthetic turf: A modified device. <i>Proceedings of the Institution of Mechanical Engineers, Part P: Journal of Sports Engineering and Technology</i> , 2016, 230, 280-284.	0.7	0
