#	ARTICLE	IF	CITATIONS
1	A Worksite Self-management Program for Workers with Chronic Health Conditions Improves Worker Engagement and Retention, but not Workplace Function. <i>Journal of Occupational Rehabilitation</i> , 2022, 32, 77-86.	1.2	6
2	Expectations for Return to Work Predict Return to Work in Workers with Low Back Pain: An Individual Participant Data (IPD) Meta-Analysis. <i>Journal of Occupational Rehabilitation</i> , 2022, 32, 575-590.	1.2	8
3	Disclosure, Privacy and Workplace Accommodation of Episodic Disabilities: Organizational Perspectives on Disability Communication-Support Processes to Sustain Employment. <i>Journal of Occupational Rehabilitation</i> , 2021, 31, 153-165.	1.2	42
4	Exploring pain phenotypes in workers with chronic low back pain: Application of IMMPACT recommendations. <i>Canadian Journal of Pain</i> , 2021, 5, 43-55.	0.6	6
5	Perceptions of clinical support for employed breast cancer survivors managing work and health challenges. <i>Journal of Cancer Survivorship</i> , 2021, 15, 890-905.	1.5	8
6	System-level efforts to address pain-related workplace challenges. <i>Pain</i> , 2021, Publish Ahead of Print, .	2.0	2
7	Validity of the Work Assessment Triage Tool for Selecting Rehabilitation Interventions for Workersâ€™ Compensation Claimants with Musculoskeletal Conditions. <i>Journal of Occupational Rehabilitation</i> , 2020, 30, 318-330.	1.2	9
8	Work Environment Factors and Prevention of Opioid-Related Deaths. <i>American Journal of Public Health</i> , 2020, 110, 1235-1241.	1.5	37
9	Opening the Workplace After COVID-19: What Lessons Can be Learned from Return-to-Work Research?. <i>Journal of Occupational Rehabilitation</i> , 2020, 30, 299-302.	1.2	74
10	Pain psychology in the 21st century: lessons learned and moving forward. <i>Scandinavian Journal of Pain</i> , 2020, 20, 229-238.	0.5	12
11	Pain Recovery Inventory of Concerns and Expectations (PRICE) Questionnaire. , 2020, , 1613-1615.		0
12	Pain Self-Management at Work. , 2020, , 1615-1616.		0
13	The association between having a coordinator and return to work: the rapid-return-to-work cohort study. <i>BMJ Open</i> , 2019, 9, e024597.	0.8	12
14	Horizontal return to work coordination was more common in RTW programs than the recommended vertical coordination. The Rapid-RTW cohort study. <i>BMC Health Services Research</i> , 2019, 19, 759.	0.9	9
15	A systematic review of the safety climate intervention literature: Past trends and future directions.. <i>Journal of Occupational Health Psychology</i> , 2019, 24, 66-91.	2.3	48
16	Early Return to Work Has Benefits for Relief of Back Pain and Functional Recovery After Controlling for Multiple Confounds. <i>Journal of Occupational and Environmental Medicine</i> , 2018, 60, 901-910.	0.9	18
17	Why wait to address high-risk cases of acute low back pain? A comparison of stepped, stratified, and matched care. <i>Pain</i> , 2018, 159, 2437-2441.	2.0	58
18	Supervisorsâ€™ perceptions of organizational policies are associated with their likelihood to accommodate back-injured workers. <i>Disability and Rehabilitation</i> , 2017, 39, 346-353.	0.9	8

#	ARTICLE	IF	CITATIONS
19	Supervisor and Organizational Factors Associated with Supervisor Support of Job Accommodations for Low Back Injured Workers. <i>Journal of Occupational Rehabilitation</i> , 2017, 27, 115-127.	1.2	22
20	The role of pain catastrophizing as a mediator in the work disability process following acute low back pain. <i>Journal of Applied Biobehavioral Research</i> , 2017, 22, e12085.	2.0	29
21	Researching Complex and Multi-Level Workplace Factors Affecting Disability and Prolonged Sickness Absence. <i>Journal of Occupational Rehabilitation</i> , 2016, 26, 399-416.	1.2	50
22	A Model of Supervisor Decision-Making in the Accommodation of Workers with Low Back Pain. <i>Journal of Occupational Rehabilitation</i> , 2016, 26, 366-381.	1.2	18
23	Employer Policies and Practices to Manage and Prevent Disability: Foreword to the Special Issue. <i>Journal of Occupational Rehabilitation</i> , 2016, 26, 394-398.	1.2	26
24	Employer Policies and Practices to Manage and Prevent Disability: Conclusion to the Special Issue. <i>Journal of Occupational Rehabilitation</i> , 2016, 26, 490-498.	1.2	20
25	Implementation Science and Employer Disability Practices: Embedding Implementation Factors in Research Designs. <i>Journal of Occupational Rehabilitation</i> , 2016, 26, 448-464.	1.2	13
26	Conceptual, Methodological, and Measurement Challenges in Addressing Return to Work in Workers with Musculoskeletal Disorders. <i>Handbooks in Health, Work, and Disability</i> , 2016, , 423-438.	0.0	2
27	Clinical Decision Support Tools for Selecting Interventions for Patients with Disabling Musculoskeletal Disorders: A Scoping Review. <i>Journal of Occupational Rehabilitation</i> , 2016, 26, 286-318.	1.2	30
28	Psychological Distress in Acute Low Back Pain: A Review of Measurement Scales and Levels of Distress Reported in the First 2 Months After Pain Onset. <i>Archives of Physical Medicine and Rehabilitation</i> , 2016, 97, 1573-1587.	0.5	16
29	Supervisors and Presenteeism: How do Supervisors Accommodate and Support Skilled Workers with Chronic Health Concerns?. <i>Employee Responsibilities and Rights Journal</i> , 2016, 28, 209-223.	0.6	9
30	Towards an Approach to Return to Work Interventions in Musculoskeletal Disorders. <i>Handbooks in Health, Work, and Disability</i> , 2016, , 439-457.	0.0	2
31	Early Workplace Communication and Problem Solving to Prevent Back Disability: Results of a Randomized Controlled Trial Among High-Risk Workers and Their Supervisors. <i>Journal of Occupational Rehabilitation</i> , 2016, 26, 150-159.	1.2	73
32	Factors Important for Work Participation Among Older Workers with Depression, Cardiovascular Disease, and Osteoarthritis: A Mixed Method Study. <i>Journal of Occupational Rehabilitation</i> , 2016, 26, 160-172.	1.2	25
33	Pain Self-Management at Work. , 2016, , 1-2.		0
34	Supervisor Autonomy and Considerate Leadership Style are Associated with Supervisorsâ€™ Likelihood to Accommodate Back Injured Workers. <i>Journal of Occupational Rehabilitation</i> , 2015, 25, 589-598.	1.2	15
35	Supervisor Competencies for Supporting Return to Work: A Mixed-Methods Study. <i>Journal of Occupational Rehabilitation</i> , 2015, 25, 3-17.	1.2	56
36	Returning to Work Following Low Back Pain: Towards a Model of Individual Psychosocial Factors. <i>Journal of Occupational Rehabilitation</i> , 2015, 25, 25-37.	1.2	61

#	ARTICLE	IF	CITATIONS
37	When the wind goes out of the sail – declining recovery expectations in the first weeks of back pain. <i>European Journal of Pain</i> , 2014, 18, 269-278.	1.4	24
38	Impact of Organizational Policies and Practices on Workplace Injuries in a Hospital Setting. <i>Journal of Occupational and Environmental Medicine</i> , 2014, 56, 802-808.	0.9	26
39	How to Engage Occupational Physicians in Recruitment of Research Participants: A Mixed-Methods Study of Challenges and Opportunities. <i>Journal of Occupational Rehabilitation</i> , 2014, 24, 68-78.	1.2	5
40	The Job Accommodation Scale (JAS): Psychometric Evaluation of a New Measure of Employer Support for Temporary Job Modifications. <i>Journal of Occupational Rehabilitation</i> , 2014, 24, 755-765.	1.2	21
41	Manage at work: a randomized, controlled trial of a self-management group intervention to overcome workplace challenges associated with chronic physical health conditions. <i>BMC Public Health</i> , 2014, 14, 515.	1.2	23
42	Introduction to the Special Section: Sustainability of Work with Chronic Health Conditions. <i>Journal of Occupational Rehabilitation</i> , 2013, 23, 157-161.	1.2	15
43	What Circumstances Prompt a Workplace Discussion in Medical Evaluations for Back Pain?. <i>Journal of Occupational Rehabilitation</i> , 2013, 23, 125-134.	1.2	6
44	Implementation of the Participatory Approach to increase supervisors' self-efficacy in supporting employees at risk for sick leave; design of a randomised controlled trial. <i>BMC Public Health</i> , 2013, 13, 750.	1.2	13
45	Effects of workplace, family and cultural influences on low back pain: What opportunities exist to address social factors in general consultations?. <i>Best Practice and Research in Clinical Rheumatology</i> , 2013, 27, 637-648.	1.4	39
46	Helping workers help themselves: empowering physiotherapy clients to manage musculoskeletal problems at work. <i>Physical Therapy Reviews</i> , 2013, 18, 373-378.	0.3	9
47	The Pain Recovery Inventory of Concerns and Expectations. <i>Journal of Occupational and Environmental Medicine</i> , 2013, 55, 885-894.	0.9	32
48	Workplace Issues. , 2013, , 163-182.		20
49	Adapting principles of chronic pain self-management to the workplace. <i>Disability and Rehabilitation</i> , 2012, 34, 694-703.	0.9	23
50	Dynamic training of the lumbar musculature to prevent recurrence of acute low back pain: a randomized controlled trial using a daily pain recall for 1 year. <i>Disability and Rehabilitation</i> , 2012, 34, 1648-1656.	0.9	4
51	The Effect of Body Mass Index on Recovery and Return to Work After Onset of Work-Related Low Back Pain. <i>Journal of Occupational and Environmental Medicine</i> , 2012, 54, 192-197.	0.9	4
52	Distressed, Immobilized, or Lacking Employer Support? A Sub-classification of Acute Work-Related Low Back Pain. <i>Journal of Occupational Rehabilitation</i> , 2012, 22, 541-552.	1.2	51
53	Further validation of the Patient-Practitioner Orientation Scale (PPOS) from recorded visits for back pain. <i>Patient Education and Counseling</i> , 2012, 89, 288-291.	1.0	42
54	Correlations between pain and function in a longitudinal low back pain cohort. <i>Disability and Rehabilitation</i> , 2011, 33, 945-952.	0.9	13

#	ARTICLE	IF	CITATIONS
55	Return-to-Work Self-Efficacy: Development and Validation of a Scale in Claimants with Musculoskeletal Disorders. <i>Journal of Occupational Rehabilitation</i> , 2011, 21, 244-258.	1.2	64
56	Twenty Years of Multidisciplinary Research and Practice: The Journal of Occupational Rehabilitation Then and Now. <i>Journal of Occupational Rehabilitation</i> , 2011, 21, 449-454.	1.2	6
57	Impact of Psychological Factors in the Experience of Pain. <i>Physical Therapy</i> , 2011, 91, 700-711.	1.1	538
58	The Effects of Patient-Provider Communication on 3-Month Recovery from Acute Low Back Pain. <i>Journal of the American Board of Family Medicine</i> , 2011, 24, 16-25.	0.8	28
59	Addressing Occupational Factors in the Management of Low Back Pain: Implications for Physical Therapist Practice. <i>Physical Therapy</i> , 2011, 91, 777-789.	1.1	69
60	3rd place, PREMUS best paper competition: development of the return-to-work self-efficacy (RTWSE-19) questionnaire – psychometric properties and predictive validity. <i>Scandinavian Journal of Work, Environment and Health</i> , 2011, 37, 109-119.	1.7	62
61	Development and Validation of Competencies for Return to Work Coordinators. <i>Journal of Occupational Rehabilitation</i> , 2010, 20, 41-48.	1.2	70
62	Validation of a Risk Factor-Based Intervention Strategy Model Using Data from the Readiness for Return to Work Cohort Study. <i>Journal of Occupational Rehabilitation</i> , 2010, 20, 394-405.	1.2	28
63	What is the prognosis of back pain?. <i>Best Practice and Research in Clinical Rheumatology</i> , 2010, 24, 167-179.	1.4	177
64	Psychiatric Disorders and Risk of Transition to Chronicity in Men with First Onset Low Back Pain. <i>Pain Medicine</i> , 2010, 11, 1391-1400.	0.9	71
65	Researcher perspectives on competencies of return-to-work coordinators. <i>Disability and Rehabilitation</i> , 2010, 32, 72-78.	0.9	53
66	Managing pain in the workplace: a focus group study of challenges, strategies and what matters most to workers with low back pain. <i>Disability and Rehabilitation</i> , 2010, 32, 2035-2045.	0.9	57
67	Early Patient Screening and Intervention to Address Individual-Level Occupational Factors ( – Blue Tj ETQq1 1 0.784314 rgBT /Over 1.2 142	1.2	142
68	Precision and Recall of Search Strategies for Identifying Studies on Return-To-Work in Medline. <i>Journal of Occupational Rehabilitation</i> , 2009, 19, 223-230.	1.2	35
69	The Back Disability Risk Questionnaire for Work-Related, Acute Back Pain: Prediction of Unresolved Problems at 3-Month Follow-Up. <i>Journal of Occupational and Environmental Medicine</i> , 2009, 51, 185-194.	0.9	37
70	Does the Presence of Psychosocial – Yellow Flags – Alter Patient-Provider Communication for Work-Related, Acute Low Back Pain?. <i>Journal of Occupational and Environmental Medicine</i> , 2009, 51, 1032-1040.	0.9	24
71	A Literature Review Describing the Role of Return-to-Work Coordinators in Trial Programs and Interventions Designed to Prevent Workplace Disability. <i>Journal of Occupational Rehabilitation</i> , 2008, 18, 2-15.	1.2	173
72	Return to Work – From Research to Practice. <i>Journal of Occupational and Environmental Medicine</i> , 2007, 49, 249-251.	0.9	10

#	ARTICLE	IF	CITATIONS
73	Patient Clusters in Acute, Work-Related Back Pain Based on Patterns of Disability Risk Factors. <i>Journal of Occupational and Environmental Medicine</i> , 2007, 49, 185-193.	0.9	34
74	Shared and Independent Associations of Psychosocial Factors on Work Status Among Men With Subacute Low Back Pain. <i>Clinical Journal of Pain</i> , 2007, 23, 409-416.	0.8	20
75	Data Equivalency of an Interactive Voice Response System for Home Assessment of Back Pain and Function. <i>Pain Research and Management</i> , 2007, 12, 23-30.	0.7	12
76	Initial Patient and Clinician Expectations of Return to Work After Acute Onset of Work-Related Low Back Pain. <i>Journal of Occupational and Environmental Medicine</i> , 2006, 48, 1173-1180.	0.9	56
77	Reducing Sickness Absence from Work due to Low Back Pain: How Well do Intervention Strategies Match Modifiable Risk Factors?. <i>Journal of Occupational Rehabilitation</i> , 2006, 16, 591-605.	1.2	103
78	Training to Optimize the Response of Supervisors to Work Injuries—Needs Assessment, Design, and Evaluation. <i>AAOHN Journal</i> , 2006, 54, 226-235.	0.5	20
79	A controlled case study of supervisor training to optimize response to injury in the food processing industry. <i>Work</i> , 2006, 26, 107-114.	0.6	61
80	Early Disability Risk Factors for Low Back Pain Assessed at Outpatient Occupational Health Clinics. <i>Spine</i> , 2005, 30, 572-580.	1.0	84
81	Perceptions of Provider Communication and Patient Satisfaction for Treatment of Acute Low Back Pain. <i>Journal of Occupational and Environmental Medicine</i> , 2005, 47, 1036-1043.	0.9	34
