

Riikka K Korja

List of Publications by Citations

Source: <https://exaly.com/author-pdf/5666003/riikka-k-korja-publications-by-citations.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
62	The effects of preterm birth on mother-infant interaction and attachment during the infant's first two years. <i>Acta Obstetrica Et Gynecologica Scandinavica</i> , 2012 , 91, 164-73	3.8	174
61	Maternal depression is associated with mother-infant interaction in preterm infants. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2008 , 97, 724-30	3.1	105
60	Cohort Profile: The FinnBrain Birth Cohort Study (FinnBrain). <i>International Journal of Epidemiology</i> , 2018 , 47, 15-16j	7.8	97
59	Parental psychological well-being and behavioral outcome of very low birth weight infants at 3 years. <i>Pediatrics</i> , 2012 , 129, e937-44	7.4	88
58	Maternal prenatal stress and infant emotional reactivity six months postpartum. <i>Journal of Affective Disorders</i> , 2016 , 199, 163-70	6.6	74
57	Associations between parental psychological well-being and socio-emotional development in 5-year-old preterm children. <i>Early Human Development</i> , 2014 , 90, 119-24	2.2	56
56	Attachment representations in mothers of preterm infants. <i>Research in Social and Administrative Pharmacy</i> , 2009 , 32, 305-11	2.9	56
55	Relations between maternal attachment representations and the quality of mother-infant interaction in preterm and full-term infants. <i>Research in Social and Administrative Pharmacy</i> , 2010 , 33, 330-6	2.9	55
54	The Relations Between Maternal Prenatal Anxiety or Stress and Child's Early Negative Reactivity or Self-Regulation: A Systematic Review. <i>Child Psychiatry and Human Development</i> , 2017 , 48, 851-869	3.3	51
53	Emotional Availability, Parental Self-Efficacy Beliefs, and Child Development in Caregiver-Child Relationships with Buprenorphine-Exposed 3-year-olds. <i>Parenting</i> , 2009 , 9, 244-259	1.3	51
52	Mother-infant interaction is influenced by the amount of holding in preterm infants. <i>Early Human Development</i> , 2008 , 84, 257-67	2.2	45
51	Parental psychological well-being and cognitive development of very low birth weight infants at 2 years. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2011 , 100, 1555-60	3.1	37
50	How is maternal recollection of the birth experience related to the behavioral and emotional outcome of preterm infants?. <i>Early Human Development</i> , 2008 , 84, 587-94	2.2	36
49	The courses of maternal and paternal depressive and anxiety symptoms during the prenatal period in the FinnBrain Birth Cohort study. <i>PLoS ONE</i> , 2018 , 13, e0207856	3.7	36
48	How maternal pre- and postnatal symptoms of depression and anxiety affect early mother-infant interaction?. <i>Journal of Affective Disorders</i> , 2019 , 257, 83-90	6.6	33
47	Preterm infant's early crying associated with child's behavioral problems and parents's stress. <i>Pediatrics</i> , 2014 , 133, e339-45	7.4	20
46	Mother's marital satisfaction associated with the quality of mother-father-child triadic interaction. <i>Scandinavian Journal of Psychology</i> , 2016 , 57, 305-12	2.2	20

45	Prenatal exposures and infant brain: Review of magnetic resonance imaging studies and a population description analysis. <i>Human Brain Mapping</i> , 2019 , 40, 1987-2000	5.9	20
44	Human milk cortisol concentration predicts experimentally induced infant fear reactivity: moderation by infant sex. <i>Developmental Science</i> , 2018 , 21, e12625	4.5	20
43	Early relations between language development and the quality of mother-child interaction in very-low-birth-weight children. <i>Early Human Development</i> , 2014 , 90, 219-25	2.2	17
42	Across continents and demographics, unpredictable maternal signals are associated with children's cognitive function. <i>EBioMedicine</i> , 2019 , 46, 256-263	8.8	16
41	Maternal pre- and postnatal anxiety symptoms and infant attention disengagement from emotional faces. <i>Journal of Affective Disorders</i> , 2019 , 243, 280-289	6.6	16
40	Parents' psychological well-being and parental self-efficacy in relation to the family's triadic interaction. <i>Infant Mental Health Journal</i> , 2015 , 36, 298-307	2.3	13
39	Prevalence and Risk Factors of Incidental Findings in Brain MRIs of Healthy Neonates-The FinnBrain Birth Cohort Study. <i>Frontiers in Neurology</i> , 2019 , 10, 1347	4.1	13
38	Health-related quality of life in very low birth weight children at nearly eight years of age. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2016 , 105, 53-9	3.1	11
37	An educational intervention for NICU staff decreased maternal postpartum depression. <i>Pediatric Research</i> , 2019 , 85, 982-986	3.2	11
36	MOTHERS' AND FATHERS' PRENATAL REPRESENTATIONS IN RELATION TO MARITAL DISTRESS AND DEPRESSIVE SYMPTOMS. <i>Infant Mental Health Journal</i> , 2016 , 37, 388-400	2.3	10
35	Relation of prematurity and brain injury to crying behavior in infancy. <i>Pediatrics</i> , 2006 , 118, e57-65	7.4	10
34	Infant Sex Moderates the Effects of Maternal Pre- and Postnatal Stress on Executive Functioning at 8 Months of Age. <i>Infancy</i> , 2018 , 23, 194-210	2.4	9
33	Prenatal Maternal Psychological Distress and Offspring Risk for Recurrent Respiratory Infections. <i>Journal of Pediatrics</i> , 2019 , 208, 229-235.e1	3.6	8
32	Insomnia symptoms increase during pregnancy, but no increase in sleepiness - Associations with symptoms of depression and anxiety. <i>Sleep Medicine</i> , 2020 , 72, 150-156	4.6	7
31	Infant and Child MRI: A Review of Scanning Procedures. <i>Frontiers in Neuroscience</i> , 2021 , 15, 666020	5.1	7
30	Infant fecal microbiota composition and attention to emotional faces. <i>Emotion</i> , 2020 ,	4.1	6
29	Newborn white matter microstructure moderates the association between maternal postpartum depressive symptoms and infant negative reactivity. <i>Social Cognitive and Affective Neuroscience</i> , 2020 , 15, 649-660	4	5
28	Changes in emotions and personal goals in primiparous pregnant women during group intervention for fear of childbirth. <i>Journal of Reproductive and Infant Psychology</i> , 2018 , 36, 363-380	2.9	5

27	Trajectories of maternal pre- and postnatal anxiety and depressive symptoms and infant fear: Moderation by infant sex. <i>Journal of Affective Disorders</i> , 2019 , 257, 589-597	6.6	4
26	Investigating the effects of perinatal status and gender on adults' responses to infant and adult facial emotion. <i>Emotion</i> , 2021 , 21, 337-349	4.1	4
25	Brain volumes in relation to loneliness and social competence in preadolescents born very preterm. <i>Brain and Behavior</i> , 2020 , 10, e01640	3.4	4
24	Newborn left amygdala volume associates with attention disengagement from fearful faces at eight months. <i>Developmental Cognitive Neuroscience</i> , 2020 , 45, 100839	5.5	3
23	Latent Structure of Executive Functioning/Learning Tasks in the CogState Computerized Battery. <i>SAGE Open</i> , 2020 , 10, 215824402094884	1.5	3
22	The association of maternal-fetal attachment with smoking and smoking cessation during pregnancy in The FinnBrain Birth Cohort Study. <i>BMC Pregnancy and Childbirth</i> , 2020 , 20, 741	3.2	3
21	Fathers' prenatal attachment representations and the quality of father-child interaction in infancy and toddlerhood. <i>Journal of Family Psychology</i> , 2021 , 35, 478-488	2.7	3
20	The impact of Theraplay [®] therapy on parent-child interaction and child psychiatric symptoms: a pilot study. <i>International Journal of Play</i> , 2020 , 9, 331-352	1.1	2
19	Maternal Anxiety Symptoms and Self-Regulation Capacity Are Associated With the Unpredictability of Maternal Sensory Signals in Caregiving Behavior. <i>Frontiers in Psychology</i> , 2020 , 11, 564158	3.4	2
18	Neonatal amygdala volumes and the development of self-regulation from early infancy to toddlerhood. <i>Neuropsychology</i> , 2021 , 35, 285-299	3.8	2
17	Individual differences in pupil dilation to others' emotional and neutral eyes with varying pupil sizes.. <i>Cognition and Emotion</i> , 2022 , 1-15	2.3	2
16	Visual Perceptual Skills in Very Preterm Children: Developmental Course and Associations With Neural Activation. <i>Pediatric Neurology</i> , 2020 , 109, 72-78	2.9	1
15	The role of TPH2 variant rs4570625 in shaping infant attention to social signals. <i>Research in Social and Administrative Pharmacy</i> , 2020 , 60, 101471	2.9	1
14	Feasibility of FreeSurfer processing for T1-weighted brain images of 5-year-olds: semiautomated protocol of FinnBrain Neuroimaging Lab		1
13	Maternal Alexithymic Traits Are Related to Lower Maternal Sensitivity and Higher Hostility in Maternal Caregiving Behavior-The FinnBrain Birth Cohort Study. <i>Frontiers in Psychology</i> , 2021 , 12, 704036	3.4	1
12	Social functioning questionnaires of adolescents born preterm show average profiles and attenuated sex differences. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2021 , 110, 1490-1497	3.1	1
11	Postpartum depression and mother-offspring conflict over maternal investment. <i>Evolution, Medicine and Public Health</i> , 2021 , 9, 11-23	3	1
10	Mothers' experiences of parenting and everyday life of children born at 23 weeks of gestation - a qualitative descriptive study. <i>BMC Pediatrics</i> , 2021 , 21, 48	2.6	1

9	Maternal prenatal mood problems and lower maternal emotional availability associated with lower quality of child's emotional availability and higher negative affect during still-face procedure. <i>Infancy</i> , 2021 , 26, 901-919	2.4	1
8	Behavioral Regulatory Problems Are Associated With a Lower Attentional Bias to Fearful Faces During Infancy. <i>Child Development</i> , 2021 , 92, 1539-1553	4.9	1
7	Feasibility of FreeSurfer Processing for T1-Weighted Brain Images of 5-Year-Olds: Semiautomated Protocol of FinnBrain Neuroimaging Lab.. <i>Frontiers in Neuroscience</i> , 2022 , 16, 874062	5.1	1
6	Maternal Psychological Distress and Executive Functions Are Associated During Early Parenthood - A FinnBrain Birth Cohort Study. <i>Frontiers in Psychology</i> , 2021 , 12, 719996	3.4	0
5	A systematic review of MRI studies of language development from birth to 2 years of age. <i>Developmental Neurobiology</i> , 2021 , 81, 63-75	3.2	0
4	Prenatal Glucocorticoid-Exposed Infants Do Not Show an Age-Typical Fear Bias at 8 Months of Age - Preliminary Findings From the FinnBrain Birth Cohort Study. <i>Frontiers in Psychology</i> , 2021 , 12, 655654	3.4	0
3	The Connection and Development of Unpredictability and Sensitivity in Maternal Care Across Early Childhood.. <i>Frontiers in Psychology</i> , 2022 , 13, 803047	3.4	0
2	The role of alexithymia and perceived stress in mental health responses to COVID-19: A conditional process model.. <i>Journal of Affective Disorders</i> , 2022 , 306, 9-18	6.6	0
1	Maternal Executive Functioning, Emotional Availability and Psychological Distress During Toddlerhood: A FinnBrain Birth Cohort Study. <i>Frontiers in Psychology</i> , 2021 , 12, 735734	3.4
