| #  | ARTICLE                                                                                                                                                                                                    | IF  | CITATIONS |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1  | Consumer Willingness to Share Personal Digital Information for Health-Related Uses. JAMA Network Open, 2022, 5, e2144787.                                                                                  | 2.8 | 18        |
| 2  | Developing an Automatic System for Classifying Chatter About Health Services on Twitter: Case Study for Medicaid. Journal of Medical Internet Research, 2021, 23, e26616.                                  | 2.1 | 4         |
| 3  | Consumer Trust in Public and Private Organizations to Use Their Digital Data for COVID-19 Control. Journal of General Internal Medicine, 2021, 36, 2519-2521.                                              | 1.3 | 0         |
| 4  | Consumer Views on Using Digital Data for COVID-19 Control in the United States. JAMA Network Open, 2021, 4, e2110918.                                                                                      | 2.8 | 20        |
| 5  | Consumer Views on Health Applications of Consumer Digital Data and Health Privacy Among US Adults: Qualitative Interview Study. Journal of Medical Internet Research, 2021, 23, e29395.                    | 2.1 | 8         |
| 6  | Engaging Consumers in Medicaid Program Design: Strategies from the States. Milbank Quarterly, 2021, 99, 99-125.                                                                                            | 2.1 | 1         |
| 7  | Impact of a State Opioid Prescribing Limit and Electronic Medical Record Alert on Opioid Prescriptions: a Difference-in-Differences Analysis. Journal of General Internal Medicine, 2020, 35, 662-671.     | 1.3 | 30        |
| 8  | Changes in Infective Endocarditis Admissions in Pennsylvania During the Opioid Epidemic. Clinical Infectious Diseases, 2020, 71, 1664-1670.                                                                | 2.9 | 25        |
| 9  | Understanding Why Urban, Low-Income Patients Miss Primary Care Appointments. Journal of Ambulatory Care Management, 2020, 43, 30-40.                                                                       | 0.5 | 15        |
| 10 | Health Policy and Privacy Challenges Associated With Digital Technology. JAMA Network Open, 2020, 3, e208285.                                                                                              | 2.8 | 49        |
| 11 | Health Policy Perspective: Medicaid and State Politics Beyond COVID. Journal of General Internal Medicine, 2020, 35, 3040-3042.                                                                            | 1.3 | 1         |
| 12 | Prevalence of Third-Party Tracking on COVID-19-Related Web Pages. JAMA - Journal of the American Medical Association, 2020, 324, 1462.                                                                     | 3.8 | 11        |
| 13 | Evidence-Based Community Health Worker Program Addresses Unmet Social Needs And Generates Positive Return On Investment. Health Affairs, 2020, 39, 207-213.                                                | 2.5 | 114       |
| 14 | Characteristics of Twitter Use by State Medicaid Programs in the United States: Machine Learning Approach. Journal of Medical Internet Research, 2020, 22, e18401.                                         | 2.1 | 3         |
| 15 | Impact of an interprofessional transition of care service on 30-day hospital reutilizations. Journal of Interprofessional Care, 2019, 33, 32-37.                                                           | 0.8 | 12        |
| 16 | Rideshare-Based Medical Transportation for Medicaid Patients and Primary Care Show Rates: A Difference-in-Difference Analysis of a Pilot Program. Journal of General Internal Medicine, 2018, 33, 863-868. | 1.3 | 60        |
| 17 | Association of Rideshare-Based Transportation Services and Missed Primary Care Appointments. JAMA Internal Medicine, 2018, 178, 383.                                                                       | 2.6 | 102       |
| 18 | Insurance Type and Access to Health Care Providers and Appointments Under the Affordable Care Act. Medical Care, 2018, 56, 186-192.                                                                        | 1.1 | 41        |

| #  | ARTICLE                                                                                                                                                                                                         | IF   | CITATIONS |
|----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|-----------|
| 19 | Evaluating the association between the built environment and primary care access for new Medicaid enrollees in an urban environment using Walk and Transit Scores. Preventive Medicine Reports, 2018, 9, 24-28. | 0.8  | 13        |
| 20 | Which Patients Report That Their Urologists Advised Them to Forgo Initial Treatment for Prostate Cancer?. Urology, 2018, 115, 133-138.                                                                          | 0.5  | 2         |
| 21 | Why Effective Interventions Do Not Work for All Patients. Medical Care, 2018, 56, 719-726.                                                                                                                      | 1.1  | 18        |
| 22 | Effect of Community Health Worker Support on Clinical Outcomes of Low-Income Patients Across Primary Care Facilities. JAMA Internal Medicine, 2018, 178, 1635.                                                  | 2.6  | 159       |
| 23 | Concise Research Report: The Future of Medicaid: State Legislator Views on Policy Waivers. Journal of General Internal Medicine, 2018, 33, 999-1001.                                                            | 1.3  | 12        |
| 24 | Opioid Prescribing Limits for Acute Pain â€” Striking the Right Balance. New England Journal of Medicine, 2018, 379, 504-506.                                                                                   | 13.9 | 38        |
| 25 | Differences in Primary Care Appointment Availability and Wait Times by Neighborhood Characteristics: a Mystery Shopper Study. Journal of General Internal Medicine, 2018, 33, 1441-1443.                        | 1.3  | 3         |
| 26 | A View from the Front Line â€” Physiciansâ€™ Perspectives on ACA Repeal. New England Journal of Medicine, 2017, 376, e8.                                                                                        | 13.9 | 7         |
| 27 | When Primary Care Providers (PCPs) Help Patients Choose Prostate Cancer Treatment. Journal of the American Board of Family Medicine, 2017, 30, 298-307.                                                         | 0.8  | 9         |
| 28 | How Men with Prostate Cancer Choose Specialists: A Qualitative Study. Journal of the American Board of Family Medicine, 2017, 30, 220-229.                                                                      | 0.8  | 7         |
| 29 | Patient Inducements â€” High Graft or High Value?. New England Journal of Medicine, 2017, 376, 1107-1109.                                                                                                       | 13.9 | 4         |
| 30 | A randomized controlled trial of a community health worker intervention in a population of patients with multiple chronic diseases: Study design and protocol. Contemporary Clinical Trials, 2017, 53, 115-121. | 0.8  | 25        |
| 31 | Mutual Distrust: Perspectives From Researchers and Policy Makers on the Research to Policy Gap in 2013 and Recommendations for the Future. Inquiry (United States), 2017, 54, 004695801770546.                  | 0.5  | 34        |
| 32 | Effect of Outreach Messages on Medicaid Enrollment. American Journal of Public Health, 2017, 107, S71-S73.                                                                                                      | 1.5  | 3         |
| 33 | A multidimensional view of racial differences in access to prostate cancer care. Cancer, 2017, 123, 4449-4457.                                                                                                  | 2.0  | 12        |
| 34 | Racial Differences in Geographic Access to Medical Care as Measured by Patient Report and Geographic Information Systems. Medical Care, 2017, 55, 817-822.                                                      | 1.1  | 19        |
| 35 | Community Health Worker Support for Disadvantaged Patients With Multiple Chronic Diseases: A Randomized Clinical Trial. American Journal of Public Health, 2017, 107, 1660-1667.                                | 1.5  | 158       |
| 36 | Second opinions from urologists for prostate cancer: Who gets them, why, and their link to treatment. Cancer, 2017, 123, 1027-1034.                                                                             | 2.0  | 7         |

| #  | ARTICLE                                                                                                                                                                                                                         | IF  | CITATIONS |
|----|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 37 | Decision-making and goal-setting in chronic disease management: Baseline findings of a randomized controlled trial. <i>Patient Education and Counseling</i> , 2017, 100, 449-455.                                               | 1.0 | 20        |
| 38 | Examining predictors of utilization of an Interdisciplinary outpatient transitions of care service. <i>Journal of Pharmaceutical Health Services Research</i> , 2017, 8, 235-239.                                               | 0.3 | 0         |
| 39 | The Role of Community Health Centers in Reducing Racial Disparities in Spatial Access to Primary Care. <i>Journal of Primary Care and Community Health</i> , 2017, 8, 147-152.                                                  | 1.0 | 10        |
| 40 | Racial Differences in Prostate Cancer Treatment: The Role of Socioeconomic Status. <i>Ethnicity and Disease</i> , 2017, 27, 201.                                                                                                | 1.0 | 20        |
| 41 | Perspectives of Patients With Cancer on the Ethics of Rapid-Learning Health Systems. <i>Journal of Clinical Oncology</i> , 2017, 35, 2315-2323.                                                                                 | 0.8 | 34        |
| 42 | If You Book It, Will They Come? Attendance at Postdischarge Follow-Up Visits Scheduled by Inpatient Providers. <i>Journal of Hospital Medicine</i> , 2017, 12, 618-625.                                                         | 0.7 | 7         |
| 43 | A multidimensional view of racial differences in access to prostate cancer care.. <i>Journal of Clinical Oncology</i> , 2017, 35, e18048-e18048.                                                                                | 0.8 | 0         |
| 44 | Twitter accounts followed by Congressional health staff. <i>American Journal of Managed Care</i> , 2017, 23, e238-e244.                                                                                                         | 0.8 | 1         |
| 45 | Translating Research for Health Policy Decisions: Is It Time for Researchers to Join Social Media?. <i>Academic Medicine</i> , 2016, 91, 1341-1343.                                                                             | 0.8 | 18        |
| 46 | The Authors Reply II, "Patient financial responsibility for observation care" and "Observation versus inpatient hospitalization: What do Medicare beneficiaries pay?". <i>Journal of Hospital Medicine</i> , 2016, 11, 458-458. | 0.7 | 0         |
| 47 | Facing Financial Hardship. <i>Journal of Ambulatory Care Management</i> , 2016, 39, 42-52.                                                                                                                                      | 0.5 | 2         |
| 48 | Sticker Shock: The Experience of a Health Care Consumer. <i>Annals of Family Medicine</i> , 2016, 14, 270-272.                                                                                                                  | 0.9 | 3         |
| 49 | A "Consumer Revolution"™ In American Medicine. <i>Health Affairs</i> , 2016, 35, 746-747.                                                                                                                                       | 2.5 | 0         |
| 50 | Will Physicians Vote?. <i>Annals of Internal Medicine</i> , 2016, 165, 814.                                                                                                                                                     | 2.0 | 2         |
| 51 | Toward A Scalable, Patient-Centered Community Health Worker Model: Adapting the IMPaCT Intervention for Use in the Outpatient Setting. <i>Population Health Management</i> , 2016, 19, 380-388.                                 | 0.8 | 23        |
| 52 | Understanding the Leaky Pipeline: Perceived Barriers to Pursuing a Career in Medicine or Dentistry Among Underrepresented-in-Medicine Undergraduate Students. <i>Academic Medicine</i> , 2016, 91, 987-993.                     | 0.8 | 115       |
