#	ARTICLE	IF	CITATIONS
1	Arts on prescription in Scandinavia: a review of current practice and future possibilities. <i>Perspectives in Public Health</i> , 2017, 137, 268-274.	0.8	65
2	The rate of joint replacement in osteoarthritis depends on the patient's socioeconomic status. <i>Monthly Notices of the Royal Astronomical Society: Letters</i> , 2016, 87, 245-251.	1.2	36
3	Early workplace dialogue in physiotherapy practice improved work ability at 1-year follow-up – WorkUp, a randomised controlled trial in primary care. <i>Pain</i> , 2018, 159, 1456-1464.	2.0	36
4	Sick leave in Sweden before and after total joint replacement in hip and knee osteoarthritis patients. <i>Monthly Notices of the Royal Astronomical Society: Letters</i> , 2017, 88, 152-157.	1.2	31
5	Work ability – experiences and perceptions among physicians. <i>Disability and Rehabilitation</i> , 2010, 32, 1780-1789.	0.9	23
6	Health and Work Environment among Female and Male Swedish Elementary School Teachers – A Cross-Sectional Study. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 227.	1.2	22
7	Comparison of the Swedish STarT Back Screening Tool and the Short Form of the Å-rebro Musculoskeletal Pain Screening Questionnaire in patients with acute or subacute back and neck pain. <i>BMC Musculoskeletal Disorders</i> , 2017, 18, 89.	0.8	17
8	Can the STarT Back Tool predict health-related quality of life and work ability after an acute/subacute episode with back or neck pain? A psychometric validation study in primary care. <i>BMJ Open</i> , 2018, 8, e021748.	0.8	14
9	Developing a practice guideline for the occupational health services by using a community of practice approach: a process evaluation of the development process. <i>BMC Public Health</i> , 2017, 17, 89.	1.2	12
10	Work-Focused Health Care: The Role of Physical Therapists. <i>Physical Therapy</i> , 2020, 100, 2231-2236.	1.1	11
11	Physical activity patterns, adherence to using a wearable activity tracker during a 12-week period and correlation between self-reported function and physical activity in working age individuals with hip and/or knee osteoarthritis. <i>BMC Musculoskeletal Disorders</i> , 2021, 22, 450.	0.8	11
12	Self-Perceived Life Satisfaction during the First Wave of the COVID-19 Pandemic in Sweden: A Cross-Sectional Study. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 6234.	1.2	10
13	Structured physiotherapy including a work place intervention for patients with neck and/or back pain in primary care: an economic evaluation. <i>European Journal of Health Economics</i> , 2019, 20, 317-327.	1.4	9
14	Promoting work ability with a wearable activity tracker in working age individuals with hip and/or knee osteoarthritis: a randomized controlled trial. <i>BMC Musculoskeletal Disorders</i> , 2022, 23, 112.	0.8	9
15	Implementation of the Swedish Guideline for Prevention of Mental ill-health at the Workplace: study protocol of a cluster randomized controlled trial, using multifaceted implementation strategies in schools. <i>BMC Public Health</i> , 2019, 19, 1668.	1.2	8
16	A systematic review of work interventions to promote safe patient handling and movement in the healthcare sector. <i>International Journal of Occupational Safety and Ergonomics</i> , 2022, 28, 2520-2532.	1.1	8
17	Evaluation of a multimodal pain rehabilitation programme in primary care based on clinical register data: a feasibility study. <i>Primary Health Care Research and Development</i> , 2020, 21, e2.	0.5	7
18	Referring to multimodal rehabilitation for patients with musculoskeletal disorders – a register study in primary health care. <i>BMC Health Services Research</i> , 2017, 17, 15.	0.9	6

#	ARTICLE	IF	CITATIONS
19	“Blue flags”, development of a short clinical questionnaire on work-related psychosocial risk factors - a validation study in primary care. <i>BMC Musculoskeletal Disorders</i> , 2017, 18, 318.	0.8	6
20	Long-term effects on function, health-related quality of life and work ability after structured physiotherapy including a workplace intervention. A secondary analysis of a randomised controlled trial (WorkUp) in primary care for patients with neck and/or back pain. <i>Scandinavian Journal of Primary Health Care</i> , 2020, 38, 92-100.	0.6	6
21	Physical activity and health-related quality of life in men and women with hip and/or knee osteoarthritis before and after a supported self-management programme “a” a prospective observational study. <i>Disability and Rehabilitation</i> , 2021, , 1-9.	0.9	5
22	Effectiveness of a multifaceted implementation strategy for improving adherence to the guideline for prevention of mental ill-health among school personnel in Sweden: a cluster randomized trial. <i>Implementation Science</i> , 2022, 17, 23.	2.5	5
23	Physiotherapists’ experiences of osteoarthritis guidelines in primary health care “an interview study. <i>BMC Family Practice</i> , 2021, 22, 259.	2.9	5
24	How do physiotherapists perceive their role in work ability assessments? A prospective focus group study. <i>Primary Health Care Research and Development</i> , 2014, 15, 268-276.	0.5	4
25	Exploring the Environment behind In-Patient Falls and Their Relation to Hospital Overcrowdedness”A Register-Based Observational Study. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 10742.	1.2	1
26	Utilization of healthcare and prescription medicines after non-pharmacological interventions for depression - A 3-year register follow-up of an RCT in primary care. <i>Preventive Medicine Reports</i> , 2022, 25, 101658.	0.8	1
27	Translation, adaptation, validity and reliability of the Dutch version of the “blue flags” questionnaire. <i>European Journal of Physiotherapy</i> , 0, , 1-10.	0.7	0
28	Associations Between Physical Activity, Self-reported Joint Function, and Molecular Biomarkers in Working Age Individuals With Hip and/or Knee Osteoarthritis. <i>Clinical Medicine Insights: Arthritis and Musculoskeletal Disorders</i> , 2022, 15, 117954412210810.	0.3	0
