#	ARTICLE	IF	CITATIONS
1	Understanding the hidden epidemic of metabolic syndrome in people accessing community rehabilitation: a cross-sectional study of physical activity, dietary intake, and health literacy. <i>Disability and Rehabilitation</i> , 2023, 45, 1471-1479.	0.9	1
2	“Finding what works for me”™ a qualitative study of factors influencing community gym participation for young adults with cerebral palsy. <i>Disability and Rehabilitation</i> , 2023, 45, 1984-1991.	0.9	5
3	Modifiable child and caregiver factors that influence community participation among children with Down syndrome. <i>Disability and Rehabilitation</i> , 2022, 44, 600-607.	0.9	10
4	Effect of eccentric exercise on quality of life and function in people with chronic heart failure: a pilot randomised controlled trial. <i>Disability and Rehabilitation</i> , 2022, 44, 2705-2714.	0.9	6
5	Feasibility of scaling-up a community-based exercise program for young people with disability. <i>Disability and Rehabilitation</i> , 2022, 44, 1669-1681.	0.9	6
6	Differences in foot dimensions between children and adolescents with and without Down syndrome. <i>Disability and Rehabilitation</i> , 2022, 44, 3959-3966.	0.9	5
7	In the Dark About Physical Activity “ Exploring Patient Perceptions of Physical Activity After Elective Total Knee Joint Replacement: A Qualitative Study. <i>Arthritis Care and Research</i> , 2022, 74, 965-974.	1.5	6
8	Demystifying Qualitative Research for Musculoskeletal Practitioners Part 4: A Qualitative Researcher’s Toolkit “ Sampling, Data Collection Methods, and Data Analysis. <i>Journal of Orthopaedic and Sports Physical Therapy</i> , 2022, 52, 8-10.	1.7	6
9	Demystifying Qualitative Research for Musculoskeletal Practitioners Part 3: Phenomeno “ what? Understanding What the Qualitative Researchers Have Done. <i>Journal of Orthopaedic and Sports Physical Therapy</i> , 2022, 52, 3-7.	1.7	6
10	Functional status of community-dwelling older adults after inpatient rehabilitation. <i>International Journal of Therapy and Rehabilitation</i> , 2022, 29, 1-12.	0.1	0
11	Demystifying Qualitative Research for Musculoskeletal Practitioners Part 5: Rigor in Qualitative Research. <i>Journal of Orthopaedic and Sports Physical Therapy</i> , 2022, 52, 60-62.	1.7	6
12	Gym staff perspectives on disability inclusion: a qualitative study. <i>Disability and Rehabilitation</i> , 2022, , 1-8.	0.9	5
13	Do supports and barriers to routine clinical assessment for children with cerebral palsy change over time? A mixed methods study. <i>Disability and Rehabilitation</i> , 2022, , 1-11.	0.9	0
14	Efficacy of Group Exercise “ Based Cancer Rehabilitation Delivered via Telehealth (TeleCaRe): Protocol for a Randomized Controlled Trial. <i>JMIR Research Protocols</i> , 2022, 11, e38553.	0.5	2
15	Modifiable factors and their association with self-reported knee function and activity after anterior cruciate ligament reconstruction: a systematic review and meta-analysis. <i>Physiotherapy Theory and Practice</i> , 2021, 37, 881-894.	0.6	2
16	Efficacy of custom-fitted footwear to increase physical activity in children and adolescents with Down syndrome (ShoeFIT): randomised pilot study. <i>Disability and Rehabilitation</i> , 2021, 43, 2131-2140.	0.9	3
17	Efficacy of a knowledge translation approach in changing allied health practitioner use of evidence-based practices with children with cerebral palsy: a before and after longitudinal study. <i>Disability and Rehabilitation</i> , 2021, 43, 3592-3605.	0.9	6
18	Changing Student Health Professionals “ Attitudes toward Disability: A Longitudinal Study. <i>Physiotherapy Canada Physiotherapie Canada</i> , 2021, 73, 180-187.	0.3	1

#	ARTICLE	IF	CITATIONS
19	An exploratory content analysis of how physiotherapists perceive barriers and facilitators to participation in physical activity among adults with disability. <i>Physiotherapy Theory and Practice</i> , 2021, 37, 149-157.	0.6	5
20	Association between physical activity and short-term physical function changes after hip fracture: An observational study. <i>Physiotherapy Research International</i> , 2021, 26, e1876.	0.7	3
21	Longitudinal changes in physical activity levels and fear of falling after hip fracture. <i>Physiotherapy Research International</i> , 2021, 26, e1884.	0.7	6
22	Steering towards collaborative assessment: a qualitative study of parents' experiences of evidence-based assessment practices for their child with cerebral palsy. <i>Disability and Rehabilitation</i> , 2021, 43, 458-467.	0.9	9
23	Barriers and facilitators of physical activity participation for young people and adults with childhood-onset physical disability: a mixed methods systematic review. <i>Developmental Medicine and Child Neurology</i> , 2021, 63, 914-924.	1.1	33
24	Promoting Participation in Physical Activity in Children and Adolescents With Down Syndrome. <i>Physical Therapy</i> , 2021, 101, .	1.1	5
25	Media portrayal of spinal cord injury and its impact on lived experiences: a phenomenological study. <i>Spinal Cord</i> , 2021, 59, 504-511.	0.9	1
26	Thinking with complexity in evaluation: A case study review. <i>Evaluation Journal of Australasia</i> , 2021, 21, 146-162.	0.4	2
27	Many physiotherapists lack preparedness to prescribe physical activity and exercise to people with musculoskeletal pain: A multi-national survey. <i>Physical Therapy in Sport</i> , 2021, 49, 98-105.	0.8	28
28	Feasibility of a school-based physical activity intervention for adolescents with disability. <i>Pilot and Feasibility Studies</i> , 2021, 7, 120.	0.5	6
29	Motivational interviewing with community-dwelling older adults after hip fracture (MIHip): protocol for a randomised controlled trial. <i>BMJ Open</i> , 2021, 11, e047970.	0.8	5
30	Clinicians' perspectives of implementing exercise-based rehabilitation in a cancer unit: a qualitative study. <i>Supportive Care in Cancer</i> , 2021, 29, 8019-8026.	1.0	4
31	Comparing process evaluations of motivational interviewing interventions for managing health conditions and health promotions: A scoping review. <i>Patient Education and Counseling</i> , 2021, .	1.0	7
32	Physiotherapy management of Down syndrome. <i>Journal of Physiotherapy</i> , 2021, 67, 243-251.	0.7	7
33	How Do People Communicate About Knee Osteoarthritis? A Discourse Analysis. <i>Pain Medicine</i> , 2021, 22, 1127-1148.	0.9	22
34	Multidisciplinary, exercise-based oncology rehabilitation programs improve patient outcomes but their effects on healthcare service-level outcomes remain uncertain: a systematic review. <i>Journal of Physiotherapy</i> , 2021, 67, 12-26.	0.7	16
35	Rehabilitation outcomes after proximal humeral fracture: An observational study. <i>Physiotherapy Practice and Research</i> , 2021, 41, 121-131.	0.1	0
36	Comparisons of leisure-time physical activity participation by adults with and without a disability: results of an Australian cross-sectional national survey. <i>BMJ Open Sport and Exercise Medicine</i> , 2021, 7, e000991.	1.4	15

#	ARTICLE	IF	CITATIONS
37	Demystifying Qualitative Research for Musculoskeletal Practitioners Part 1: What Is Qualitative Research and How Can It Help Practitioners Deliver Best-Practice Musculoskeletal Care?. <i>Journal of Orthopaedic and Sports Physical Therapy</i> , 2021, 51, 531-532.	1.7	1
38	Process evaluation of motivational interviewing interventions for behaviour change in health: A scoping review. <i>Journal of Science and Medicine in Sport</i> , 2021, 24, S59.	0.6	0
39	Demystifying Qualitative Research for Musculoskeletal Practitioners Part 2: Understanding the Foundations of Qualitative Research. <i>Journal of Orthopaedic and Sports Physical Therapy</i> , 2021, 51, 559-561.	1.7	3
40	Effectiveness of behavioural interventions on physical activity levels after hip or knee joint replacement: a systematic review. <i>Disability and Rehabilitation</i> , 2020, 42, 3573-3580.	0.9	6
41	Is strength training feasible for young people with Prader-Willi syndrome? A phase I randomised controlled trial. <i>Physiotherapy</i> , 2020, 106, 136-144.	0.2	9
42	Mapping the Functional Independence Measure to a multi-attribute utility instrument for economic evaluations in rehabilitation: a secondary analysis of randomized controlled trial data. <i>Disability and Rehabilitation</i> , 2020, 42, 3024-3032.	0.9	6
43	Physiotherapists perceived developing positive rapport facilitates participation in exercise among people with Prader-Willi Syndrome: a qualitative study. <i>Disability and Rehabilitation</i> , 2020, 42, 3475-3480.	0.9	3
44	Community-based case management does not reduce hospital admissions for older people: a systematic review and meta-analysis. <i>Australian Health Review</i> , 2020, 44, 83.	0.5	6
45	A consumer co-created infographic improves short-term knowledge about physical activity and self-efficacy to exercise in women with gestational diabetes mellitus: a randomised trial. <i>Journal of Physiotherapy</i> , 2020, 66, 243-248.	0.7	10
46	From Cancer Rehabilitation to Recreation: A Coordinated Approach to Increasing Physical Activity. <i>Physical Therapy</i> , 2020, 100, 2049-2059.	1.1	13
47	Establishing measurement properties in the assessment of inter-recti distance of the abdominal muscles in a postnatal women. <i>Musculoskeletal Science and Practice</i> , 2020, 49, 102202.	0.6	12
48	FitSkills: protocol for a stepped wedge cluster randomised trial of a community-based exercise programme to increase participation among young people with disability. <i>BMJ Open</i> , 2020, 10, e037153.	0.8	11
49	The experience of living with knee osteoarthritis: a systematic review of qualitative studies. <i>Osteoarthritis and Cartilage</i> , 2020, 28, S365-S366.	0.6	0
50	Reproducibility of foot dimensions measured from 3-dimensional foot scans in children and adolescents with Down syndrome. <i>Journal of Foot and Ankle Research</i> , 2020, 13, 31.	0.7	7
51	Saturday allied health services for geriatric evaluation and management: A controlled before-and-after trial. <i>Australasian Journal on Ageing</i> , 2020, 39, 64-72.	0.4	2
52	How Effective Are Interventions to Increase Physical Activity Levels among Older Inpatients Receiving Rehabilitation, without Increasing the Amount of Therapy? A Systematic Review. <i>Physiotherapy Canada</i> , 2020, 72, 83-93.	0.3	1
53	Physical activity for children undergoing acute cancer treatment: A qualitative study of parental perspectives. <i>Pediatric Blood and Cancer</i> , 2020, 67, e28264.	0.8	12
54	Acute Hospital Admission for Stroke Is Characterised by Inactivity. <i>Stroke Research and Treatment</i> , 2020, 2020, 1-8.	0.5	4

#	ARTICLE	IF	CITATIONS
55	“A good stepping stone to normality”: a qualitative study of cancer survivors’ experiences of an exercise-based rehabilitation program. <i>Supportive Care in Cancer</i> , 2019, 27, 1729-1736.	1.0	28
56	Requirements for improving health and well-being of children with Prader-Willi syndrome and their families. <i>Journal of Paediatrics and Child Health</i> , 2019, 55, 1029-1037.	0.4	11
57	Family-assisted therapy empowered families of older people transitioning from hospital to the community: a qualitative study. <i>Journal of Physiotherapy</i> , 2019, 65, 166-171.	0.7	8
58	Training family to assist with physiotherapy for older people transitioning from hospital to the community: a pilot randomized controlled trial. <i>Clinical Rehabilitation</i> , 2019, 33, 1625-1635.	1.0	12
59	Commentary on “The acquisition of exercises in adolescents with severe intellectual disabilities” (Page) Tj ETQq1 1 0.784314 rgB 71-75.	0.5	0
60	Barriers to and facilitators of physical activity for children with cerebral palsy in special education. <i>Developmental Medicine and Child Neurology</i> , 2019, 61, 1408-1415.	1.1	16
61	Experience of living with knee osteoarthritis: a systematic review of qualitative studies. <i>BMJ Open</i> , 2019, 9, e030060.	0.8	75
62	Relationship between diastasis of the rectus abdominis muscle (DRAM) and musculoskeletal dysfunctions, pain and quality of life: a systematic review. <i>Physiotherapy</i> , 2019, 105, 24-34.	0.2	81
63	Women with gestational diabetes mellitus want clear and practical messages from credible sources about physical activity during pregnancy: a qualitative study. <i>Journal of Physiotherapy</i> , 2019, 65, 37-42.	0.7	28
64	Effectiveness of interventions to increase physical activity in individuals with intellectual disabilities: a systematic review of randomised controlled trials. <i>Journal of Intellectual Disability Research</i> , 2019, 63, 168-191.	1.2	46
65	Short duration clinically-based interprofessional shadowing and patient review activities may have a role in preparing health professional students to practice collaboratively: a systematic literature review. <i>Journal of Interprofessional Care</i> , 2019, 33, 446-455.	0.8	17
66	Do Active Video Games Improve Motor Function in People With Developmental Disabilities? A Meta-analysis of Randomized Controlled Trials. <i>Archives of Physical Medicine and Rehabilitation</i> , 2019, 100, 769-781.	0.5	19
67	Physical activity levels after hip and knee joint replacement surgery: an observational study. <i>Clinical Rheumatology</i> , 2019, 38, 665-674.	1.0	5
68	Expiratory muscle strength training improves swallowing and respiratory outcomes in people with dysphagia: A systematic review. <i>International Journal of Speech-Language Pathology</i> , 2019, 21, 89-100.	0.6	28
69	Understanding allied health practitioners’ use of evidence-based assessments for children with cerebral palsy: a mixed methods study. <i>Disability and Rehabilitation</i> , 2019, 41, 53-65.	0.9	11
70	Media portrayal of elite athletes with disability “ a systematic review. <i>Disability and Rehabilitation</i> , 2019, 41, 374-381.	0.9	41
71	A community-based exercise program to increase participation in physical activities among youth with disability: a feasibility study. <i>Disability and Rehabilitation</i> , 2019, 41, 1152-1159.	0.9	30
72	Reliability of one-repetition maximum performance in people with chronic heart failure. <i>Disability and Rehabilitation</i> , 2019, 41, 1706-1710.	0.9	6

73	Additional Physical Therapy Services Reduce Length of Stay and Improve Health Outcomes in People With Acute and Subacute Conditions: An Updated Systematic Review and Meta-Analysis. Archives of Physical Medicine and Rehabilitation, 2018, 99, 2299-2312.	0.5	38
74	Parent-reported health-related quality of life of children with Down syndrome: a descriptive study. Developmental Medicine and Child Neurology, 2018, 60, 402-408.	1.1	21
75	A Group Lifestyle Intervention Program Is Associated with Reduced Emergency Department Presentations for People with Metabolic Syndrome: A Retrospective Case-Control Study. Metabolic Syndrome and Related Disorders, 2018, 16, 110-116.	0.5	6
76	Six months of strength training reduces progression of dorsiflexor muscle weakness in children with Charcot-Marie-Tooth disease [synopsis]. Journal of Physiotherapy, 2018, 64, 58.	0.7	0
77	Attitudes, barriers and enablers to physical activity in pregnant women: a systematic review. Journal of Physiotherapy, 2018, 64, 24-32.	0.7	140
78	Supports and barriers to implementation of routine clinical assessment for children with cerebral palsy: A mixed-methods study. Disability and Rehabilitation, 2018, 40, 425-434.	0.9	9
79	Validity and reliability of an activity monitor to quantify arm movements and activity in adults following distal radius fracture. Disability and Rehabilitation, 2018, 40, 1318-1325.	0.9	10
80	Somatosensory stimulation to improve hand and upper limb function after stroke—a systematic review with meta-analyses. Topics in Stroke Rehabilitation, 2018, 25, 150-160.	1.0	33
81	Do adults with Down syndrome do the same amount of physical activity as adults without disability? A proof of principle study. Journal of Applied Research in Intellectual Disabilities, 2018, 31, 459-465.	1.3	18
82	Does the addition of two exercise-focussed home visits to usual care improve outcomes for patients with balance impairments? A randomized controlled trial. Clinical Rehabilitation, 2018, 32, 377-387.	1.0	0
83	What effect does regular exercise have on oxidative stress in people with Down syndrome? A systematic review with meta-analyses. Journal of Science and Medicine in Sport, 2018, 21, 596-603.	0.6	9
84	Simulation Improves Podiatry Student Skills and Confidence in Conservative Sharp Debridement on Feet. Journal of the American Podiatric Medical Association, 2018, 108, 466-471.	0.2	3
85	Cancer Survivors Awaiting Rehabilitation Rarely Meet Recommended Physical Activity Levels: An Observational Study. Rehabilitation Oncology, 2018, 36, 214-222.	0.2	9
86	Motivational interviewing added to oncology rehabilitation did not improve moderate-intensity physical activity in cancer survivors: a randomised trial. Journal of Physiotherapy, 2018, 64, 255-263.	0.7	21
87	IMPACT: Investigating the impact of Models of Practice for Allied health Care in subacute settings. A protocol for a quasi-experimental mixed methods study of cost effectiveness and outcomes for patients exposed to different models of allied health care. BMJ Open, 2018, 8, e020361.	0.8	1
88	A major sporting event or an entertainment show? A content analysis of Australian television coverage of the 2016 Olympic and Paralympic Games. Sport in Society, 2018, 21, 1974-1989.	0.8	6
89	Assessment of physical function in children with cancer: A systematic review. Pediatric Blood and Cancer, 2018, 65, e27369.	0.8	12
90	Critically appraised paper: Preoperative physiotherapy education halved postoperative pulmonary complications in patients after upper abdominal surgery [synopsis]. Journal of Physiotherapy, 2018, 64, 194.	0.7	0

#	ARTICLE	IF	CITATIONS
91	Characteristics Influencing Diversity of Participation of Children in Activities Outside School. <i>American Journal of Occupational Therapy</i> , 2018, 72, 7204205010p1-7204205010p9.	0.1	2
92	An exploratory study of the association between physical activity, cardiovascular fitness and body size in children with Down syndrome. <i>Developmental Neurorehabilitation</i> , 2017, 20, 92-98.	0.5	14
93	Long-term home and community-based exercise programs improve function in community-dwelling older people with cognitive impairment: a systematic review. <i>Journal of Physiotherapy</i> , 2017, 63, 23-29.	0.7	42
94	An aerobic exercise program for young people with cerebral palsy in specialist schools: A phase I randomized controlled trial. <i>Developmental Neurorehabilitation</i> , 2017, 20, 331-338.	0.5	19
95	Accelerometer use in young people with Down syndrome: A preliminary cross-validation and reliability study. <i>Journal of Intellectual and Developmental Disability</i> , 2017, 42, 339-350.	1.1	2
96	A qualitative evaluation of an aerobic exercise program for young people with cerebral palsy in specialist schools. <i>Developmental Neurorehabilitation</i> , 2017, 20, 339-346.	0.5	10
97	Maximum Tolerated Dose of Walking for Community-Dwelling People Recovering From Hip Fracture: A Dose-Response Trial. <i>Archives of Physical Medicine and Rehabilitation</i> , 2017, 98, 2533-2539.	0.5	10
98	Minding the Body: An interdisciplinary theory of optimal posture for musicians. <i>Psychology of Music</i> , 2017, 45, 821-838.	0.9	6
99	Exercise therapy in oncology rehabilitation in Australia: A mixed methods study. <i>Asia-Pacific Journal of Clinical Oncology</i> , 2017, 13, e515-e527.	0.7	52
100	Prescribed exercise programs may not be effective in reducing impairments and improving activity during upper limb fracture rehabilitation: a systematic review. <i>Journal of Physiotherapy</i> , 2017, 63, 205-220.	0.7	43
101	Does Psychoeducation Added to Oncology Rehabilitation Improve Physical Activity and Other Health Outcomes? A Systematic Review. <i>Rehabilitation Oncology</i> , 2017, 35, 61-71.	0.2	3
102	Do foot posture, deformity, and footwear fit influence physical activity levels in children with Down syndrome? A prospective cohort study. <i>Journal of Intellectual and Developmental Disability</i> , 2017, 42, 332-338.	1.1	10
103	Putting the Athlete First: a Comprehensive Assessment of Elite Para Athlete Well-Being. <i>Journal of Well-Being Assessment</i> , 2017, 1, 35-47.	0.7	8
