

Saman Hassanzadeh Amin

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/561796/saman-hassanzadeh-amin-publications-by-year.pdf>

Version: 2024-04-23

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

42
papers

1,795
citations

#	Paper	IF	Citations
42	Time-series forecasting of seasonal items sales using machine learning [A comparative analysis. <i>International Journal of Information Management Data Insights</i> , 2022 , 2, 100058		5
41	Supplier selection and order allocation: a literature review. <i>Journal of Data Information and Management</i> , 2021 , 3, 125-139	2.7	2
40	Forecasting Sales and Return Products for Retail Corporations and Bridging Among Them. <i>Advances in Logistics, Operations, and Management Science Book Series</i> , 2021 , 250-281	0.3	
39	Demand Forecasting in Supply Chain Management Using Different Deep Learning Methods. <i>Advances in Logistics, Operations, and Management Science Book Series</i> , 2021 , 140-170	0.3	15
38	Mixed-integer linear programming models for the paint waste management problem. <i>Transportation Research, Part E: Logistics and Transportation Review</i> , 2021 , 151, 102343	9	5
37	Developing new data envelopment analysis models to evaluate the efficiency in Ontario Universities. <i>Journal of Informetrics</i> , 2021 , 15, 101172	3.1	1
36	A proposed method for third-party reverse logistics partner selection and order allocation in the cellphone industry. <i>Computers and Industrial Engineering</i> , 2021 , 162, 107719	6.4	10
35	Machine learning and optimization models for supplier selection and order allocation planning. <i>International Journal of Production Economics</i> , 2021 , 242, 108315	9.3	3
34	Demands and Sales Forecasting for Retailers by Analyzing Google Trends and Historical Data. <i>Advances in Logistics, Operations, and Management Science Book Series</i> , 2021 , 89-110	0.3	
33	A robust optimization model for designing a wastewater treatment network under uncertainty: Multi-objective approach. <i>Computers and Industrial Engineering</i> , 2020 , 146, 106611	6.4	8
32	Selection of Food Items for Diet Problem Using a Multi-objective Approach under Uncertainty 2020 ,		1
31	Dynamic capabilities and environmental sustainability for emerging economies[multinational enterprises. <i>International Studies of Management and Organization</i> , 2020 , 50, 27-42	1.2	8
30	A scenario-based robust possibilistic model for a multi-objective electronic reverse logistics network. <i>International Journal of Production Economics</i> , 2020 , 224, 107557	9.3	18
29	A review of closed-loop supply chain models. <i>Journal of Data Information and Management</i> , 2020 , 2, 279-307	3.07	6
28	Prediction of probable backorder scenarios in the supply chain using Distributed Random Forest and Gradient Boosting Machine learning techniques. <i>Journal of Big Data</i> , 2020 , 7,	11.7	18
27	Designing a green meat supply chain network: A multi-objective approach. <i>International Journal of Production Economics</i> , 2020 , 219, 312-327	9.3	29
26	A Lagrangean decomposition approach for a novel two-echelon node-based location-routing problem in an offshore oil and gas supply chain. <i>Transportation Research, Part E: Logistics and Transportation Review</i> , 2019 , 128, 96-114	9	16

25	An integrated chance-constrained stochastic model for a mobile phone closed-loop supply chain network with supplier selection. <i>Journal of Cleaner Production</i> , 2019 , 226, 988-1003	10.3	39
24	An environmental optimization model to configure a hybrid forward and reverse supply chain network under uncertainty. <i>Computers and Chemical Engineering</i> , 2019 , 121, 540-555	4	19
23	Network configuration of a bottled water closed-loop supply chain with green supplier selection. <i>Journal of Remanufacturing</i> , 2019 , 9, 109-127	2.6	16
22	Designing and optimizing a sustainable supply chain network for a blood platelet bank under uncertainty. <i>Engineering Applications of Artificial Intelligence</i> , 2018 , 71, 236-250	7.2	66
21	A possibilistic solution to configure a battery closed-loop supply chain: Multi-objective approach. <i>Expert Systems With Applications</i> , 2018 , 92, 12-26	7.8	61
20	A multi-objective mathematical model integrating environmental concerns for supplier selection and order allocation based on fuzzy QFD in beverages industry. <i>Expert Systems With Applications</i> , 2018 , 92, 27-38	7.8	99
19	A multi-objective model to configure an electronic reverse logistics network and third party selection. <i>Journal of Cleaner Production</i> , 2018 , 198, 662-682	10.3	33
18	A surcharge pricing scheme for coordinating the supply chain of deteriorating products under the JIT environment. <i>International Journal of Business Performance and Supply Chain Modelling</i> , 2018 , 10, 146	0.6	
17	Multi-objective integrated planning and scheduling model for operating rooms under uncertainty. <i>Proceedings of the Institution of Mechanical Engineers, Part H: Journal of Engineering in Medicine</i> , 2018 , 232, 930-948	1.7	7
16	A perspective on the reverse logistics of plastic pallets in Canada. <i>Journal of Remanufacturing</i> , 2018 , 8, 153-174	2.6	17
15	Analysis of Transportation Modes by Evaluating SWOT Factors and Pairwise Comparisons: A Case Study 2018 ,		1
14	Effects of uncertainty on a tire closed-loop supply chain network. <i>Expert Systems With Applications</i> , 2017 , 73, 82-91	7.8	85
13	Characteristics of cellphones reverse logistics in Canada. <i>Journal of Remanufacturing</i> , 2017 , 7, 181-198	2.6	9
12	A facility location model for global closed-loop supply chain network design. <i>Applied Mathematical Modelling</i> , 2017 , 41, 316-330	4.5	71
11	An intuitionistic fuzzy goal programming approach for finding pareto-optimal solutions to multi-objective programming problems. <i>Expert Systems With Applications</i> , 2016 , 65, 181-193	7.8	51
10	Cooperative advertising in a supply chain with retail competition. <i>International Journal of Production Research</i> , 2015 , 53, 88-105	7.8	59
9	Closed-loop supply chain network configuration by a multi-objective mathematical model. <i>International Journal of Business Performance and Supply Chain Modelling</i> , 2014 , 6, 1	0.6	27
8	A three-stage model for closed-loop supply chain configuration under uncertainty. <i>International Journal of Production Research</i> , 2013 , 51, 1405-1425	7.8	78

7	A multi-objective facility location model for closed-loop supply chain network under uncertain demand and return. <i>Applied Mathematical Modelling</i> , 2013 , 37, 4165-4176	4.5	269
6	An integrated model for closed-loop supply chain configuration and supplier selection: Multi-objective approach. <i>Expert Systems With Applications</i> , 2012 , 39, 6782-6791	7.8	219
5	A proposed mathematical model for closed-loop network configuration based on product life cycle. <i>International Journal of Advanced Manufacturing Technology</i> , 2012 , 58, 791-801	3.2	64
4	Supplier selection and order allocation based on fuzzy SWOT analysis and fuzzy linear programming. <i>Expert Systems With Applications</i> , 2011 , 38, 334-342	7.8	182
3	Network design of a closed-loop supply chain with uncertain demand and return 2011 ,		2
2	Coordinating production and recycling decisions with stochastic demand and return. <i>Journal of Systems Science and Systems Engineering</i> , 2010 , 19, 385-407	1.2	45
1	An integrated fuzzy model for supplier management: A case study of ISP selection and evaluation. <i>Expert Systems With Applications</i> , 2009 , 36, 8639-8648	7.8	130
